CITY COUNCIL TRANSMITTAL

TO: Rocky Fluhart, Chief Administrative Officer **DATE:** April 24, 2006

FROM: Louis Zunguze, Community Development Director

RE: Petition 400-06-08 by the City Council to develop Neighborhood based Compatible Residential Infill Zoning Standards for the areas of the Avenues and Capitol Hill Planning Communities that are presently zoned SR-1 Special Development Pattern Residential and to amend the Zoning Maps by creating a Special Development Pattern Residential SR-1A Zoning Designation

STAFF CONTACT: Joel Paterson, AICP, Planning Programs Supervisor, at 535-6141 or joel.paterson@slcgov.com

RECOMMENDATION: That the City Council hold a briefing and schedule a Public Hearing

DOCUMENT TYPE: Ordinance – This transmittal includes two ordinances; one to amend the text of the Zoning Ordinance (Exhibit 2a), and one to amend the applicable Zoning Maps (Exhibit 2b).

BUDGET IMPACT: None

DISCUSSION:

This petition, initiated by the City Council, includes a Zoning Ordinance text amendment and Zoning Map amendments intended to create neighborhood-based Compatible Residential Infill Development standards for areas of the Avenues and Capitol Hill Planning Communities that are currently zoned SR-1 Special Development Pattern Residential. The City Council is the final approval authority for Zoning Ordinance text and Zoning Map amendments.

Issue Origin: On December 13, 2005, the City Council adopted Ordinance 90 of 2005 creating the Compatible Residential Infill Development standards which have been incorporated into all single and two-family residential zoning districts in the City. The Council also adopted Ordinance 91 of 2005 creating temporary zoning standards for areas zoned SR-1 in the Avenues and Capitol Hill Planning Communities and in the Wasatch Hollow Community. The purpose of the temporary zoning standards was to allow these communities to develop neighborhood based zoning standards that would better address compatible infill development within the specific communities.

Because the temporary zoning standards will expire on June 13, 2006, the communities affected by the temporary zoning standards were given a deadline of March 6, 2006, to submit a proposal to the Planning Division. The deadline provided the necessary lead time to have the proposal reviewed by the Planning Commission and considered by the City Council prior to the expiration of the temporary zoning standards. The Greater Avenues and Capitol Hill Community Councils submitted a joint proposal that is the subject of this petition. The Wasatch Hollow Community Council is still developing a proposal which may be considered at a later date but will not be completed prior to the expiration of the temporary zoning standards.

This petition requests to amend the Zoning Ordinance by creating an SR-1A Zoning District, a subcategory of the existing SR-1 District, and to amend the Zoning Maps by replacing the existing SR-1 designation in the Avenues and Capitol Hill Planning Communities with the new SR-1A District as shown below.

**Proposed Zoning Map Amendment
SR-1 to SR-1A**

Analysis: The proposed Zoning Ordinance amendments are summarized below using ~~striketrough~~ and underline to indicate the amendments proposed by the Greater Avenues and Capitol Hill Community Councils to the existing SR-1 standards. Although the Community Councils and Staff agreed on most of the proposed standards, there was some disagreement on the standards relating to accessory structures. Modifications proposed by the Planning Staff to the Planning Commission are indicated with **~~striketrough~~** and underline.

Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:
 - a. ~~Twenty eight feet (28')~~ measured to the ridge of the roof, or
 - a. Twenty three feet (23') measured to the ridge of the roof, or

b. the average height of other principal buildings on the block face

- ~~2. The maximum Height of flat roofed buildings shall be twenty feet (20')~~
2. The maximum Height of flat roofed buildings shall be sixteen feet (16')
- ~~3. The maximum exterior wall height adjacent to interior side yards, twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard.~~
The maximum exterior wall height adjacent to interior side yards, sixteen feet (16') for exterior walls placed at the building setback established by the minimum required yard.
Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance, or other process, the maximum allowable exterior wall height decreases by one (1) foot (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

Staff Comment: This proposal incorporates the temporary building height standards currently in place in the Avenues and Capitol Hill Planning Communities created by Ordinance 91 of 2005. The proposed standards are consistent with the Planning Commission's November 9, 2005 recommendation to the City Council for all single and two-family residential zoning districts. The City Council modified this recommendation and included the twenty-eight foot (28') building height and the twenty foot (20') wall height for the City wide Compatible Residential Infill Development standards. The Planning Staff is supportive of this provision lowering the height to twenty-three feet (23') for the Avenues and Capitol Hill Planning Communities and recommended it to the Planning Commission.

Minimum Yard Requirements:

1. ***Front Yard:*** The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are ~~three~~ four or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding the one property with the smallest front yard setback and excluding the one property with the largest front yard setbacks. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.

Staff Comment: The language added in this standard was proposed to limit the effect that anomalies in existing front yard setbacks may have on new construction or additions. There are many examples where a block face will have a primary structure with little or no front yard setback or a lot where the front yard setback of the existing home is much greater than other houses on the street. The Planning Staff recommended this modification to the Planning Commission with one minor change as noted. There are a number of block faces with only three lots, and Staff recommended to the Planning Commission that the largest and smallest setbacks be excluded when there are more than

four lots, rather than three, on the block face to eliminate the possibility of calculating an average based on only one lot.

2. **Corner Side Yard: Ten feet (10').** ~~For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.~~

Staff Comment: This change eliminates the possibility of an in-line addition being approved during the building permit process without the opportunity for public notice. As in other zoning districts, in-line additions require approval through the routine and uncontested special exception process which, with the signatures of 100% of the abutting property owners, may be considered administratively by the Zoning Administrator. If the required signatures are not obtained, the in-line addition can be considered by an Administrative Public Hearing Officer or the Board of Adjustment. The Planning Staff recommended this amendment to the Planning Commission.

3. **Interior Side Yard:**

- a. **Twin Home Dwellings:** No side yard is required along one side lot line while a ten foot (10') yard is required on the other.

b. **Other Uses:**

- i. **Corner Lots:** Four feet (4').

- ii. **Interior Lots:** Four feet (4') on one side and ten feet (10') on the other.

(a.) Where the width of a lot is ~~46' 8"~~ forty-seven feet (47') or narrower, total minimum side setbacks shall be equal to thirty percent (30%) of the lot width with one side being four feet (4') and the other side being thirty percent (30%) of the lot width minus four feet (4') (rounded to the nearest whole number).

Staff Comment: Staff is supportive of this provision with the noted change to use whole numbers and recommended such to the Planning Commission. This formula allows for a reduction of the ten foot (10') minimum side yard setback as lots become narrower.

(b.) Where a lot is ~~26' 8"~~ twenty-seven feet (27') or narrower, required side yard setbacks shall be a minimum of four feet (4') and four feet (4').

Staff Comment: This provision limits the reduction of the required ten foot (10') side yard to four feet (4') on very narrow lots. Staff is supportive of this recommendation using whole numbers and recommended such to the Planning Commission.

(c.) ~~In no case~~ Where required side setbacks are less than four feet (4') and ten feet (10') shall the an addition, remodel or new construction shall be no closer than ten feet (10') to a primary structure on an adjacent property. The ten foot (10') separation standard applies only to the interior side yard that has been reduced from the base standard of ten feet (10').

Staff Comment: This provision requires a minimum separation of ten feet (10') between houses if the addition, remodel or new construction is allowed with a reduced setback based on the provisions in paragraphs (a) and (b) above. The ten foot (10') separation is

only required on the side yard that has been reduced from the base standard of ten feet (10'). Staff is supportive of this provision because the standard addresses the existing development pattern typically found in the Avenues and Capitol Hill Planning Communities where the existing houses on narrow lots often do not meet the required four (4') and ten foot (10') side yard setback requirements and recommended such to the Planning Commission.

4. ***Accessory Buildings And Structures In Yards:*** *Accessory buildings and structures may be located in a required yard subject to table 21A.36.020B, "Obstructions In Yards", of this Title (see below).*
 - a. *Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.*
 - b. *Primary Accessory Building – One Accessory building may have up to the following dimensions:*
 - i. *A footprint of up to ~~fifty percent (50%)~~ of the building footprint of the principal structure up to a maximum of ~~four hundred and eighty square feet (480')~~ six hundred square feet (600 s.f.). Notwithstanding the size of the footprint of the principal building, an accessory structure shall be allowed a footprint of four hundred and eighty square feet(480 s.f.), subject to compliance with 21A.40.050.B.1 of the Salt Lake City Zoning Ordinance.*

Staff Comment: The Planning Staff recommended to the Planning Commission that this provision be modified to be more consistent with the maximum footprint standards of the Citywide Compatibility Infill regulations, which limit the size of a garage based on the footprint of the primary structure on the lot. Staff recommended the Planning Commission support a maximum footprint of 600 square feet (600 s.f.), which is consistent with the Historic Landmark Commission (HLC) standard for administrative approvals of garages. A larger garage must be reviewed by the HLC. If a different garage size standard is established for the SR1-A District, property owners in the same community will have different processes to achieve the same garage size.

The Greater Avenues and Capitol Hill Community Councils are opposed to these modifications. It is their opinion that a 480 square foot garage (20' x 24') is large enough to accommodate two cars and will have a lesser impact on the neighborhood. They are not opposed to garages larger than 480 square feet when the larger size is supported by the development pattern on the block face and considered through the routine and uncontested special exception process.

- ii. *Roof Peak/Ridge Height of up to ~~14 feet (14')~~ fifteen feet (15') above the existing grade.*
- iii. *A flat roofed height limit of ~~nine feet (9')~~ ten feet (10') above the existing grade.*
- iv. *An exterior wall height of ~~nine feet (9')~~ ten feet (10') above the existing grade.*
 - (a) *Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and the downhill faces of the building.*

Staff Comment: Staff recommended the Planning Commission support the changes to the accessory building height and exterior wall heights as noted above. In other single family and two-family residential zoning districts, the height for an accessory structure is limited to 17 feet (17') to the ridge (15 feet to the mid-point in Yalecrest) and 12 feet (12') for flat roof structures. Because of the smaller lots and typical garages found in the Avenues and Capitol Hill Planning Communities, the proposal recommends a further reduction in accessory building height and the introduction of a maximum wall height. Staff observed that a garage limited to a maximum nine foot (9') high flat roof structure will be more difficult to frame to accommodate a typical seven foot (7') high door because of the space needs for roof joists and garage door hardware. For this reason, Staff recommended the Planning Commission support the maximum building height for flat roof accessory structures and the maximum wall height be increased to ten feet (10'). To compensate for these changes, Staff also recommended that the maximum height for a pitched roof on an accessory structure be increased to fifteen feet (15'). The Greater Avenues and Capitol Hill Community Councils are opposed to these modifications, and their response to the Staff proposal is included in the Exhibit 5b (Planning Commission Staff Report, Attachment 4).

c. Secondary Accessory Buildings – All other accessory buildings shall have the following dimensions:

- i. Roof Peak/Ridge Height of up to 10 feet (10') above the existing grade.*
- ii. Flat roofed height limit of eight feet (8') above the existing grade.*
- iii. An exterior wall height of eight feet (8') above the existing grade.*
- iv. Secondary accessory buildings may be attached to the primary accessory building so long as all buildings conform to the required wall and roof ridge height restrictions.*

Staff Comment: This provision provides standards for additional accessory structures that may be placed on a lot for storage or other uses. Secondary accessory structures would be limited in size by the maximum lot coverage provision of the SR-1 District (40%) and by the maximum building coverage provision for accessory structures (600 square feet). Staff recommended the Planning Commission support this provision.

The following amendments are required in the Zoning Ordinance under Chapter 21A.40 Accessory Buildings to acknowledge the proposed amendments limiting the building coverage, maximum footprint and height provisions for the SR-1 Districts located in the Avenues and Capitol Hill Planning Communities.

21A.40.050 General Yard, Bulk and Height Limitations (for Accessory Structures)

B. Maximum Coverage:

- 2. Building Coverage:** *In the FR, R-1, R-2 and SR residential districts the maximum building coverage of all accessory buildings shall not exceed fifty percent (50%) of the building footprint of the principal structure up to a maximum of 720 square feet for a single family dwelling and 1,000 square feet for a two-family dwelling. **The maximum footprint within the SR-1A Zoning District is limited to six hundred square feet (600 s.f.).** Notwithstanding the size of the footprint of the principal building, at least four hundred and eighty square feet (480 s.f.) of accessory building*

coverage shall be allowed subject to the compliance with subsection 21A.40.050.B.1 of this section.

C. Maximum Height of Accessory Buildings/Structures:

2. Accessory To Residential Uses in the FR, R-1 districts, R-2 district and SR districts:

The height of accessory buildings/structures in the FR districts, R-1 district, R-2 district and SR districts shall conform to the following:

- a. The height of accessory buildings with flat roofs shall not exceed twelve feet (12'); **ten feet (10') in the SR-1A Zoning District;***
- b. The height of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured as the vertical distance between the top of the roof and the finished grade at any given point of building coverage. **In the SR-1A Zoning District the height of accessory buildings with pitched roofs shall not exceed fifteen feet (15'); and***
- c. Accessory buildings with greater building height may be approved as a special exception, pursuant to part V, chapter 21A.52 of this title if the proposed accessory building is in keeping with other accessory buildings on the block face.*

Staff Comment: These amendments are proposed to clarify that the SR-1A Zoning District has separate standards for accessory structures. The Staff recommended the Planning Commission support these amendments.

Effect on Overlay Zoning Districts: Portions of the Avenues and Capitol Hill Planning Communities include overlay zones, such as the Historic Preservation Overlay (H), the Capitol Hill Protective Area Overlay (CHPA) and the Groundwater Source Protection Overlay (Secondary Recharge Area). All future developments must comply with these regulations where applicable.

Conflict with the Capitol Hill Protective Overlay Zoning District: Portions of the Avenues and Capitol Hill Planning Communities are located within the CHPA Zoning District. The purpose of this overlay zone is to protect the view of the State Capitol Building by prohibiting exceptions to exceed the maximum height requirements of the base zoning district. If the Compatible Residential Infill Development standards for the proposed SR-1A are adopted, the height of residential structures in this overlay zone would be limited to 23 feet (23') (or the average building height on the block face) without the ability to use the special exception process to modify the building height based on the development pattern established on the block face.

The Planning Division is currently processing Petition 400-02-41 to amend the Capitol Hill Protective Area Overlay Zone to implement the policies of the Capitol Hill Community Master Plan. The Planning Staff is proposing to address the issue to allow additional height in this overlay zone, not to exceed 35 feet (35') where it is found that exceeding the 23 feet (23') height maximum is consistent with the SR-1A zoning standards and/or the Historic Preservation Overlay District Standards.

Master Plan Considerations: The issues of neighborhood character and compatible infill development are addressed in several Salt Lake City master plans and other policy documents.

- **Avenues Community Master Plan:** Includes a goal that encourages private property improvements that are visually compatible with the surrounding neighborhood
- **Capitol Hill Master Plan:** Includes a goal that encourages development of appropriate housing through renovation of existing structures and construction of compatible residential infill development and redevelopment
- **The Salt Lake City Comprehensive Housing Plan:** Includes policy statements that address a variety of housing issues including quality design, public and neighborhood participation, housing preservation, rehabilitation and replacement
- **The Urban Design Element:** Includes statements that emphasize preserving the City's image, neighborhood character, and maintaining livability while being sensitive to social and economic realities
- **The Salt Lake City Strategic Plan and the Futures Commission Report:** Expresses concepts such as maintaining a prominent sustainable city and ensuring the City is designed to the highest aesthetic standards
- **The City Council's Growth Policy:** Notes that growth in Salt Lake City will be deemed the most desirable if it is aesthetically pleasing, contributes to a livable community environment, yields no negative net fiscal impact unless an overriding public purpose is served, and forestalls negative impacts associated with inactivity

PUBLIC PROCESS:

Compatible residential infill development has been the subject of discussion in both the Capitol Hill and Greater Avenues Community Councils for several months. These discussions culminated in formal votes before the Community Councils in March 2006.

The Greater Avenues Community Council: On March 1, 2006, the Community Council voted to support the neighborhood based zoning standards proposed by the Greater Avenues Community Council's Housing Compatibility Committee (see letter from Stephen Mecham, Chair of Greater Avenues Community Council in Attachment 4 of the Planning Commission Staff Report).

The Capitol Hill Community Council: On March 15, 2006, the Capitol Hill Community Council voted in favor of supporting the neighborhood based zoning standards proposed by the Greater Avenues Community Council for application in areas zoned SR-1 in the Capitol Hill Community (see e-mail from Peter von Sivers, Chair of the Capitol Hill Community Council in Attachment 4 of the Planning Commission Staff Report).

The Planning Commission: On April 12, 2006, the Planning Commission held a Public Hearing on Petition 400-06-08 and voted to forward a positive recommendation to the City Council to adopt ordinances to amend the Zoning Ordinance and applicable Zoning Maps as

recommended by the Planning Staff. Exhibit 2a is the ordinance recommended by the Planning Commission.

Mayor Anderson: On April 13, 2006, Mayor Anderson met with representatives from the Greater Avenues and Capitol Hill Community Councils to discuss the proposed amendments. Mayor Anderson agreed to support the citizen's proposed standards for accessory structures instead of the Planning Commission recommendation. A letter from Mayor Anderson with his recommendation will be forwarded to the City Council.

RELEVANT ORDINANCES: Salt Lake City Code Chapter 21A.50.050 Standards for General Amendments.

Amendments to the Zoning Ordinance and Maps are authorized under Section 21A.50 of the Salt Lake City Zoning Ordinance, as detailed in Section 21A.50.050: "A decision to amend the text of this title or the zoning map by general amendment is a matter committed to the legislative discretion of the City Council and is not controlled by any one standard." It does, however, list five standards, which should be analyzed prior to rezoning property (Section 21A.50.050 A-E). The five standards are discussed in detail starting on page 12 of the Planning Commission Staff Report (see Attachment 5b).

CHRONOLOGY

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

CHRONOLOGY

PETITION 400-06-08

June 21, 2005	The City Council adopted a legislative action requesting that the Planning Division review the City's ordinances relating to infill housing.
July 12, 2005	The City Council adopted Ordinance 44 of 2005 creating the Yalecrest Compatible Infill Overlay District.
November 9, 2005	The Planning Commission forwarded a positive recommendation to the City Council to adopt the proposed Compatible Residential Infill Development standards for single- and two-family zoning districts.
December 13, 2005	The City Council adopted Ordinance 90 of 2005 which amended the Zoning Ordinance by creating Compatible Residential Infill Development standards in single- and two-family zoning districts. The Council also adopted Ordinance 91 of 2005 which created temporary zoning standards for areas within the Capitol Hill and the Greater Avenues Community Councils zoned SR-1 and in the Wasatch Hollow Planning Community to allow neighborhood based residential infill development standards to be developed for these areas.
March 1, 2006	The Greater Avenues Community Council voted to support the neighborhood based zoning standards proposed by the Greater Avenues Community Council's Housing Compatibility Committee.
March 15, 2006	The Capitol Hill Community Council voted in favor of supporting the neighborhood based zoning standards proposed by the Greater Avenues Community Council for application to areas zoned SR-1 in the Capitol Hill Community.
March 27, 2006	Request for review of proposed amendments sent to City Departments.
March 28, 2006	Notice of the Planning Commission public hearing mailed.
March 31, 2006	Planning Staff met with representatives of Capitol Hill and the Avenues Community Councils to discuss the proposed amendments and Staff's recommendations.
April 6, 2006	Request for an ordinance sent to the City Attorney's Office
April 12, 2006	The Planning Commission voted to forward a positive recommendation to the City Council to adopt the proposed Zoning Ordinance and Zoning Map amendments as recommended by the Planning Staff.
April 13, 2006	Representatives of Capitol Hill and the Avenues Community Councils met with Mayor Anderson to discuss the Planning Commission recommendation and their opposition to the Planning Commission's recommendation regarding standards for accessory structures.
April 21, 2006	Ordinance received from the Attorney's Office.

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

EXHIBIT 2A

PROPOSED ORDINANCE

ZONING ORDINANCE TEXT AMENDMENTS

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

SALT LAKE CITY ORDINANCE

No. _____ of 2006

(Amending Sections 21A.24.080 and 21A.40.050 Relating to SR-1 Special Development Pattern Residential District)

AN ORDINANCE AMENDING SECTION 21A.24.080, *SALT LAKE CITY CODE*, PERTAINING TO SR-1 SPECIAL DEVELOPMENT PATTERN RESIDENTIAL DISTRICT, AND SECTION 21A.40.050, *SALT LAKE CITY CODE*, PERTAINING TO GENERAL YARD, BULK AND HEIGHT LIMITATIONS, PURSUANT TO PETITION NO. 400-06-08.

WHEREAS, the Planning Commission and the City Council of Salt Lake City, Utah, have held public hearings and have taken into consideration citizen testimony, filing, and demographic details of the area, the long range general plans of the City, and the local master plan as part of their deliberation. Pursuant to these deliberations, the City Council has concluded that the proposed amendments are in the best interest of the City.

NOW, THEREFORE, be it ordained by the City Council of Salt Lake City, Utah:

SECTION 1. That Section 21A.24.080 of the Salt Lake City Code, pertaining to SR-1 Special Development Pattern Residential District be, and hereby is, amended to read as follows:

21A.24.080 SR-1 and SR-1A Special Development Pattern Residential District:

In this chapter and the associated Zoning Map, the SR-1 District is divided into two sub-areas for the purpose of defining design criteria. In other portions of this text, the SR-1 and SR-1A are jointly referred to as the SR-1 District because all other standards in the Zoning Ordinance are the same.

A. **Purpose Statement:** The purpose of the SR-1 special development pattern residential district is to maintain the unique character of older predominantly low density neighborhoods that display a variety of yards, lot sizes and bulk characteristics.

B. **Uses:** Uses in the SR-1 special development pattern residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. **Minimum Lot Area And Lot Width:** The minimum lot areas and lot widths required in this district are as follows:

Land Use		Minimum Lot Area	Minimum Lot Width
1	Single-family detached dwellings	5,000 sq. ft.	50 ft.
2	Two-family dwellings	8,000 sq. ft.	50 ft.
3	Twin home dwellings	4,000 sq. ft. per dwelling unit	25 ft.
4	Natural open space and conservation areas, minimum public and private	No minimum	No minimum
5	Public pedestrian pathways, trails and minimum greenways	No minimum	No minimum
6	Utility substations and buildings	5,000 sq. ft.	50 ft.
7	Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
8	Places of worship less than 4 acres in size	12,000 sq. ft.	80 ft.
9	Public/private utility transmission wires, minimum lines, pipes and poles	No minimum	No minimum
10	Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 sq. ft.	50 ft.

D. **Maximum Building Height:** Maximum building height limits vary, depending upon the location. The following regulations apply for each area with the SR-1 District:

1. The maximum height of buildings with pitched roofs shall be:

a. SR-1: Twenty-eight feet (28') measured to the ridge of the roof, or the average height of other principal buildings on the block face.

b. the average height of other principal buildings on the block face. SR-1A: Twenty three feet (23') measured to the ridge of the roof, or the average height of other principal buildings on the block face.

2. The maximum height of a flat roof building shall be ~~twenty feet (20')~~:

a. SR-1: twenty feet (20').

b. SR-1A: sixteen feet (16').

3. Maximum Exterior Wall Height Adjacent to Interior Side Yards:

a. SR-1: Twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard.

b. SR-1A: sixteen feet (16') for exterior walls placed at the building setback established by the minimum required yard.

c. In both the SR-1 and SR-1A Districts, the e-Exterior wall height may increase one ~~(4)~~ foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one ~~(4)~~ foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.

i. For

a. ——— Lots with cross-slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

——— ~~ii.b.~~ Exceptions:

——— (a)i. Gable walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

——— (b)ii. Dormer walls: Dormer walls are exempt from the maximum exterior wall height if:

——— (1) The width of a dormer is ten feet (10') or less; and

——— (2) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building façade facing the interior side yard; and

——— (3) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested.

Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in part VI, chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. Additional Building Height:

_____a. For properties outside of the H Historic Preservation Overlay District, additional building height may be granted as a special exception by an Administrative Hearing Officer subject to the special exception standards in 21A.52 and if the proposed building height is in keeping with the development pattern on the block face. The Administrative Hearing Officer will approve, approve with conditions, deny or refer the application to the Board of Adjustment to be considered as a special exception pursuant to Chapter 21A.52 of this Title. Any person adversely affected by a decision of the Administrative Hearing Officer may appeal the decision to the Board of Adjustment.

_____b. Requests for additional building height for properties located in a H Historic Preservation Overlay District shall be reviewed by the Historic Landmarks Commission which may grant such requests subject to the provisions of chapter 21A.34.020.

E. Minimum Yard Requirements:

1. Front Yard~~:-~~:

_____a. SR-1: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.

_____b. SR-1A: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards existing buildings within the block face. Where there are four or more SR-1 principal buildings with front yards on a block face, the average shall be

calculated excluding one property with the smallest front yard setback and excluding the one property with the largest front yard setback. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard depth is specified in the recorded subdivision plat, the requirement specified therein shall prevail. For buildings legally existing on April 12, 1995, the required front yard depth shall be no greater than established setback line of the existing building.

2. Corner Side Yard:

a. SR-1: Ten feet (10'). For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.

b. SR-1A: Ten feet (10').

3. Interior Side Yard:

a. **Twin Home Dwellings:** No side yard is required along one side lot line while a ten foot (10') yard is required on the other.

b. Other Uses:

i. Corner Lots: Four feet (4').

ii. Interior Lots:

(a) SR-1: Four feet (4') on one side and ten feet (10') on the other.

(b) SR-1A: Four feet (4') on one side and ten feet (10') on the other.

(1) Where the width of a lot is forty-seven feet (47') or narrower, the total minimum side yard setbacks shall be equal to thirty percent (30%) of the lot width with one side being four feet (4') and the other side being thirty percent (30%) of the lot width minus four feet (4') rounded to the nearest whole number.

(2) Where a lot is twenty-seven feet (27') or narrower, required side yard setbacks shall be a minimum of four feet (4') and four feet (4').

(3) Where required side yard setbacks are less than four feet (4') and ten feet (10') an addition, remodel or new construction shall be no closer than ten (10') to a primary structure on an adjacent property. The ten foot (10') separation standard applies only to the interior side yard that has been reduced from the base standard of ten feet (10').

4. Rear Yard: Twenty five percent (25%) of the lot depth, but not less than fifteen feet (15') and need not exceed thirty feet (30').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to table 21A.36.020B, "Obstructions In Yards", and 21A.40.050 of this title.

a. SR-1A:

i. Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.

ii. Primary Accessory Building -- One Accessory building may have up to the following dimensions:

(a) A footprint of up to fifty percent (50%) of the building footprint of the principal structure up to a maximum of six hundred (600) square feet. Notwithstanding the size of the footprint of the principal building, an accessory structure shall be allowed a footprint of four hundred and eighty (480) square feet, subject to compliance with section 21A.40.050.B.1 of this chapter.

(b) Roof peak/ridge height of up to fifteen feet (15') above the existing grade.

- (c) A flat roof height limit of ten feet (10') above the existing grade.
- (d) An exterior wall height of ten feet (10') above the existing grade.
- (1) Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.
- iii. Secondary Accessory Buildings – All other accessory buildings shall have the following dimensions:
 - (a) Roof peak/ridge height of up to ten feet (10') above the existing grade.
 - (b) Flat roof height limit of eight feet (8') above the existing grade.
 - (c) An exterior wall height of eight feet (8') above the existing grade.
 - (d) Secondary accessory buildings may be attached to the primary accessory buildings so long as all buildings conform to the required wall and roof ridge height restrictions.

F. **Maximum Building Coverage:** The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot area. For lots with buildings legally existing on April 12, 1995, the coverage of existing buildings shall be considered legal conforming.

G. **Maximum Lot Size:** With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the Office of the Salt Lake County Recorder, the maximum size of a new lot shall not exceed 150% of the minimum lot size allowed by the base zoning district. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with other lots on the same block face;

2. The configuration of the lot is compatible with other lots on the same block face; and
3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. **Standards for Attached Garages:** Width of an Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front façade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors.

SECTION 2. That Section 21A.40.050B of the Salt Lake City Code, pertaining to general yard, bulk and height limitations be, and hereby is, amended, in part, to read as follows:

B. **Maximum Coverage:**

2. **Building Coverage:** In the FR, R-1, R-2 and SR residential districts the maximum building coverage of all accessory buildings shall not exceed fifty percent (50%) of the building footprint of the principal structure up to a maximum of 720 square feet for a single family dwelling and 1,000 square feet for a two-family dwelling. The maximum footprint within the SR-1A is limited to six hundred (600) square feet. Notwithstanding the size of the footprint of the principal building, at least 480 square feet of accessory building coverage shall be allowed subject to the compliance with subsection 21A.40.050.B.1 of this section.

SECTION 3. That Section 21A.40.050C of the Salt Lake City Code, pertaining to general yard, bulk and height limitations be, and hereby is, amended, in part, to read as follows:

C. **Maximum Height Of Accessory Buildings/Structures:**

2. **Accessory To Residential Uses in the FR, R-1 districts, R-2 district and SR districts:**

The height of accessory buildings/structures in the FR districts, R-1 district, R-2 district and SR districts shall conform to the following:

_____ a. The height of accessory buildings with flat roofs shall not exceed twelve feet (12'); ten feet (10') in the SR-1A.

_____ b. The height of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured as the vertical distance between the top of the roof and the finished grade at any given point of building coverage; In the SR-1A the height of accessory buildings with pitched roofs shall not exceed fifteen feet (15'); and

_____ c. Accessory buildings with greater building height may be approved as a special exception, pursuant to part V, chapter 21A.52 of this title if the proposed accessory building is in keeping with other accessory buildings on the block face.

SECTION 4. EFFECTIVE DATE. This Ordinance shall become effective on the date of its first publication.

Passed by the City Council of Salt Lake City, Utah this _____ day of _____, 2006.

I:\Ordinance 06\Amending 21A.24.080 and 21A.40.050 SR-1 Special Development Pattern Residential District - 04-21-06 draft.doc

SALT LAKE CITY ORDINANCE
No. _____ of 2006
(Amending Sections 21A.24.080 and 21A.40.050 Relating to SR-1 Special Development Pattern
Residential District)

AN ORDINANCE AMENDING SECTION 21A.24.080, *SALT LAKE CITY CODE*,
PERTAINING TO SR-1 SPECIAL DEVELOPMENT PATTERN RESIDENTIAL DISTRICT,
AND SECTION 21A.40.050, *SALT LAKE CITY CODE*, PERTAINING TO GENERAL YARD,
BULK AND HEIGHT LIMITATIONS, PURSUANT TO PETITION NO. 400-06-08.

WHEREAS, the Planning Commission and the City Council of Salt Lake City, Utah,
have held public hearings and have taken into consideration citizen testimony, filing, and
demographic details of the area, the long range general plans of the City, and the local master
plan as part of their deliberation. Pursuant to these deliberations, the City Council has concluded
that the proposed amendments are in the best interest of the City.

NOW, THEREFORE, be it ordained by the City Council of Salt Lake City, Utah:

SECTION 1. That Section 21A.24.080 of the Salt Lake City Code, pertaining to SR-1
Special Development Pattern Residential District be, and hereby is, amended to read as follows:

21A.24.080 SR-1 and SR-1A Special Development Pattern Residential District:

**In this chapter and the associated Zoning Map, the SR-1 District is divided into two sub-
areas for the purpose of defining design criteria. In other portions of this text, the SR-1
and SR-1A are jointly referred to as the SR-1 District because all other standards in the
Zoning Ordinance are the same.**

A. **Purpose Statement:** The purpose of the SR-1 special development pattern residential
district is to maintain the unique character of older predominantly low density neighborhoods
that display a variety of yards, lot sizes and bulk characteristics.

B. **Uses:** Uses in the SR-1 special development pattern residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. **Minimum Lot Area And Lot Width:** The minimum lot areas and lot widths required in this district are as follows:

Land Use		Minimum Lot Area	Minimum Lot Width
1	Single-family detached dwellings	5,000 sq. ft.	50 ft.
2	Two-family dwellings	8,000 sq. ft.	50 ft.
3	Twin home dwellings	4,000 sq. ft. per dwelling unit	25 ft.
4	Natural open space and conservation areas, minimum public and private	No minimum	No minimum
5	Public pedestrian pathways, trails and minimum greenways	No minimum	No minimum
6	Utility substations and buildings	5,000 sq. ft.	50 ft.
7	Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
8	Places of worship less than 4 acres in size	12,000 sq. ft.	80 ft.
9	Public/private utility transmission wires, minimum lines, pipes and poles	No minimum	No minimum
10	Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 sq. ft.	50 ft.

D. **Maximum Building Height:** Maximum building height limits vary, depending upon the location. The following regulations apply for each area with the SR-1 District:

1. The maximum height of buildings with pitched roofs shall be:

- a. SR-1: Twenty-eight feet (28') measured to the ridge of the roof, or the average height of other principal buildings on the block face.
 - b. SR-1A: Twenty three feet (23') measured to the ridge of the roof, or the average height of other principal buildings on the block face.
2. The maximum height of a flat roof building shall be:
 - a. SR-1: twenty feet (20').
 - b. SR-1A: sixteen feet (16').
3. Maximum Exterior Wall Height Adjacent to Interior Side Yards:
 - a. SR-1: twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard.
 - b. SR-1A: sixteen feet (16') for exterior walls placed at the building setback established by the minimum required yard.
 - c. In both the SR-1 and SR-1A Districts, the exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance or other process, the maximum allowable exterior wall height decreases by one foot (1') (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback..
 - i. For lots with cross-slopes where the topography slopes, the downhill exterior wall height may be increased by one-half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.
 - ii. Exceptions:

(a) Gable walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.

