---

Earlier this year, the Mayor signed a Declaration of Intent in conjunction with a statement by homeless service providers as part of a Common Ground Initiative. The intent of this initiative is to ensure that the homeless service providers and facilities will remain undisturbed in the Rio Grande neighborhood.

On August 12, 2003, the Council was briefed on the Common Ground Statement and a draft of a City Council Resolution in support of the Common Ground statement was presented. A sub-committee (Council Members Jergensen and Saxton), met to refine the language of the draft resolution. The Resolution was discussed by the Council on October 23, 2003; several changes were suggested.

The final draft of the City Council Common Ground Resolution is attached. Below are summaries of the elements in the Common Ground Initiative and also the proposed City Council Resolution.

### **Common Ground Initiative:**

#### **Statement of Homeless Service Providers:**

- a) Maintain the current co-location of human services in the Rio Grande area.
- b) A human service presence in the downtown area is vital to serve those in need in Salt Lake City.
- c) People should be able to receive food, shelter, clothing, child care, medical, dental and mental health assistance in one neighborhood without having to travel throughout the valley.
- d) Homeless service providers have a proven track record of being good neighbors to residents and businesses.
- e) The Rio Grande neighborhood has shown that upper, moderate and low income residents can live and work together.
- f) Intentional planning and development efforts should be designed and implemented to integrate new investment and activity into the community without forcing out the homeless and those who serve them.

#### **Declaration of Intent:**

- a) Salt Lake City is committed to support the comprehensive mix of social services in the Rio Grande Community.

- b) The City declares its intention to support the collaborative, professional social service community that exists in this area as new investments in business, housing and public infrastructure continue.
- c) It is the intention of this Administration to make decisions that strive to support and enhance the sustained diversity of this community.

**Draft City Council Resolution:**

- a) Recognizes the value of co-locating services.
  - b) Encourages the continuation of this approach.
  - c) Endorses the principles represented by the Common Ground statement.
  - d) Urges an integrated planning process that looks at the area as a whole and not in separate parts.
  - e) Encourages those engaged in discussions of the future of the area to do so in a fair, equitable and open-minded manner.
  - f) Encourages the development of permanent, affordable housing for low income and very low income people from the area to reduce the demand on existing services for the homeless.
-
