RE: Follow-up discussion regarding Legislative Action initiated by Council Member Dave Buhler to request an ordinance amendment to Section 15.08.020 of Salt Lake City Code for mini parks relating to park closure hours

On September 20, 2005, the City Council approved a Legislative Action initiated by Council Member Dave Buhler proposing a change to park hour closure times from 11 p.m. to 10 p.m. for mini parks (1/2 acre to 5 acres). Park hours would remain at 11:00 p.m. for all other parks. Attached is a list of all mini-parks within Salt Lake City (in order of Council district) that would be affected by the proposed ordinance.

Section 15.08.020A of Salt Lake City Code currently states: "All public parks of the city shall be closed to the public between the hours of eleven o'clock (11:00) p.m. at night and five o'clock (5:00) a.m. the following morning."

The Police Department supports the proposed change and does not perceive there will be any challenges with enforcement since the new park closure hours will be clearly posted on park signs (refer to attached letter). Also a copy of the draft ordinance was provided to all community councils for their input. Two community councils submitted comments: both in support of the proposed park hour change.

According to Public Services, costs associated with having to update signs in each mini-park with the new closure time of 10:00 p.m. involves placing a decal with the new "10:00 p.m." park closure time over the previous 11:00 p.m. closure time. Costs are minimal for the decals as follows: \$375 for material and \$100 for installation – approximate total cost of \$475.

Previous Background:

Mini parks are usually located in the midst of residential neighborhoods. Constituents who live near one such park have expressed concern that often times they experience disruptions to their peace and quiet due to activities and inappropriate behavior taking place in the park, commonly during late hours. Given the close proximity of numerous residential homes to mini

parks in the City (refer to attached aerial maps for each park), Council Member Buhler expressed it is his belief that it is appropriate to have an earlier closure time of 10:00 p.m. to help alleviate the late hour disturbances that community members may be experiencing. Practically speaking, this means that park neighbors who are being disturbed may call the police at 10:00 p.m. rather than waiting until 11:00 p.m.

Issues raised by the Department of Public Services include 1) clearly defining that the hours have changed for mini parks from other City designated parks (community, special use, or neighborhood parks) to avoid potential park hour closure confusion; 2) ensure the Police Department is fully aware of the proposed ordinance change to eliminate potential confusion relating to enforcement of park closure times; and 3) costs associated to replace park signs that list the 10 p.m. park closure time.

Mr. Buhler;

This letter is in response to your proposal to amend Section 15.08.020 of the Salt Lake City Code for mini parks relating hours of park closure. I am writing in support of your legislation to change the park hour closure times for mini-parks.

A change in this ordinance would benefit our communities by giving them quiet hours and reducing the disturbances caused to neighbors. This change could also give our officers the ability to prevent other crime, by stopping those gathered in the parks after hours.

The Police Officers could easily be informed of the ordinance change. This would occur by departmental memos and training. Our officers could be utilized in educating the public as well. This could happen by warnings being given during the first several months after the ordinance change. This would ensure that those who utilize the parks during the late hours would have the knowledge of the change in ordinance.

The Police Department should not face any challenges in having different closing times for parks. The posting of park hours will help alleviate any confusion that this may have caused. We currently have parks within the City that have different closing times, such as Pioneer Park. The Police Department can easily adapt to the changes.

Sincerely,

Charles F. "Rick" Dinse