(b) Dormer walls: Dormer walls are exempt from the maximum exterior wall height if:

- (1) The width of a dormer is ten feet (10') or less; and
- (2) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building façade facing the interior side yard; and
- (3) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from finished grade existing at the time a building permit is requested.

Building height for the R-1 districts, R-2 district and SR districts is defined and illustrated in part VI, chapter 21A.62 of this title.

5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

6. Additional Building Height:

a. For properties outside of the H Historic Preservation Overlay District, additional building height may be granted as a special exception by an Administrative Hearing Officer subject to the special exception standards in 21A.52 and if the proposed building height is in keeping with the development pattern on the block face. The Administrative Hearing Officer

will approve, approve with conditions, deny or refer the application to the Board of Adjustment to be considered as a special exception pursuant to Chapter 21A.52 of this Title. Any person adversely affected by a decision of the Administrative Hearing Officer may appeal the decision to the Board of Adjustment.

b. Requests for additional building height for properties located in a Historic Preservation Overlay District shall be reviewed by the Historic Landmarks Commission which may grant such requests subject to the provisions of chapter 21A.34.020.

E. Minimum Yard Requirements:

1. Front Yard:

a. SR-1: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.

b. SR-1A: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards existing buildings within the block face. Where there are four or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding one property with the smallest front yard setback and excluding the one property with the largest front yard setback. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard depth is specified in the recorded subdivision plat, the requirement specified therein shall prevail. For

buildings legally existing on April 12, 1995, the required front yard depth shall be no greater than established setback line of the existing building.2. **Corner Side Yard:**

a. SR-1: Ten feet (10'). For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.

b. SR-1A: Ten feet (10').

3. **Interior Side Yard:**

a. **Twin Home Dwellings:** No side yard is required along one side lot line while a ten foot (10') yard is required on the other.

b. **Other Uses:**

i. Corner Lots: Four feet (4').

ii. Interior Lots:

(a) SR-1: Four feet (4') on one side and ten feet (10') on the other.

(b) SR-1A: Four feet (4') on one side and ten feet (10') on the other.

(1) Where the width of a lot is forty-seven feet (47') or narrower, the total minimum side yard setbacks shall be equal to thirty percent (30%) of the lot width with one side being four feet (4') and the other side being thirty percent (30%) of the lot width minus four feet (4') rounded to the nearest whole number.

(2) Where a lot is twenty-seven feet (27') or narrower, required side yard setbacks shall be a minimum of four feet (4') and four feet (4').

(3) Where required side yard setbacks are less than four feet (4') and ten feet (10') an addition, remodel or new construction shall be no closer than ten (10') to a primary structure on

an adjacent property. The ten foot (10') separation standard applies only to the interior side yard that has been reduced from the base standard of ten feet (10').

4. Rear Yard: Twenty five percent (25%) of the lot depth, but not less than fifteen feet (15') and need not exceed thirty feet (30').

5. Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to table 21A.36.020B, "Obstructions In Yards", and 21A.40.050 of this title.

a. SR-1A:

i. Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.

ii. Primary Accessory Building -- One Accessory building may have up to the following dimensions:

(a) A footprint of up to fifty percent (50%) of the building footprint of the principal structure up to a maximum of six hundred (600) square feet. Notwithstanding the size of the footprint of the principal building, an accessory structure shall be allowed a footprint of four hundred and eighty (480) square feet, subject to compliance with section 21A.40.050.B.1 of this chapter.

(b) Roof peak/ridge height of up to fifteen feet (15') above the existing grade.

(c) A flat roof height limit of ten feet (10') above the existing grade.

(d) An exterior wall height of ten feet (10') above the existing grade.

(1) Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (.5') for each one foot (1') difference between the elevation of the average grades on the uphill and downhill faces of the building.

iii. Secondary Accessory Buildings – All other accessory buildings shall have the following dimensions:

- (a) Roof peak/ridge height of up to ten feet (10') above the existing grade.
- (b) Flat roof height limit of eight feet (8') above the existing grade.
- (c) An exterior wall height of eight feet (8') above the existing grade.
- (d) Secondary accessory buildings may be attached to the primary accessory buildings so long as all buildings conform to the required wall and roof ridge height restrictions.

F. **Maximum Building Coverage:** The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot area. For lots with buildings legally existing on April 12, 1995, the coverage of existing buildings shall be considered legal conforming.

G. **Maximum Lot Size:** With the exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the Office of the Salt Lake County Recorder, the maximum size of a new lot shall not exceed 150% of the minimum lot size allowed by the base zoning district. Lots in excess of the maximum lot size may be created through the subdivision process subject to the following standards:

- 1. The size of the new lot is compatible with other lots on the same block face;
- 2. The configuration of the lot is compatible with other lots on the same block face; and

3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. **Standards for Attached Garages:** Width of an Attached Garage: The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front façade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the widths of each garage door plus the width of any intervening wall elements between garage doors.

SECTION 2. That Section 21A.40.050B of the Salt Lake City Code, pertaining to general yard, bulk and height limitations be, and hereby is, amended, in part, to read as follows:

B. **Maximum Coverage:**

2. **Building Coverage:** In the FR, R-1, R-2 and SR residential districts the maximum building coverage of all accessory buildings shall not exceed fifty percent (50%) of the building footprint of the principal structure up to a maximum of 720 square feet for a single family dwelling and 1,000 square feet for a two-family dwelling. The maximum footprint within the SR-1A is limited to six hundred (600) square feet. Notwithstanding the size of the footprint of the principal building, at least 480 square feet of accessory building coverage shall be allowed subject to the compliance with subsection 21A.40.050.B.1 of this section.

SECTION 3. That Section 21A.40.050C of the Salt Lake City Code, pertaining to general yard, bulk and height limitations be, and hereby is, amended, in part, to read as follows:

C. **Maximum Height Of Accessory Buildings/Structures:**

2. **Accessory To Residential Uses in the FR, R-1 districts, R-2 district and SR districts:**

The height of accessory buildings/structures in the FR districts, R-1 district, R-2 district and SR districts shall conform to the following:

- a. The height of accessory buildings with flat roofs shall not exceed twelve feet (12'); ten feet (10') in the SR-1A.
- b. The height of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured as the vertical distance between the top of the roof and the finished grade at any given point of building coverage. In the SR-1A the height of accessory buildings with pitched roofs shall not exceed fifteen feet (15'); and
- c. Accessory buildings with greater building height may be approved as a special exception, pursuant to part V, chapter 21A.52 of this title if the proposed accessory building is in keeping with other accessory buildings on the block face.

SECTION 4. EFFECTIVE DATE. This Ordinance shall become effective on the date of its first publication.

PROPOSED ORDINANCE

ZONING MAP AMENDMENTS

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

SALT LAKE CITY ORDINANCE
No. _____ of 2006
(Rezoning Capitol Hill and Avenues Properties from SR-1 to SR-1A)

REZONING CAPITOL HILL AND AVENUES PROPERTIES, IDENTIFIED ON THE ATTACHED EXHIBITS A AND B, FROM SR-1 SPECIAL DEVELOPMENT PATTERN RESIDENTIAL DISTRICT (SR-1) TO SPECIAL DEVELOPMENT PATTERN RESIDENTIAL DISTRICT (SR-1A), PURSUANT TO PETITION NO. 400-06-08.

WHEREAS, the Planning Commission and the City Council of Salt Lake City, Utah, have held public hearings and have taken into consideration citizen testimony, filing, and demographic details of the area, the long range general plans of the City, and any local master plan as part of their deliberations. Pursuant to these deliberations, the City Council has concluded that the change of zoning for the properties identified on the attached exhibits A and B is appropriate for the development of the community in that area and in the best interest of the city.

NOW, THEREFORE, be it ordained by the City Council of Salt Lake City, Utah:

SECTION 1. REZONING OF PROPERTIES. The properties generally located in the Capitol Hill area, which are more particularly described on Exhibit A attached hereto, shall be and hereby are rezoned from special development pattern residential district (SR-1) to special development pattern residential district (SR-1A).

SECTION 2. REZONING OF PROPERTIES. The properties generally located in the Avenues area, which are more particularly described on Exhibit B attached hereto, shall be and hereby are rezoned from special development pattern residential district (SR-1) to special development pattern residential district (SR-1A).

SECTION 3. AMENDMENT TO ZONING MAP. The Salt Lake City Zoning Map, adopted by the Salt Lake City Code, relating to the fixing of boundaries and zoning districts, shall be, and hereby is amended consistent with the rezoning of properties identified above.

SECTION 4. EFFECTIVE DATE. This Ordinance shall become effective on the date of its first publication.

Passed by the City Council of Salt Lake City, Utah this _____ day of _____, 2006.

CITY COUNCIL HEARING NOTICE

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

NOTICE OF PUBLIC HEARING

The Salt Lake City Council will hold a public hearing concerning Petition 400-06-08 to amend existing provisions of the Salt Lake City Zoning Ordinance related to single- and two-family land uses in City Council District Three that may contribute to incompatible residential infill development within the Special Pattern Residential 1 (SR-1) Zoning District. The proposed amendments include creating a subcategory of the SR-1 Zoning District for those properties currently zoned SR-1 in City Council District Three to address general lot and bulk issues including building height, yard requirements, and accessory buildings standards. This petition would also amend the applicable Zoning Maps to implement the above referenced amendments to the SR-1 Zoning District for all properties within the Capitol Hill and Avenues Planning Communities currently zoned SR-1. The Capitol Hill and the Avenues Planning Communities are generally located between I-15 and North Campus Drive from South Temple to the North City limits.

The City Council will hold a public hearing:

Date:

Time: 7:00 p.m.

Place: Room 315 (City Council Chambers)

Salt Lake City and County Building

451 S. State Street

Salt Lake City, UT

Please enter the building from the east side

You are invited to attend this hearing, ask questions or provide input concerning the topic listed above. If you have any questions, contact Joel Paterson at 535-6141 between the hours of 8:00 a.m. and 5:00 p.m., or send an e-mail to joel.paterson@slcgov.com

People with disabilities may make requests for reasonable accommodation no later than 48 hours in advance in order to attend this Public Hearing. Accommodations may include alternate formats, interpreters, and other auxiliary aids. This is an accessible facility. For questions, requests, or additional information, please contact the ADA Coordinator at 535-7971; TDD 535-6021.

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

EXHIBIT 5A

PLANNING COMMISSION

HEARING NOTICE AND POSTMARK

**AGENDA FOR THE
SALT LAKE CITY PLANNING COMMISSION MEETING
In Room 326 of the City & County Building at 451 South State Street
Wednesday, April 12, 2006, at 5:45 p.m.**

Dinner will be served to the Planning Commissioners and Staff at 5:00 p.m., in Room 126. During the dinner, Staff may share general planning information with the Planning Commission. This portion of the meeting is open to the public for observation.

1. **APPROVAL OF MINUTES** from Wednesday, March 22, 2006.
2. **REPORT OF THE CHAIR AND VICE CHAIR**
3. **REPORT OF THE DIRECTOR**
4. **PUBLIC NOTICE AGENDA** Salt Lake City Property Conveyance Matters
 - a) Utah Department of Transportation (UDOT) and Salt Lake City Public Utilities Department—UDOT is requesting the purchase of real property owned by Salt Lake City, consisting of six parcels totaling approximately seven acres and used as a drainage canal, for use as part of the Davis County Legacy Highway project. The property in question is located just north of the existing I-215 West highway corridor and on both the east and west sides of Redwood Road. All of the property is located within Davis County. This property was part of a previous condemnation action which has now lapsed, and is now being purchased at fair market value, under terms acceptable to Public Utilities. Public Utilities staff intends to approve the sale, with the City receiving replacement easements for the Drainage Canal use. (Staff — Doug Wheelwright at 535-6178 or doug.wheelwright@slcgov.com and Karryn Greenleaf at 483-6769 or karryn.greenleaf@slcgov.com)
 - b) Utah Transit Authority (UTA) and Salt Lake City Property Management – UTA and the City are negotiating an Interlocal Agreement that would provide for the transfer of the fee title property ownership of the City to UTA for the property used for the Intermodal Hub operation. The property transfer involves two parcels totaling approximately 16.57 acres located on the west side of 600 West Street, between 200 South and approximately 700 South Streets. Under the terms of the agreement, the City will receive compensation for the property equal to fair market value, which involves non-monetary considerations including the agreement by UTA to finance a large portion of the cost of extending light rail service from the Delta Center Station to the Intermodal Hub and the assumption by UTA of all the City's current obligations relating to the Intermodal Hub. The City-owned property is addressed as 300 South and 600 West, and zoned General Commercial (CG). The Interlocal Agreement including the property transfer requires approval by the City Council. The City Administration intends to recommend the proposed property transfer to the Planning Commission and City Council. (Staff – Doug Wheelwright at 535-6178 or doug.wheelwright@slcgov.com and Matthew Williams at 535-6447 or matthew.williams@slcgov.com)
5. **PUBLIC HEARINGS**
 - a) **Petition 410-06-03** — A Conditional Use Request for a Landfill Gas to Renewable Energy Facility by Landfill Energy Systems (in conjunction with the Salt Lake Valley Landfill). The request is for the development and operation of an electric generator facility located at approximately 5950 West California Avenue, directly adjacent to the existing Landfill Facility in the M-1 (Light Manufacturing) Zoning District. This project site is also located within the T Transitional Overlay District. (Staff – Marilynn Lewis at 535-6409 or marilynn.lewis@slcgov.com)
 - b) **Petition # 400-06-07** — Salt Lake City Corporation is requesting a text amendment to the Salt Lake City Zoning Ordinance to allow ambulance services in the Commercial, Manufacturing and Special Purpose Districts. (Staff – Kevin LoPiccolo at 535-6003 or kevin.lopiccolo@slcgov.com)
 - c) **Petitions 400-05-46, 400-05-47, 490-06-15 and 490-06-16** — A request by Mike Miller, representing Flying J Inc., that Salt Lake City close and declare as surplus property, a portion of 800 West Street at approximately 2100 South Street (Petition No. 400-05-46), vacate an alley on the north side of the Klenke's Addition Subdivision (Petition No. 400-05-47), vacate a portion of the Klenke's Addition Subdivision and Riverside Subdivision (Petition No. 490-06-15), and grant preliminary subdivision approval of a two-lot minor subdivision (Petition No. 490-06-16) located at approximately 850 West 2100 South in a General Commercial (CG) zoning district. (Staff – Ray McCandless at 535-7282 or ray.mccandless@slcgov.com)
 - d) **Petition 400-06-08** — Salt Lake City Council initiated a request to amend existing provisions of the Salt Lake City Zoning Ordinance relating to single- and two-family land uses in City Council District Three that may contribute to incompatible residential infill development within the Special Pattern Residential 1 (SR-1) Zoning District. The proposed amendments include creating a subcategory of the SR-1 Zoning District for those properties currently zoned SR-1 in City Council District Three to address general lot and bulk issues including building height, yard requirements, and accessory building standards. This petition would also amend the zoning maps to implement the above referenced amendments to the SR-1 Zoning District for all properties within the Capitol Hill and Avenues Planning Communities currently zoned SR-1. The Capitol Hill and Avenues Planning Communities are generally located between I-15 and North Campus Drive from South Temple to the north City limits. (Staff: Joel Paterson at 535-6141 or joel.paterson@slcgov.com)

Hasler

1. Fill out registration card and indicate if you wish to speak and which agenda item you will address.
2. After the staff and petitioner presentations, hearings will be opened for public comment. Community Councils will present their comments at the beginning of the hearing.
3. In order to be considerate of everyone attending the meeting, public comments are limited to 3 minutes per person per item. A spokesperson who has been asked by a group to summarize their concerns will be allowed 5 minutes to speak. Written comments are welcome and will be provided to the Planning Commission in advance of the meeting if they are submitted to the Planning Division prior to noon the day before the meeting. Written comments should be sent to:

Salt Lake City Planning Director
451 South State Street, Room 406
Salt Lake City, UT 84111
4. Speakers will be called by the Chair.
5. Please state your name and your affiliation to the petition or whom you represent at the beginning of your comments.
6. Speakers should address their comments to the Chair. Planning Commission members may have questions for the speaker. Speakers may not debate with other meeting attendees.
7. Speakers should focus their comments on the agenda item. Extraneous and repetitive comments should be avoided.
8. After those registered have spoken, the Chair will invite other comments. Prior speakers may be allowed to supplement their previous comments at this time.
9. After the hearing is closed, the discussion will be limited among Planning Commissioners and Staff. Under unique circumstances, the Planning Commission may choose to reopen the hearing to obtain additional information.
10. Salt Lake City Corporation complies with all ADA guidelines. If you are planning to attend the public meeting and, due to a disability, need assistance in understanding or participating in the meeting, please notify the City 48 hours in advance of the meeting and we will try to provide whatever assistance may be required. Please call 535-7757 for assistance.

PLANNING COMMISSION

STAFF REPORT

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

DATE: April 6, 2005

TO: Salt Lake City Planning Commission

FROM: Joel G. Paterson, AICP
Planning Programs Supervisor
Telephone: 535-6141
E-mail: joel.paterson@slcgov.com

RE: Staff Report for the April 12, 2006 Planning Commission Meeting

CASE NUMBER: 400-06-08

APPLICANT: City Council

STATUS OF APPLICANT: Zoning Ordinance Section 21A.06.20 authorizes the City Council to initiate petitions to amend the Zoning Ordinance.

PROJECT LOCATION: SR-1 Special Development Pattern Residential districts in the Avenues and Capitol Hill Planning Communities (areas subject to the Temporary Zoning Standards adopted by the City Council as Ordinance 91 of 2005)

COUNCIL DISTRICT: District 3, Council Member Jergensen

**PROPOSED ZONING
TEXT AND MAP AMENDMENTS:**

BACKGROUND: On December 13, 2005, the City Council adopted Ordinance 90 of 2005 creating the Compatible Residential Infill Development standards which have been incorporated into all single and two-family residential zoning districts in the City. The Council also adopted Ordinance 91 of 2005 creating temporary zoning standards for areas zoned SR-1 in the Avenues and Capitol Hill Planning Communities and in the Wasatch Hollow Community. The purpose of

the temporary zoning standards was to allow these communities to develop neighborhood based zoning standards that would better address compatible infill development within the community. Because the temporary zoning standards expire on June 13, 2006, the communities affected by the temporary zoning standards were given a deadline of March 6, 2006, to submit a proposal to the Planning Division. The deadline provides the necessary lead time to have the proposal reviewed by the Planning Commission prior to the expiration of the temporary zoning standards. The Greater Avenues and Capitol Hill Community Councils submitted the proposal that is currently being considered by the Planning Commission. Wasatch Hollow is still developing a proposal which may be considered by the Planning Commission at a later date but will not be completed prior to the expiration of the temporary zoning standards. Once the temporary zoning standards expire, Wasatch Hollow will have the same zoning standards as other similarly zoned areas rest of the City under Ordinance 90 of 2005.

This petition requests to amend the Zoning Ordinance by creating new standards for a SR-1A District, a subcategory of the existing SR-1 District; and the Zoning Map by replacing the existing SR-1 designation in the Avenues and Capitol Hill Planning Communities with the new SR-1A District as shown below(a larger map is in Attachment 2).

**Proposed Zoning Map Amendment
SR-1 to SR-1A**

The proposal submitted by the Greater Avenues and Capitol Hill Community Councils would modify the following SR-1 District base zoning standards (the full text of the proposed Zoning Ordinance amendments is included in Attachment 1):

- 1. Maximum Building Height:** Retain the standards included in the temporary zoning standards adopted as Ordinance 91 of 2005.

- Maximum building height:
 - Pitched roof: twenty-three feet (23') to the ridge or the average height along the block face
 - Flat roof height and wall height along an interior side yard: sixteen feet (16')
- 2. **Front Yard Setback:** Retain the averaging provision adopted by Ordinance 90 of 2005 with a minor modification to allow the average setback calculation to exclude the properties with the smallest and largest setbacks on the block face.
- 3. **Corner Side Yard:** Retain existing standard of ten feet (10') and delete language allowing for in-line additions.
- 4. **Interior Side Yard:** Retain existing standard of four feet (4') and ten feet (10') with added provisions to reduce the required setback based on the width of the lot.
 - Lots narrower than forty-seven feet (47') are required to provide a combined side yard setback of thirty percent (30%) of the lot width. One of the required side yard setbacks must maintain a minimum setback of four feet (4'); with the other side yard being 30% of the lot width minus four feet.
 - Lots less than twenty-seven feet (27') wide must provide a minimum of four feet on both sides.
 - When the minimum side yard setback is reduced, a ten foot (10') separation between the subject house and the house on the adjacent lot must be retained along the interior side yard which has been reduced from the base standard of ten feet (10').
- 5. **Accessory Buildings and Structures**
 - Maximum Building Coverage: 600 square feet
 - Maximum footprint of primary accessory structure: 480 square feet
 - Maximum height of pitched roof: 14 feet
 - Maximum height of flat roof: 9 feet
 - Maximum wall height: 9 feet including a provision to compensate for changes in grade due to sloping topography on the lot.
 - Secondary Accessory Building:
 - Maximum height for pitched roof: ten feet (10')
 - Maximum height for flat roof: eight feet (8')
 - Maximum wall height: eight feet (8')

The proposed text amendments apply only to the base zoning standards and do not recommend any changes to the tiered review process adopted by the City Council as part of Ordinance 90 of 2005, which allows for modification of base zoning standards through the routine and uncontested matter and special exception processes.

RATIONAL FOR THE

PROPOSED AMENDMENTS: The purpose of the proposed Zoning Ordinance amendments are to create new zoning standards for areas of the Avenues and Capitol Hill Planning Communities zoned SR-1 which are fair and flexible and to better reflect the existing character of these communities. The proposal creates base zoning standards which, would if met, allow for over-the-counter building permits to be issued. If a property owner wishes to exceed the

standards, the public processes (routine and uncontested matters and special exceptions) created by Ordinance 90 of 2005 are available and may allow modifications to the base standards when the proposal is in keeping with the development pattern on the block face.

Generally, the areas affected by this petition were developed in the late 1800s and early 1900s on lots which may not conform to existing zoning standards. Over time, the City has amended the zoning in these areas to better reflect the existing development. The proposed building height standards represent a further refinement of the zoning standards and are intended to reflect general development patterns in this area and respond to the high percentage of single story and one and one-half story homes. The modified interior side yard setbacks are proposed in response to the high percentage of lots which do not meet the Zoning Ordinance standard of fifty feet (50') for new lots and the narrow setbacks typically found in both Capitol Hill and the Avenues. The accessory structure standards also are intended to reflect the existing development pattern of smaller detached garages.

APPLICABLE LAND USE REGULATIONS: City Code section 21A.50 Standards for General Amendments (see the discussion and findings relative to these standards beginning on page 12 of this report).

MASTER PLAN AND POLICY CONSIDERATIONS: The issues of neighborhood character and compatible infill development are addressed in several Salt Lake City master plans and other policy documents.

- **Avenues Community Master Plan:** includes a goal that encourages private property improvements that are visually compatible with the surrounding neighborhood.
- **Capitol Hill Master Plan:** includes a goal that encourages development of appropriate housing through renovation of existing structures and construction of compatible residential infill development and redevelopment.
- **The Salt Lake City Comprehensive Housing Plan:** includes policy statements that address a variety of housing issues including quality design, public and neighborhood participation, housing preservation, rehabilitation and replacement.
- **The Urban Design Element:** includes statements that emphasize preserving the City's image, neighborhood character and maintaining livability while being sensitive to social and economic realities.
- **The Salt Lake City Strategic Plan and the Futures Commission Report:** expresses concepts such as maintaining a prominent sustainable city and ensuring the City is designed to the highest aesthetic standards.

- **The City Council's Growth Policy:** notes that growth in Salt Lake City will be deemed the most desirable if it is aesthetically pleasing; contributes to a livable community environment; yields no negative net fiscal impact unless an overriding public purpose is served; and forestalls negative impacts associated with inactivity.

PROJECT HISTORY:

- **June 21, 2005** – The City Council adopted a legislative action requesting that the Planning Division review the City's ordinances relating to infill housing.
- **July 12, 2005** – The City Council adopted Ordinance 44 of 2005 creating the Yalecrest Compatible Infill Overlay District.
- **November 9, 2005** – The Planning Commission forwarded a positive recommendation to the City Council to adopt the proposed Compatible Residential Infill Development standards for single- and two-family zoning districts.
- **December 13, 2005** – The City Council adopted Ordinance 90 of 2005 which amended the Zoning Ordinance by creating Compatible Residential Infill Development standards in single- and two-family zoning districts. The Council also adopted Ordinance 91 of 2005 which created temporary zoning standards for areas within the Capitol Hill and the Greater Avenues Community Councils zoned SR-1 (area subject to this petition) and the Wasatch Hollow Community located between 1300 South and 1700 South from 1300 East to 1900 East. The City Council also adopted a Legislative Action directing the Planning Division to work with the Capitol Hill, Greater Avenues and Wasatch Hollow Community Councils to prepare neighborhood based residential infill development standards for consideration by the Council prior to June 13, 2006.
- **February 13, 2006** – Wasatch Hollow Community Council determines that a neighborhood based compatible residential infill proposal would not be submitted to the Planning Division prior to March 6, 2006 deadline. Because of this, the City Council will not be able to adopt neighborhood based compatible residential infill development standards for Wasatch Hollow prior to the expiration of the Temporary Zoning standards adopted as Ordinance j91 of 2005.
- **March 1, 2006** – The Greater Avenues Community Council voted to support the neighborhood based zoning standards proposed by the Greater Avenues Community Council's Housing Compatibility Committee (see letter from Stephen Mecham, Chair of Greater Avenues Community Council in Attachment 4).
- **March 15, 2006** – The Capitol Hill Community Council voted in favor of supporting the neighborhood based zoning standards proposed by the Greater Avenues Community Council for application to areas zoned SR-1 in the Capitol Hill Community (see e-mail from Peter von Sivers, Chair of the Capitol Hill Community Council in Attachment 4).

COMMENTS, ANALYSIS AND FINDINGS:

1. **COMMENTS:** Staff requested comments from applicable City Departments and Divisions, and the Greater Avenues and Capitol Hill Community Councils. Staff received comments from the following (City Department and Division comments are in Attachment 3, Community Council comments are in Attachment 4):
 - **Permits and Licensing Division:** The Permits and Licensing Division offered the following comments:
 1. A new zoning district is preferable to creating a new overlay district (such as the Yalecrest Compatible Infill Overlay).
 2. Front Yard Setback: Consider using “4” instead of “3” as the minimum number of lots required prior to eliminating the largest and smallest setbacks when calculating the average setback.
 3. Side Yard Setbacks: consider using whole numbers such as 47 feet instead of 46’ 8”.
 4. Side Yard Setbacks (separation requirement): This section seems to indicate that if the lot allows for reduced setbacks because of a narrow lot width then one cannot build within ten feet (10') of a neighbor’s home even if the 4' and 10' side yards are maintained. It seems unfair to require a ten foot (10') separation on the four foot (4') side when compliant properties can build to within 4' without worrying about their neighbor's location. Consider specifically noting that properties that provide 4' and 10' side yards, regardless of the side yard requirement, are exempt from the 10' separation and that the 10' separation requirement does not apply to the 4' side.
 5. Maximum accessory building coverage and building height standards differ from the standards established in 21A.40.050. This section of the Zoning Ordinance must be amended to accommodate the current proposal.

Staff Comment: The comments provided by the Permits and Licensing Division have been incorporated in the proposed text amendments.

- **Transportation Division:** The Transportation Division indicated that none of the proposed changes affect public transportation corridors or pedestrian and/or vehicular access or parking requirements.
- **Public Utilities Department:** The Public Utilities Department has no objection to the proposed ordinance.
- **Engineering Division:** The Engineering Division has not responded to this request.
- **Police Department:** The Police Department has not responded to this request.
- **Fire Department:** The Fire Department has not responded to this request.
- **Department of Airports:** The Department of Airports indicated that the request has no impact on operations at the Salt Lake City International Airport.
- **Community Councils:** The Greater Avenues and the Capitol Hill Community Councils have voted to support the proposed text amendments as prepared by the Greater Avenues Community Council Housing Compatibility Committee (HCC). As

described below in the Analysis section of this staff report, the Planning Division is proposing some modifications to the proposal. Representatives from both community councils met with the Planning Staff on March 31, 2006, to discuss the Staff position. Letters of response have been submitted by the Greater Avenues and Capitol Hill Community Councils which are included in Attachment 4.

2. ANALYSIS:

Proposed Zoning Ordinance Amendments

The proposed Zoning Ordinance amendments are summarized below using ~~striketrough~~ and underline to indicate the amendments proposed by the Greater Avenues and Capitol Hill Community Councils to the existing SR-1 standards. Modifications proposed by the Planning Staff are indicated with **bold striketrough** and underline:

Maximum Building Height:

1. *The maximum height of buildings with pitched roofs shall be:*
 - a. ~~Twenty eight feet (28')~~ measured to the ridge of the roof, or*
 - a. Twenty three feet (23') measured to the ridge of the roof, or*
 - b. the average height of other principal buildings on the block face*
- ~~2. The maximum Height of flat roofed buildings shall be twenty feet (20')~~
- ~~2. The maximum Height of flat roofed buildings shall be sixteen feet (16')~~
3. ~~The maximum exterior wall height adjacent to interior side yards, twenty feet (20')~~
~~for exterior walls placed at the building setback established by the minimum required yard. The maximum exterior wall height adjacent to interior side yards, sixteen feet (16')~~
~~for exterior walls placed at the building setback established by the minimum required yard. Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance, or other process, the maximum allowable exterior wall height decreases by one (1) foot (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.~~

Staff Comment: This proposal incorporates the temporary building height standards currently in place in the Avenues and Capitol Hill Planning Communities created by Ordinance 91 of 2005. The proposed standards are consistent with the Planning Commission's November 9, 2005 recommendation to the City Council for all single and two-family residential zoning districts. The City Council modified this recommendation and included the twenty-eight foot (28') building height and the twenty foot (20') wall height for the City wide Compatible Residential Infill Development standards. The Planning Staff is supportive of this provision lowering the height to twenty-three feet (23') for the Avenues and Capitol Hill Planning Communities.

Minimum Yard Requirements:

1. **Front Yard:** *The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are ~~three~~ four or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding the one property with the smallest front yard setback and excluding the one property with the largest front yard setbacks. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.*

Staff Comment: The language added in this standard was proposed to limit the effect that anomalies in existing front yard setbacks may have on new construction or additions. There are many examples where a block face will have a primary structure with little or no front yard setback or a lot where the front yard setback of the existing home is much greater than other houses on the street. Staff is supportive of this modification with one minor change as noted. There are a number of block faces with only three lots and staff recommends that the largest and smallest setbacks be excluded when there are more than four lots, rather than three, on the block face to eliminate the possibility of calculating an average based on only one lot.

2. **Corner Side Yard:** *Ten feet (10'). ~~For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.~~*

Staff Comment: This change eliminates the possibility of an in-line addition being approved during the building permit process without the opportunity for public notice. As in other zoning districts, in-line additions require approval through the routine and uncontested special exception process, which with the signatures of 100% of the abutting property owners, may be considered administratively by the Zoning Administrator. If the required signatures are not obtained, the in-line addition can be considered by an Administrative Public Hearing Officer or the Board of Adjustment. Staff is supportive of this amendment.

3. **Interior Side Yard:**
 - a. **Twin Home Dwellings:** *No side yard is required along one side lot line while a ten foot (10') yard is required on the other.*
 - b. **Other Uses:**
 - i. **Corner Lots:** *Four feet (4').*
 - ii. **Interior Lots:** *Four feet (4') on one side and ten feet (10') on the other.*
 - (a.) *Where the width of a lot is ~~46'-8"~~ forty-seven feet (47') or narrower, total minimum side setbacks shall be equal to thirty percent (30%) of the lot width*

with one side being four feet (4') and the other side being thirty percent (30%) of the lot width **minus four feet (4')** (rounded to the nearest whole number).

Staff Comment: Staff is supportive of this provision with the noted change to use whole numbers. This formula allows for a reduction of the ten foot minimum side yard setback as lots become narrower.

- (b.) Where a lot is **26' 8"** **twenty-seven feet (27')** or narrower, required side yard setbacks shall be a minimum of four feet (4') and four feet (4').

Staff Comment: This provision limits the reduction of the required ten foot side yard to four feet on very narrow lots. Staff is supportive of this recommendation using whole numbers.

- (c.) ~~In no case~~ Where required side setbacks are less than four feet (4') and ten feet (10') ~~shall the an~~ addition, remodel or new construction shall be **no** closer than ten feet (10') to a primary structure on an adjacent property. **The ten foot (10') separation standard applies only to the interior side yard that has been reduced from the base standard of ten feet (10').**

Staff Comment: This provision requires a minimum separation of ten feet between houses if the addition, remodel or new construction is allowed with a reduced setback based on the provisions in paragraphs (a) and (b). The ten foot separation is only required on the side yard that has been reduced from the base standard of ten feet. Staff is supportive of this provision because the standard addresses the existing development pattern typically found in the Avenues and Capitol Hill Planning Communities where the existing houses on narrow lots often do not meet the required four and ten foot side yard setback requirements.

