RE: **Salt Lake City Multi-Family Recycling Ordinance revision (Budget Amendment #11)**

The Salt Lake City Council considered appropriation of funds to expand the recycling operation to include multi-family complexes during the November 19, 2002 Council work session. The Council will be holding a public hearing on the appropriation of funds (Budget Amendment #11) on December 10, 2002. The appropriation is dependent on revisions to the recycling ordinance.

The packets that the Council received contain information on the proposed multi-family recycling fees. Council staff has not prepared an analysis of the ordinance separate from the budget amendment analysis.
