RE: **Salt Lake City Impound Lot Operation fee increase (Budget Amendment #11)**

The Salt Lake City Council considered appropriation of funds to continue the operation of the impound lot during the November 19, 2002 Council work session. The Council will be holding a public hearing on the appropriation of funds (Budget Amendment #11) on December 10, 2002. The appropriation is dependent on increases to the operating fees at the Impound Lot.

The packets that the Council received contain information on the proposed Impound Lot Operation fee increases. Council staff has not prepared an analysis of the fee increases separate from the budget amendment analysis.