4. **Accessory Buildings And Structures In Yards:** *Accessory buildings and structures may be located in a required yard subject to table 21A.36.020B, "Obstructions In Yards", of this Title (see below).*
- a. Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.
- b. Primary Accessory Building – One Accessory building may have up to the following dimensions:
- i. A footprint of up to **fifty percent (50%) of the building footprint of the principal structure up to a maximum of four hundred and eighty square feet (480')** **six hundred square feet (600 s.f.). Notwithstanding the size of the footprint of the principal building, an accessory structure shall be allowed a footprint of four hundred and eighty square feet(480 s.f.), subject to compliance with 21A.40.050.B.1 of the Salt Lake City Zoning Ordinance.**

Staff Comment: The Planning Staff is recommending that this provision be modified to be more consistent with the maximum footprint standards created by

Ordinance 90 of 2005 which limit the size of a garage based on the footprint of the primary structure on the lot. Staff is recommending a maximum footprint of six hundred square feet (600 s.f.) which is consistent with the Historic Landmark Commission (HLC) standard for administrative approvals of garages. A larger garage must be reviewed by the HLC.

The Greater Avenues and Capitol Hill Community Councils are opposed to these modifications proposed by the Planning Staff. It is their opinion that a 480 square foot garage (20' X 24') is large enough to accommodate two cars and will have a lesser impact on the neighborhood. They are not opposed to garages larger than 480 square feet when the larger size is supported by the development pattern on the block face and considered through the routine and uncontested special exception process.

- ii. Roof Peak/Ridge Height of up to ~~14 feet (14')~~ fifteen feet (15') above the existing grade.
- iii. A flat roofed height limit of ~~nine feet (9')~~ ten feet (10') above the existing grade.
- iv. An exterior wall height of ~~nine feet (9')~~ ten feet (10') above the existing grade.
 - (a) Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and the downhill faces of the building.

Staff Comment: The Planning Staff is recommending the changes noted to the accessory building height and exterior wall heights as noted above. In other single family and two-family residential zoning districts, the height for an accessory structure is limited to seventeen feet (17') to the ridge (15 feet to the mid-point in Yalecrest) and twelve feet (12') for flat roof structures. Because of the smaller lots and typical garages found in the Avenues and Capitol Hill Planning Communities, the proposal recommends a further reduction in accessory building height and the introduction of a maximum wall height. Staff is of the opinion, with input from the Permits and Licensing Division, that a typical seven foot (7') garage door would be difficult to accommodate with a nine foot (9') high flat roof structure because of the space needs for roof joists and garage door hardware. For this reason, Staff recommends the maximum building height for flat roof accessory structures and the maximum wall height be increased to ten feet (10'). To compensate for these changes, Staff also recommends that the maximum height for a pitched roof on an accessory structure be increased to fifteen feet (15'). The Greater Avenues and Capitol Hill Community Councils are opposed to these modifications proposed by Staff and their response to the Staff proposal is included in Attachment 4.

- c. Secondary Accessory Buildings – All other accessory buildings shall have the following dimensions:
 - i. Roof Peak/Ridge Height of up to 10 feet (10') above the existing grade.

- ii. Flat roofed height limit of eight feet (8') above the existing grade.
- iii. An exterior wall height of eight feet (8') above the existing grade.
- iv. Secondary accessory buildings may be attached to the primary accessory building so long as all buildings conform to the required wall and roof ridge height restrictions.

Staff Comment: This provision provides standards for additional accessory structures that may be placed on a lot for storage or other uses. Secondary accessory structures would be limited in size by the maximum lot coverage provision of the SR-1 District (40%) and by the maximum building coverage provision for accessory structures (600 square feet). Staff is supportive of this provision.

The following amendments are required in the Zoning Ordinance under Chapter 21A.40 Accessory Buildings to acknowledge the proposed amendments limiting the building coverage, maximum footprint and height provisions for the SR-1 Districts located in the Avenues and Capitol Hill Planning Communities.

21A.40.050

B. Maximum Coverage:

2. **Building Coverage:** *In the FR, R-1, R-2 and SR residential districts the maximum building coverage of all accessory buildings shall not exceed fifty percent (50%) of the building footprint of the principal structure up to a maximum of 720 square feet for a single family dwelling and 1,000 square feet for a two-family dwelling. The maximum footprint within the SR-1A Zoning District is limited to six hundred square feet (600 s.f.). Notwithstanding the size of the footprint of the principal building, at least four hundred and eighty square feet (480 s.f.) of accessory building coverage shall be allowed subject to the compliance with subsection 21A.40.050.B.1 of this section.*

C. Maximum Height Of Accessory Buildings/Structures:

2. **Accessory To Residential Uses in the FR, R -1 districts, R-2 district and SR districts:** *The height of accessory buildings/structures in the FR districts, R-1 district, R-2 district and SR districts shall conform to the following:*
 - a. *The height of accessory buildings with flat roofs shall not exceed twelve feet (12'); ten feet (10') in the SR-1A Zoning District;*
 - b. *The height of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured as the vertical distance between the top of the roof and the finished grade at any given point of building coverage. In the SR-1A Zoning District the height of accessory buildings with pitched roofs shall not exceed fifteen feet (15'); and*
 - c. *Accessory buildings with greater building height may be approved as a special exception, pursuant to part V, chapter 21A.52 of this title if the proposed accessory building is in keeping with other accessory buildings on the block face.*

21A.34.080 Capitol Hill Protective Area Overlay District CHPA: Staff has identified a conflict with the proposed amendments to the SR-1 District, the existing Compatible Residential

Infill Development standards (Ordinance 90 of 2005) and the existing Capitol Hill Protective Area Overlay District (CHPA). The CHPA District prohibits the use of special provisions, special exceptions, conditional uses or incentives to exceed the maximum height allowed in the underlying zoning district. Therefore, under the existing temporary zoning regulations in place for the SR-1 Districts within Capitol Hill and the proposed standards subject to this petition, new construction and additions are limited to the twenty-three foot building height (or the average building height on the block face) without the ability to use the special exception process to modify the building height based on the development pattern established on the block face.

The Planning Division is currently processing an amendment to the Capitol Hill Protective Area Overlay District which would allow a modification of the base building height standards.

3. FINDINGS

A decision to amend the text of the zoning ordinance or the zoning map is a matter committed to the legislative discretion of the City Council and is not controlled by any one standard. However, in making its decision concerning a proposed amendment, the Planning Commission and the City Council must consider the following factors:

21A.50.050 Standards for General Amendments

A. Whether the proposed amendment is consistent with the purposes, goals, objectives, and policies of the adopted general plan of Salt Lake City.

Discussion: Several Salt Lake City master plans and other policy documents discuss the importance of compatible residential infill development and its effect on maintaining the character of existing neighborhoods (see the “Master Plan Specifications” section of this report beginning on page 4 of this report).

Findings: The proposed amendments are consistent with the purposes, goals, objectives, and policies of the City’s various community master plans, City Council policies and other planning documents.

B. Whether the proposed amendment is harmonious with the overall character of existing development in the immediate vicinity of the subject property.

Discussion: The proposed amendments are designed specifically to promote single and two-family residential infill development that is compatible with surrounding development by creating regulations that relate to compatibility of setbacks, building height and accessory structure standards.

Findings: The proposed amendments were created to ensure that new construction and additions in SR-1 Districts within the Avenues and Capitol Hill Planning Communities are compatible with the character of the surrounding neighborhood.

C. The extent to which the proposed amendment will adversely affect adjacent properties.

Discussion: The proposed text amendments are designed to encourage infill development that is compatible with the surrounding development. The purpose is to establish standards that encourage compatibility between new construction, additions or alterations and the existing character and scale of the surrounding neighborhood.

Findings: The proposed zoning standards are intended to minimize adverse impacts of new residential construction and additions on adjacent properties.

D. Whether the proposed amendment is consistent with the provisions of any applicable overlay zoning districts which may impose additional standards.

Discussion: The proposed amendments affect base zoning district standards and will not impact the administration of existing overlay zoning districts. If there is a conflict between the base zoning standards and an overlay zoning district, the overlay zoning district standards prevail. In both the Avenues and Capitol Hill Planning Communities, many of the areas affected by this petition are located in historic districts. Under Ordinance 90 of 2005, the Historic Landmark Commission may modify the base zoning standards of the SR-1 District if the proposal is consistent with HLC design guidelines and the development pattern in the vicinity of the property under consideration.

Findings: The proposed amendments are consistent with the provisions of existing overlay zoning district which may impose additional standards on new development.

E. The adequacy of public facilities and services intended to serve the subject property, including but not limited to roadways, parks and recreational facilities, police and fire protection, schools, storm water drainage systems, water supplies, and waste water and refuse collection.

Discussion: The proposed amendments will not change allowed residential densities or types of land uses allowed within the SR-1 District. Consequently, the proposed amendments will have no impact on the adequacy of public facilities and services.

Findings: The adequacy of public facilities and services criteria does not directly relate to the proposed amendments.

RECOMMENDATION: Based on the analysis and the findings presented in this report, the Staff recommends that the Planning Commission forward a positive recommendation to the City Council to approve Petition 400-06-08 to amend the Zoning Ordinance as presented and amend the Zoning Map by applying the SR-1A designation to all areas presently zoned SR-1 within the Avenues and Capitol Hill Planning Communities.

PROPOSED ZONING ORDINANCE

TEXT AMENDMENTS

Proposed Amended Text for the 21A24.080 SR-1 Special Development Pattern Residential District

21A.24.080 SR-1 and SR-1A Special Development Pattern Residential District:
In this chapter and the associated Zoning Map, the SR-1 District is divided into two sub-areas for the purpose of defining design criteria. In other portions of this text, the SR-1 and SR-1A are jointly referred to as the SR-1 District because all other standards in the Zoning Ordinance are the same.

- A. Purpose Statement:** The purpose of the SR-1 special development pattern residential district is to maintain the unique character of older predominantly low density neighborhoods that display a variety of yards, lot sizes and bulk characteristics.
- B. Uses:** Uses in the SR-1 special development pattern residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.
- C. Minimum Lot Area and Lot Width:** The minimum lot areas and lot widths required in this district are as follows:

Land Use		Minimum Lot Area	Minimum Lot Width
1	Single-family detached dwellings	5,000 sq. ft.	50 ft.
2	Two-family dwellings	8,000 sq. ft.	50 ft.
3	Twin home dwellings per dwelling unit	4,000 sq. ft.	25 ft.
4	Natural open space and conservation areas, minimum public and private	No minimum	No minimum
5	Public pedestrian pathways, trails and minimum greenways	No minimum	No minimum
6	Utility substations and buildings	5,000 sq. ft.	50 ft.
7	Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
8	Places of worship less than 4 acres in size	12,000 sq. ft.	80 ft.
9	Public/private utility transmission wires, minimum lines, pipes and poles	No minimum	No minimum
10	Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 sq. ft.	50 ft.

- D. Maximum Building Height:** **Maximum building height limits vary, depending upon the location. The following regulations apply for each area within the SR-1 District:**

1. The maximum height of buildings with pitched roofs shall be ~~Twenty-eight feet (28') measured to the ridge of the roof, or:~~
 - a. ~~SR-1: Twenty eight feet (28') measured to the ridge of the roof, or the average height of other principal buildings on the block face~~
 - ~~b. the average height of other principal buildings on the block face~~
 - b. SR-1A: Twenty three feet (23') measured to the ridge of the roof, or the average height of other principal buildings on the block face.
2. The maximum Height of flat roofed buildings shall be ~~twenty feet (20')~~
 - a. SR-1: twenty feet (20')
 - b. SR-1A: sixteen feet (16')
3. The maximum exterior wall height adjacent to interior side yards:
 - a.—SR-1: twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard.
 - b. SR-1A: sixteen feet (16') for exterior walls placed at the building setback established by the minimum required yard.
 - c. In both the SR-1 and SR-1A Districts, the exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance, or other process, the maximum allowable exterior wall height decreases by one (1) foot (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.
 - a.i. For lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and the downhill faces of the building.
 - b.ii. Exceptions:
 - i(a) Gable walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.
 - ii(b) Dormer walls. Dormer walls are exempt from the maximum exterior wall height if:
 - (a1) The width of the dormer is ten feet (10') or less, and
 - (b2) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building façade facing the interior side yard, and
 - (c3) Dormers are spaced at least eighteen inches (18") apart.

45. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from the finished grade existing at the time a building permit is requested. Building height for the SR districts is defined and illustrated in part VI, chapter 21A.62 of this Title.

56. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').

67. Additional Building height:

- a. For properties outside of the H Historic Preservation Overlay District, additional building height may be granted as a special exception by an Administrative Hearing Officer subject to the special exception standards in 21A.52 and if the proposed building height is in keeping with the development pattern on the block face. The administrative hearing officer will approve, approve with conditions, deny, or refer the application to the board of adjustment to be considered as a special exception pursuant to Chapter 21A.52 of this Title. Any person adversely affected by a decision of the Administrative Hearing Officer may appeal the decision to the Board of Adjustment.
- b. Requests for additional building height for properties located in an H Historic Preservation Overlay District shall be reviewed by the Historic Landmark Commission which may grant such requests subject to the provisions of chapter 21A.34.020.

E. Minimum Yard Requirements:

1. Front Yard:

a. **SR-1:** The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.

b. **SR-1A: The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are four or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding the one property with the smallest front yard setback and excluding the one property with the largest front yard setback. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.**

2. Corner Side Yard:

a. **SR-1:** Ten feet (10'). For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.

b. **SR-1A: Ten feet (10'). For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.**

3. Interior Side Yard:

- a. **Twin Home Dwellings:** No side yard is required along one side lot line while a ten foot (10') yard is required on the other.

b. **Other Uses:**

- i. **Corner Lots:** Four feet (4').

ii. **Interior Lots:**

(a) SR-1: Four feet (4') on one side and ten feet (10') on the other.

(b) SR-1A Four feet (4') on one side and ten feet (10') on the other.

(1) Where the width of a lot is forty-seven feet (47') or narrower, the total minimum side yard setbacks shall be equal to 30% of the lot width with one side being four feet (4') and the other side being 30% of the lot width minus four feet (rounded to the nearest whole number).

(2) Where a lot is twenty-seven feet (27') or narrower, required side yard setbacks shall be a minimum of four feet (4') and four feet (4').

(3) Where required side yard setbacks are less than four feet (4') and ten feet (10') an addition, remodel or new construction shall be no closer than ten feet (10') to a primary structure on an adjacent property. The ten foot (10') separation standard applies only to the interior side yard that has been reduced from the base standard of ten feet (10').

4. **Rear Ya rd:** Twenty five percent (25%) of the lot depth, but not less than fifteen feet (15') and need not exceed thirty feet (30').

5. **Accesso ry Buildings And Structures In Yards:** Accessory buildings and structures may be located in a required yard subject to table 21A.36.020B, "Obstructions In Yards", and 21A.40.050 of this Title.

a. SR-1A

- i. Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.

ii. Primary Accessory Building – One Accessory building may have up to the following dimensions:

(a) A footprint of up to fifty percent (50%) of the building footprint of the principal structure up to a maximum of six hundred square feet (600 s.f.). Notwithstanding the size of the footprint of the principal building, an accessory structure shall be allowed a footprint of four hundred and eighty square feet (480 s.f.), subject to compliance with 21A.40.050.B.1 of the Salt Lake City Zoning Ordinance.

(b) Roof Peak/Ridge Height of up to 14 feet (14') fifteen feet (15') above the existing grade.

(c) A flat roofed height limit of ~~nine feet (9')~~ ten feet (10') above the existing grade.

(d) An exterior wall height of ~~nine feet (9')~~ ten feet (10') above the existing grade.

(1) Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and the downhill faces of the building.

iii. Secondary Accessory Buildings – All other accessory buildings shall have the following dimensions:

(a) Roof Peak/Ridge Height of up to 10 feet (10') above the existing grade.

(b) Flat roofed height limit of eight feet (8') above the existing grade.

(c) An exterior wall height of eight feet (8') above the existing grade.

(d) Secondary accessory buildings may be attached to the primary accessory building so long as all buildings conform to the required wall and roof ridge height restrictions.

21A.40.050

B. Maximum Coverage:

2. **Build ing Coverage:** In the FR, R-1, R-2 and SR residential districts the maximum building coverage of all accessory buildings shall not exceed fifty percent (50%) of the building footprint of the principal structure up to a maximum of 720 square feet for a single family dwelling and 1,000 square feet for a two-family dwelling. The maximum footprint within the SR-1A is limited to six hundred square feet (600 s.f.). Notwithstanding the size of the footprint of the principal building, at least 480 square feet of accessory building coverage shall be allowed subject to the compliance with subsection 21A.40.050.B.1 of this section.

C. Maximum Height Of Accessory Buildings/Structures:

2. **Accesso ry To Residential Uses in the FR, R-1 districts, R-2 district and SR districts:** The height of accessory buildings/structures in the FR districts, R-1 district, R-2 district and SR districts shall conform to the following:
- The height of accessory buildings with flat roofs shall not exceed twelve feet (12'); ten feet (10') in the SR-1A;
 - The hei ght of accessory buildings with pitched roofs shall not exceed seventeen feet (17') measured as the vertical distance between the top of the roof and the finished grade at any given point of building coverage. In the SR-1A the height of accessory buildings with pitched roofs shall not exceed fifteen feet (15'); and
 - Accessory buildings with greater building height may be approved as a special exception, pursuant to part V, chapter 21A.52 of this title if the proposed accessory building is in keeping with other accessory buildings on the block face.

Subject: Petition Number 400-06-08 □ Compatible Infill Overlay for Avenues and Capitol Hill Community Council - modify the SR-1 zoning district regulations

Attachments: Proposed SR-1 Text Change.doc

The Planning Division is currently reviewing Petition 400-06-08, regarding compatible infill development standards for the SR-1 zoning district within the Avenues and Capitol Hill Community boundaries. An e-mail has been sent to appropriate City staff and they have been asked to review the petition request and respond with any comments they have.

Specific details of the proposed text changes are highlighted in yellow on the attached document. Currently the SR-1 zoning district compatible infill regulations are provided through temporary zoning regulations. To process the Community Councils compatible infill regulations prior to expiration of the temporary regulations any responses need to be into the Planning Division by April 4, 2006.

If you have any questions, please contact me at 535-7930.

Thank you.

Subject: Department review for Petition 400-06-08 Compatible Infill Overlay Text for SR-1 Zone in the Avenues and Capitol Hill Communities

Importance: High

Attached please find the proposed text changes to the SR-1 zoning district standards related to compatible infill development within the Avenues and Capitol Hill Communities. The proposed text changes were submitted by the Avenues Community Council with support from the Capitol Hill Community Council to apply the proposed text changes to the SR-1 zoning district in Capitol Hill as well as the Avenues. The proposed text changes are highlighted in yellow on the attached document.

Please review and comment on the proposed text changes by April 4, 2006. The current compatible infill ordinance regulations for the Avenues and Capitol Hill Communities are established through a temporary ordinance. In order to process and adopt the proposed text changes prior to expiration of the temporary regulations the review comments need to be provided to the Planning Office by April 4, 2006. If you do not contact me or reply by April 4, 2006 I will assume that you do not have any comments.

Thank you for your assistance in this matter, especially with the short response period.

Subject: RE: Department review for Petition 400-06-08 Compatible Infill Overlay Text for SR-1 Zone in the Avenues and Capitol Hill Communities

Everett:

A question before I list my comments. Will this amendment come with a map overlay? If so, will the remaining SR-1 districts have differing regulations? If this is the case, from an implementation standpoint I would prefer a separate zoning district rather than an overlay.

- Under E: Consider using 4 as the number for averaging. When I thought about using 3 principal buildings we would be left with one building when we excluded the smallest and largest setbacks. With 4 structures we would have two sites to average.
- E3biia&b side yards: Not a major issue but consider removing the 8" from the lot width. If we round up to 49' and 27' it will be easier for folks to remember and the difference is about an inch.
- E3biic side yards: This section seems to indicate that if the lot allows for reduced setbacks under a & b above (narrow lots) then you can not build within 10' of your neighbors home even if you maintain 4' and 10' side yards. It seems this section was intended to address the side yard of a property that takes advantage of the narrow lot reduced side yard allowance. Since we must have a 4' side yard the reduced side would always be the 10' side. It also seems a bit unfair to require a 10' separation on the 4' side when lot width compliant properties can build to within 4' without worrying about their neighbor's location. Consider specifically noting that properties that provide 4' and 10' side yards, regardless of the side yard requirement, are exempt from the 10' separation and that the 10' separation requirement does not apply to the 4' side.
- E35a, maximum accessory building coverage of 600 sq. ft., is a new requirement. Requires amendment to Ord. 90
- E35b&c also require Ord. 90 amendment. The dimensions are very conservative and I would anticipate requests for taller or larger structures. Admin hearing?

COMMUNITY COUNCIL LETTERS

Planning Commission Staff Report

Petition 400-06-08: Compatible Infill Standards for Capitol Hill and the Avenues Communities

Greater Avenues Community Council

1180 1st Avenue, Salt Lake City, UT 84103

Stephen F. Mecham, Chair Phone: 801 359-4165

Shane Carlson, Housing Committee, Spokesperson Phone: 801 596-3939

Salt Lake City Planning Commission
Salt Lake City Council
Salt Lake City Planning and Zoning
451 South State Street, Room 406
Salt Lake City, Utah 84111

Dear Commission Members, Council Members and City Planners:

First, we would like to express our appreciation of the efforts of the Planning Office, the City Council and the Planning Commission on the recently adopted Infill Ordinance and tiered permit process. Over the last twelve months a significant amount of work and careful thought has gone into addressing what was rapidly becoming a serious problem with incompatible infill, a problem that threatened our sense of community and goodwill among neighbors. We are especially appreciative of the Planning Office and their efforts to implement the new tiered permitting process. We feel strongly that the success of this tiered process is essential to ensuring predictability for communities while allowing for responsible growth and accommodation in situations that are often quite challenging.

The Greater Avenues Community Council's Housing Committee has been working on the proposed SR-1 overlay for about ten months. We have made significant efforts to describe and document the character of the Avenues SR-1 area. One of the tools we used in drafting the proposed overlay was a thorough inventory of all residential properties in the SR-1 area. Not only did this inventory provide us with a clear appreciation of the housing stock in the SR-1 area, it also illuminated some of the unique challenges faced by those residing in our community. Out of 2396 residential properties, an estimated 2075 (85%) are non-conforming to the present minimum SR-1 standards for the minimum lot width of 50 feet or the minimum lot size of 5000 square feet. For those Avenues SR-1 properties south of 10th Avenue, the figure is closer to 90% non-conforming. Every element of our proposed overlay was carefully crafted to deal with the very real and significant problems recently experienced in our area.

We were pleased with the Planning Office's decision to recommend that the Planning Commission and City Council approve most of our proposed overlay. The Planning Office has recommended a few minor modifications to the calculation of front and side setbacks. We support these recommended modifications and appreciate their importance. However, we cannot support, nor do we entirely understand, the Planning Office's recommended modifications to our proposal regarding the counter permit limits for accessory buildings.

Primary Building Peak and Wall Height

We are pleased with the Planning Office's decision to recommend our proposal's counter permit limits for primary building peak height (23 feet) and sidewall height (16 feet; Section D. Paragraphs 1,2 and 3). We fully appreciate the necessity of a smoothly functioning tiered permit process in order for these counter permit limits to be practical as the development pattern in the SR-1 area is quite diverse. We appreciate the Planning Office's efforts to implement the new tiered process as well as their openness to input from the community. Combined with significant efforts to implement the tiered process, these counter permit limits

will provide a measure of predictability for our more vulnerable block faces while allowing reasonable expansion and growth throughout the area.

Front Setbacks

The Planning Office has recommended that when using the proposed modifications for calculation of front-setback (average calculated dropping the smallest and largest setbacks), the minimum number of properties on the block-face should be increased from three to four (Section E, Paragraph 1). We appreciate the utility of modifying the minimum number of buildings on a “block face” before eliminating the closest and furthest buildings from the calculation of the “block face” average, as the proposed minimum of three properties would leave only one property to be used in the modified calculation. We do not anticipate that increasing this number from the proposed three to the recommended four buildings would pose a problem. We support this recommendation.

Corner Lot Side Setbacks

The proposed SR-1 overlay requested the elimination of an in-line side setback exception for street side setback for corner lots (Section E, Paragraph 2). The Planning Office has recommended no modifications to the proposal. We appreciate their support of the proposed modified side setback limit for corner lots.

Interior Lot Side Setbacks

The Planning Office has recommended several minor modifications to the formula proposed by our Housing Committee to help address the challenge of the very narrow and deep lots that exist in a significant majority of the SR-1 area (Section E, Paragraph 3). We appreciate the reasoning behind the Planning Office’s recommended modifications and we do not anticipate that these modifications will negatively impact the goal of the proposed formula for calculating modified minimum interior side setbacks. We would also like to express our support of the Planning Office’s recommendation to apply the proposed minimum ten foot separation between the proposed construction and the adjacent property’s primary building only when the rules for a reduced side setback are applied and only to the side of the project where the reduced side setback (less than 10 feet) is applied. The recommended modification would retain the original intent of our proposal, helping property owners and permit applicants address the challenges of their very narrow lots, while addressing the fire code and public safety issues allowing access to the sides and rear of each property.

Accessory Building Recommendations

The City Planning Office has recommended counter permit limits for accessory buildings that are higher than what was proposed by the Avenues Housing Committee for the SR-1 area (Section E, Paragraph 5). The Committee has several concerns regarding the recommendation to adopt higher limits.

First, as stated above, the SR-1 area is characterized by lots that are very narrow and at times much smaller than the 5000 square foot minimum for new lots in the SR-1 area. In some areas, the standard lot width is 27.5 feet. The most common lot width is approximately forty one feet. On lots with homes that are often only inches apart, every additional foot of wall and peak height brings a much greater likelihood that a structure will negatively impact an adjacent property owner. While out of scale primary structures have been the source of the most egregious incompatible infill, accessory structures have been a very common source of conflict between adjacent property owners.

While we appreciate that the Planning Office has recommended a counter permit limit of 600 square feet that is consistent with limits recognized by the Historic Landmarks Commission, we feel that in areas such as the middle Avenues (approximately 5th to 10th Avenues) where very narrow lots are combined with views of the city and the Oquirrh Mountains, a counter permit limit of 480 square feet is a much more defensible standard. The proposed 480 square foot limit for a primary accessory building would provide all property owners with the opportunity for a two car garage that could house even the largest passenger vehicles along with some room for tools and storage. Our original proposal to allow an additional 120 square feet of secondary accessory building with lower wall and peak height limits (eight and ten feet respectively) would ensure that all property owners would have the opportunity for additional storage or work space.

Our Housing Committee also has significant questions about the recommendation to limit accessory structure square footage to 50% of the primary building's foot print. Not all of the largest primary buildings have been built on the largest lots or in the most sensitive locations. We feel strongly that allowing those properties with the largest homes to build larger garages without further consideration of lot size (beyond the 40% lot coverage limit) or building placement will result in situations where properties that already have a significant impact on adjacent property owners will be allowed to have an even greater impact with a larger accessory structure. Conversely, properties with small primary structures (less than 1200 square feet) that are less likely to have impacted adjacent properties may be unfairly limited to lower accessory structure limits. These recommended limits would be implemented without regard to the size of a lot or the placement of the buildings. We feel that allowing everyone 600 square feet of accessory structure but requiring that those seeking a counter permit build in a manner less likely to impact their neighbors (480 square feet for primary accessory structure, remaining accessory structure built under lower limits) is a more equitable solution to an often challenging situation.

We also feel that the higher counter permit limits for accessory buildings that have been recommended are not in keeping with the spirit of the tiered permit process which was adopted to allow for relatively easy exceptions to somewhat stricter counter permit limits. Like the other elements of the proposed overlay, the originally proposed accessory building limits were designed to provide predictability for the most vulnerable areas while allowing the quick approval of well designed projects. We feel these limits are appropriate, especially when viewed alongside the lesser requirements for granting a "Routine and Uncontested" permit for accessory buildings exceeding the counter permit limits. "Routine and Uncontested" applications may be granted based upon the approval of all adjacent property owners but unlike special exceptions for primary buildings, the administrator handling the request need convene a public hearing where concerns expressed by parties not residing next to the proposed project must be considered. This lower standard for accessory structures exceeding counter permit limits is appropriate. We also feel that the lower standard makes our proposed accessory building limits preferable to the Planning Office's recommendation.

Finally, we have questions about the Planning Office's recommendation that minimum structural requirements for a flat roofed garage require a ten foot roof in order to accommodate a seven foot door. We have consulted a contractor and architect who suggested the following design in order to allow a nine foot flat roofed garage with a seven foot door. Rather than spanning the entire width of the building (somewhere between twenty and twenty-four feet) with a 14 inch TJI ceiling joist, an alternative design would incorporate a beam at the mid-point of the garage parallel with the side of the garage with the garage door. The beam, at ten to twelve feet from the wall with the door, would be set back far enough to accommodate the door and garage door hardware/opener. The beam would be supported at its mid-point with a vertical column. The addition of the beam would allow much smaller ceiling joists, approximately 10 inches for a 12 foot span. Nearly all garage door manufacturers have low profile door hardware available at no extra charge. Low profile hardware would allow the door to be mounted with approximately six inches of overhead space. Allowing for six inches of slope on a 24 foot wide garage, six inches for door hardware and ten inch joists, a seven foot door could be accommodated within the proposed nine foot flat roofed counter permit limit. On a related note, we see no reason to recommend that the wall height for pitched roof accessory buildings be increased to match that of Planning Office's recommended ten feet for flat-roofed buildings. Given the potential of wall height to impact sunlight on adjacent properties, we are asking that the Planning Commission recommend the originally proposed counter permit limits of nine feet for both wall height and flat roofed buildings.

In conclusion, we would like to emphasize our appreciation of the Planning Office, the City Council and the Planning Commission and all of the hard work that has gone into dealing with the difficult issue of compatible infill. We are very pleased with the efforts initiated by the City Council to address this issue and to make it a priority, the creativity and hard work of the City Planning Office to design and implement a unique and promising tiered permit process, and the Planning Commission for their careful consideration of these matters.

We would also like to recognize the City Council's support for community specific zoning where appropriate and the efforts of the Planning Office to support the overlay process at the community level.

Planning staff have often made themselves available to our Housing Committee and provided guidance on several important issues.

The Avenues Housing Compatibility Committee has also made a significant effort to address the key issues of concern in our area. We feel that our direct experience of the challenges posed by the close proximity of the homes and the narrow lots that characterize the area, as well as our experience with sensitive and successful projects has provided our residents with a unique and intimate knowledge of the issues as well as the potential for creative solutions for most property owners. We are asking that you please take this intimate knowledge of the community into account as you weigh the Planning Office recommendations along side the proposed overlay. We would also ask that you take into consideration the strong support of our community for the proposed overlay as it was originally written, specifically in regard to accessory structures. And while the Avenues Housing Compatibility Committee cannot support the recommendations of the Planning Office with regard to counter permit limits for accessory buildings, we strongly support all other modifications to our proposed overlay as recommended by the Planning Office.

Sincerely,

Shane Carlson

Salt Lake City, Utah 84111

Dear Council Members and City Planners:

The Greater Avenues Community Council (GACC) is pleased to submit for your review the enclosed SR-1 Overlay overwhelmingly approved by the GACC March 1, 2006. As you know, in July 2005 GACC established the Housing Compatibility Committee to develop the enclosed Overlay. In its March 1, 2006 meeting, GACC also voted to allow representatives of the Housing Compatibility Committee to work with Planning and Zoning if any changes are needed to facilitate City Council approval of the Overlay.

During the past seven months, the Housing Compatibility Committee has sought public input and has worked diligently to develop the Overlay to preserve and protect the unique characteristics of SR-1 properties in the eclectic Avenues area. The GACC believes the draft Overlay establishes a new set of fair and flexible zoning rules specific for the Avenues District SR-1 area that will allow for a large range of diverse development patterns and still provide a measure of predictability for everyone in the community. We urge you to approve the Overlay as it is proposed.

We look forward to working with you in enacting and implementing the Overlay. You may call me at 359-4165 with any questions. Housing Compatibility Committee spokesperson Shane Carlson may be reached at 596-3939 and Committee Chair Lon Richardson may be reached at 364-4529.

Sincerely,

A handwritten signature in dark ink, appearing to read "Stephen F. Mecham", is positioned above the printed name.

Mr. Paterson,

This is to inform you of two votes taken by the Capitol Hill Community Council (CHCC) during its meeting on March 15, 2006. First, the CHCC approved the inventory of all SR-1 housing made by volunteers in the CHCC and recorded on a map by Shane Carlson, by a vote of 21:1. Second, the CHCC endorsed the SR-1 infill overlay regulations and procedures proposed to you by the Greater Avenues Community Council, with a vote of 22:1.

May I also ask you to include me in all future exchanges and meetings concerning the SR-1 infill overlay of the Planning Division.

Sincerely yours,
Peter von Sivers, Chair

Subject: Petition 400-06-08

Dear Mr. Paterson,

I am a resident of 9th Avenue, a few houses west of "I" Street, and as such, received an invitation to an open house at the house located on the northeast corner of 8th Avenue and "H" Street, in which plans for a very substantial addition/remodel of said house were discussed. I went there, and would like to voice my fear that if the house were raised to the level needed to make a second story, it would be a looming block, and would not really be in the character of the Avenues, in spite of the fact that it is located across the street from just such an enlarged home. I am convinced that amending existing provisions of the City Zoning Ordinance to facilitate raising rooflines of existing structures by owners would seriously undermine the very character for which most of its residents treasure the Avenues. I would like to suggest that owners in need of really big homes might like to consider building in a location where such homes are commonly found and where they would not destroy the flavor of an already very established neighborhood. Neither my husband, David, nor I, is unable to attend the City Planning Commission meeting scheduled for tonight, but we would like to cast two votes to deny this petition: David B. and Ann M. George, 585 9th Avenue, SLC. Thank you for including our input in any decisions taken.
Sincerely, Ann George

Follow Up Flag: Follow up
Flag Status: Green

I have been working on the Avenues Housing Committee since last June and feel that we put a lot of research into our overlay before we submitted it. We had numerous discussions about the limits we described in the proposal. I am concerned that you want to change the wording on the accessory buildings.

