
MEMORANDUM

DATE: May 27, 2003

TO: Council Members

FROM: Council Member Carlton Christensen

SUBJECT: District One Olympic Legacy Project

In response to the Council's decision to fund Olympic Legacy projects, I would appreciate the Council's support for the District One Olympic Legacy Project. The project includes the following features placed at eight locations along the Jordan River Trailway between North Temple and Redwood Road:

- A bench with an Olympic message cast into the leg
- A light pole with an Olympic message cast into the skirt
- A concrete pad in-set into the pathway with a Salt Lake City 2002 snow flake and venue stick figure for various event venues placed into in-set. A message would be included that would give information on the various events, their locations, medal winners, etc.

When the funding for District projects was initially proposed, a letter was sent out in August, 2002, inviting each of the four Community Council Chairs in District One to attend meetings to begin the process of identifying an appropriate project for the Council District One. Three meetings were held which included community representatives and staff from the City Parks Division. This proposal came forward from community members because of the commonality and accessibility of the Jordan River Trailway for all the District One neighborhoods.

The project meets the criteria set by the Council in the following ways:

1. **The project must provide a long-term improvement to the City or create a community asset.** This project will enhance the north section of the Jordan Parkway recently acquired by the City.
2. **The project must be limited to property that is owned by the City and be easily accessible to the community.** The features in this project will be placed along the City-owned Jordan River Trailway. One of the features will be placed near a trailhead where it can be seen and easily accessed by all members of the community.
3. **The project may include the enhancement an existing feature within the Council; it may include the development of a public place.** This proposal will provide the addition of attractive resting areas along the Trailway.
4. **The project proposal shall identify any potential maintenance cost and propose funding source(s) for such costs.** The plans for the project were developed in consultation with representatives from the Parks Division and the materials chosen for the project were selected to provide ease of maintenance by City staff.
5. **The Project Proposal shall provide an illustration of the end product.** (Attached)
6. **As an option, the Project may be combined with other grants, (including CBDG money), but the end product shall not be the repair of routine City infrastructure such as curb, gutter, or sidewalk.** N/A

Item VII

7. **The end product shall display a plaque indicating that Salt Lake Salt Lake City 2002 Winter Olympics Legacy moneys were used in whole or in part to fund the project.** The project will have a plaque which makes this designation.
8. **The project proposal shall recommend the appropriate department within the City to manage and appropriate the funds for each project.** The project will be administered through the Parks Division.