A large number of properties do not conform to the SR-1 lot width standard. Because of this, the 480 primary accessory building limit (at the counter permit level) gives some protection to adjacent properties while giving everyone a chance to have a garage. People could always take their request to the next tier if they had reason for requesting a larger structure.

While we are concerned about the large houses that have been springing up in the Avenues, it is also a real problem with people building garages that are out of scale. It is very sad to see such a historically important neighborhood be overrun with people wanting houses that are out of proportion. Big houses and big garages have their place, but not in most neighborhoods in the Avenues.

Please reconsider keeping the recommendations for accessory buildings as presented by the Avenues Housing Committee.

Thank you for all the work you and your department have devoted to this emergency in our neighborhoods.

Subject: Avenues and Capitol Hill SR-1 Overlay

Dear Planning Commission, I'm writing in support of the Avenues Community Council Housing Compatibility Committee's recommendations regarding the SR-1 Overlay proposal. As a lifetime Avenues resident, I have lived with the consequences of the loose regulation during the 1960s that allowed apartment buildings to be constructed on residential Avenue blocks. In the name of "property rights" many of these incompatible structures were permitted and permanently degraded the character of several neighborhoods resulting in the lowering of surrounding property values.

Now excessively-sized home additions and garages are causing the same problem. I live on L Street between 6th and 7th Avenues and in the past 2 years, within 2 blocks of my house, there are several recent examples of this kind of construction that individually and collectively are severely deteriorating the streetscape and desirability of my neighborhood.

Garage- SE Corner 7th and M
Garage- NE Corner 5th and L
House- 6th Ave between K and L southside- mid block

On my street most of the houses sit just inches from the property lines and so even a small increase in height or square footage allowances can have a significant impact on the adjacent properties.

Please listen to the people who have made a long term commitment to live in and maintain this historic neighborhood and do not make the same mistake that was made before in allowing poorly conceived additions and replacements to leave permanent and incompatible scars on one of Salt Lake's treasures.

Dear Commissioners,

Petition 400-06-08 – The Avenues Overlay

You will have lots to read so I have written this letter so that you can either read the whole thing or just the bolded words and still get the main ideas .

Let me introduce myself. I am Jill Van Langeveld. I grew up in Cottonwood Heights among big spaces. **I moved on the Avenues in August 1966, 40 years ago** this summer, into the downstairs unit at **259 6th Avenue** – a duplex which my husband's father bought in the 1920's after immigrating from the Netherlands. My husband grew up in the upstairs unit. We eventually bought it from his Mother, moved upstairs and rented the downstairs. We tried to buy the historic home next door at **253 6th Avenue**, which we rented for two years, but some members the family didn't want to sell when we were in the position to buy. We had to look for another house. My husband teaches in Davis county so we also looked in that area. We finally narrowed our search to two homes – one on the Avenues and one in North Salt Lake. The home in North Salt Lake was better designed and better built but when it came right down to the final decision, we bought "The Neighborhood" at **807 Northcliffe Drive**. We also own a 6-plex at 225 6th Avenue.

I have been **active in the Greater Avenues Community Council since the 80's** and have been **Entertainment Chair for the Avenues Street Fair since 1997**. Working with wonderful neighbors keeps me coming back year after year. It is also gratifying to hear from the musicians who have told me that the word in the music community is "the Avenues Street Fair has become THE place to play."

In 2003 I was elected to a three-year leadership commitment to the GACC: Chair-Elect, then Chair and finally Past Chair. While **GACC Chair-2005, I organized our Housing Compatibility Committee**. They were charged to find a solution to our "Big House/Over Build Problem." What is happening here on the Avenues is just a microcosm of what is going on all over. People across the country are trying to find ways to help save their neighborhoods. The trend is toward larger homes going from 1,900 sft in 1985 to 2,400 sft in 2005. BIG isn't necessarily good or bad but in the Avenues SR-1 neighborhood where the lots are sometimes long and usually very arrow and where view and sunlight are important values, BIG can cause a great deal of friction.

I have talked with many people over the last 12 months and the **trend most people** on the Avenues **would like** to see is that **additions to homes or garages are sensitive to their neighbors**. Let's make it a Win-Win situation for everyone. I have read the recommended

changes to our Avenues Overlay Proposal and two I call minor and won't fight. But **the suggested changes to 5B. Primary Accessory Buildings are not acceptable. Our goal was to give the homeowner the opportunity to build/remodel adding needed square footage and height while creating as little negative impact on neighboring property owners as possible.**

A garage is a wonderful thing to have. **Off-street parking on the Avenues is a premium.** Neighbors understand this and can deal with a "garage." A **"garage with a tall roof full of storage" is much harder to accept when it impacts you negatively.** We had **proposed a 480 sft accessory building (a double car garage) with a 14 ft peak and a 9 ft wall height.** I understand that a few contractors who were asked about these height restrictions said that the restrictions would cause problems. They needed at least a 10 ft wall with 15 ft peak to install an automatic garage door opener. I contacted **Martin Garage Doors Company** and they **said that for a 7 ft high door** (the most common height although mine is only 6'7") **the minimum wall height was 7 feet plus 15 inches for clearance** which includes a place for the door to go as well as the automatic opening/closing mechanism. That **totals only 8'3"**. According to Martin Doors, **9 foot side walls would exceed the minimum required for installation.** Some contractors may have a phobia of working in enclosed spaces so the 9 foot flat roof garage may bring on that phobia.

The reason for the Overlay is to protect the most vulnerable of our citizens so we have **looked at minimum standards** for counter permits. If someone needs a larger garage, then let him/her go to Tier II. That is why the **Tier Process is extremely important. Tier I** (counter permits) **protects the vulnerable while allowing those larger projects that won't cause negative impact to their neighbors to get their permit easily on Tier II** (Administrative Hearing). **The controversial projects are sent to Tier III** (Board of Adjustment) **to work out problems.**

Please don't take that protection away. We need it. Property rights are important to everyone – new residents, old residents and potential residents. If former zoning/permit policies and building practices had worked, then we would not be here today struggling with these problems.

Sincerely,

Subject: Re:Planning Office response to proposed SR-1A Zoning

Dear Planning Staff and Commission Members,

I wish to respond to the proposal of Planning Staff regarding changes to the SR-1A zoning proposal made by the Housing Compatibility Committee (HCC) of the Greater Avenues Community Council (GACC). I apologize for brevity and errors as I am traveling and pressed for time.

In a meeting with Planning Staff community members including myself were informed of Plannings intent to recommend standards for accessory structures based more on existing policy and convenience than on the Communities assesment of it's needs. I urge the Commision members to support the proposal of the HCC (and as adopted by The Capital Hill Community Council and GACC) as originally submitted.

Specifically:

5 B. Primary Accessory Buildings:

HCC Proposed a 480 sf accessory building with a 14 foot peak height limit and a 9ft wall height limit as the maximum acceptable under Tier One.

Planning Staff recommend a 600 s.f. accessory building with a peak height of 15 feet and wall height limit of 10 feet.

Their reasoning was as follows:

1. Some builders were consulted who felt it would be more difficult to accomodate a 7ft garage door with a 9 foot flat roofed building.
2. The 50%, 600 sf standard has been in place for sometime, and is the standard accepted by Landmarks.

"Some builders" consider a seven foot door to be standard. A 6'8" door is also a standard residential size and probably much more commom in the Avenues. A Volkswagen Eurovan Camper fits in a 6'8" door.

"Some builders" said it would be "difficult" to acomodate a 7 ft door; no architectural or structural evidence was presented.

If the older standards such as construction convenience and historic compatibility were working we wouldn't need an overlay. The new standard is the evaluation of negative impact on the neighborhood and the neighbors property. The Housing Compatility Committee, as ratified by vote of the Community Councils, has determined thru investigation of existing properties that ten foot high outbuilding walls have a significantly greater potential for negative impact on neighboring property owners and should,therefore, be subject to further review and neighbor imput in Tier Two.

The Landmarks Commission's standards of practice have been developed with a priority of historic continuity and street-face compatibility, where our proposal was developed by accessing impact on neighbors, therefore I do not consider the precedence of Landmarks acceptance as a suffuciently relavant reason for Planning Staff to advance a recommendation over HCC's.

The existing outbuilding standard was not changed in the City-wide infill ordinance, nor in the temporary ordinance, despite evidence of clear damage done to neighbors in the Avenues by accessory buildings.

Keeping the old standard flies in the face of the spirit of the Overlay.

Further, since the Overlay must protect the areas most vulnerable properties, the place to err is clearly on the side of caution and more protection, since an error in under-protection is virtually premanent and an error in overprotection is appealable.

Sincerely,

Jim Jenkin

Gentlemen and Ladies

I received notice of this meeting by mail Unfortunately because of a previous commitment I will be unable to attend this meeting I therefore would like you to know my concerns and request that this letter is read out loud at the meeting scheduled for Wednesday April 12 2006 at 5 45

This letter is in response to Item (d) petition 400 06 08

I think this petition is a result of one or two houses that were improved or built in the avenues in very poor taste Unfortunately because of the actions of a couple bad apples the avenues community council now wants to restrict the freedom of all the avenues resident to have full use enjoyment and the ability to upgrade and improve their homes I do not think good taste can be legislated or zoned

I am alarmed and concerned about the seeming attempt by a few people in the Greater Avenues Community Council to restrict the freedom to enjoy and improve the living conditions of the majority of the Avenues residents

I have been an avenue resident at for over 25 years I enjoy living in the avenues because of the tolerance and diversity of the residents and the diverse architecture Now it appears that the tolerance aspect is diminishing

The Greater Avenues Community Council (GACC) sent out a newsletter dated October 2005 where they claimed 94% of avenues residents want to regulate building volume relative to size I sent a letter to the GACC questioning the methodology and validity of this statistic and they never gave me the courtesy of a response I was never asked my opinion and the few people that can get into the Avenues Sweet Branch Library for the GACC meetings do not constitute a majority of the Avenues Residents I would like the GACC to explain its methodology used to arrive at these percentages I seriously doubt if it had any resemblance to a scientific survey

Lets face facts The avenues area is an older area and many many houses are in need of significant additional investment to bring them back to an attractive and sound condition Additionally often older retired people on fixed incomes occupy these homes and they

cannot afford to upgrade their homes for example look at the house on the northwest corner of 8th Ave. and I street this house has been deteriorating for the past 15 years. These homes are not improved until these older residents die or move out. Some houses do not justify an improvement because the high investment needed would not be recovered by the market value of the house. Often the only way to justify this needed investment is to add additional square feet and make it suitable for a family. This was the situation I was faced with when I ended up building my house. The previous house I lived in the Avenues had become too small for my family, its floor plan was not efficient, the plumbing and wiring were not what I would like etc. I looked at fixing these problems but the high investment needed did not justify the market value. My choice was to build a larger more useable house next door on a small lot that I owned. Effectively building the maximum size house I could for the lot. If the new rules are passed it appears that I would not be able to do this in the future!

I am in favor of high-density neighborhoods the Salt Lake valley now appears to be almost entirely developed; high density is exactly what Salt Lake needs and the avenues are. The avenues population is older, and slowly new families are moving in. These older homes often are not suitable to a growing family and a very few people that have the time to attend GACC meetings and can get a seat at the small room at the Sweet library do not constitute any significant overall representation of the broad, large and diverse population of the Avenues and this small group should not stop the improvement of these homes.

I think the GACC would be much better advised to see that proper sidewalks are put in place. Somehow there are many houses and several streets that have no sidewalks. As I walk around a neighborhood suddenly a sidewalk ends and I am forced to walk into the street. Areas I am referring to specifically are on 10th Ave. between F and G Street and G Street between 10th and 11th Ave. and the homes above 11th Ave. I would like the zoning department to require that any house in the avenues that does not have a sidewalk in front of the house to install one to encourage safe pedestrian traffic.

I am strongly against any change in the current zoning rules for the Avenues area that would restrict the improvement of the neighborhood or change the current allowed size for houses in the Avenues.

Sincerely,

Franz Amussen

Joel Patterson:

In reference to our discussions pertaining to the Council's consideration in adopting the Avenues Overlay for SR-1 Zoning Ordinance I wish to convey two concerns and two possible solutions.

Problem #1: Primary Building - The restriction of 23' from the ground to the peak of the roof at any point (or the average height of the ridge of houses on the same side of the block).

For a property such as mine, single story rambler on the north side of 9th Ave (569), the lot slopes north to south. This would be very difficult for anyone who wishes to add a second story. The foundation is at ground level at the back of the house, it is approximately 30" high in the front. This would mean the ridge of the roof would have to slope down 30" from back to front (I have a hip roof and the ridge runs north and south).

Problem #2: Primary Building - The restriction of 16' maximum exterior wall height. Many of the avenues homes have 9'-10' high ceilings on the main floor. Any 2nd floor addition including up to 6" for floor joists and subflooring would reduce the ceiling height on the 2nd floor to 5.5'-6'. Standard ceiling heights for new construction are 8'. Many of the homes on 1st, 2nd and 3rd Avenues are 2 story whose walls well exceed 16'.

If you include the 23' restriction of the peak of the roof at the front of my house that would mean the floor to ceiling on the 2nd floor would be 4' and 6.5' on the back.

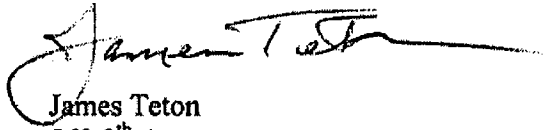

I know that there are options to apply for variances or by other means but many of the lots in the avenues are sloped so I don't know how efficient it would be to adopt these standards as is.

Suggestion #1: Primary Building - The height of the ridge of the roof is 24' at the highest point of the original foundation (or the average height of the ridge of houses on the same side of the block). This would prevent someone wishing to expand back to higher ground unless they removed dirt to do so in order to maintain the same site line. The extra foot of height would also allow for -

Suggestion #2: Primary Building - The maximum height of any exterior wall is not to exceed 8.5' above the ceiling of the main floor.

Thank you for your consideration.

Sincerely,

GREATER AVENUES COMMUNITY COUNCIL BACKGROUND REPORT

Planning Commission Staff Report

Petition 400-06-08: Compatible Infill Standards for Capitol Hill and the Avenues Communities

Greater Avenues Community Council

Proposed Overlay for the SR-1 Zoning District

March 6th, 2006

Greater Avenues Community Council

1180 1st Avenue, Salt Lake City, UT 84103

Stephen F. Mecham, Chair Phone: 801 359-4165

Salt Lake City Council
Salt Lake City Planning and Zoning
451 South State Street, Room 406
Salt Lake City, Utah 84111

Dear Council Members and City Planners:

The Greater Avenues Community Council (GACC) is pleased to submit for your review the enclosed SR-1 Overlay overwhelmingly approved by the GACC March 1, 2006. As you know, in July 2005 GACC established the Housing Compatibility Committee to develop the enclosed Overlay. In its March 1, 2006 meeting, GACC also voted to allow representatives of the Housing Compatibility Committee to work with Planning and Zoning if any changes are needed to facilitate City Council approval of the Overlay.

During the past seven months, the Housing Compatibility Committee has sought public input and has worked diligently to develop the Overlay to preserve and protect the unique characteristics of SR-1 properties in the eclectic Avenues area. The GACC believes the draft Overlay establishes a new set of fair and flexible zoning rules specific for the Avenues District SR-1 area that will allow for a large range of diverse development patterns and still provide a measure of predictability for everyone in the community. We urge you to approve the Overlay as it is proposed.

We look forward to working with you in enacting and implementing the Overlay. You may call me at 359-4165 with any questions. Housing Compatibility Committee spokesperson Shane Carlson may be reached at 596-3939 and Committee Chair Lon Richardson may be reached at 364-4529.

Sincerely,

Stephen F. Mecham, 2006 Chair
Greater Avenues Community Council

Summary

Over the summer of 2005, the Avenues experienced a number of controversial construction projects, involving both primary structures and accessory buildings. At the same time, the City Council was addressing a similar problem in several neighborhoods throughout Salt Lake City. In July, 2005, the City Council approved the Yalecrest Compatible Infill Overlay. In August, the Greater Avenues Community Council formed its Housing Compatibility Committee (HCC) to investigate and address the specific housing issues in the Avenues.

The HCC identified the SR-1 district as the area most impacted by recent incompatible infill. Characteristics of the SR-1 area contributing to the problem included a high percentage of deep and narrow lots, a high percentage of lots not conforming to the minimum width and square foot requirements of the SR-1 code, the liberal nature of the SR-1 code, and the rapidly rising property values in the SR-1 area.

The HCC attempted to develop a single set of dimensional restrictions that would provide predictability for the residents of the more vulnerable SR-1 areas while still allowing flexibility where taller building heights are the existing development pattern. The HCC struggled to come up with a reasonable set of standards under the previously existing system where projects exceeding dimensional limits were sent directly to the Board of Adjustment. As an alternative, the HCC proposed a tiered permit system where projects exceeding the dimensional limits for a counter permit but that were consistent with the character of the neighboring buildings were approved in an expedited manner.

At that same time, the City Planning Office proposed its own tiered permit system. The HCC development of an SR-1 overlay was put on hold while the City considered a city-wide compatible infill ordinance. After that ordinance was adopted, along with temporary restrictions for the Avenues SR-1 area, the HCC resumed work on an SR-1 overlay.

The efforts of the HCC were focused on conducting a comprehensive inventory of all SR-1 residential properties in the Avenues, a thorough review of the existing SR-1 ordinance, and the Avenues Master Plan, as well as soliciting input from a wide range of avenues residents, architects, contractors, and real estate brokers.

The HCC concluded that in order to provide predictability, the proposed overlay needed to perpetuate the temporary height restrictions originally proposed by the City Planning Office, that allowances needed to be made for the narrow non-conforming lots, and that the trend towards large multiuse accessory structures needed to be balanced against the often disproportionate impact these structure had on adjacent properties.

Issue Origin

Over the summer of 2005, several new construction projects were started in the Avenues that concerned a large number of Community members. These projects consisted of primary structure remodels and new garages. Several of these projects became the subjects of articles in the local papers on “Monster Homes” and incompatible in-fill (see Appendix A).

At the same time that Avenues community members were recognizing the early stages of an incompatible infill problem in their area, the Salt Lake City Council was beginning to address the same problem city wide. Specifically, in July, 2005 the City Council approved the Yalecrest Compatible In-fill Overlay *“to encourage compatibility between new construction, additions or alterations and the existing character and scale of the surrounding neighborhood.”* Also at that time, the City Council was considering a 6-month moratorium on new projects to allow time for communities to develop neighborhood specific guidelines to protect against incompatible in-fill in the more vulnerable city neighborhoods (Ordinance 44 of 2005). That moratorium was approved and then rescinded a week later as some Council members were concerned that a city-wide moratorium was too broad a measure to address problems not experienced in all neighborhoods.

It was also at this time that the Greater Avenues Community Council (GACC) organized the Avenues Housing Compatibility Committee (HCC). The HCC was charged with the task of studying the problem of incompatible infill to determine which significant factors were driving the “Monster House” and “Monster Garage” phenomena both locally and nationally, as well as which areas of the Avenues were experiencing the greatest impact.

Process

At the August GACC meeting, Yalecrest Overlay Committee members David and Lisette Gibson were invited to discuss their efforts to develop and gain approval for the Yalecrest Overlay. It was also at that meeting that the formation of the HCC was announced and input from all members of the Avenues community was solicited (see Appendix B). The charge of the HCC was to find community consensus regarding structural regulations which give clear standards and allow us to preserve the value of our community. The HCC began meeting weekly.

At the HCC meetings, it quickly became apparent that several factors were contributing to the incompatible infill problem. First, nearly all of the most controversial projects were occurring in the SR-1 zoning district. Second, a large number of projects involved residents new to the Avenues neighborhood who were moving to the area in response to high fuel prices and increasingly lengthy commutes from distant areas within the Salt Lake Valley. Many of these new arrivals stated that they were simply trying to replace their smaller homes and garages with something similar to what they had left behind on their much larger lots in the suburbs. And finally, many controversial projects involved the construction of new garages as well as modifications to primary structures.

Over the course of several HCC meetings in August and September, 2005, committee members attempted to identify subsections of the SR-1 district that would benefit from a new set of zoning regulations. Several conclusions were drawn from those discussions. First, while there are some broad patterns of development within the SR-1 district that appear to have evolved over time (bungalows between 6th and 11th Avenues, Victorians on 2nd and 3rd Avenues), there are no clear lines of demarcation between these areas, homes of all types can be found throughout the SR-1 area (large Victorians on many block corners as high as 11th Avenue). Coinciding with the difficulty the HCC encountered in defining any significant homogenous areas in the SR-1 district, the committee experienced difficulty coming up with any one set of dimensional counter permit limits (such as building height) that would provide some degree of predictability and protection for areas predominantly comprised of 16 foot tall bungalows while allowing taller remodels and additions in areas where taller two and three story Victorians were predominant.

It quickly became apparent to the members of the HCC that the single most consistent and challenging characteristic of the Avenues would be the very diverse nature of the community with mansions and cottages, historic and non-historic areas, families and single adult professionals, couples just starting their lives together and widows and widowers.

It was a huge challenge to come up with a single solution to fit each very different situation. Out of this challenge grew the idea of a three tier permit process as a way to protect the most vulnerable blocks while allowing an easier permit process for compatible building in areas of larger houses. However, because of the added complexity of a tiered permit process, HCC members were unsure if the City would support such a significant change to the permit process.

Apparently, the City Planning Office was thinking along the same lines as they were developing a proposal which was presented to the City Council on September 20, 2006. At that time, the Planning Staff presented the outline of a process to develop compatible residential infill zoning standards that was a combination of *reduced measurement standards* and a *new three tier building permit process*. The City Council requested that the Administration return to the Council with a completed recommendation using the tiered process that could be passed by December, 2005.

Because of the similarities between the process under consideration by the City Planning Office and the tiered process being considered by the HCC, the HCC members shifted their attention to the Citywide Compatible Infill Ordinance (eventually known as Ordinance 91 of 2005). Efforts to develop an Avenues SR-1 Overlay were put on hold until the City completed their new ordinance with the idea that after the ordinance was voted upon, HCC members would evaluate what had been passed citywide and develop an appropriate proposal for the SR-1 area if needed.

During October and November, 2005, numerous briefings and public hearings took place before the Planning Commission and the City Council. The HCC members were at every

meeting, either writing letters or talking individually to commission and Council members and formally speaking to the new proposals (see Appendix C). The HCC continued to meet by-weekly to find ways to support the Planning Department with the proposed zoning changes and coordinate the HCC member's efforts.

On December 13, 2005, the Salt Lake City Council adopted the city-wide Compatible Residential Infill Development Zoning Ordinance amendments (Ordinance 90 of 2005) and Temporary Zoning Standards (Ordinance 91 of 2005). The purpose of the Temporary Zoning Standards was to allow the GACC to submit a proposal for neighborhood based zoning standards regulating compatibility of residential construction within the SR-1 Zoning District. The temporary zoning standards were to be in effect for 6 months and are expected to expire mid-July, 2006.

On December 28, 2005 Joel Paterson met with members of the HCC to review the essential elements of an overlay proposal to be submitted by a community council. Specifically, Joel requested that the GACC application for an SR-1 overlay include the following:

1. Documentation and research of area for infill
2. Describe the characteristics of the area
3. Proposed goals

The HCC members have worked closely with Joel Paterson and his staff as they began the process of creating the Avenues Overlay just as Yalecrest Community Council did.

Throughout January and February, 2006, the HCC met weekly.

HCC members made a complete inventory of all 2394 single and dual family homes in the SR-1 zoning district recording whether the home (1) was a 1, 1½, or 2 story home, (2) had an attached garage, and (3) had a pitched or flat roof (see Appendix D). Using maps of the SR-1 area, HCC members also estimated the number of properties in the SR-1 area that did not conform to the minimum lot width and minimum lot square footage requirements of the base SR-1 zoning regulations.

The HCC also reviewed zoning ordinances throughout the city both before and after December 13, 2005, consulted the Avenues Master Plan and met with City Council members, Planning Department officials, architects, realtors, contractors and area residents.

In addition, HCC members made every effort to communicate the work and findings of the committee to the entire Avenues community (see Appendix B). In December and early January, with the help of the GACC webmaster, Dave Jonsson and HCC member Lester Aoki, a comprehensive web-page was launched detailing, agendas, minutes, proposed overlay elements, area maps and links to outside resources (see Appendix E).

Finally, several articles written by HCC members were published in the monthly GACC newsletters and time was allotted during GACC meetings for monthly progress reports and presentations by the HCC (see Appendix B). The broader Avenues community was repeatedly invited to participate in the HCC meetings, share their ideas with committee members and to get involved in any way they could. Anyone who provided an e-mail address was added to the internal HCC e-mail list (AvenuesHCC@Comcast.net). Residents without access to e-mail were kept up to date with phone calls and paper copies of communications and works in progress.

In February 2006, the front page article in the GACC newsletter shared more information about the new zoning ordinances, specifically the City's new three-tiered permit approach. Results of the HCC inventory were presented to the GACC community meeting on February 1st 2006. A large color-coded map was used to depict the estimated number of stories in each residential property. Several minutes were devoted to providing definitions such as block face, development pattern, set-back, roof line, lot coverage, infill, overlay, and over-the-counter.

The March 2006 GACC newsletter provided an overview of the work and goals of the HCC and included a table on page 3 summarizing the proposed Avenues SR-1 Overlay.

At the GACC monthly meeting on March 1st, 2006, the completed Avenues SR-1 Overlay proposal was presented in detail. After the presentation and answering all questions from attendees, a vote was taken: 48 to 5 in favor of the Proposal.

Methods

As discussed earlier, the expectation of the City Planning Office was that the HCC would provide documentation and research describing the characteristics of the area being considered for the proposed overlay. To this end, the primary efforts of the HCC were a comprehensive inventory of all residential properties in the SR-1 district (see Appendix D), an estimate of the number of residential properties that conformed to the minimum lot width and minimum lot square footage requirements of the SR-1 zone, and identification of vulnerable block faces within the SR-1 area which the City would then survey to obtain maximum building heights for a given block (See Appendix F). In addition, the HCC conducted a thorough review of the current SR-1 zoning ordinance, including the recently adopted citywide Compatible Infill Ordinance and the Temporary Infill Ordinance applied to the SR-1 areas of the Avenues and Capitol Hill neighborhoods and the R-1-5000 and R-1-7000 areas of the Wasatch Hollow district.

A walking inventory was conducted by Avenues residents which classified conforming use dwellings in the SR-1 zone by number of stories, the presence or absence of an attached garage on the front façade and whether or not the structure had a flat roof (see coding sheet – appendix D). Over sixty pictures of homes in the SR-1 area were

reviewed as part of a training session for those HCC members conducting the Inventory. Number of stories was used as a rough estimate of building height. Classification of stories was based upon the following criteria:

- 1.0 Stories (Do not and could not live within the roof)
- 1.5 Stories (Could build within roof, 2nd story knee walls less than 4 feet)
- 2.0 Stories (Two stories or 2nd story knee walls taller than 4 feet)

Homes were classified based upon their appearance from the front façade as seen from the street. Where homes were located on a slope and the possibility of an additional story such as a walkout basement was not readily apparent, the slope was noted.

A flat roofed structure was classified as anything less than a 3/12 pitch based upon a diagram the person doing the inventory could compare to a building's roof pitch (see Appendix D for the inventory coding sheet).

Three color coded maps were produced from the SR-1 inventory, one for number of stories, one for flat roofed buildings and one for garages as part of the front primary building's façade.

In summary, 1084 of the 2394 homes (45.3%) were classified as single story, 676 (28.2%) were classified as 1.5 stories, and 634 (26.5%) were classified as 2 stories or taller.

Results of the inventory clearly indicate the existence of entire block faces comprised of one story homes spread throughout the SR-1 district (see Inventory Height map – Appendix D). It was estimated that the tallest homes on these block faces would be 16 to 18 feet in height.

A sample of these vulnerable block faces was submitted to the City Planning Office for Survey (see Survey Map – Appendix F). Survey results to confirm these building heights are still pending at this time.

A typical block face of one story buildings (East side of K between 7th and 8th Avenues)

The inventory maps of flat roofed buildings (85 – 3.5%) and homes with garages as part of the front façade (one-car 186 - 7.8%; two-car 155 - 6.5%) revealed that these structures are uncommon in the SR-1 area and a significant number are concentrated north of 11th Avenue.

HCC members also estimated the number of residential lots that did not conform to the fifty foot minimum lot width requirement or the minimum 5000 square foot lot size requirement of the SR-1 district. Using City zoning maps and creating a template to estimate lot width and size (based upon the 330 feet X 330 feet block size that is predominant in the SR-1 area and that the typical lot size of $\frac{1}{4}$ width of one quarter of the block results in a property that is 41 feet 3 inches in width), it was estimated that 360 (15%) of the 2394 residential SR-1 properties met the SR-1 minimum width and lot size requirements. Stated another way, 2034 properties (85%) do not meet the minimum lot size requirements upon which the other SR-1 dimensional limits such as height and side setbacks are based.

Review of Existing Zoning Regulations

In addition to the inventories and surveys, the HCC conducted a thorough review of the SR-1 zoning ordinance that was recently modified by the City Council (21A.24.080 SR-1 Special Development Pattern Residential District) as well as the temporary restrictions put in place for this area by the City Council (Ordinance 91 of 2005).

One very important addition to the permitting process was the tiered nature of the newly adopted Infill Ordinance. As mentioned earlier in this document, the HCC was considering a similarly tiered process to address the wide variety of development in the SR-1 district. Evaluation of the existing zoning regulations was done with the expectation that the Administrative Public Hearing process would be significantly easier to navigate for appropriate projects than the Board of Adjustment had been as the previous next step for projects exceeding the counter permit limits.

Also, in consultation with the Planning Office officials, the HCC's intent is to propose a set of dimensional limits for the SR-1 area that will not change if city wide modifications to dimensional limits are adopted. The HCC will follow the direction of the City Planning Office as to whether this is best accomplished via a comprehensive SR-1 overlay or the creation of a special Avenues/Capitol Hill SR-1 zoning district.

Modifications to Current SR-1 Zoning Ordinance (see Appendix G)

No modifications to section "B: Uses" based upon table 21A.24.190 for the SR-1 zoning district of the City Code are proposed.

No modifications to section "C. Minimum Lot Area and Lot Width" are proposed.

In reviewing section "D. Maximum Building Height" the HCC took several items into consideration. In October, 2005, when the City Planning Office first proposed new citywide zoning changes, the recommended citywide SR-1 and R-1 district restriction on building height was 23 feet at the peak. According to testimony of Planning Office officials at that time, 23 feet was the height restriction they estimated would be necessary to provide predictability and protection to the areas within the city most vulnerable to significant impact of incompatibly larger remodels and new construction. The Planning office at that time estimated that a height restriction of 16 feet for flat roofed buildings and exterior walls was also required to protect these same areas. The HCC feels strongly that if combined with the tiered permitting process to allow taller projects where appropriate, the 23 feet building height limits and the 16 foot exterior wall and flat roofed building height limits are essential to protect and preserve the character of the vulnerable SR-1 areas.

After reviewing section "E. Yard Requirements," the HCC has proposed several minor modifications to better address the large percentage of non-conforming lots in the SR-1 area.

In section "E: 1. Front Yard," the HCC was concerned about the potential impact of several blocks where buildings originally designed as commercial properties, but now used as residential properties, could impact the calculation of front yard setback. The zoning ordinance as recently modified calculates the required front yard setback as the average on the block face. Commercial properties were often built with no front setback, flush with the front property line. On blocks where commercial buildings have been converted to residential use, such properties could significantly impact the calculation of

the average, allowing new construction with a much smaller front setback than the other residential properties on a block. There are also several block faces in the SR-1 area where some homes were built with a significantly larger front setback, which would result in a new project being required to have a larger front setback than the other homes on a block. To minimize the impact of these atypical situations, the HCC has proposed that where there are three or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding the one property with the smallest front setback and excluding the one property with the largest front yard setbacks.

In item 2 of section E, "Corner Side Yard" setbacks; the HCC has proposed that the language allowing inline front setback exceptions for existing buildings be stricken. Because of the history of abuse in this area of inline side setback exceptions, HCC members felt that these exceptions would best be granted on a case by case basis with the overview of the Administrative Public Hearing Officer.

The HCC has proposed a modification to item 3 of section E, "Interior Side Yard" setbacks to address the large number of very narrow non-conforming lots within the SR-1 district. Often, these lots are as narrow as thirty feet (30') in width. The proposed modification is as follows:

b. Other Uses:

ii. Interior Lots: Four feet (4') on one side and ten feet (10') on the other.

- a. Where the width of a lot is 46' 8" or narrower, total minimum side setbacks shall be equal to 30% of the lot width with one side being four feet (4') and the other side being 30% of the lot width minus four feet.
- b. Where a lot is 26' 8" or narrower, required side setbacks shall be a minimum of four feet (4') and four feet (4').
- c. In no case where required side setbacks are less than four feet (4') and ten feet (10') shall the addition, remodel or new construction be closer than ten feet (10') to a primary structure on an adjacent property.

This language is proposed as a change to the first tier or "counter permit" limits for all additions and new construction. This modification was developed in an attempt to deal proactively with a situation that would otherwise present a frequent challenge to property owners given the non-conforming nature of a majority of the lots in the SR-1 area.

No modifications to section "E. Yard Requirements; 4. Rear Yard" were proposed.

As mentioned above, garages have recently been the subject of many controversial projects. Like many of the other issues unique to the SR-1 area, the problem is exacerbated by the number of very narrow non-conforming properties. In addition, the

SR-1 area is characterized by views of the Wasatch Mountains, the Salt Lake Valley and the Oquirrh Mountains from many properties.

The HCC considered the trend towards much larger garages and the many uses for which accessory buildings are often built. The HCC has proposed a set of restrictions that gives priority to those accessory buildings used to house up to two automobiles. At the same time, the HCC did not want to prohibit construction of additional space to be used for storage, a gazebo, a green house, or a small personal workspace. Given the often small narrow lots, the HCC has proposed a counter permit limit of 600 feet lot coverage for all accessory buildings. In addition, the HCC has proposed that 480 square feet of accessory building may have a maximum building height of fourteen feet (14') with a maximum wall height of nine feet (9'). Additional accessory building space up to the total 600 square foot limit may have a peak height up to ten feet (10') with an eight foot (8') wall height limit.

No modifications are proposed by the HCC to the remaining SR-1 sections; "F. Maximum Building Coverage," "G. Maximum Lot Size," or "H. Standards for Attached Garages."

Modifications to the SR-1 zoning ordinance to disallow the creation of garages attached to the front facade and the creation of new flat roofed buildings were considered. Given the challenges posed by often narrow lots and the overall limits on flat roofed building height (sixteen feet), it was determined that additional restrictions would be unnecessary at this time.

A complete summary of the proposed modifications to the SR-1 zoning ordinance is provided in Appendix G. The summary in Appendix H was created as a modification to the SR-1 text as it existed on March 1, 2006. Additions are depicted by underlined text. Deletions are depicted using ~~strike-through text~~.

A chart of the proposed SR-1 modifications and the historic SR-1 ordinance is also provided in Appendix G.

The HCC has provided renderings of model structures/examples meeting the counter permit requirements of the proposed ordinance. These examples depict a ground floor and within the roof addition to a 1300 Square foot home on a .15 acre lot (41.25 feet by 165 feet), a depiction of the proposed modification to the minimum side setback required for interior lots, and a sketch of the proposed size and height limits for accessory buildings (see Appendix H).

As a tool to more clearly depict the proposed limits, the HCC is presently working with an AIA certified Architect to produce drawings with the proposed dimensional limits applied to example structures. These drawings should be available to the Planning Office by March 15th, 2006.

The draft proposal in Appendix H was written and submitted to the full Community Council for a vote on March 1, 2006. Copies of the chart in Appendix H were also provided to all council attendees.

Conclusion

In recommending that counter permits be restricted to buildings and additions with a maximum peak height of 23 feet, the HCC is not only adopting the height restrictions recommended as necessary to protect the city's most vulnerable properties by the Planning Office in their original proposal, the HCC has arrived at a conclusion similar to the recommendations of the most recent Avenues Master Plan Update (July, 1987) but which were never adopted; "Many of the incompatibility problems created by new construction in residential areas are associated with excessive building height; new dwellings that tower over adjacent homes, second level or rear additions that overwhelm the original structure. A recently adopted ordinance will reduce height potential in areas encompassed by the 'F-1' Foothill Development Overlay Zone." The Master Plan goes on the comment that "If these limitations prove to be successful in accomplishing their intended purposes in the 'F-1' areas, similar height restrictions may be considered for other R-1 and R-2 areas in the Avenues Community."

The Avenues has a substantial history as a community rather than just a neighborhood, with a shared vision of neighborhood interaction, historic preservation and architectural quality.

Previous down-zoning has established that single family dwellings were the community standard. Mother-in-law and basement apartments are generally acceptable, along with some duplexes. Large monolithic structures, whether apartment blocks or large homes have been discouraged.

The Avenues was mainly developed as a close-to-center residential area where mass transit use was high. Such remains the case today, with three bus routes serving the Avenues Community and many properties within an easy walk of city center. The historic development pattern for the SR-1 district has been a preponderance of smaller homes on long narrow lots.

While social factors, particularly the strong sense of neighborhood, had previously been sufficient to limit anti-social building practices, the escalating value of "close-in" residential property in combination with a weak SR-1 zoning ordinance and a large number of nonconforming lots have contributed to a pattern of abusive building practices.

A final thought on Increased Zoning Enforcement borrowed from the Avenues Master Plan. "Effective zoning enforcement is essential to maintaining desirable neighborhoods. More restrictive requirements such as reducing height limits and increasing the minimum duplex lot area actually increase temptation for additions and duplex conversions without permits. The city must therefore increase its commitment to enforcement of zoning and building codes in the suggested more restrictive requirements are to be effective."

Zoning regulations are important, but only effective if administered consistently and in a reasonable amount of time. Members of the HCC are committed to the successful implementation of the proposed ordinance and to that end will do everything possible to assist and work with the city in implementing the tier permit system and the proposed SR-1 Overlay.

Big homes, big problems

When an Avenues homeowner tore down his tiny house to put up a 'monster home,' neighbors in its shadow were none too happy

By Heather May
The Salt Lake Tribune
Salt Lake Tribune

Ellen Horrocks has spent most of her life in the home her parents bought at 423 N. K Street during World War II. And when she married Ervin Horrocks almost four decades ago, he moved in, too.

The white house with a red roof has been a source of pride, and so has the view of the valley from the back yard. The elderly couple have watched thunderstorms and planes fly through. Sometimes, they sit outside until midnight, talking.

These days, talk is focused squarely on what's impeding that view and, they say, their privacy - a new home taking shape next door at 675 8th Avenue that dwarfs its neighbors. It's changing not only the Horrocks' corner of the Avenues, but could eventually alter the city's regulations on home construction in older neighborhoods.

Not only that, it's turned the Horrocks into reluctant activists. They've given up on trying to stop the 8th Avenue project, but they and others hope to change city zoning to ensure future remodels are compatible with the neighborhood.

"We've sort of taken up the mantle," Ellen says recently while sitting in her kitchen, where the home in question can be seen. "This has been one of the hardest things, to have it fill the windows. You can't get away from it.

"We'd like to have had more protection from the city."

Current zoning allowed Ethan Call to tear down a roughly 1,000-square-foot home and build a 6,000-square-foot one in its place. While city officials are quick to say the home is legal, some also privately say the city still shouldn't have allowed it.

In a block consisting of mostly one-floor homes, this house will have two floors and it will take up virtually all of the narrow lot; it will be 106 feet long.

As the frame has risen, so have the tempers of some of the neighbors and the Avenues Community Council leaders. Earlier this month, the 8th Avenue house, along with some other tear-downs in the city, spurred the City Council to step in. It passed temporary zoning rules that, had they been in place before, would have severely limited the 675 8th Avenue home's height and the size of its backyard addition.

The temporary zoning was supposed to last a month while the city decided on permanent changes. But the short-term rules were rescinded less than a week later.

Now, Councilman Eric Jergensen, who represents the Avenues, said the community is pursuing Avenues-specific regulations to ensure major remodels and additions fit in - a difficult task considering the Avenues is a mix of home sizes and styles.

Jergensen said the city will look at height and lot size. Some homes in the Avenues already go through that process because they are in a historic district, which ends at 6th Avenue.

"What we want to avoid is the tearing down and replacement of homes that are so totally out of scale," said Jergensen, who considers the 8th Avenue home just such a house and refers to it as the "poster child of excess."

But Jergensen acknowledges the city must also juggle the need to allow neighborhoods to evolve and attract families.

Call, the builder of the 8th Avenue house, lives in Afton, Wyo. He said he is trying to turn a run-down home - the original was at least 60 years old and lacked insulation and had structural problems - into a family-friendly one. He is rebuilding it for his brother, Michel, who lives in California and has 10 grown children, Call said. It will have six to eight bedrooms, five bathrooms and a large garage. And the renovation will cost \$343,000, according to city records. But even to Call, it is unclear if his brother will move in.

Call said his brother bought the home because he liked the neighborhood. And the new home will have great views, Call said, acknowledging it will block his neighbors' vistas. And while he's somewhat sympathetic, Call said property owners have a right to use their property how they want as long as they follow city rules.

"I follow what the city has in place. This is within the city codes. A view is a small thing in life," he said, adding that he disagrees that the home doesn't fit in. He pointed to two newer homes further east on 8th Avenue that appear as tall as his will be. The owner of one of those homes said she was pleased with the changes Call is making.

When asked if he would want to live behind the 8th Avenue home, Call suggested his neighbors either sell or build a wall to protect their privacy.

The controversy has tempted him to "pack up and leave," Call said. But it is now egging him on.

"I really feel they [the neighbors] need to mind their own business unless they're prepared to really go after it" and change the zoning, Call said.

The Horrocks are taking his advice.

Avenues Should Accommodate Growth

By Michel Call

This article presents a different view than the one given by Avenues resident Carlson and others in a recent commentary. One has to wonder if the rallying cry of historic preservation is not being used as a smokescreen to cover the real motivation of economic self-interest. Many of those who already have nice homes in the Avenues appear to feel threatened by the prospect of future growth. Some have expressed the fear that the current trend of tearing down old rundown homes in the neighborhood and replacing them with larger family-friendly ones will adversely affect the property values of their own smaller homes.

Some Avenues residents have also expressed the view that families, and especially large families, belong in the suburbs, not in the Avenues. They display little sympathy for the many professionals with families in the greater Salt Lake community who face increasingly long commutes to work in the downtown area. Some residents seem to be asserting that since they were there first, they now have the right to exclude others, that they are somehow entitled not only to their own property but to the right to tell others what they can do with their property as well.

The hospital district in the middle of the Avenues took away views for hundreds of homeowners. The many large apartment buildings and condominiums throughout the Avenues that were built under earlier more liberal zoning guidelines put hundreds of additional homes in their shadows. It makes no sense at this point to say that future structures now need to be "consistent with the size of the surrounding homes", as Carlson and others are asserting.

A certain class of homeowners is being very active right now in the Avenues and some other areas in petitioning for more restrictive zoning or the expansion of historic districts. There are many other voices in the community that are not being represented or heard in the debate. City leaders need to think long and hard before imposing more restrictions to satisfy one very vocal group that may not serve the long-term interests of either the city or the larger community.

Well-meaning laws or government regulations often produce unintended results. Even in the most desirable neighborhoods, when newer and bigger structures are not allowed to replace older deteriorating ones, the end result is a run-down slum area. Some Avenues residents want to have it both ways. They want high prices for their property, but they also want to further restrict what a buyer can do with the property. People will not pay \$300,000 for a lot if they can only build a tiny home on it.

Schools serving the Avenues and other older neighborhoods are losing enrollment and face the prospect of closing their doors. At the same time, schools in West Jordan and other areas are bursting at the seams and being forced to adopt year-round schools. A forward-looking city will take steps to reverse this inequity, not accelerate it. Welcoming the construction of family-friendly homes to replace old deteriorating ones in the Avenues and elsewhere is the right thing for the future of Salt Lake City.

Deseret News
August 8th, 2005

We are writing as concerned members of the Avenues community.

Many consider the Avenues to be one of the most livable neighborhoods in Utah. The historic character and friendly atmosphere have attracted a diverse population. Another unique characteristic of the Avenues is the often long and very narrow lots. These small narrow lots present many challenges and potential rewards for all Avenues residents.

New residents are often surprised at how these narrow lots and the close proximity of their neighbors' houses can affect their privacy. Long time residents, many who have lived here for decades, cherish the close relationships that develop out of the frequent interactions "imposed" by this proximity and the life long commitment many have made to this area. The Avenues is truly a wonderful community.

We are very concerned that several of the new homes and garages being built in the Avenues are having a direct and potentially devastating impact on the very characteristics that have drawn so many of us to make such significant commitments to our neighborhood.

Recently, rising real estate values and long commutes from areas far from the heart of Salt Lake City have begun to exert new pressures on the Avenues. Residents often struggle when deciding how to best meet the needs of their families in homes that were not built to accommodate large families, homes that were built on lots that often leave few options. Some who have recently purchased property in the area feel compelled to maximize their "investment" by squeezing every possible square foot of building on to their postage stamp sized lots. Some simply want what they have always had but they are trying to impose their desires on an area with very different characteristics and challenges than the "developments" they left behind.

Presently, there is strong and growing support in the Avenues for preservation of the historic value and character of the area. On July 14th, the city council voted unanimously (7-0) to deny a prominent Salt Lake family's request to remove the historic status and protection that was impeding the sale of their home to a buyer wishing to make extensive changes (Salt Lake Tribune – July 15th, 2005, Avenues Home Stays on Historic Register). The desire to preserve the character of historic communities was also in evidence at the July 12th City Council meeting where approximately 55 members of the community urged the council to adopt stricter zoning rules in the Yalecrest area. Three members of the community urged the council to vote against the stricter zoning. Again, the council voted unanimously to adopt the stricter zoning regulations (Salt Lake Tribune – July 13, 2005, Big Houses Belong on Big Lots). At the conclusion of the vote, residents and community councils were urged to adopt the Yalecrest process and limits as a template for enacting similar restrictions to protect the character of their neighborhoods.

You may be aware of the "Hubbard house" at 1788 East Hubbard Avenue in the Yalecrest area. Similar to some of the houses being built in the Avenues, the Hubbard house with is quite large and inconsistent with the character of the surrounding homes. The Hubbard house is now known city wide as the primary example of poor design threatening the character of a neighborhood. It is our understanding that the family that built the Hubbard house never did move in. It has sat vacant for over six years as the owner has been unable to sell it. It is safe to say that some of the

homes now being built in the Avenues are rapidly acquiring the same notoriety as a significant threat to this area.

Our concern with many of these projects is not that things are changing. Everyone in the area can appreciate the need to update houses that are often 100 years old. Our concerns can be categorized as: 1) the immediate and significant impact these houses and garages are having on the neighbors who will be forced to live there shadows; 2) how many of these projects exploit the limits and strain the spirit of numerous outdated zoning regulations; and 3) the precedent these houses and garages set for an area where buildings of this size are simply non-existent.

In particular, the abuse of the inline side setback rule for "remodels," combined with projects that approach the maximum height limit, exacerbates the impact of these buildings on the neighbors that surround them. These buildings often completely obscure the views that neighboring properties have enjoyed for eighty years and longer, while the proximity and height of these buildings literally cast the surrounding homes in what feels like an arrogant, indifferent, and unrelenting shadow.

We are asking anyone considering "remodeling" or replacing an existing building in the Avenues to think carefully about the design of their project. Six thousand square foot houses do not belong on 30 foot wide lots that are less the 0.10 acres. Three car garages are not consistent with the area and cannot be built without adversely impacting your neighbors. It is piggish to impose projects such as these on the community. Building a monster house or garage may get you lots of attention but you will not be pleased with the message that such a project conveys about you to your new neighbors.

The community is very aware of the circumstances regarding all new building in the area. We value our neighborhood and the spirit of community we have cultivated. Building a house that is consistent with the size of the surrounding homes as well as the character of the neighborhood can speak volumes about your desire to be a valued member of this community. Doing so also creates a feeling of significant goodwill with your immediate neighbors as well as the community at large. Please, give us a reason to welcome you to the Avenues as neighbors.

Sincerely,

Shane Carlson

Article Last Updated: 11/16/2005 11:28 PM

Monster Homes: Amendments would protect character of older neighborhoods
Salt Lake Tribune If new zoning-ordinance amendments approved last week by the Salt Lake City Planning Commission had been in place before a 6,000-square-foot "monster home" went up on Eighth Avenue, it's unlikely that house would have been built, angering the owners of its 1,000-square-foot neighbors.

The out-of-place home is representative of an alarming trend - people buying modest lots in long-established Salt Lake City neighborhoods, then building oversize houses with matching garages that would fit in just fine in South Jordan or Draper but can ruin the character of a street in the Avenues or other urban areas.

Acting on city residents' complaints, the planning board has voted to send a list of potential zoning-ordinance amendments to the City Council that would protect residents from finding themselves sharing a street with these leviathans. We believe the amendments are fair.

The changes would not outlaw the super-size houses, but if they are adopted by the council, would force builders to jump through hoops small enough and high enough to encourage them to build the larger homes in appropriate neighborhoods. If they are undeterred by the rules, they could ask for a variance from the Board of Adjustment or go through a public-hearing process to explain why they should be granted an exception.

The amendments would enforce front-yard setback rules, lower the maximum height of a house to 23 feet from the current 30 feet and put restrictions on the size and placement of auxiliary buildings, including garages. The recommendations also include limits on how much of a building lot could be taken up by the house, making it difficult to build a very large home on one of the small lots common in older parts of the city.

Under the recommended changes, a person still could buy two lots and build a large home in the middle, set back appropriately from the street with an unobtrusive garage. Such a home in that setting probably would not compromise the neighborhood in the same way that the irritating supersize houses now can.

The amendments would act to keep most extra-large homes out of established neighborhoods of smaller houses. They are not so stringent as to stymie home building, but would maintain a sense of proportion and place.

Greater Avenues Community Council

The Agenda

www.slc-avenues.org

Volume IX, Issue 7

July 2005

How Do You See Growth in the Greater Avenues Community?

For any that haven't been following the story, trends in real estate development in Salt Lake City have led to the construction of homes built out to the maximum size allowed by law ("max-fill" building) in areas and neighborhoods where this is traditionally not done. Community associations, including the GACC, who feel such development is not in the best interests of their neighborhoods have petitioned the City for relief, and last Thursday the City Council passed a temporary ordinance placing restrictions on max-fill building. A proposed six-month moratorium was reduced to one month after an apparent lack of consensus in the community and vigorous objection by the building sector. In the following week, the temporary ordinance was dropped completely.

This issue speaks to one of the central questions of any Community Council: what do we want our neighborhood to be, and how do we get there? Less obviously, but perhaps more importantly, it speaks to the central issues of any community structure: that residents have the right to decide the character of their community, and that the character and cohesiveness of the community have value over and above the sum of its properties.

In fact, property value, particularly in an area of 100% assessment, is a two edged sword, because higher value means higher taxes. If you're looking to cash out in this real estate cycle, then rapid value escalation is great, but if you're in it to settle down it adds to your costs. (Where did the notion of home as profit driven come from anyway?)

The late Tom Rogan had a successful model for public decision-making - that of open discussion and consensus building. The current debate is well suited to this approach. What is it we, as a community, want to see in our neighborhoods and conversely, how do max-fill homes detract from that vision? In our next Community Council meeting we will be discussing this at length and we ask that residents come prepared by giving their personal values careful consideration.

One thing that I suggest we avoid is polarization of the issue. Despite statements made in the press, no one is out to tell people they can't remodel their house right now.

Hopefully we can all agree that we do not need an overarching layer of bureaucracy reviewing every facet of home appearance, and neither do we need the social anarchy of individual wills above all.

What we are talking about is sensibly structured regulation, with clear standards, that will allow us to preserve the value of our neighborhood. So think about

GACC Community Meeting

Wednesday, July 6, 2005 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Steve Mecham, 2005 GACC Chair-Elect

7:05 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:35 Open Forum (Time permitting, limit 1 min. per person.)

7:40 Avenues Street Fair – Walter Jones, Street Fair committee chair, will update progress of the September 10th 2005 Street Fair.

7:45 Neighborhood Lighting– John Sittner, GACC treasurer, will discuss the Salt Lake City matching funds program for street lights.

7:55 CareSource – Gina Coccimiglio, Chief Clinical Officer, will introduce the community to this invaluable service.

8:10 Utah Heritage Foundation – Kirk Huffaker, assistant director of UHF will discuss preservation in the Historic District and development in the Avenues.

8:20 Building Goals – Joel Paterson, from Salt Lake City Planning Division, will also discuss development in the Avenues. He will outline the pending Yalecrest ordinance to begin the process of achieving constructive goals for neighborhood growth.

9:00 Adjournment

where that value lies for you.

Does it lie in houses with yards (max-fill minimizes these) that provide both privacy and a semi-public area for neighborhood interaction? Does it lie in consistency and scale (Does a taller house need more set back? Is a two-and-a-half story house offensively out of scale in a block of one-story houses?). Do you value access to the sun the sky and the horizon? Is it the appearance of green space and trees in a neighborhood?

Come on the 6th and let's talk and listen and find what we want as a community and how to get there.

Yours in community, Jim Jenkin

Important Dates for July:

GACC Building Goals Discussion Jul 6th

Meeting at the Sweet Library, 7:00 p.m.

Electronic Recycling..... Jul 9th

Trolley Square 8am to noon

Holidays..... Jul 4th and Jul 24th

Red Butte Gardenwww.redbuttegarden.org

Free Plant Diagnostic Clinics – Jul. 11 – Aug. 29. Mondays, 5 - 7 pm. What's wrong with my plant? Salt Lake County Extension and Master Gardeners will be on hand Monday evenings this summer to help answer your gardening questions and solve problems. Bring plants, plant samples, and questions on Monday evenings this summer.

Medicinal Plants – Jul. 12, 6 - 9 pm. In this hands-on class, you'll learn how to identify, harvest and preserve useful plants as well as make medicinal preparations. Class will include a walk in Red Butte Garden and the nearby foothills to assist you in plant identification. Class limited to 24 participants. Members: \$35, Others: \$39. Registration required. Call 587-5433 or www.lifelong.utah.edu.

Garden Journaling – Jul. 28 – Aug. 11, Thursdays, 7 - 9 pm. Journaling allows you to experience and enjoy your garden in a new way. Join artist Michal Onyon for this hands-on outdoor workshop and learn different journaling techniques including writing, sketching and painting. Beginners welcome! Bring a journal and pen or pencil. Register online or call 581-8454. Members: \$62. Others: \$69.

Weeklong Kid's Camps – Beginning Jul. 11, 9 am - Noon, or 1 - 4 pm, for 5- & 6-year-olds. Each camp has a different focus, including: Look-up! Bird Extravaganza, Chamomile & Concoctions, Incredible Insects, Tree Tales & Plant Poems. Register online or call 581-8454. Members: \$90. Others: \$100.

Family Nights at the Garden - Mondays, 6 - 8 pm. Escape the summer heat with this evening series of family entertainment and activities. Adults: \$5, Seniors 60+ & children 2-17: \$3, garden members & children under 2: FREE admission.

July 11 - Christopher Fair, Magic with Flair. Shows at 6:30 pm, 7:30 pm.
July 18 - Clayton Productions, Footloose and USA. Shows at 6 & 7 pm.
July 25 - Rippletails, Music & Storytelling. Shows at 6:15 & 7:15 pm.

Yoga - July 5 – Aug. 4, Tuesdays, 7:30 - 8:30 am. Meet in the Fragrance Garden. Wear loose fitting clothing. Bring yoga mat & beach towel. \$40 for 10 classes or \$5 per drop-in class, plus garden admission. Register at 581-8454 or drop in.

Tai Chi – Jul. 5 – Aug. 4, Tue. & Thu., 7:30 - 8:30 am. Meet in the Four Seasons Garden. Wear comfortable clothing and sneakers. \$40 for 10 classes or \$5 per drop-in class, plus regular garden admission. Register at 581-8454 or drop in.

Bird Watching – Jul. 7 – Aug. 18, Thursdays, 6:30 - 8 am. Bring your binoculars and meet in the visitor center. Members: free. Others: pay garden admission. No registration required.

Walking for Fitness – Jul. 5 – Aug. 4, Tue. & Thu. at 7:30 & 8:30 am, and 5:30 pm. Purchase garden membership separately. Call the Peak Academy to register: 585-7325.

Pilates – Jul. 7 – Aug. 4, Thursdays 7:30 - 8:30 am. Meet in the Fragrance Garden. Bring yoga mat & beach towel. Purchase garden membership separately. Call the Peak Academy to register: 585-7325.

Salt Lake Regional Medical Center Senior's Association

1050 E. South Temple

The Senior Association keeps on growing and having fun. Call Dottie at 350-4991 about becoming a member.

Bingo - June 28, 10 am, Salt Lake Regional cafeteria. Great prizes!

Foot Clinic – 2nd Wednesday of the month, by appointment. \$12 fee.

Tai Chi – Wednesdays, 11 am – Noon; NIA on Fridays, 12:30 – 1:30 pm. Both classes held at 10th East Senior Center, 230 South & 10th East.

Health Screening – First Wednesday of the month, 10:30 – 11:30 a.m.

Volunteers Needed - If you have a little spare time on your hands how about joining our volunteer team? Flexible hours and the reward of feeling good, thanks to time well-spent. For more information, please call Dottie at 350-4991.

Utah Autism Research

421 Wakara Way - 585-9379

Volunteers are needed to participate in a nationally recognized study of autism. The Utah Autism Research Program is an NIH-funded research organization operating through the University of Utah. The program seeks two groups of volunteers: 1) Normal males, aged 3-32, are needed for a neuro-imaging study. These participants will serve as the control group. 2) Individuals with autism (any age) and their families are needed for a genetic study of autism. For more information, email Megan.Farley@hsc.utah.edu.

Renovation Design Group

252 S. 13th East, Suite A

Designing A Home With Character & Class – July 19, 7 – 8 pm.

This free seminar examines how to use the principles of space, light, and order to make a home feel inviting, comfortable, inspiring, and relaxing.

Remodeling: What to know before you build – July 28, 7 – 8 pm.

If you are contemplating a remodel, this seminar is a must for you. Find out how to avoid common mistakes that can delay construction and cost thousands.

Ronald McDonald House

935 E. South Temple

Summer is here! It's time for vacations, barbecues and relaxing by the pool. But summer has a different meaning for the families and children who stay at the Ronald McDonald House. Their days are filled with doctor appointments, major surgeries and emergency medical care. Please remember Ronald McDonald House never takes a vacation, and in this busy season, families need your help. Volunteer groups are desperately needed to provide and prepare meals for 30-40 hospital weary parents every night of the week. Please pitch in! Call Beth at 363-4663.

First Presbyterian Church

South Temple & C Street

Vacation Bible School – Every Sunday in July, for kids through 6th grade, 11 am – Noon. Services at 9 & 11 am. For more information, please call 363-3889 or visit fpcslc.org.

Exercise Class

5th Ave. & Virginia

Free exercise class - suspended for July and August. Fall classes will begin on the Monday after Labor Day, Sep. 12. For more information, please contact Renate: 534-1443.

Primary Children's

100 N. Medical Drive

Car Seat Checkpoints - Jul. 14 & 28, 3 - 6 pm at Primary Children's Medical Center. Learn how to install your car seat(s) correctly. Call 588-CARS for an appointment.

Please Note: Newsletter information is due by the 10th day of the month prior to the next issue. Information will print on a space-available basis. For ad rates and information, please contact John Sittner, at 359-9787, or jsittner@sittner.org.

Avenues Street Fair News

The Avenues Street Fair volunteers' committee has been working very hard for two months now to plan and put together a great street fair for this year. The street fair will be held on Saturday, **September 10, 2005** and will be at **South Temple Street** between "Q" and Virginia streets. The day's activities will begin at 9:00 a.m. and end at 7:00 p.m. Committee members would like to address a few questions pertaining to the annual event.

One of the most frequently asked questions recently is, "How do I apply to have a booth at the fair?" The answer to this question is: contact Ann Tillson. Ann's cell phone number is 685-7961, her business phone is 363-2515, and her mailing address for the street fair is GACC Street Fair, c/o Custom Label Beverages, 363 West 6160 South, Suite A, Salt Lake City, UT 84107. She will provide the necessary information and is currently distributing application forms for: food booths, general booths, children's booths, and informational booths. Please apply soon, her cut-off date for receiving applications is **August 10, 2005**.

A second frequently asked question is, "Who takes applications for performers who wish to entertain at the fair?" Please contact Jill Van Lengeveld, our entertainment coordinator. Her email address is fresh@softcom.net. She can assist groups or individuals who wish to perform on one of the two stages that the street fair's committee sets up each year for entertainment. Jill has already received several good proposals for entertainment, so look forward to a fascinating slate of entertainers again this year.

The street fair committee has a good number of experienced, enthusiastic, and dependable volunteers to do the great amount of work that it takes to make the fair a success. We can always use more volunteers to assist in sharing the committees' various assignments. If you wish to become involved, please contact the committee's coordinator, Walter Jones. His email address is walter.jones@library.utah.edu. We will integrate you into the committee's membership in a way that will make your experiences meaningful and enjoyable, and we will definitely appreciate having you donate some of your time and talents to the street fair.

Heather Knowlton is in charge of finding volunteers to work during the fair. Please contact her at 259-0236. She is presently compiling a list of requirement duties that committee members feel need to be filled by volunteers for the day of the fair.

The next Street Fair meeting will begin at 9:00am **Saturday, July 9th**, at Ann Tillson's home on 530 11th Avenue. Anyone may attend. Please look for more information in the August and September issues of the GACC newsletter, and also please consider contributing to the processes that make the street fair so enjoyable and successful.

-Walter Jones GACC Street Fair Committee Chair

Recycling E-Waste

Do you have an old computer, TV or DVD player sitting in your basement? Don't send your old electronics to the Landfill. RECYCLE, and do the right thing.

Electronic waste (e-waste) refers to electronic products that have finished their useful life. A National Recycling Coalition survey states that by 2007, 500 million personal computers will become obsolete. Millions of computers, computer monitors, and televisions ending up in landfills are not only a waste of resources; it can be a threat to the environment because e-waste contains several hazardous materials.

A major culprit in the hazardous waste arena is the computer monitor and television cathode ray tube, which contain from five to eight pounds of lead. Computers may also contain silver, cadmium, mercury, selenium, and chromium, a known carcinogen. And when landfilled, these toxics could leach into the ground water.

When: July 9th 2005

Where: Trolley Square, 602 E.500 South

Who: Sponsored by the Recycling Information Office and the Salt Lake Valley Health Department

How Much: There will be no charge for residents of Salt Lake City proper with proof of residency. TV's and Monitors are \$5.00 for businesses and non Salt Lake City residents. All other electronics are free.

What: **All Electronics** -TVs, computers, monitors, VCRs, scanners, printers, keyboards, speakers, radios, fax, and cell phones. Call the Recycling Hotline for more information at 974-6902.

Have a Great Summer!

Volume IX, Issue 8

August 2005

Greater Avenues Community Council to develop an Ordinance similar to Yalecrest Ordinance?

On Tuesday, July 12, Salt Lake City, **Ordinance #44 of 2005** was passed unanimously by the City Council. What effect will this have on The Avenues? None what so ever. So, why should we be interested? Ordinance #44, subtitled the *Yalecrest Compatibility Infill Overlay District*, restricts the way new homes or remodels can be build in the Yalecrest area from approximately 800 South to 1300 South and from 1300 East to 1900 East.

Members of the Yalecrest Community Council noticed a problem developing in their neighborhood that City ordinances were not addressing and decided that something had to be done. They formed a committee that worked very hard with all the neighbors for about two years to decide what they wanted the character of their neighborhood to be and then how that goal could be achieved.

Some neighbors wanted the ordinance to be more restrictive while others wanted less. Some wanted the area expanded while others wanted smaller coverage. Knowing you can never please everyone, thier ordinance was approved by a very large majority he neighbors. The second big step was to get the City's approval- that took another two years. After working four years on the project, they wanted to throw a party with the passage Tuesday night.

What does this Ordinance #44 really do? The goal states: *"to encourage compatibility between new construction, additions or alterations and the existing character and scale of the surrounding neighborhood."*

The Ordinance list areas that were big concerns of the neighbors:

1. **Building Height** – The new law only curbs building height by 2½ feet, from 30 to 27½, however the side walls can now only be 18½ feet tall. These can be increased with increased setback from the side yards.
2. **Front Yard Requirements** – While homes formerly had to have a setback of 20 feet, now they must have setbacks that are in line with the other homes on their street.
3. **Standards for Garages and Accessory Structures** – These include a maximum height of 15 feet with the location in either the side yard or in the rear of the home.
4. **Variances and Special Exceptions** – The SLC Board of Adjustments may give a waiver only if it will still achieve the purposes stated in the goal.

Lisette Gibson was one of the members on the Yalecrest committee. She said that after hours and hours of working with neighbors, these were the biggest areas of concern so that was thier focus. "Other neighborhoods have their own concerns which may or may not be the same as ours."

Is this ordinance sufficient for our neighborhood or do we need any restrictions in The Avenues? I have also had numerous emails asking why the historic district has not been enlarged. The subject was discussed 10 years ago, then it went away. What do we want? GACC will discuss the historic district in September.

GACC Community Meeting

Wednesday, August 3, 2005 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Jill Van Langeveld, 2005 GACC Chair

7:10 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:40 Open Forum (Time permitting, limit 1 min. per person.)

7:45 Triplex Designation– Natalie White, manager of 234 F Street, seeks a triplex designation for the property.

7:50 Avenues Street Fair– Walter Jones, Avenues Street Fair committee chair, will update progress of the Sept10event.

7:55 UTA Bus Route changes – Dave Huber and Steve Swan from UTA will gather input for potential changes to Avenues Bus Route #3.

8:10 Yalecrest Ordinance – Lisette and David Gibson with Ed Glashien, committee members of the Yalecrest Compatibility Infill Overlay, will present their District Ordinance. They will explain the process with Salt Lake City Planning that permitted them to obtain the ordinance.

8:30 Discussion – GACC members and residents will discuss formation of a committee to develop ordinances for the Avenues not including the Historic District.

9:00 Adjournment

Lisette will be at our next GACC Meeting, August 3rd at the Sweet Library at 7:00, to talk about the process they went through to achieve their goals. If we decide that this is something we want to pursue, hopefully with the experience and ground breaking work of the Yalecrest Community Council, it won't take us four years.

Be there Wednesday to help. Last month Jim Jenkin stated in our newsletter: "What we are talking about is sensibly structured regulation, with clear standards, that will allow us to preserve the value of our neighborhood." We'd like to form a committee with this focus. *Everyone needs to be heard. Come and get involved.*

Jill Van Langeveld GACC Chair 2005

Have you volunteered for **Neighborhood Watch**? If not, please consider joining this vital community program
Contact: 359-8513 or e-mail JAVANL2@softcom.net

Important Dates in August:

GACC Building and UTA Discussion ... Aug 3rd

Meeting at the Sweet Library, 7:00 p.m.

Avenues Street Fair Meeting Aug 6th

Jaynie Brown's home at 817 17th Ave, 9:00 a.m.

Ruth Morgan's home at 271 C Street, 9:00 a.m.

Osher Lifelong Learning Institutewww.continue.utah.edu/osher

Open House - Aug. 31, from 10 am to 1 p.m. Join a learning community of people age 50 and above in the Osher Lifelong Learning Institute at the University of Utah. The Institute offers special daytime courses taught by distinguished faculty in the beautiful surroundings of Fort Douglas. Parking is provided, and members may also purchase student-priced UTA annual passes. In fact, participants are entitled to nearly all of the benefits traditional University students enjoy, but attend classes simply for the joy of learning. Investigate intellectual topics, creative interests, current events, the world of computers, and life transitions. Call 585-5442 to receive an invitation to the Aug. 31 Open House. Fall classes start Sept. 28. See www.continue.utah.edu/osher for details.

Hogle Zoowww.hoglezoo.org

American Express Zoo Rendezvous - Thursday, Sep. 8, 6 - 11 pm. Monkey's howl, elephants trumpet and guests laugh. More than 20 of Utah's finest restaurants, caterers and breweries will be serving up delicious food at the "wildest party" in town. Dress for adventure and enjoy colorful wildlife and exciting cuisine and libations at Hogle Zoo's Eighth Annual Zoo Rendezvous. A ticket cost \$125.00 and includes all you can eat and drink. There is a silent auction that will feature one-of-a-kind Zoo items and there will be a live band so you can dance the night away. Please note, not guests under 21 years of age allowed.

Each year it costs Utah's Hogle Zoo more than \$125,000 to feed the 900 + animals representing 216 species. For us to continue to enjoy this animal diversity, we need to help. To purchase tickets or for more information about the Zoo Rendezvous please call Utah's Hogle Zoo at 584-1730 or visit www.hoglezoo.org.

LDS Hospital8th Avenue & C Street

Free grief support group - 2nd & 4th Tuesdays, 3 - 4 pm, LDSH education center classrooms, A, B, C. Anyone who's grieving and struggling to figure out how to go on with their life, or who has a loved one who's grieving, is invited to an education and support group that meets at LDS Hospital. Call Helen Rollins at 408-5661 to sign up, or to get more details.

Health-related classes offered by LDS Hospital - Health education classes on a wide range of topics are available through LDS Hospital's Department of Education. Topics include adoptive parenting, asthma, diabetes, breast cancer, breastfeeding, heart failure self-management, infant massage, parenting, osteoporosis, postpartum depression, prenatal exercise, and more. To get more details, call 408-2102 or click on http://ihcweb/ucrh/ihc_university/page.jsp?page=common/includes/page_s/patient_family_community_ed.html#.

Madeleine Choir School

205 First Avenue, 323-9850

Ronald McDonald House

935 E. South Temple

Annual Golf Classic - Sep. 12, Homestead Resort. Make plans now to play in the Ronald McDonald House Charities of the Intermountain Area 17th Annual Golf Classic at the Homestead Resort. Everyone's a winner! Join in the fun and support a great cause! To register call Kristy or Cathy 363-4663.

Volunteer groups are needed everyday of the year to provide and prepare a meal for our families. For details call Beth at 363-4663.

First Presbyterian Church

South Temple & C Street

Vacation Bible School - Sundays in August, 11 am - Noon, for kids through 6th grade. Services at 9 and 11. Call 363-3889 or visit www.fpcsle.org.

Exercise Class

5th Ave. & Virginia

Free exercise class - suspended for July and August. Fall classes will begin on the Monday after Labor Day, Sep. 12. For more information, please contact Renate: 534-1443.

People's Art at Avenues Street Fair - Sept 10

South Temple between Q & Virginia Streets

People's Art Gallery Submissions Deadline - August 25. Calling all Avenues artists! Please send us the application form along with a description of the work. Please don't send the work itself!!! **We must receive your submission form by August 25th** to prepare a space to display this work, along with a little information card about you. Questions? Call Amanda 581-8842 or e-mail: Barusch@comcast.net.

Submission forms available at www.slc-avenues.org

Please Note: Newsletter information is due by the 10th day of the month prior to the next issue. Information will print on a space-available basis. Submit Calendar events to Colleen Barnes at GACCcalendar@hotmail.com, or call 359-0991. Submit Page 3 Articles to gaccnewsletter@hotmail.com. For ad rates and information, please contact John Sittner, at 359-9787, or jsittner@sittner.org.

Avenues Street Fair News

A long-standing local tradition, the Avenues Street Fair, continues this year. The fair will be held on Saturday, September 10, on South Temple Street between Q and Virginia Streets, from 9 am to 7 pm. With a large site this year, we need your participation to make our Fair a success!

Applications are still being accepted for booths: food, general, children's, and information. We especially invite anyone in the "Working Artist" category to apply (everyone loves to watch a demonstration). The cut-off date for receiving applications is **August 10, 2005**. Contact Ann Tillson for more information -- cell 685-7961, business 363-2515, address:

GACC Street Fair
c/o Custom Label Beverages
363 West 6160 South, Suite A
Salt Lake City, UT 84107

The People's Art Gallery was a very popular addition last year. It is a one-day display of artwork made by members of the community. You certainly don't need to be a professional to share your talents -- share that artistic side of you! One item per person may be submitted to the gallery. Applications include a photo or description of the piece and are due on August 25. Forms are available online at www.slc-avenues.org; you may direct any questions to Amanda Barusch at 581-8842 or barusch@comcast.net.

Jill Van Langeveld, current GACC Chair (email jvash@softcom.net), is our Entertainment Coordinator. Two stages are set up each year for performances, so look forward again to a fascinating slate of entertainers. Also anticipate buying the traditional Avenues Street Fair T-shirt. Everyone on the committee agrees that the design for this year is exceptional.

A great amount of work is required for such a great event. Although the Street Fair Committee has a number of experienced, enthusiastic, and reliable members, we can always use more volunteers to assist in many areas. If you wish to become involved in the behind-the-scenes preparations, please contact Walter Jones, Committee Coordinator, at walter.jones@library.utah.edu. We would definitely appreciate the donation of your time and talents to the street fair! The next committee meetings will be at 9 am on Saturday, **August 6** at Jayne Brown's home, 817 17th Avenue; and **August 27** at Ruth Morgan's home, 271 C Street. Heather Knowlton is in charge of scheduling volunteers to work the actual day of the fair. You can reach her at 259-0236. Volunteers are always needed for set-up, monitoring, and clean-up, so be involved in the thick of things! The September issue of the GACC newsletter will contain more information on the schedule for the fair, and on LDS Hospital contributions.

Aileen Olsen- GACC Street Fair Committee, Media Relations

Street Fair Entertainers

Free entertainment at the Avenues Street Fair will perform on two stages this year. Participants include:

-Anke Summerhill	-Bad Luck Blues Band
-Blue Healers	-Stella
-Crescent Moon	-Broomsticks
-Rising Sound	-Hot Tin Roof
-Wasatch Music Academy Students and Teachers	-Sugarhouse Voices

CareSource and Medicare

Do you, your aging parents or senior friends know that Medicare will pay for such debilitating illnesses as Alzheimer's and all end of life care? Are you aware that Medicare may pay for a hospital bed or walker? Some home health care agencies offer in-home pro-time monitoring of blood samples providing immediate results -- eliminating the need for visits back and forth to the doctor's office or hospital. Also, Medicare will cover counseling relating to the stress on families faced with losing a loved one.

Most Utahans have only a limited understanding of the resources available to them as they age. These resources can alleviate financial stress, relieve the burden placed on caretakers, and provide therapies to eliminate pain and improve the quality of life.

Gina Coccimiglio, co-founder of CareSource, a Medicare-certified home health care and hospice agency serving the Salt Lake region, will attend the September 7th GACC meeting to explain how residents can access these resources. CareSource operates the only freestanding hospice facility in Utah called **The Residence**. Members of the CareSource team who specialize in bereavement counseling, music therapy, or who offer social work outreach will also attend the meeting with Gina to explain their work.

September 2005

Anything Happening Around Here Now?

by Jill Van Langeveld, 2005 GACC Chair

I was just musing that summer is about over, my husband is back teaching, the kids are also back in school, so things can start calming down. Right? NOT! In the Avenues things are just starting to really heat up.

Lon Richardson has been appointed to chair our new committee which I'm calling at press time *Our Neighborhood Building Compatibility Committee*. They have probably picked a better name by now. Their charge is to find community consensus regarding structural regulations which give clear standards and allow us to preserve the value of our community.

Although an opinion was expressed in the newspapers recently that we live in a "slum", it is a very desirable "slum" where many other people would also like to live! We have a very special, diverse neighborhood that all of us want to continue to thrive. If you want to be a part of the committee or to share your views, please call Lon at 364-4529. ***Be heard!***

Our annual Avenues Street Fair will be September 10th on South Temple between Virginia and Q Streets from 9:00 am to 7:00 pm. You'll find much more information about it on page 3.

Join the fun!

It is election time for both the GACC as well as the City Council District 3. We are forming an election committee with Past-Past Chair Wynn Johnson, Chair-elect Steve Mecham and three more members to be appointed to finalize a slate of candidates for Chair-elect, Secretary, Treasurer and Board Members for the election November 2nd. If you would like to run for an office or would like to be part of the election committee, contact me at 359-8513 or fresh@softcom.net. ***Get involved!***

There are four candidates for the City Council District 3. They will each have 5 minutes to talk to us at our September 7th GACC Meeting. That is not much time so we've asked them to share something about themselves for our newsletter. The Primary Election is October 4th, the day before our October GACC Meeting. ***Read, Listen, then Vote!***

Ed Aho (14 N. 600 W. 364-0174 edaho@earthlink.net)

"The recent Supreme Court ruling concerning the 14th Amendment (eminent domain) gives local government the power to take private property not only for public use, but also for private use. This ruling worries me and along with several other issues convinced me that all of us should be more involved with our local government's day-to-day business."

Derek Dyer (324 N. 200 W., 474-2122 www.derekdyer.com)

"I am seeking election to the Salt Lake City Council because I want to serve to make our communities in District 3 a better place

all. The City Council needs more balance and diversity. We need a fresh voice and a new perspective with innovative ideas and a friendly approach to government. I believe I can provide balance to the City Council and help those whom now feel like their voices are never heard. I have lived in Salt Lake my whole life and have been a long time resident of both the Avenues and Capitol Hill. I am Executive Director of the Utah Arts Alliance

GACC Community Meeting

Wednesday, September 7, 2005 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Jill Van Langeveld, 2005 GACC Chair

7:10 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:40 Open Forum (Time permitting, limit 1 min. per person.)

7:45 Triplex Designation— Natalie White, manager of 234 F Street, seeks a triplex designation for the property.

7:50 Avenues Street Fair — Walter Jones, Avenues Street Fair committee chair, will update progress of the Sept 10 event.

8:00 City Council Dist 3 Candidates — Eric Jergensen, City Councilman, with running mates Janneke House, Derek Dyer, and Edward James Aho bid for the Oct 4th Primary Election.

8:20 LDS Hospital Helipad Renovation — Mikel Moore, IHC Public Relations Administrator, will discuss alternate landing sites for helicopters during the approximate 4 month renovation project.

8:25 Avenues Historic District — Elizabeth Giraud, SLC Senior Planner, and Joel Paterson with SLC Planning Division, will discuss aspects of living in this District.

8:45 Adjournment (Early adjournment at Librarians' request.)

and Utah Center For The Arts, a nonprofit corporation establishing arts venues, providing arts education and arts programming in Utah's communities. I am an experienced artist, events producer and a Guinness World Record Holder for building the 'Diversity Ball' -- the world's largest disco ball right here in Salt Lake City. For years I have worked to make this city a more safe, fun, vibrant and accepting place to live. I have worked with community leaders in many projects to add vibrancy and spur economic development to the downtown area. My history of community service and my proven management and leadership skills help make me an effective, accessible, progressive leader. Join me and together we can make a positive, progressive change in Salt Lake City."

Janneke House (ph 870.5363) "I have lived on Capital Hill for almost 11 years. I received a Master of Urban Planning degree from the University of Utah in May. I have served as the interim Zoo, Arts, and Parks Program manager for Salt Lake County for several months until a new manager could be hired. I hold a Masters and undergraduate degrees in Urban Planning, with a minor in Community and Consumer Studies. I currently work with Salt Lake County's Community Services Department where I am working on the County's new Open Space Program. I am very excited to be running for Salt Lake City Council.

For ad rates and information, please contact John Sittner, at 359-9787, or jsittner@sittner.org.

Avenues Street Fair News

The 2005 Avenues Street Fair is coming up soon! Saturday, September 10, meet us on South Temple between and Virginia Streets, from 9 am to 7 pm. It promises to be a fun and exciting day with your friends and neighbors.

The large site this year gives us lots of room for over 150 booths. You'll have the chance to get to know about community services and volunteer opportunities, meet current and up-coming politicians, as well as to shop and watch a demonstration or two at 75 booths featuring arts and crafts.

Kids, if you like, you can dress-up or bring your bikes, and meet for the Children's Parade at the East Stage at 9 am. The children's activities and Dunking Booth will be located in Reservoir Park on the south side of South Temple Street, between U and Virginia Streets.

The Street Fair has a full slate of entertainment lined up this year on both the East and West Stages. Even if you don't recognize the names of the performers, rest assured you'll enjoy the mix of rock, blues, a cappella, bluegrass, jazz and gospel music!

Plan to have lunch or dinner while you're here. Try a taste of the world from Tibet, Greece, or Thailand, or have pizza, ribs, plantains, crepes, or chocolate. Italian ices, Snowie shaved ice and specialty drinks will be available to cool you down. Our own Avenues establishments, Cucina, Café Shambala, Two Creek Coffee House, and The Avenues Bakery will be joining us, too.

Make sure to check out the talents of your neighbors at The People's Art Gallery! A new addition last year, this one-day display of artwork, contributed by members of the community, proved to be very popular. Plan to drop by the GACC booth to get the traditional Avenues Street Fair T-shirt. This year's design by local artist Bevan Chipman is wonderful. You can also purchase raffle tickets for a variety of great prizes from local merchants, and maybe even get a special drink.

The First Aid services at the fair will be contributed by LDS Hospital. This year, LDS Hospital is celebrating its 100th Anniversary in our neighborhood! Watch at the fair for information on the Health Fair they will soon be hosting for our community.

Because of one-way streets in the area, both approaching the fair site and parking will be concerns this year. Please obey the traffic signs, which will restrict access on these streets between 1st Avenue and South Temple (particularly on S and U Streets). This will cause less inconvenience to our neighbors hosting the fair. If you can't walk to the Fair from your Avenues home, it may be helpful to come from the south side of South Temple, where the streets are wider and can better accommodate parking.

You can still volunteer to assist on the actual day of the fair by calling Heather Knowlton at 259-0236. We can't wait to see everyone on September 10th for a fabulous Fair! Aileen Olsen, GACC Street Fair Committee, Media Relations

City Council District Candidates (con't from pg. 1)

Eric Jergensen (535-7600 eric.jergensen@slcgov.com)

"Four years ago I ran for City Council on the premise that, as we bring together the unique and diverse resources of our Avenues, Capitol Hill and Guadalupe neighborhoods, we can accomplish anything! During the past four years the neighborhoods have worked hard together to make our community a better place to live, work and raise our families. I am proud to have been chosen to represent our neighborhoods and to work together with so many of you in our critical efforts to increase traffic and pedestrian safety, to fight crime (especially car prowls), to curtail out of scale development, to preserve open space, to improve our public infrastructure and to enhance economic opportunities for all our citizens. We have worked to protect our historic neighborhoods while at the same time provide decent, affordable housing opportunities. We have worked to eliminate discrimination and increase dialogue among the wonderfully diverse residents in our community. But, there is still much left to do. Our greatest achievements will come as we continue to work together. I ask for your ongoing support as we, united, continue our efforts to improve our neighborhoods for all who have chosen this place as their home."

Do you have enough information to make an informed choice? **Contact them**, then let your voice be heard Oct 4th.

Street Fair Entertainment Schedule

East Stage	West Stage
Virginia Street	Q Street
10:00 Anke Summerhill – vocal, guitar	10:00 Jason Riggs – vocal, guitar

October 2005

Being Safe and Prepared on the Avenues

In Katrina's wake everyone seems to be talking about safety and preparedness. I'm no exception. The first thing I want to talk about is **safety on our sidewalks**. In December 2004 we talked about the problem of *snow*. Now, I want to address *bushes* and *trees*.

Recently there have been several complaints to me and to the City about tree limbs or bushes on *private property* overhanging or obstructing sidewalks. According to City Code 14.20.010, it is unlawful to "obstruct a sidewalk or any part thereof, or the free use and enjoyment thereof, or the free passage over and upon the same." Trees limbs above sidewalks must allow for a minimum of 7 feet clearance.

For most people, a blocked sidewalk is an inconvenience requiring a quick detour. But for many of our neighbors, especially those who are blind or have mobility problems, a blocked sidewalk can be an insurmountable obstacle and can even cause injury. Children who encounter an obstructed sidewalk while walking to school maybe forced to walk in the street to get around the blocked area.

Please check your property to be sure the adjacent sidewalks are clear. Property owners are responsible for obstructing trees and bushes. If trees from the *City property* are the obstruction, call the Urban Forestry Office for your options. If bushes are the culprits, you are allowed to trim them yourselves. Last year the Urban Forestry people were on the Avenues trimming trees on City property so hopefully they won't be causing problems for a while. If you notice sidewalks in you neighborhood that are obstructed, please call the City Council Office at 535-7600 or the Urban Forestry Office at 972-7818, to report these addresses.

Next let's discuss **Preparedness**. Hurricane Katrina has made the public more aware of its own vulnerability. A few years ago while I was getting my C.E.R.T. (Community Emergency Response Team) training, the firemen teaching it told us that often, during a large scale disaster, it may take as long as 72 hours (3 days) for official help to get to all the neighbors. As we saw with Hurricane Katrina, help can take much longer.

Many are now asking, "How do I prepare my family should a disaster strike?" At our September GACC meeting someone asked just how prepared was Utah or Salt Lake City? There was an interesting article in September 18th *Deseret Morning News* that addressed this question. According to the article, emergency managers say they have learned from previous disasters such as the 1999 tornado, the 2005 Southern Utah Floods, as well as the 2002 Olympic Games preparation, and now as they watch the problems of Katrina unfold. Should disaster strike they say, "The state is mostly prepared." Derek Jensen, spokesman for Utah's Department of Public Safety commented that ***preparedness by both the state and the individual make recovery and response "a lot smoother."*** I visited www.emergencymanagement.utah.gov and found two very good handouts: *A 12 Point Program for Individual, Family and Community Preparedness* and *Personal and Family Preparedness*.

GACC Community Meeting

Wednesday, October 5, 2005 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Jill Van Langeveld, 2005 GACC Chair

7:10 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:40 Open Forum (*Time permitting, limit 1 min. per person.*)

7:45 GACC Nominating Committee – The committee will accept nominations for the 2006 Executive Board: the Chair-elect, Treasurer, Secretary and Board members.

7:55 Avenues Street Fair – Walter Jones, Avenues Street Fair committee chair, wraps up the annual event.

8:05 Housing Compatibility Committee – Lon Richardson, Committee Chair, will discuss specific principles in the SR-1 Zoning District that will lead to a future Ordinance.

8:25 Citizen Diplomacy Dinner – Laura Dupuy, director of the Utah Council for Citizen Diplomacy will introduce residents to their Home Hospitality Program.

8:35 City Council Dist 3 Candidates – Eric Jergensen, City Councilman, Janneke House, and Derek Dyer, bid for election. The two Oct 4th Primary winners will speak.

8:45 Adjournment

An emergency relief team from the University Hospital just returned from two weeks of work in New Orleans. They got a first-hand tutorial in emergency management and lessons learned that could help Utah be more prepared. The doctors and nurses said they came back with a new ***appreciation for the importance of 72-hour kits***.

Now there is something we all can ***do***: assemble and maintain our own 72-hour kits. Keep it simple, lightweight and easy to update according to the season. It should include a flashlight and a battery radio with replacement batteries, essential medications, some cash money (plastic might not work) and a list of key contact information. You may want to put in a change of clothes, a lightweight "space blanket", energy or candy bars and bottled water. Your body needs calories and can deal without the proper vitamins and minerals for a few days. Remember to keep it lightweight because you've got to lug it around. Lastly, position your kit(s) with quick access in mind.

One more ***do***. Remember all the families that were split up after *Katrina* and didn't know where the others were? Find a person to contact outside the area. For instance, my sister Robyn lives in Denver and the family in Salt Lake City knows to contact her to find out who is safe and where each person is.

With a little bit of planning and doing, we can all be better prepared when *our* disaster strikes. I challenge you to start the ***doing*** now! -Jill Van Langeveld, 2005 GACC Chair

Schools

Wasatch Elementary School

Oct. 14 – Town meeting, 9 am, 2nd grade will perform
 Oct. 17 – Picture Makeup Day
 Oct. 17 & 18 – Fall parent/teacher conferences, 3:30 – 7 pm
 Oct. 19 – Early Dismissal - 12:30 pm
 Oct. 20 & 21 – UEA Professional Convention – **No School!**
 Oct. 28 – Kindergarten Halloween Parade
 Oct. 28 – Halloween Carnival at Wasatch 5:30-8 pm

The Madeleine Choir School

Oct. 6 – Grandparents Day, 10 am brunch, Erbin Hall
 Oct. 20 & 21 – **No School!**
 Oct. 31 – Faculty Work Day - **No School!**

Sweet Library

455 F Street – www.slcppl.lib.ut.us - 594-8651

Art Reception – Oct. 3, 6:30 – 9:30 pm
 Book Baby & Preschool Storytimes – Wednesdays, 10:30 am
 Sweet Reads – Oct. 25, 2 pm
 Public Internet – With your Salt Lake City Public Library card!

Salt Lake City Main Library

210 East 4th South, www.slcppl.lib.ut

USED BOOK SALE – Oct. 22-25, beginning 7 am, Urban Room, lower level. Volunteers of the "Scout" variety needed - on Saturday and Sunday of the sale - to help customers to their cars with boxes of books and to escort our carts back. The Friends of Library support many programs to make our city libraries the best! Call Colleen McLaughlin: 524-8219, or Kathryn Astin: 486-8643.

Cathedral of the Madeleine

CATHEDRAL CONCERTS – Open to the public, no admission or seating passes required!

Oct. 9, 8 pm – Eccles Organ Festival with Elizabeth Berghout. Professor of Organ and Carillon, University of Kansas
 Oct. 16, 8 pm – Chamber Music Concert
 Oct. 23, 8 pm – Joseph Adam, Organist, St. James

Salt Lake Regional Medical Center

Senior's Association

237 S. 10th East – 538-2084

Monday – Friday, open 8 am to 4 pm. Visit the seniors association for a wide variety of daily activities: from line dancing to yoga, bingo to genealogy, plus exercise classes, computer email, free legal assistance, "lunch & learn," manicures, pedicures, a writers group, and more!

Lunch – Served daily at 11:45 a.m. \$2.00 donation. RSVP day before.

LDS Hospital

8th Avenue & C Street - 408-1100

Grief Support Groups – Autumn can often be a season of grieving. LDS Hospital can help – with a number of free grief support groups. These are especially helpful as the seasons change, when those grieving tend to feel increased sadness. For details, contact Helen Rollins, RN: helen.rollins@ihc.com, or 408-5661.

EXERCISE CLASS

5th Avenue & Virginia Street

FREE exercise class - Mondays and Wednesdays, 8:30 - 9:30 am, at the Federal Heights Ward, LDS Church. EVERYONE WELCOME!
 For more information, please call Renate: 534-1443.

A special thanks to Nancy Devenport for efforts with "The Agenda"!

Avenues Community Meetings

GACC Meeting

Wed., Oct. 5, 7 pm, Sweet Library

For more information, contact Jill Van Langeveld: 359-8813, or email: JAVANL1@softcom.net.

Mon., Oct. 10, 7 pm, Memorial House- Memory Grove.

Mon., Oct. 24, 7 pm, Sweet Library

Contact Lon Richardson: 364-4529.

Greater Avenues CERT Autumn Meeting

Triage & Bandaging – Oct. 19, 7 pm, 5th East & 1st South at Fire Station #1. Jean Hengesbaugh and Maureen Brinkman will present "CERT Triage and Bandaging" with hand-on practice. Non-CERT members also welcome. Bring dressing, roll bandages, and a triangle bandage. For details, contact Carleton: detar@physics.utah.edu.

Ronald McDonald House

Volunteers Needed! – Are you able to make a long-term commitment of 3-hours per week? Then we need your help at the Ronald McDonald House front desk! For an application please call Beth: 363-4663.

Supplies Needed! – Can you donate *new*, white sheets & towels and liquid laundry soap? Then we need your help! For a complete list of needed supplies for the House, please call and request our "Wish List," by calling Beth: 363-4663.

Renovation Design Group

www.renovationdesigngroup.com - 533-5331

Designing a Home with Character and Class – Oct. 20, 7 – 8 pm, 3500 S. 300 West, Salt Lake City. This free seminar shows how to use the principles of space, light, and order to make a home feel inviting, functional, comfortable, inspiring, and relaxing. RSVP: 533-5331.

Remodeling: What to Know Before you Build! – Nov. 17, 7 – 8 pm, 3500 S. 300 West, Salt Lake City. If you are contemplating a remodel, this seminar is a must for you. Find out how to avoid common mistakes that can delay construction and cost thousands. RSVP: 533-5331

First Presbyterian Church

South Temple at C Street

Annual Kirkin'O'th'Tartan service – Sun., Oct. 30, 9 & 11 am.

Celebrate Presbyterian Scottish heritage and Reformation Sunday with us: pipe band, shortbread, and the blessings of the Scottish clans. For more information, call: 363-3889 or email sara@fpccslc.org.

Utah Museum of Natural History

www.umnh.utah.edu

A Gesture of Kinship Exhibit – Oct. 29 to Jan. 15. This unique series of documentary photos and interviews offers a look at the day-to-day lives of Navajo children as they grow and have families of their own. The project began 20 years ago, as collaboration between photographer Bruce Hucko, and Dr. Donna Deyhle, a U of U professor. Hucko lived and worked as an elementary school teacher on the Utah portion of the Navajo Nation from 1978 to 1989. Dr. Deyhle conducted anthropological field work in the San Juan County School District.

Dawnlight Savings Ends – October 30th!

Memory Grove News

The City Council is inviting us to celebrate the completion of the District Three Olympic Legacy Project **Saturday, October 22nd at 10:00 am.** This project is part of a citywide effort to use Olympic Legacy funds to honor the Olympics and to make much needed improvements to infrastructure. After much work and review, the Capitol Hill and Avenues communities chose to improve the east side stairs and paths of Memory Grove.

Many people were involved in this project and often we don't hear about what our elected officials have done for us. Our District Three Councilman, Eric Jergensen worked tirelessly with Phil Carroll, GACC Chairs: Wynn Johnson, Peter Carroon, and Jill Van Langeveld, Capitol Hill CC Chair Peter von Sivers, and County Council Representatives: Joe Hatch, Jenny Wilson and Jim Bradley. The cost of the project was twice as much as the Olympic Committee had given to each District so we needed to find more money to complete the project, not just the first phase. Jenny Wilson and Jim Bradley were at our GACC meeting in January, heard about our funding problem and said, "Let's see what we can do." They were able to get matching funds from Salt Lake County so the *whole* project could be done at one time.

We will meet at the **Memorial House** in Memory Grove and then take a brief tour of the project that includes new lighting and much needed improvement to many trails in Memory Grove. The project also commemorates our strong spirit of community volunteers that was especially ident during the 2002 Winter Olympics and the August 1999 tornado. Come help us celebrate our community and all those who have given their time for us.

For many years Phil Carroll has organized the Annual May Memory Grove Clean-Up mostly by himself -- coordinated with the City crews, arranged for food, advertised, whatever need to be done he was on top of it. But, like Water Jones, who needs others to help put the Avenues Street Fair together, Phil needs some help, too. We are now organizing the Memory Grove Committee whose main responsibility will be to plan the May clean-up activity. Phil said that he will be glad to chair it, but he needs some helpers because it is just getting too big and really, that is a good thing. Besides it is always more fun and easier when the workload is distributed. If you'd like to be on the committee call Jill at 359-8513 or talk to either Phil or Jill at the October 5th GACC meeting.

Recently the City Council met and approved \$80K+ for the Ottinger Hall/YouthCity renovation. The GACC has never given the project approval but rather played the devil's advocate to try to get the City to address logistic problems with the location. While it will definitely be nice to see the Hall renovated, many of us hope our fears concerning the site for YouthCity will be proven wrong.

OUND at the Avenues Street Fair: Black Jacket. Call Jill at 359-8513.

Avenues Zoning Questionnaire

The Housing Compatibility Committee has met several times recently to address zoning issues in the neighborhood. A zoning questionnaire was developed and distributed at the Street Fair. The results are as follows:

- 94% of the respondents live in the SR-1 Zone with a slight majority in the Historic overlay. All six categories presented received strong support for more restrictive regulation.
- 96% would like to see restrictions for Protection of views.
- 94% want regulation of Building volume relative to lot size.
- 84% support restriction of Building Height
- Outbuilding size and Definition of Remodel versus new construction received less interest with 75% support.
- The lowest concern was Side/inline setback rules with 67%.

Utah Council for Citizen Diplomacy

The Utah Council for Citizen Diplomacy (UCCD) is a community-based volunteer organization whose mission is to promote global understanding and respect between the people of Utah and other nations through international person to person exchanges. In addition to the professional programs that the UCCD prepares for our delegates, we invite our community members to host our delegates for an evening of "Home Hospitality". That is, you invite the delegates to your home for an evening of dinner and conversation. During the course of that evening, you get a chance to be a citizen diplomat and help shape U.S. foreign relations "one handshake at a time."

As a UCCD member, you will be notified about upcoming Home Hosting opportunities via email. You may select the dates and delegates that match your time and interests. If you would like more information on how you can become a citizen diplomat, please contact Laura Dupuy, Director, ldupuy@utahdiplomacy.org or call 532-4747.

Volume IX, Issue 12

December 2005

Endings and Beginnings

As the year 2005 comes to a close, we look forward to projects in 2006 and look back at some of the projects for 2005. Safety and improvements were the main goals for most projects.

Let's look ahead first. The **2006 Special Community Project** that GACC would like to do is apply for a CIP Grant to help:

- (1) fix our sidewalks which the roots of our wonderful big beautiful trees have made uneven and dangerous,
- (2) add sidewalks close to Ensign Elementary School so kids do not need to walk in the street,
- (3) make all street corners ADA accessible (a few still are not),
- (4) get grates to cover the storm drain openings that can swallow cars, pets and kids besides the runoff water.

We need to get all the specific sites listed for our application. This is where you can help. Look around your street as you walk the neighborhood. If you see sidewalk or gutter problems, write down the *exact* address of each problem and then contact Michael Hughes. You may leave a message via phone; 322-3428 or email hesmichael@hotmail.com. The application is very detailed and usually due at the end of the summer so we need to get started now. Eric Jergensen says that when the Community Council applies for a grant, they have more clout than if the City Council members apply for the exact same thing. We could use some extra clout. Also Lynn Jarman from SLC Planning will be at the Dec GACC meeting to explain our options.

As I was walking along 9th Avenue a few weeks ago, I noticed a number of uneven spots including one that caught me off guard and sent me flying to the ground. It left me with a skinned elbow, a bruised hip and a twisted ankle. I'm sure that I'm not the only one this has ever happened to. These are health and safety issues that need to be addressed in a timely manner. The City also has a program where the property owner pays half and the City pays half for sidewalk and gutter repairs, but it typically costs the owner thousands of dollars. The Special Community Project CIP Grant would be a more reasonable option and we could make the whole Avenues a safer walking neighborhood. So, as you walk, make notes, and contact Michael. We need your help!

Let's look back at 2005: **Neighborhood Watch** and **Mobile Watch** – These are two proven programs that help neighbors help the police to keep their neighborhoods safe. I had the goal of having every street segment organized into a Neighborhood Watch group. How effective were we in making our own streets safe? Only one street, 1st Avenue between T and U Streets, organized. Several other people have expressed interest but I haven't heard from them. Call me when your street group has talked to Det. Matt Evans (contact info pg 3) and decided to watch out for each other. Please call Jill at 359-8513 or email at jsh@softcom.net. Also, Mobile Watch Chair Wayne Green is still looking for more drivers. Call him at 521-7917.

Sara, who lives on 11th Ave shared this experience to the GACC a few months back. She answered a knock during the day and found two well dressed young men asking for donations for Make a Wish Foundation. She knew that Make a Wish does not solicit door to door so who were they really?

GACC Community Meeting

Wednesday, December 7, 2005 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Jill Van Langeveld, 2005 GACC Chair

7:10 Reports

- | | |
|-----------------------|------------------|
| • Police | • Legislature |
| • Committees | • School Board |
| • City/County Council | • Mayor's Office |

7:40 Open Forum (Time permitting, limit 1 min. per person.)

7:45 GACC Year-end review– Jill Van Langeveld, 2005 GACC Chair, will recap the year's events.

8:00 Middle School merge – Doug Nelson, District School Board Representative, will speak about the proposal of merging Middle Schools into K-8 Schools.

8:10 Public-way Sidewalk Options – Lynn Jarman, SLC Engineering Division Planning and Programming Manager, will discuss options for neighborhood sidewalk repairs and additions.

8:20 Earthquake Preparedness – Mike Stever, member of the SLC Emergency Management Team, will give a presentation on Emergency preparedness.

8:40 GACC Meet and Greet – Refreshments will be provided with an opportunity to meet your neighbors. All welcome.

8:45 Adjournment

They could have been trying to get some extra change for a soda or maybe they were checking the neighborhood to see who was home during the day. She wanted to warn neighbors down the street but didn't have their numbers. She could have, if her street had organized a Neighborhood Watch.

Just down the street from me, Lynda told me about her mother-in-law's experience when she answered her door in October – she's also an Avenues resident. There was a man wearing a jacket that had *Police* in large print on the front and the back. He said that they were chasing an intruder and wondered if he had entered her home. He came inside the door and then asked her to check her back door. When she came back he was just starting to leave with her purse and the keys to her car. She screamed at him while grabbing the phone to call 911. Fortunately he dropped her purse and ran. When Det. Matt Evans comes to your first Neighborhood Watch meeting he'd remind you to never let anyone into your house without proper ID. He has many other ideas to help keep you safe. Call him now. If December is too busy, pick a date in January – it's a slow month. (article continued on pg 3)

Important Dates in December:

GACC Meet your Neighbors **Dec 7th**

Refreshments too at the Sweet Library, 7:00 p.m.

SLC City Council Public Hearing.... **Dec 6th**

SR-1 Zoning Infill Ordinance

Incompatible building on the Avenues has increased. An example is the house at 675 8th Avenue that looks down 2½ stories on its neighbors, blocking views, taking sunshine from gardens, and destroying the opportunity for neighbors to talk over their back fences. In April, members of our GACC started calling the City Planning and Zoning Department almost daily. The City Planning people knew they had a problem. We called Eric Jergensen, our City Councilman, and sought his advice. Eric asked other members of the City Council to look closely at their districts and they soon saw a pattern developing. We called the Mayor's office. He was very supportive of the Yalecrest group, and we hoped we'd get his help too. During the summer we organized the GACC Housing Compatibility Committee to focus on these problems. It took the Yalecrest Community 4 years to get an infill overlay to help protect their community. We hoped that it wouldn't take as long for us.

At the same time the City Council charged the SLC Planning Division to come up with zoning changes that would allow for development but not at the expense of the neighbors. They presented their first draft in September which the Council said was not comprehensive enough and they wanted a completed plan by October. Joel Paterson, SLC Planning Supervisor, developed a summary and came to our Housing Compatibility Committee meeting to present the plan. We were delighted because it was very similar to our Committee's proposal.

On October 24th SLC Planning held an Open House to explain the changes and on November 9th a Public Hearing took place. The Planning Commission forwarded the Infill Ordinance to the City Council with additional recommendations. Their biggest concern was whether the protection was worth the "perceived" impact on development. The City Council was briefed November 17th. The last step is the City Council Public Hearing that will be December 6th at 7pm. At that time, the Council will take public comments and then take some kind of action. They could approve it, make changes, or they could vote it down and tell SLC Planning people to try again. If you would like to comment, call Eric at the number listed below or email Joel at joel.paterson@slcgov.com.

Endings and Beginnings (cont'd from pg 1)

What is the status of projects in *Memory Grove*? The **Olympic Legacy Project** included: planting ground cover and placing wood chips to prevent erosion, replacing the trails with concrete on the east side of the park up to A St, and adding new lighting on the switchbacks. The ribbon cutting ceremony was held on October 22, and Shanon Barhke, the 1st US Medalist of the 2002 Winter Games, was a guest speaker. However, the 9th Avenue Trail was not completed due to insufficient funds. Dale Cook, SLC Engineering Dept, said it was next on the list of things to complete. The City didn't have to put out any money for this project (\$100,000 came from SLOC and \$100,000 from SL County) so it is more likely they will finish the funding for the project. Dale hopes the 9th Avenue Stairs project will be completed this summer.

Fourth Avenue Stairs are still in much need of repair. In December 2004 I applied for a CIP grant that was rejected. Then in September 2005, I applied for a CDGB (Community Development Block Grant) for the 2006-2007 funding year. The Fourth Avenues Stairs were listed in 2005 as item #224 in the Salt Lake City Parks and Recreation 20 Year Master Plan with no projected completion date. They listed an estimated cost of \$200,000. What needs to be done? (1) Soil stability study (even though the stairs have been there since 1915). (2) Rebuild the railings and the stairs adding bike grooves to aid riders taking their bikes up and down the stairs. (3) Lighting – replace existing lighting to ensure safety and (4) Landscaping as needed. Hopefully the grant will be approved.

Ottinger Hall/Youth City- The City approved Youth City-an after school program to be placed in refurbished Ottinger Hall. A Federal Grant and the Rotary Club were funding the project. Later, it was discovered that they needed another \$80,000 due to unforeseen costs so the City Council gave their approval. As of press time, it looks like they are fixing problems with the foundation and the project continues.

At our GACC meeting in September 2004, Morgan Atkinson of the Utah Department of Environmental Quality (DEQ) came to discuss plans to **remedy the gasoline plume in the soil** around the intersection of E Street and 1st Avenue. The plan was to install equipment on the southwest corner of the intersection that would remediate the hazardous materials from the soil. We kept watching for the digging and the equipment that never was installed. What was happening? I spoke with Morgan in November, and he said that the project was still scheduled but just as they were putting the contract out for bids, the property owners of the southwest corner changed their minds. The DEQ had to find a new location. The owners of the northeast corner agreed to let the DEQ put in the equipment behind the Java Joe's building. However, that would require Java Joe's to be closed for two weeks while the DEQ had the trenches dug. Java Joe's thought that was unacceptable and want to fight it. Morgan says they may have to get a court injunction but they hope to begin the project in early spring. We will keep watching.

If you have any suggestions for future projects or questions about past projects please contact me. I have enjoyed being Chair of the Greater Avenues Community Council this past year. I'll still be around, just not running the meetings. Thank you for a fun and very busy year. *Jill Van Langeveld Chair '05*

Please note: The newsletter "The Agenda" is mailed free to all residences in the Avenues every month. This correspondence is to conduct the business of the Greater Avenues Community Council. Please do not use the contact information of addressees for any other purpose. The GACC Executive Board meets on the second Wednesday of each month, 7:30 p.m. at the Sweet Library, 9th Avenue and F Street. See www.slc-avenues.org

January 2006

New Zoning Ordinance in the Avenues

On December 13th, the Salt Lake City Council unanimously approved a city wide residential housing infill zoning ordinance. The ordinance was prompted by recent projects that harmed adjacent property owners and neighborhoods. Over the last year, the Avenues SR-1 zoning district has been particularly hard hit by numerous such projects, as the small, often deep and narrow lots characteristic of the SR-1 district pose a particular set of challenges.

The City Planning Division initially produced a creative and well-crafted proposal that balanced permit applicant rights with those of surrounding property owners. Public support of the proposal was strong. Unfortunately, most media coverage concerning the infill ordinance was largely inaccurate, and failed to describe the tiered process, which was designed specifically to address the challenges of areas where a wide variety of development patterns are found in close proximity. The SR-1 district has numerous areas where the development pattern differs from block to block and often from one side of the street to the other. Misinformation, along with other political factors, led to the Dec. 13th passage of a citywide ordinance that does not adequately protect Avenues homeowners.

The City Council recognized the Avenues SR-1 district (along with Capitol Hill and Wasatch Hollow) as uniquely vulnerable under the new ordinance and included a temporary building height restriction of 23 feet for an unreviewed counter permit in these areas. The City Council's expectation is that these communities will use this time to write community-specific "overlays". Several areas already have overlays e.g., the Foothills Overlay (FR-1) in the upper Avenues. Please refer to the Greater Avenues Zoning map located on page 3.

The Housing Compatibility Committee (HCC) of the GACC has been working with City Planning for some time on an overlay. We will be presenting our framework for the overlay at upcoming GACC meetings and will be soliciting ideas and comments from the Avenues community.

The community is also invited and encouraged to participate in our Housing Compatibility committee meetings, which are listed in the GACC newsletter calendar on page 2. The next committee meeting will be Dec. 28 at 7:00 p.m. at the Sweet Library.

GACC Community Meeting

Wednesday, January 4, 2006 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Steve Mecham, 2006 GACC Chair

7:10 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:40 Open Forum (Time permitting, limit 1 min. per person.)

7:45 GACC Year-end review— Jill Van Langeveld, 2005 GACC Chair, will recap and conclude the past year's events.

7:55 Housing Compatibility Committee — Shane Carlson, Committee member, will discuss plans for an Avenues Infill Overlay in the SR-1 Zoning District that will be compatible with the recently passed City Ordinance on Monster Homes.

8:20 Slide Presentation — Lt. Tim Doubt, SLC Police Special Investigations Officer, will show residents what to look for concerning gang activity and when and how to report events to the police force.

8:45 Adjournment

Additional details on the Avenues overlay and the work of the Housing Compatibility committee will be made available on the GACC web page at www.slc-avenues.org.

Links to related City web pages will be provided as they become available.

For the Housing Compatibility Committee,
Shane Carlson
Jim Jenkin

SLC Christmas Tree Removal Program

Curbside Holiday Tree Recycling ... Jan 23rd - 27th

Place cut live Christmas trees on the curbside for pickup beginning Monday Jan 23, at 7:00 a.m.

Note: If there is heavy snowfall, pickup may be delayed.

Contact the SLC Sanitation Dept at 535-6970 for additional information.

Welcome to Our 2006 GACC Officers:

2006 Chair	Steve Mecham
2006 Chair-Elect	Michael Hughes
Secretary	Jaynie Brown
Treasurer	John Sittner

The full list of GACC Board Members and the Avenues Areas they represent will appear in the February newsletter. Contact information will also be listed.

Shriners Hospital for Children - New Underground Parking Garage

Construction of a new underground parking garage at Shriners Hospital for Children is expected to begin in February or March. The new \$4.5 million structure will double current parking capacity on hospital property while relieving congestion and parking on side streets, especially Virginia St. and Fairfax Road.

The project is expected to last 7-9 months and there will be an increase in large vehicle traffic on Virginia St. during that time. Changes in the architecture, view, and landscaping, from the street are expected to be minimal. Questions or comments about the construction process are welcome. Please contact Mike Babcock, Director of Public Relations, at 536-3713 or e-mail Mr. Babcock at: mbabcock@shrinenet.org.

February 2006

New Zoning Ordinance in the Avenues

In the January GACC newsletter, we announced the recently adopted City-wide In-fill Zoning Ordinance. Since then, we have had a number of questions about the ordinance. First, an "in-fill" zoning ordinance simply refers to the fact that nearly all of the land within the zoned area has been developed, hence the description "in-fill." In-fill ordinances are written to address the challenge of ensuring that all construction remains compatible with the existing "development pattern." The **development pattern** is defined by a specific group of buildings, and where they are located on the lot. For this Ordinance, lots on the same side of the street and on the same block as the proposed project comprise a "block face." Homes on the same block face as the proposed project will be considered in defining a development pattern. Corner lots belong to two block faces.

So how will this work if you want to remodel your house? Because a number of neighborhoods in Salt Lake City have diverse development patterns in close proximity, the new in-fill zoning ordinance was crafted to allow homeowners to remodel while affording a measure of predictability for the adjacent property owners. In these diverse areas, a simple set of dimensional restrictions such as building height limits proved to be inadequate. A low building height limit that would provide protection and predictability for a row of single story bungalows would be too restrictive for the row of three story Victorian homes that were often located just a block away. To address this diversity, the City adopted a **three-tiered** approach to zoning.

In the three-tiered approach, projects are divided into tiers based upon their potential to negatively impact the character of the surrounding community. The **first tier** includes projects with a chance of having a negative impact. To determine if a proposed project fits in this tier, the City created a list of dimensional limits. Projects not exceeding those limits were deemed appropriate in any neighborhood. To obtain a permit you simply show that your project will not exceed these limits and you will be granted a permit "over the counter," also known as a **counter permit**. However, if your project exceeds one or more of these dimensional limits, another way to obtain a counter permit is to show that your project is no greater than the average of your block face regarding the particular dimension(s) that exceed the dimensional limits of the first tier.

If your project exceeds both the dimensional counter permit limits and the block face average, you would then move to the **second tier**. The second tier is a very important addition to the City zoning ordinance.

The **second tier** was designed to provide *expedited* approval of projects exceeding the first tier limits but which are still compatible with the existing development pattern. In the past, projects exceeding the counter permit limits were referred to the Board of Adjustment (BOA). Hearings before the BOA could take weeks to schedule and often required a significant amount of effort and expense on the part of the applicant - with no guarantee a permit would be issued.

GACC Community Meeting

Wednesday, February 1, 2006 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Steve Mecham, 2006 GACC Chair

7:05 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:35 Open Forum - (Time permitting, limit 1 min. per person.)

7:40 GACC Financial Report - Michael Hughes, GACC Chair-Elect, will give the financial report for 2005.

7:45 Housing Compatibility Committee - Shane Carlson, Committee member, will discuss details of the Avenues Infill Overlay in the SR-1 Zoning District. Overlay vote scheduled for March 1, 2006 GACC meeting.

8:15 Land Use Bill - Lincoln Shurtz, analyst for the Utah League of Cities and Towns, will discuss a potential bill requiring cities to prove development zoning maintains the "health, safety, and welfare" of their community.

8:25 State Legislation - House Minority Leader Ralph Becker and Senator Scott McCoy will inform residents of progress on current legislation at the Capitol.

In contrast, tier two projects are administered by one person, an Administrative Public Hearing Officer (APHO), who has a great deal of latitude in scheduling.

The first two options for a tier two project are: 1) A "Routine and Uncontested Special Exception" which requires that all adjoining property owners approve your plans or, 2) A demonstration that your project is consistent with the development pattern on your block face. Finally, if the applicant cannot satisfy either the Special Exception or the Development Pattern requirements, they will be given the opportunity for a hearing before the APHO. Adjoining property owners will also be given an opportunity to voice their concerns. Ideally the applicant and adjacent property owners will work together before the hearing to reach a reasonable compromise that they can present to the APHO. Finally, if the APHO does not feel that the project is appropriate, the applicant will have the option of a Hearing before the Board of Adjustment, the third tier of this process.

Don't forget that the Housing Compatibility Committee is now working on an "overlay" for the SR-1 area and we welcome your input (An overlay is a set of zoning rules written for a subsection of a larger region. Overlays are sought when some characteristic of the smaller area renders the zoning rules for the larger area insufficient or inappropriate). Work on the proposed overlay will conclude in early March with a **vote before the Community Council scheduled for March 1, 2006.**

For the Housing Compatibility Committee - Shane Carlson

Schools**Bryant Intermediate School**

Feb. 07 – 7th grade orientation, 7 pm
 Feb. 09 – Short say #6, School dismissed at 1:05 pm
 Feb. 15 & 16 – Multi-cultural program, 7 pm
 Feb. 17 – Download grades by 5 pm
 Feb. 20 & 21 – No school!

The Madeleine Choir School

Feb. 03 – Talent Show, Erbin Hall, 2 pm
 Feb 11 – Alice in Wonderland performance, Erbin Hall, 3 & 7 pm
 Feb 17 to 20 – School Closed!

Feb 24 – Science & Geography Fair, 6:30 pm – open to public

Wasatch Elementary

Reading tutors needed at Wasatch Elementary! Training provided. No experience necessary. Minimal time commitment, required. Please contact Marriott Bartholomew at 532-2056.

Feb. 03 – Town meeting, 9 am
 Feb. 04 – School Community Council, 3.15 pm
 Feb. 16 – Vision screening
 Feb. 20 & 21 – No school!

March 3 – FALL Kindergarten Registration, 10:30 am to 2:30 pm
Do you live within our boundaries? Will your child will be 5 years old on Sep. 1st? If so, please register your child now, to begin kindergarten this Fall. On March 3rd, you must bring your child's birth certificate and immunization record, to pick up your registration packet. Completed forms must be returned by March 17th.

Cathedral of the Madeleine

331 South Temple – saltlakedcathedral.org – 328-8941
 Bishop Niederauer's Farewell Mass - Feb. 5, 11 am
 Chamber Music Concert - Feb. 5, 8 pm. No seating passes required!

First Presbyterian Church

12 N. C Street – fpcsl.org - 363-3889

Surviving the Culture Wars – Wednesdays, 7 – 8:30 pm, through April 25. Are you tired of the arguments between the "left and right" and looking for another perspective? Check out this weekly discussion group, facilitated by Pastor Jim Teall.

Primary Children's Medical Center

100 North Medical Drive – primarychildrens.org

Radiothon Volunteers Needed! - The 30th annual KSL Radiothon will be held Feb. 7 & 8 at Primary Children's Medical Center. Live broadcasts on FM100 & AM1160 will feature Primary Children's patients telling their incredible stories of hope and inspiration. All proceeds raised will help children in need at Primary Children's. To volunteer during the Radiothon, please call Lyn Dye, at 588-3674.

Exercise Class

1300 E. Fairfax Road – 534-1443

FREE Avenues Exercise Class - Mondays & Wednesdays, 8:30 - 9:30 am. Have fun as you increase your strength, flexibility and body alignment. For more information, call Renate, at 534-1443.

Clark Planetarium

110 S. 4th West – clarkplanetarium.org – 456-7827

IMAX Theatre – through March 2nd - Magnificent Desolation 3D, T-Rex 3-D, & Adrenaline Rush. Adults: \$8. Children under 12: \$5.
Digital Dome Theatre – through March 2nd - Black Holes, Night Vision, Secret of the Cardboard Rocket, Ultimate Universe, Entranced, Dark Side of the Moon, Rock Hall of Fame. Adults: \$8. Children: \$5.

LDS Hospital

8th Avenue & C Street - 408-1100

FREE suicide support group – Tuesday, Feb. 21 – Mar. 28, 6:30 pm., at the Murray library, 166 E. 5300 South. This six-week, sponsored by LDS Hospital's bereavement program, is for anyone who's been affected by a loved one who choose to end their life. If you have questions, call Helen Rollins, RN, at 408-5661.

Utah Museum of Natural History

umnh.utah.edu

Human Nature: Insights from the Natural World – Feb. 4 to Apr. 26, on the University of Utah campus, 1390 E. Presidents Circle (2nd south). The exhibit features paintings by artist and Utah native Arlene Braithwaite, inspired by her personal experiences and observations in nature. Her work helps us understand our place in the world and our connection to other living things. Activities for children and adults will be offered during the exhibit. For more information, call 581-6927.

Utah Heritage Foundation

utahheritagefoundation.org

Masonry Matters Workshop Series – Feb. 11, 9 – 11 am, Memorial House in Memory Grove Park, 485 N Canyon Rd. (120 East). Learn what every property owner should know about repairing your historic masonry, including: removing paint, cleaning, repairing, and sealing. Presented by John Lambert, Abstract Masonry Restoration. UHF members: \$8 per individual class. Non-members: \$10 per individual class. To register by phone, please call (801) 533-0858 ext. 107.

KUED Channel-7

kued.org

TV Audience Volunteers Needed! - KUED-7 is looking for individuals to participate in an audience-driven televised discussion about the Utah State Budget, the tax surplus, and general tax reform. For more information, please call 585-6017.

Ronald McDonald House

935 E. South Temple – 363-4663

Silent Auction Donations Needed! – The Ronald McDonald House annual silent/live auction fundraiser will be held April 22, at Little America Hotel. Donated items are currently being accepted for auction. Please contact Leslie Cunningham at 363-4663 or leslie@rmhslc.org.

Shriners Hospital

1340 E. 11th Avenue

Art with Heart – Dance Concert, Feb. 17, 7 pm; Feb. 18, 2 & 7 pm, at the Jeanne Wagner Theatre, Rose Wagner Performing Arts Center, 138 W. Broadway. Three of Utah's best dance groups will perform, with all proceeds benefiting Shriners Hospital. For tickets, call 355-ARTS.

Volunteer Opportunities – If you're interested in participating in one of Shriners Hospital's volunteer programs, please call 526-2711.

Please Note: Newsletter information is due by the 10th day of the month prior to the next issue. Information will print on a space-available basis. Police Dispatcher – Non-Emergency only: 799-3000**In an emergency, always dial 911.****Shriners Hospital New Underground Parking Garage**

Construction of a new underground parking garage at Shriners Hospital for Children is expected to begin in February or March. The project is expected to last 7-9 months and there will be an increase in large vehicle traffic on Virginia St. during that time. Changes in the architecture, view, and landscaping, from the street are expected to be minimal. Questions or comments about the construction process are welcome. Please contact Mike Babcock, Director of Public Relations, at 536-3713 or e-mail Mr. Babcock at: mbabcock@shrinenet.org.

Gang Graffiti and Tagging

Last Month, SLC Police Officer Lt. Tim Doubt gave a presentation on Gang Graffiti and Tagging. These terms are two different things and mean different things in the community. *Taggers* produce "artistic vandalism" and are rarely involved in other criminal acts. Taggers use big bubble letters, multiple colors and usually sign their work. *Gang graffiti* on the other hand is like a community message board where different gangs write insults and threaten each other by crossing out previous messages. The police can interpret these messages and know who is at war.

If you see any Gang Graffiti or Tagging, call to get rid of it or it will expand. **Graffiti Hotline: 972-7885**. Keep a pencil and paper with you so when you see it, you can jot down the address and what kind of *surface* is painted. Police will take pictures of it and remove it immediately. If you see gang activity happening call 911 or **Gang Hotline: 799-4114**. The number for all Police Non-emergencies is **799-3000**. If you would like to start a **Neighborhood Watch** group in your area and want more information, please contact Jill Van Langeveld: 359-8513.

Please note: The newsletter "The Agenda" is mailed free to all residences in the Avenues every month. This correspondence is to conduct the business of the Greater Avenues Community Council. Please do not use the contact information of addressees for any other purpose. Please call GACC Chair Steve Mecham at 359-4165 with any community questions. The GACC Executive Board meets on the second Wednesday of each month, 7:30 p.m. at the Sweet Library, corner of 9th Avenue and F Street. All are welcome. For more information visit www.slc-avenues.org.

March 2006

Avenues Overlay for SR-1 Zoning Ordinance

Since July, 2005, the GACC Housing Compatibility Committee has been meeting at least twice a month. Recently the committee has been meeting every week. Committee members have studied the forces driving last summer's unfortunate abundance of out of scale and out of character tear downs and "remodels." We identified the SR-1 area, with its deep and narrow lots, and one of the most liberal zoning ordinances in the entire city as particularly vulnerable. Rapidly rising fuel costs and increasing commute times from distant areas of the Salt Lake Valley have led people accustomed to larger lots and larger homes to consider moving to the city. The Avenues historic character has also added to the area's popularity.

Housing committee members have reviewed zoning ordinances throughout the city, consulted the Avenues Master Plan, and met with City Council members, Planning Department officials, architects, realtors, contractors, and area residents. In addition, we have recently completed an **inventory** of every residential property in the SR-1 area. The inventory identified particularly vulnerable areas where surveyors from the City Division of Engineering will take exact measurements to confirm the estimates obtained from our inventory. Members of the Housing Committee have attended numerous City Council and Planning Commission meetings, and compiled a significant amount of information for the Housing Committee website. Finally, at each of the last nine Community Council meetings we have presented the results of our efforts and asked for input from the community. We have done all of this in an effort to draft a new set of fair and flexible zoning rules specific for our SR-1 area that will allow for a large range of diverse development patterns while providing a measure of predictability for everyone in the community.

In December, the Salt Lake City Council identified the SR-1 district in the Avenues as one of two particularly vulnerable areas in the city when they approved a temporary overlay for this district. The temporary ordinance was implemented to protect the SR-1 area while our Housing Committee developed appropriate measures to protect it permanently. At the same time, the City Council completed revising the base zoning ordinance for the entire city.

There has been some confusion between the overlay we are presently working on and the changes that took place throughout the city. The Avenues Overlay will address development unique to the neighborhood while still following the SR-1 Ordinance.

The City SR-1 Zoning Ordinance resulted in these changes: no inline side setback additions, front yard setbacks defined by the block face, and limits on dormers. Some measures, such as the reduction of allowable maximum lot coverage from 55% to 40% for all SR-1 and R-1-5000 districts, were instituted to make these areas more similar to rest of the city zoning which already had maximum lot coverage limits of 40-43%. Most importantly, the city adopted a tiered zoning process, the addition of which was specifically intended to address the type of diversity found in the SR-1 district.

GACC Community Meeting

Wednesday, March 1, 2006 7:00 p.m.

Sweet Library, 9th Avenue and F Street

Agenda (times approximate)

7:00 Welcome and Announcements

- Steve Mecham, 2006 GACC Chair

7:05 Reports

- Police
- Committees
- City/County Council
- Legislature
- School Board
- Mayor's Office

7:35 Town Hall Meeting—Jaynie Brown, GACC Board Member, announces the SLC Meeting on Preventing Underage Drinking.

7:40 Open Forum (Time permitting, limit 1 min. per person.)

7:45 2006 Avenues Street Fair – Walter Jones, Avenues Street Fair Chair, will relay details of this year's first meeting on April 1st.

7:50 Housing Compatibility Committee – Shane Carlson, Speaker of the Committee, will present the master plan for an Avenues Infill Overlay in the SR-1 Zoning District. The Overlay will replace the Temporary SR-1 Zoning Ordinance. **A vote will take place March 1, 2006.**

8:45 Adjournment

The one item where the Housing Committee felt that additional restrictions are both appropriate and necessary is the size of accessory buildings. The ordinance presently in place throughout the city allows up to a 720 square foot garage for a single family residence. A 720 square foot garage can house up to four cars (36 feet by 20 feet). A large majority of the lots in the SR-1 district are less than 42 feet wide. Most of the SR-1 district was developed prior to the automobile being the center of so many people's lives. Many of the homes in our district started out with a carriage house that, if still standing, is adequate for just one car. In this day and age it is not reasonable to restrict a property owner to less than the 480 square feet required for a moderately sized two car garage (24 by 20 feet) but a three or four car garage would often unnecessarily and negatively impact the adjoining properties. The Committee is also considering an additional allowance for a second accessory structure with a footprint of 120 square feet and a height limit of 10 feet at the peak. The second accessory building could be used for storage, a workshop or perhaps an elaborate tool shed.

In conclusion, we agree with the City that no modifications to any of the permit processes are called for at this time. We also agree with the Planning Office, and our SR-1 inventory supports, that a counter permit height limit of 23 feet for primary buildings is required to ensure predictability in the most vulnerable SR-1 neighborhoods. The **Table on page 30** of this newsletter summarizes all of the changes sought by the proposed overlay. Please, visit our web-page at: www.slc-avenues.org for the complete overlay text, inventories, maps and city links. At the **March 1st** Community Council meeting, the overlay will be described in detail and a vote will be taken to determine if the proposed overlay will be forwarded to the City for approval. – Shane Carlson, HC Committee Speaker

Salt Lake Regional Medical Center**Seniors Association**

237 S. 10th East – 538-2084

Monday – Friday, open 8 am to 4 pm. Visit the seniors association for a wide variety of daily activities: from A to Z!

Lunch – Served daily at 11 a.m. \$2.00 donation. RSVP day before.

Health Screenings – first Wednesday of each month

Foot Clinic – by appointment only the 2nd Wednesday of each month.

Bingo – last Thursday every month

Donated Clothing – The Hospital is in need of gently used sweats and or exercise clothing. We also could use magazines for our waiting areas.

If you have either, please bring your donation to the Volunteer office!

New members – If you are not a member of the Senior Association and would like more info please call Dottie Mitchell, 350-4991.

Utah Museum of Fine Arts

410 Campus Center Drive – www.umfa.utah.edu

Frida Kahlo – through the lens of Nikolas Muray – runs through May. This exhibition comprises a suite of 21 photographic portraits taken of Frida Kahlo, dating from 1937 to 1941. Muray's images reflect his unique perspective on Kahlo – the artist, her life and the people significant to her. Objects from UMFA's pre-Columbian collection reflective of those found in the photographs of Kahlo are included in the exhibition to illustrate how her ancestry shaped her artistic identity. Adults \$4, Seniors \$2, Youth (ages 6-18) \$2, Children under 6 FREE!

Bats! & A Free Movie – Mar. 9, 6:30 pm, Main SLC Public Library, 210 East 4th South. Crazy bats—the result of a government experiment gone wrong—suddenly become intelligent, vicious, omnivorous, and attack people near Gallup, Texas. Bat specialists are brought in, but can they stop the bats before the military comes in and, in their ignorance, makes things worse? Utah bat rescuer and rehabilitator **Heidi Harris** will join us to discuss these misunderstood mammals of the night.

Utah Heritage Foundation

utahheritagefoundation.org

Landscaping & Fences for your Historic House – Mar. 11, 9 – 11 am, Memorial House in Memory Grove Park, 485 No. Canyon Rd. (120 East). UHF members: \$8 per individual class. Non-members: \$10 per individual class. To register by phone, call (801) 533-0858 ext. 107.

Ronald McDonald House

935 E. South Temple – 363-4663

Silent Auction Donations Needed! – The Ronald McDonald House annual silent/live auction fundraiser will be held April 22, at Little America Hotel. Donated items are currently being accepted for the auction. For details please contact Leslie Cunningham at 363-4663 or leslie@rmhslc.org

Sweet Library

455 F Stree (9th Avenue) – 594-8651 – slcpl.org

Share your Ideas! – Please email the library with your suggestions for programs you'd like to see the Sweet Library should offer. They are open to new ideas.

Dr. Suess' Birthday – Mar. 4, 10 – 11 a.m.

Book Baby – Wednesdays – 10 am, for children 2 years & under.

Storytime – Wednesdays, 10:30 am, for children 3-5 years.

Sweet Reads – Mar. 28, 2 p.m. – Staff-lead discussion of new book releases for adults & favorites reads.

Primary Children's Medical Center

100 North Medical Drive (1800 East) – primarychildrens.org

Surgical Services Open House – Mar. 4, 9:30 am to noon. The public is invited to attend. Don't miss your opportunity to see what happens on the other side of the Operating Room doors. Kids of all ages can perform a mock laparoscopy or a mock appendectomy, look through a microscope, learn about anesthesia, and more activities. For more information, call 588-3200.

Global Warming Resolution

Global warming is the warming of the earth's environment caused by increased production in the atmosphere of "heat-absorbing", or green house gases, which is produced from the burning of carbon-based fuels such as coal, gasoline, and natural gas. Kevin Cummins has been appointed by the GACC to form a sub-committee to draft a resolution calling for state-wide action on global warming. This resolution, if adopted by Utah Leadership, will help call attention to a global problem, and will place Utah in the position of becoming a recognized leader in developing innovative solutions to global warming. Interested parties may contact him at 363-3622 or email Kevin at: cummins.kevin@yahoo.com

Another Kind of Problem House

The GACC has been working diligently for 8 months with the City on extra-oversized houses in the area – a problem not unique to our neighborhood. Neighborhoods all over the country are facing the same problem and looking for solutions. However, with this strong focus we have been overlooking another housing problem often caused by absentee landlords.

There are **Problem Houses** scattered throughout our neighborhood. They may be vacant (weeds over 6 inches become a violation), have loud parties (noise ordinance from 9pm to 7am), too many animals (City ordinances allow for **two** dogs per household), or too many people living in a household (more than **three** unrelated adults living together is a violation and can result in parking violations). If you have a **Problem House** close to you, please call me. There are many different agencies in the City that can help solve these problems. You don't have to try to "just ignore it" or "just deal with it." Please call me and together we can make our neighborhood more **neighborly**. -Jill VanLangeveld 359-8513; JAVANL2@softcom.net.

Summary of Proposed SR-1 Overlay

	Citywide Ordinance as of 12/13/06	Temporary Ordinance in SR-1 District (exp. 7/06)	Proposed SR-1 Overlay
Primary Building - Maximum Height	28 feet at peak ¹	23 feet at peak ¹	23 feet at peak ¹
Primary Building - Flat Roofed Maximum Height	20 feet ²	16 feet ²	16 feet ²
Primary Building - Maximum Exterior Wall Height	20 feet ²	16 feet ²	16 feet ²
Yard Requirements - Front Setback	Block face average	Block face average	Block face average ³
Yard Requirements - Corner Side Yard Setback	10 feet ⁴	10 feet ⁴	10 feet
Accessory Buildings (e.g. garage) - maximum foot print	minimum 480 sf ⁵ maximum 720 sf	minimum 480 sf ⁵ maximum 720 sf	480 square feet
Accessory Building - maximum height	17 feet at peak ⁷	17 feet at peak ⁷	14 or 15 feet at peak ⁶
Accessory Building - maximum wall height	none ⁷	none ⁷	9 or 10 feet ⁶
Accessory Building - maximum flat-roofed height	none ⁷	none ⁷	9 or 10 feet ⁶
One additional accessory structure - foot print	n/a	n/a	120 square feet ⁶
One additional accessory structure - max height	n/a	n/a	10 feet at peak ⁶

Footnotes

1. Or Average of block face
2. For each additional foot of side setback beyond the minimum add one foot of allowable exterior wall height
3. Provision to exclude properties with smallest and greatest setbacks from block face average if block face consists of three or more properties - added to proposed SR-1 Overlay
4. But no greater than established setback line (this provision removed in proposed SR-1 overlay)
5. Up to 50% of primary building foot print; but not smaller than 480 square feet, maximum for single family home - 720 square feet, maximum for dual family home - 1000 square feet.
6. Still being reviewed at time of this publication
7. Wall and flat roof height was determined by limits on pitched roof height

Date: January 9th, 2006

Time: 7:30 PM

Location: Sweet Library

Agenda

1. Joel Paterson, Senior Planner, Salt Lake City Office of Planning and Permits will discuss the process required of Community Councils applying for zoning overlay districts that would supersede the general zoning ordinances for a given area.

2. The Wasatch Hollow Housing Committee is also currently working to develop an overlay for their area and they have been invited to attend this GACC Housing Compatibility Committee meeting.

All attendees are encouraged to come prepared with questions regarding the process of developing an overlay application.

HCC Agenda – 2/6/06

Review of 1/30/06 minutes

CHCC update

Review of SR-1 inventory:

Primary building height

Garages

Flat roofs

2/1/06 – GACC presentation - feedback

3/1/06 – GACC presentation – time needed, suggestions

Review of all SR-1 dimensions (original ordinance and temp infill)

Upcoming Meeting schedule

HCC Agenda 02/13/06

Reviewing all of the current SR-1 Dimensional Limits, completing the committee's decisions regarding counter permit limits and finalizing the decisions we made last week.

January 18, 2006 HCC Agenda - MEMORIAL HOUSE (Memory Grove) - 7 pm

Review of Minutes from 1/9 meeting

- . Letters to City Council members (Jim)
- . Letter to Rocky

Planning department gave us a deadline of 3/6 for SR-1 overlay!

February GACC presentation

- . Terms needing definition
- . Second Tier
- . HCC Work
- . Announce March GACC vote in February GACC meeting

Web-page (COMMENTS, SUGGESTIONS, ETC.)

- . Add definitions of terms
- . Newly published ordinances are finalized
- . Letter to Jill from Joel on web-page?
- . Scenarios - Any interested in putting some of these together?

Should we include Capitol Hills CC in the SR-1 Overlay?

Dimensions of interest for the SR-1 Overlay?

- . Primary building front setback
- . Primary building side setback
- . Primary building height
- . Primary building wall height
- . Primary building lat roofed
- . Attached garage front facade
- . Accessory building size ()
- . Accessory building placement
- . Accessory building height
- . Accessory building wall height
- . Accessory Building flat roofs
- . Maximum lot coverage

Discussion/Pictures of vulnerable block faces

Canvas Avenues with map - 1 story, 1.5 story, 2 story (how to distinguish? - need maps)

GACC Housing Compatibility Committee

Agenda - 2/22/06

1. Review of previous meetings' minutes
2. A review of the overlay dimensions that have been determined to date.
3. Completion of the unfinished overlay items.
4. Discuss the wording of the proposal, including an introduction.
5. Meeting with Joel Paterson that Shane will be reporting on.
 - a. corner lot setback
 - b. interior side setback allowance
 - c. 2nd accessory building
6. CHCC Update
7. March 1, HCC presentation.
8. Other items?

Minutes of the Avenues Housing Compatibility Committee

Sweet Library
7:00-8:15 pm

Shane Carlson Conducting

Text of the Proposed SR-1 Overlay

We carefully read through the text for the Proposed SR-1 Overlay and made minor wording changes to make the meaning clearer.

Web Page

Michael Hughes was assigned to check the web page to make sure the links worked so the information could be accessed. Lester Aoki will have the web page broken links fixed asap.

Shane was assigned to get the final text of the Proposal on the web page by Tuesday morning, February 28, 2006

GACC Presentation on March 1, 2006

1. 60 black and white copies of the Avenues HCC Overlay Summary for handouts
2. Color transparencies of the Avenues HCC Overlay Summary for use on overhead
3. Jim Jenkin – motion to accept proposal in it's entirety
4. Discussion
5. Vote
6. If it doesn't pass, make necessary changes and vote again.

Next Meeting

Monday, March 13, 2006

Miscellaneous

1. The official City building heights survey is 1½ weeks behind. The Planning Department is OK with the delay.
2. For our final document we need:
 - a. Title to include Avenues in it
 - b. Purpose statement using the Yalecrest Overlay as a guide
 - c. Resolution – Jim Jenkin wrote one months ago that Kat Kivit kept

February 22, 2006
Sweet Library
6:30-8:45

Shane Carlson Conducting

Letters

Still moving forward

Meeting with Joel Paterson

Shane met with Joel this afternoon. Joel looked at what we had done and felt that there were three areas that we needed to address. We discussed these three points decided that this was the way we wanted to go.

1. Corner lot setback: Side setback – 10 ft.; Front setback – Block face average excluding smallest and greatest setback if block face consists of 3 or more properties. The City uses the block face average.

2. Minimum Interior side setback –

a. 4 feet on one side and 10 feet for the other. This follows the City's guidelines

b. Lots narrower than 46'8": Not more than 30 % of lot width (30 foot lot = minimum combined setbacks of 9 feet (4 and 5 feet)).

c. Lots narrower than 26'8": Not less than 4 feet each side

d. Not closer than 10 feet from the adjacent primary building.

3. Secondary accessory building. The City only addresses one accessory building. After much discussion we came up with this statement. A garage should not exceed 480 square feet with 14' peak and 9' inside wall. Tertiary buildings will not exceed a total of 600 square feet with maximum ridge height of 10 feet and may be attached.

March 1st GACC Presentation

We have 55 minutes for (1) Presentation: 20-25 minutes, (2) Motion, (3) Discussion and then (4) Vote. The presentation will include

1. A History – what has happened and why we have made this proposal

2. The Approval Process – if approved by the GACC then it goes to the Planning Department, on to the Planning Commission and finally to the City Council.

3. Show the proposed ordinance with overhead transparencies comparing (1) Ordinances prior to 12-13-06, (2) After the citywide ordinance adoption (3) Temporary 6 month Ordinance in SR-1 district and (4) Avenues Proposed SR-1 Overlay

4 Scenarios – three detailed examples with visuals.

Future Meetings

February 27th Sweet Library at 7:00pm – plan for 30 minutes

March 6th Sweet Library at 7:00pm – only if necessary

Party maybe sometime the week of March 20th

Sweet Library
6:30 to 8:55 pm

Lon Richardson Conducting

Dimensional Limits for Avenues SR-1 Overlay

Shane Carlson conducted a discussion, review, and preliminary determination of the dimensions to be included in the Avenues SR-1 overlay. The committee completed the process of creating the overlay which the group had begun last week (2/6/06).

Shane will be creating a spreadsheet showing all of the dimensional limits that are currently in place for the SR-1 district, what those limits were before the city-wide infill zoning ordinance passed on 12/13/05, what those limits are presently in light of the temporary restrictions provided by the City Council (on 12/13/05) and what the proposed overlay will be seeking as permanent dimensional limits for the SR-1 area.

to speak at an information meeting regarding the change of zoning proposed by the Planning Department. Only one CC was not represented. Shane Carlson was chosen to represent the GACC at that meeting and he has been the HCC's unofficial spokesperson ever since. It was proposed and passed that we make Shane our *permanent* spokesperson. Lon Richardson is still the Chair and in his absence, Shane has chaired some meetings. The chair's responsibilities in any committee are to get things organized, keep members on task and make everyone feel comfortable to share ideas. Lon has done a wonderful job and we want to thank him officially and publicly.

Discussion of Homework

Joel Paterson had suggested that we include everything in our overlay so that if the City were to change the underlying zoning we would still have what we wanted. During the week Shane took the three zoning ordinances we were assigned to read and merged them into one document. In red he added the Temporary Zone Restriction. Now we have the beginnings of our Avenues overlay. We went through the first two pages making additions and corrections before time ran out – four more pages to go.

Minutes of the Avenues Housing Compatibility Committee Meeting
January 30, 2006
Sweet Library
7:00 pm

Lon Richardson Conducting

Capitol Hill Community Council

Eric Jergensen introduced Peter von Sivers and Vicki Collard from the CHCC. They are also working to get a similar permanent overlay to replace City Ordinance 91 of 2005 which gives temporary zoning regulations for compatible infill development in the SR-1 areas. We will be helping each other as we work to get everything done by March 6, 2006.

Letters and Field Trip

We want Mayor Andersen on our team. The letter to the Mayor that Shane and Jim were drafting is almost ready to send. We would also like to invite the Mayor, Louis Zunguze, and Eric for a field trip to see examples of homes that would work well with the proposed three tier permit process.

SB170

Lon gave a brief explanation of SB170 along with a handout. If it passes all the work we've been doing will be for not. Eric suggested we send rational rather than emotional letters-to-the-editor and emails to our own legislators and any other legislators that we have an acquaintance. President Madison said that to live in a society "all agree to give up some rights."

Lincoln Shurtz of the Utah League of Cities and Towns will address the GACC meeting February 1st to explain this bill. The League is very apposed to the bill.

Inventory of Homes

Shane had some of the inventory which included 1, 1½, and 2-story homes entered into the computer. The Colors made it very easy to see the building patterns. He will have three large maps made and laminated to use at the GACC meeting on Wednesday – (1) height, (2) attached garages, and (3) flat roofs. The maps show visually the criteria we used and what we found.

Miscellaneous Comments

Shane will meet with architect Dave Richardson on next week to create a half dozen scenarios showing how the overlay will work in some specific situations.

At a meeting Shane, Jim and Jill had with Eric on Friday, January 27th, Eric said that the Council has the perception that we don't want families moving into our neighborhoods. We need to address that concern. Cost of land is probably the biggest deterrent to families. We are going through a cycle. Many longtime families' children have grown, left the nest while parents are still living in the home. Parents and grandparents are slowly selling the family homes and new couples are moving in and starting new families. All neighborhoods cycle like that.

Jim Jenkin's question: Who is most impacted by development? Who do we need to protect? Idea suggested: In Tier Two give consideration to up-hill neighbor who might loose his view? Properties are affected by slope.

Eric reminded us that we need to have a protocol included with our Overlay.

Homework due February 6th

Shane made copies of **21A.24.190** Table of Permitted and Conditional Uses for Residential Districtst, **21A.24.080** SR-1 Special Development Pattern Residential District (which was the ordinance in effect before 12-13-05), City Wide Changes to **21A.24.080** (that went into effect 12-13-05) and Temporary Zone Restrictions for SR-1. Read and be ready to discuss.

Minutes of the Avenues Housing Compatibility Committee Meeting
February 6, 2006
Sweet Library
7:00 to 8:55 pm

Shane Carlson Conducting

Letters and Field Trip

Jim Jenkin is making final drafts for letters to Mayor Andersen and the City Council Members. He will bring them to the next meeting for approval before sending them. We would also like to include invitations to the City Council Members to join the tour of the Avenues to see how individual homes could be remodeled easily with the three tier permit process.

Shane's Presentation at the GACC Meeting Feb. 1, 2006

The presentation had four parts.

1. The GACC will **vote** on the housing proposal on March 1, 2006
2. Stressed that this proposal will **insure predictability** for all landowners.
3. **Definitions** of various zoning terms used in the proposal
4. Step by step description of how Shane could take his own home with 1300 sq. ft. on the main level and 1000 in the basement and create a 6400 sq. ft. home including a detached garage and still **receive an over-the-counter permit..**

The perception was that the GACC heaved a sigh of relief that this new process would not be as much trouble as was first thought. It would give protection to neighbors but also allow for expansion as families grow and need more room. It would indeed be *family friendly*.

Inventory of Homes

Three large maps were made from the inventory data that was collected. They are very descriptive and show at a glance the diverse character of the Avenues. They will be on the website and will be used in the presentations given to the Planning Department, Planning Commission and City Council.

We are giving the CHCC the tools we used so that they can conduct their own inventory. Once their inventory is completed, Shane will enter the data into the computer to generate maps for the CHCC's SR-1 area for their own overlay proposal.

Original Purpose of SR-1 Zoning

In the 1970's as the illegal practice of *redlining an area* (not giving full value for property when applying for loans) was eliminated, the City wanted to make it easy for property owners to build. The SR-1 Zoning gave options to build up or out. Very few people did both. Now with property costs very high, developers feel that they must use every square inch or they are not using the property to it's full potential, thus changing the neighborhoods. Neighborhoods all over the country are trying to deal with this problem just like we are.

Before the GACC March 1, 2006 Meeting and Vote

Try to think of as many questions and motions that could come up at the meeting regarding the proposal so that we can be prepared for anything.

The full legal text of the proposal will be put on the website as soon as we have it written so our neighbors will have time to read it. At the meeting we will have a handout to help explain all the details.

Spokesperson

In November the City Council asked each Community Council Chair to pick one person

3. Results
4. Conclusions

We must be very specific about everything we want in the Overlay. If the City should change the base zoning, it could make other things vulnerable if they are not specified on our Overlay. Therefore, our Overlay must be very comprehensive with VERY CLEAR INTENT.

Assignment for January 18th HCC meeting: Everyone take photos of at least two block faces they feel are vulnerable. At least take a picture of the tallest house if you can't get a picture of the entire block. Send electronic copy of pictures to Shane at AvenuesHCC@Comcast.net. Include a description of the block along with the addresses of the home depicted. If you are unable to e-mail pictures, please bring black and white copies to the next meeting on January 18th at Memorial House.

Minutes of the Avenues Housing Compatibility Committee Meeting
January 18, 2006
Memorial House
7:00-9:00 pm

Shane Carlson conducted the meeting.

Letters

Letters to City Council thanking them for their help in passing Ordinances 90 and 91 have not been finished. Shane and Jim Jenkin will have them completed soon.

Letter to Mayor to show him how the ordinance will help us so that he will want to be very supportive is in rough draft at this time.

Official Deadline for submission to the Planning Division

Jill Van Langeveld received a letter from Alexander Ikefuna, Planning Director, with a copy going to Shane Carlson, giving us the date of **March 6, 2006**, to submit our neighborhood based zoning proposal. (Same date that Joel gave us.) It also included a list of the items it must include. The letter will be posted on the Housing Compatibility link of the GACC website.

February GACC presentation

The definition of terms such as *SR-1, infill, overlay, block face, set back* and others will be in the March newsletter and also on the website. During the presentation Shane will use "normal conversational" words that people already understand so that no extra time will be needed for explanation of terms. For example: *The Purpose of this zoning change is to protect the neighbors from out of character homes being dropped onto their street.*

The 30-minute presentation will include:

1. Ask for a vote on March 1, 2006
2. Purpose for the zoning change
3. Three scenarios – one for each Tier

Ask Dave Richardson for help developing the scenarios

4. 10 minutes for questions and the vote

Include Capito' Hill Community Council in the SR-1 Overlay?

Lon Richardson attended the CHCC meeting which was being held at the same time as this meeting. He returned with the feeling that they wanted to work on their own at their own speed.

Block face photos

Shane shared a power point presentation of the pictures of the block faces that we emailed to him. We looked for areas that were the most vulnerable and to be able to identify as a group which houses were 1-story, 1½ story, and 2-story. By January 20 or 21 each member of the committee will pick up a map of an area and identify each home on the block face using numbers and letters of a key showing size, garages, and flat roofs. Survey maps are due January 30th.

Future meeting dates

January 30

February: 6, 13, 22, 27

All meetings will be at the Sweet Library at 7:00 pm except Feb. 13 will be at 6:30 pm

Minutes of the Avenues Housing Compatibility Committee Meeting
January 9, 2006
Sweet Library
7:30 - 8:45 pm

Shane Carlson chaired the meeting.

Joel Paterson, who is a senior planner for the City Planning Department and has had the responsibility for writing the new City housing ordinance, attended the meeting to help us understand the time line and the documentation required for an Avenues Overlay for the SR-1 Zoning District.

Time Line

The ordinance stated that we have 6 months from the time of publication to have our Overlay written and approved which makes **July 20, 2006 the last possible day**. The time line Joel suggested was close to what we had set in our December 28th meeting.

February 1, 2006 – present proposal to GACC, take input and ask for a vote on March 1, 2006, according to the bylaws.
March 1, 2006 – Present finished Overlay Proposal to GACC for a vote.
March 6, 2006 – Approved Overlay delivered to Planning Office (Planning sends to City departments).
April 13, 2006 – Planning Office Staff Report starts
April 26, 2006 – Planning Commission Hearing
May 10, 2006 – Planning Office Ratifies Minutes
May 24, 2006 – Overlay Proposal goes to the Planning Director, Louis Zunguze.
June 1, 2006 – Paperwork goes to the City Council staff for their July 11th meeting
June 8, 2006 – Briefing for the City Council at their weekly meeting. They may vote that night or maybe the next Tuesday meeting, or the next.
July 11, 2006 – Last date to present to the City Council Meeting (maybe July 18th)
July 20, 2006 – Estimated date that the temporary ordinance will expire

Joel said that at each level there may be some tweaking of the Overlay Proposal.

Supportive Information – Documentation

We need to show (1) Diversity examples throughout the Avenues SR-1 zone and (2) What rational we used.

During the Yalecrest Overlay process, city surveyors helped. If they have the time, we will try to get their help.

We need to get photos of the most vulnerable areas throughout the Avenues. First Tier – Over the Counter Permits require average height. Second Tier – Public Hearing looks as development pattern which looks at any three homes on the block face. An example of “block face” would be all the homes on 8th Avenue between I and J Streets that face North.

Format

1. Statement of Purpose
2. Methods used

Minutes of the Avenues Housing Compatibility Committee Meeting

Date: December 28, 2005

Time: Sweet Library, 7:00 pm

Shane Carlson chaired the meeting.

Shane will be meeting with Joel Paterson this week when Joel gets back to his office to get the exact steps we must follow and details we must include to get our infill approved by the City Council.

General Steps we know we must follow but what kind of detail is not known:

1. Documentation and research in area for infill --Jim Jenkin felt that we probably needed to show examples of the vulnerable and non-vulnerable areas.
2. Describe the characteristics of the area
3. Proposed goals

Time line:

Jan. 4, 2006 – First presentation to the GACC to explain the new City Ordinance and what it means to the Avenues. We want to take input from residents.

Feb. 1, 2006 – Second presentation to the GACC will give the specifics of the infill, our objectives and reasons for its necessity. We will ask for an approval vote in March in accordance with the GACC by-laws.

March 1, 2006 – Third presentation to the GACC with a vote

March 8, 2006 – We hope to present it to the City Planning Commission in their March meeting. If not, we must wait for their next meeting on April 12, 2006.

April 11, 2006 or May 9, 2006 – We will present to the City Council and hope for passage.

June 13, 2006 – We must have an infill passed because our six (6) month protection for SR-1 areas in the Avenues will expire.

The Overlay/Infill will be for the SR-1 zone areas only. If other residents want an infill ordinance for their areas we will begin work on them after we get the SR-1 infill approved.

Schedule of HCC meetings:

Date/Day Time Location

1/9/06 (Monday) 7:30 pm Sweet Library

1/18/06 (Wednesday) 7:00 pm Memorial House

1/30/06 (Monday) 7:00 pm Sweet Library

2/8/06 (tentative) 6:30 pm Sweet Library (before GACC board meeting at 7:30)

Mayor Rocky Anderson was quoted as saying that he had a large house on a small lot and he thought that the house covered 60% to 70%. Shane "GoogleEarthed" the mayor's home and figured that it covered about 37-38%.

There was an actual "on-the-ground" measurement taken and it showed the mayor's home covered approximately 38%.

Shane Carlson and Jim Jenkin are writing letters to each of the City Council members thanking them for their support of this ordinance. For some of them it was a very difficult decision because they would like any kind of development in their areas.

Appendix:

C. City Council presentation – 12/1/2005

Introduction

Thanks for allowing me to speak – Shane Carlson

I'm here to represent the Avenues

I am a GACC board member and more importantly,

I am a regular participant on the Avenues Housing Compatibility Committee.

We've been meeting for several months on a weekly and bi-weekly basis

We have a core group of about 12 people who attend regularly.

The Housing Committee consists of

- residents who have been affected by controversial projects
- committed community members
- interested Community Council Board members
- at least one real estate agent
- a prominent local architect
- and residents who want to ensure the protection of their property rights
- Many of us have recently completed, are in the middle of, or plan to soon undertake additions and renovations of our own.

We strongly support the proposed zoning ordinance

As you already know, our neighborhoods have been severely impacted by at least ten controversial projects started just this past summer.

We cannot bear another building season like the one we just endured.

Why do we support the city's proposed ordinance?

We were asked to talk specifically about the proposed ordinance.

There are two key elements to the proposed ordinance;

- The tiered structure of the ordinance
- The specific dimensional limits that move a person from a counter permit to a routine and uncontested exception, an Administrative Public Hearing and then to a BOA hearing.

Keep in mind that if the dimensional limits are set at too high a level the inherent properties of the Tiered Structure are rendered useless.

In discussing what we see as the goal of a tiered approach to zoning it may be useful to review the process the Housing Committee went through in our attempts to address this issue in our diverse neighborhood.

As members of the Housing Committee, we met regularly to try and craft a zoning ordinance that would protect the character of our area, respect all property owners and

their investment in the community and allow for the predictable and responsible growth needed in our area.

We met numerous times this past summer trying to come up with a plan to address the divergent development patterns that exist side by side in our neighborhoods; patterns which often differed significantly from one side of the street to the other.

Our initial efforts were simply to arrive at a new set of dimensional building standards that would accurately reflect the developmental patterns found within each zoning district. After hours of discussion and several occasionally contentious meetings, this goal began to feel as though it were an impossible task.

It was at this point that we decided to explore other ways of achieving our objective.

Out of those efforts came our Three Tiered Proposal.

The three tiered approach to Avenues zoning is intended to encourage responsible growth and expansion while minimizing the impact of that expansion on the neighboring properties and the character of the area

Tier One Goal

The goal of the first tier is to encourage home owners interested in making exterior modifications to their houses and outbuildings to minimize the impact of those modifications on the neighboring properties and the character of the community. The first tier is also intended to provide a quick and efficient way for the permit office to approve what is hoped would be a majority of permit applications.

Tier One Mechanism

Tier one would define a relatively restrictive list of limits regarding building height, front, side and back setbacks, building volume, lot coverage, etc. Proposed projects that remain within these limits would be eligible for a “counter permit,” simply by showing that the modified buildings would remain within the tier one limits.

Tier Two Goal

Tier Two provides a mechanism to gain approval for those projects that would exceed the strict limits of tier one but that would remain consistent with the structures already in existence on the street.

Tier Two Mechanism

Tier two would require property owners to collect a clearly defined set of measurements from surrounding properties to show that the project they are proposing does not differ significantly from the structures already in existence.

Tier Three Goal

Tier three would provide a thorough review of those projects that are likely to significantly impact neighboring properties and potentially change the character of the community.

Tier Three Mechanism

By definition, tier three projects exceed the height, volume, setbacks, etc. of the surrounding buildings and community. Because of their potential to significantly impact neighboring properties and permanently change the character of the community, approval of tier three projects would be granted only after thorough review of all specifications and a complete hearing of the community members’ comments and concerns.

The Housing Committee didn’t get past the point of drawing up our draft of the Three Tier principles when the city proposed its’ “Tiered” Zoning Ordinance.

Before I talk about the specific measures and restrictions of the proposed ordinance, I want to address what we feel are the essential elements and strengths of this tiered approach.

First, we never intended the dimensional restrictions associated with counter permits to be absolute limits.

As stated earlier, we wanted a mechanism that would allow applicants proposing smaller projects with little potential to negatively impact the community to get their permits quickly and easily. We feel that the counter permit process in the proposed ordinance accomplishes this goal.

A lot has been said about predictability.

I have heard comments that requiring a permit applicant to demonstrate that their project is consistent with the development pattern on a block face removes the element of predictability from the building process.

I would counter that allowing inappropriate development has a much greater and longer lasting impact on the ability of the surrounding home owners to anticipate and have a role in the future of their community.

Projects that exceed the proposed counter permit restrictions have the potential to irreversibly modify the character of an area.

However, we also realize that many projects exceeding these restrictions will not be out of character.

Requiring applicants whose projects exceed the counter permit restrictions to take a close look at how their plans would impact an area is essential.

I have also heard the comment that nothing should be implemented until thorough large scale surveys can be conducted in each distinct neighborhood.

We feel that there are several problems with this approach:

- A comprehensive survey of an eclectic area (such as the SR-1 district) will produce a set of numbers that describes the average dimensions of an entire area well while failing to accurately describe a single street, let alone a given street.
- Large scale, chronologically fixed surveys are only capable of describing an area at the time of the survey. These averages start their slide towards obsolescence the moment the first tear down or addition is completed. A survey done just prior to a project reflects the development pattern at the time of the proposed project.
- Large scale surveys are time consuming and expensive – Many of the block faces within a given area will not experience any developmental pressure while other areas will experience significant pressure. The modest expense of a small scale survey addressing just those measurements of interest is not an unreasonable obligation when the typical second story addition will cost between \$100,000 and \$200,000.

The members of the Housing Committee feel very strongly that requiring the applicant whose project exceeds the dimensional restrictions for a counter permit to show that their project is appropriate places the burden of proof exactly where it belongs.

Neighboring property owners have no say over the proposed design nor do they get to choose when a given project is to commence. Many residents lack the expertise and the financial resources to initiate an investigation into whether or not a given project will detract from or enhance the neighborhood. Conversely, the project applicant has either undertaken the responsibility of designing an appropriate project or they have hired someone with the experience to do so. The balance is already tipped in favor of the permit applicant.

And while a permit applicant may have invested a significant amount of time in a community, it is just as likely that the surrounding neighbors have a significantly greater collective commitment to the community and many of them may have moved to or stayed in the community because they liked it just the way it is. It is exactly this situation in which it must be the applicant's responsibility to demonstrate that a proposed project is both sensitive to, and respectful of, the surrounding community.

In order to be effective, a permit applicant's responsibility to demonstrate that their project is appropriate must be combined with counter permit limits that are meaningful. Raising

the dimensional limits for a counter permit above what would be appropriate in many areas of the city effectively eliminates consideration of the community within which a project will reside.

Finally, the success or failure of the proposed zoning ordinance depends upon the ability of the zoning and permits office to manage those applications requiring an Administrative Public Hearing in an expedient and even handed manner. However, enforcement of the proposed ordinance and the balanced consideration of all parties must not be sacrificed in a rush to move an application through the process. There will be no suitable substitute for adequate personnel and training to administer this ordinance.

Comments concerning specific elements of the proposed ordinance

Before commenting on the specific elements of the proposed ordinance, I would like to emphasize that the dimensional figures (such as Building height) are not an absolute! They are restrictions on what an applicant can be granted an over the counter permit to build.

In-line Additions

Counter permits for in-line additions will no longer be granted in SR-1 and SR-3 districts.

Allowing in-line additions has caused more damage in our area than any other single rule.

Front and Corner Side Yard Setback

Minimum front yard setbacks - average of buildings on the block face.

(R-1-5000, SR-1, and SR-3 corner side yard remains at 10'. Existing minimum front setback established by existing subdivision plats would be respected).

This is another rule that we feel very strongly about. We would be opposed to any attempt to modify this such as only including the 50% of the properties with the shortest setbacks on a block face. While we do appreciate that one home with an excessively large setback could negatively impact a proposed project, we also feel that one home with an exceptionally short set back could negatively impact an entire community. We do feel that in these cases it should be left to the discretion of the APH officer to grant the exclusion of an exceptional home from the calculation of the average.

Primary Building Height (R-1, R-2, and SR Districts)

**Counter permits for maximum building height of 23 feet at the crest
Counter permits for maximum exterior wall height of 18 feet.**

Keeping in mind that the building height restrictions have only been proposed for a subset of the zoning districts, we feel strongly that the limit set for height in applying for a counter permit must be meaningful. We are an eclectic community and there places where buildings taller than 23 feet would be appropriate. However, we also have numerous block faces were every house is one story above grade and the average height is closer to 16 feet. On a street such as this, even a 23 foot tall house will significantly alter the character of the street. Twenty-three feet would allow for 1 ½ stories on almost all block faces. We feel this is a reasonable counter permit restriction.

We would strongly encourage the council to refrain from adjusting the height limit for a counter permit at this time. The impact of this ordinance will be highly dependant upon the performance of the zoning and permits office. We would encourage the City Council to heed the advice of the Planning Commission and reconsider the impact of this rule after 12 months.

Attached Garages

**Counter permits for garages behind or in-line with front of principle building.
Width of attached garage not to exceed 50% of front façade of house.**

Zoning Standards Attached Garages

We would make one recommendation. It was suggested at the planning commission hearing that only the area of the garage doors be considered in calculating the 50% limit. If this were to change, we would recommend that when a project has two or more separate garage doors, the area of a garage be calculated from the outer edges of the two outermost doors.

Accessory Building Location

Counter permits for accessory buildings located at least 20 feet from principle buildings on adjoining lots. Accessory buildings must be one to five feet from the rear property line.

We support this ordinance with the Planning Commission recommendation that the developmental pattern of a block face be grounds for a routine and uncontested exception.

Maximum Height of Accessory Buildings

Counter permits for accessory buildings that:

- a) Do not exceed 15 feet from the established grade to the peak;**
- b) Have a maximum wall height of ten feet from the top plate to the established grade.**

Zoning Standards Accessory Building Max. Height & Footprint

We strongly support this proposed change. We would strongly oppose any attempt to modify the 15 foot limit, especially in favor of a measure using roof mid-point due to many recent cases of abuse.

Maximum Footprint of Accessory Buildings

Counter permits for accessory buildings that do not exceed 50% of the footprint of the principle building to 720 sq. ft. (up to 1000 sq. ft. for two-family; 480 sq. ft. garage allowed).

We strongly support the proposed change. Increasingly long commutes into Salt Lake City from the surrounding communities accompanied by rising fuel costs have resulted in rapidly escalating land values. The steep rise in housing costs has attracted some new residents to the area who are more interested in maximizing their building space than responsible development. Almost half of the most controversial projects started this past summer were garages. It is one thing to feel impinged upon by a principle structure. It is quite galling to have the impact of a garage exaggerated because the owner wanted more storage space. This is also the case regarding accessory building wall and roof height limits.

Maximum Lot Size

Counter permit when a new lot does not exceed 150% of the minimum required lot size in each zoning area (SR-3 limit would be 200%).

You just have to go see 14th and H Street.

Maximum Lot Coverage

Counter permits for SR-1 and R-1-5000 projects with max. lot coverage of 40% (reduced from existing 55%). R-2 max. coverage reduced from 45% to 40%.

This is absolutely essential.

Fines for Building Permit Violations

Building permit fine of 10% of the value of the proposed project or \$1000, which ever is greater.

Many members of the Housing Committee would like to see these fines made even stronger. More importantly, we feel that in order to have any meaning, they need to be imposed when appropriate.

Definition of Demolition/Teardown

Complete demolition - any act or process that destroys or removes 75% or more of the exterior walls and/or total floor area of a structure, improvement or object.

Many members of the Housing Committee would like to see this made more restrictive. Very little is left of a house when three out of four walls have been removed. There is no requirement that the remaining wall be the front wall. Keeping only a rear or a side wall has served as cover for a complete scrape and new construction in the past.

Conclusion

We need zoning ordinances that we can live with as a community, not just as permit applicants or realtors and architects who leave once a project is completed. Many aspects of the proposed ordinance will encourage permit applicants to interact with their community. It will also provide them with the opportunity to do what any responsible community member would want to do, step back and take the time to look at the environment in which their proposed project will reside for decades to come.

Additions that negatively impact neighboring properties destabilize communities. Neighbors who have been impacted but who don't want to do the same thing to their neighbors often leave. Neighbors who don't care move into replace the ones who did and left.

Who will move in north and east of the Calls?

Projects done sensitively beget sensitive projects.

I have heard several project owners complain (very insincerely) that they would have loved to have accommodated the neighbors but they are just too far long in the process (often after having gone to great lengths to conceal the true nature of their project). This new proposal and the responsibility it places upon the applicant ensures that this will no longer be the case whether inadvertently or as a lame excuse.

This proposed ordinance is an attempt to move away from the often heard adage, it is easier to beg forgiveness than to ask for permission. Infringed upon neighbors often don't get over the anger, frustration, and the distance caused by an ever present, ever looming project. Unfortunately there are times when applicants don't ask because they really don't want to know about a problem until they can claim that it is too late to modify their plans. When this happens, they are saying that they care more about their selfish wants than their community.

Many of the questions that applicants will be asked to answer under the proposed ordinance will have significant impact on community:

- Does my proposed project have the potential to negatively impact my neighbors or the character of the community? Tier One – Counter Permit
- Is the project that I am proposing consistent with other projects already completed in the community? Tier Two – Administrative Public Hearing
- Does my project, because of the scale or location, have the potential to single-handedly and irreversibly damage the character of a community? Tier Three - BOA.

I have heard the argument that large projects increase everyone's property values. Well executed, sensitive, and appropriate maintenance, restoration, additions or remodels increase property values. The economic impact of larger houses for the sake of larger houses is a subject of much debate. What is not debatable is that the benefit of increased property values is negligible until a property owner is ready to sever ties with the community. A community is so much more than a sterile collection of investments. It is relationships with neighbors, it is the security of those relationships, it is having a place where every single person has value and it should be a place where what impacts one person, is of importance to everyone.

"The Avenues is a community that knows what it is."

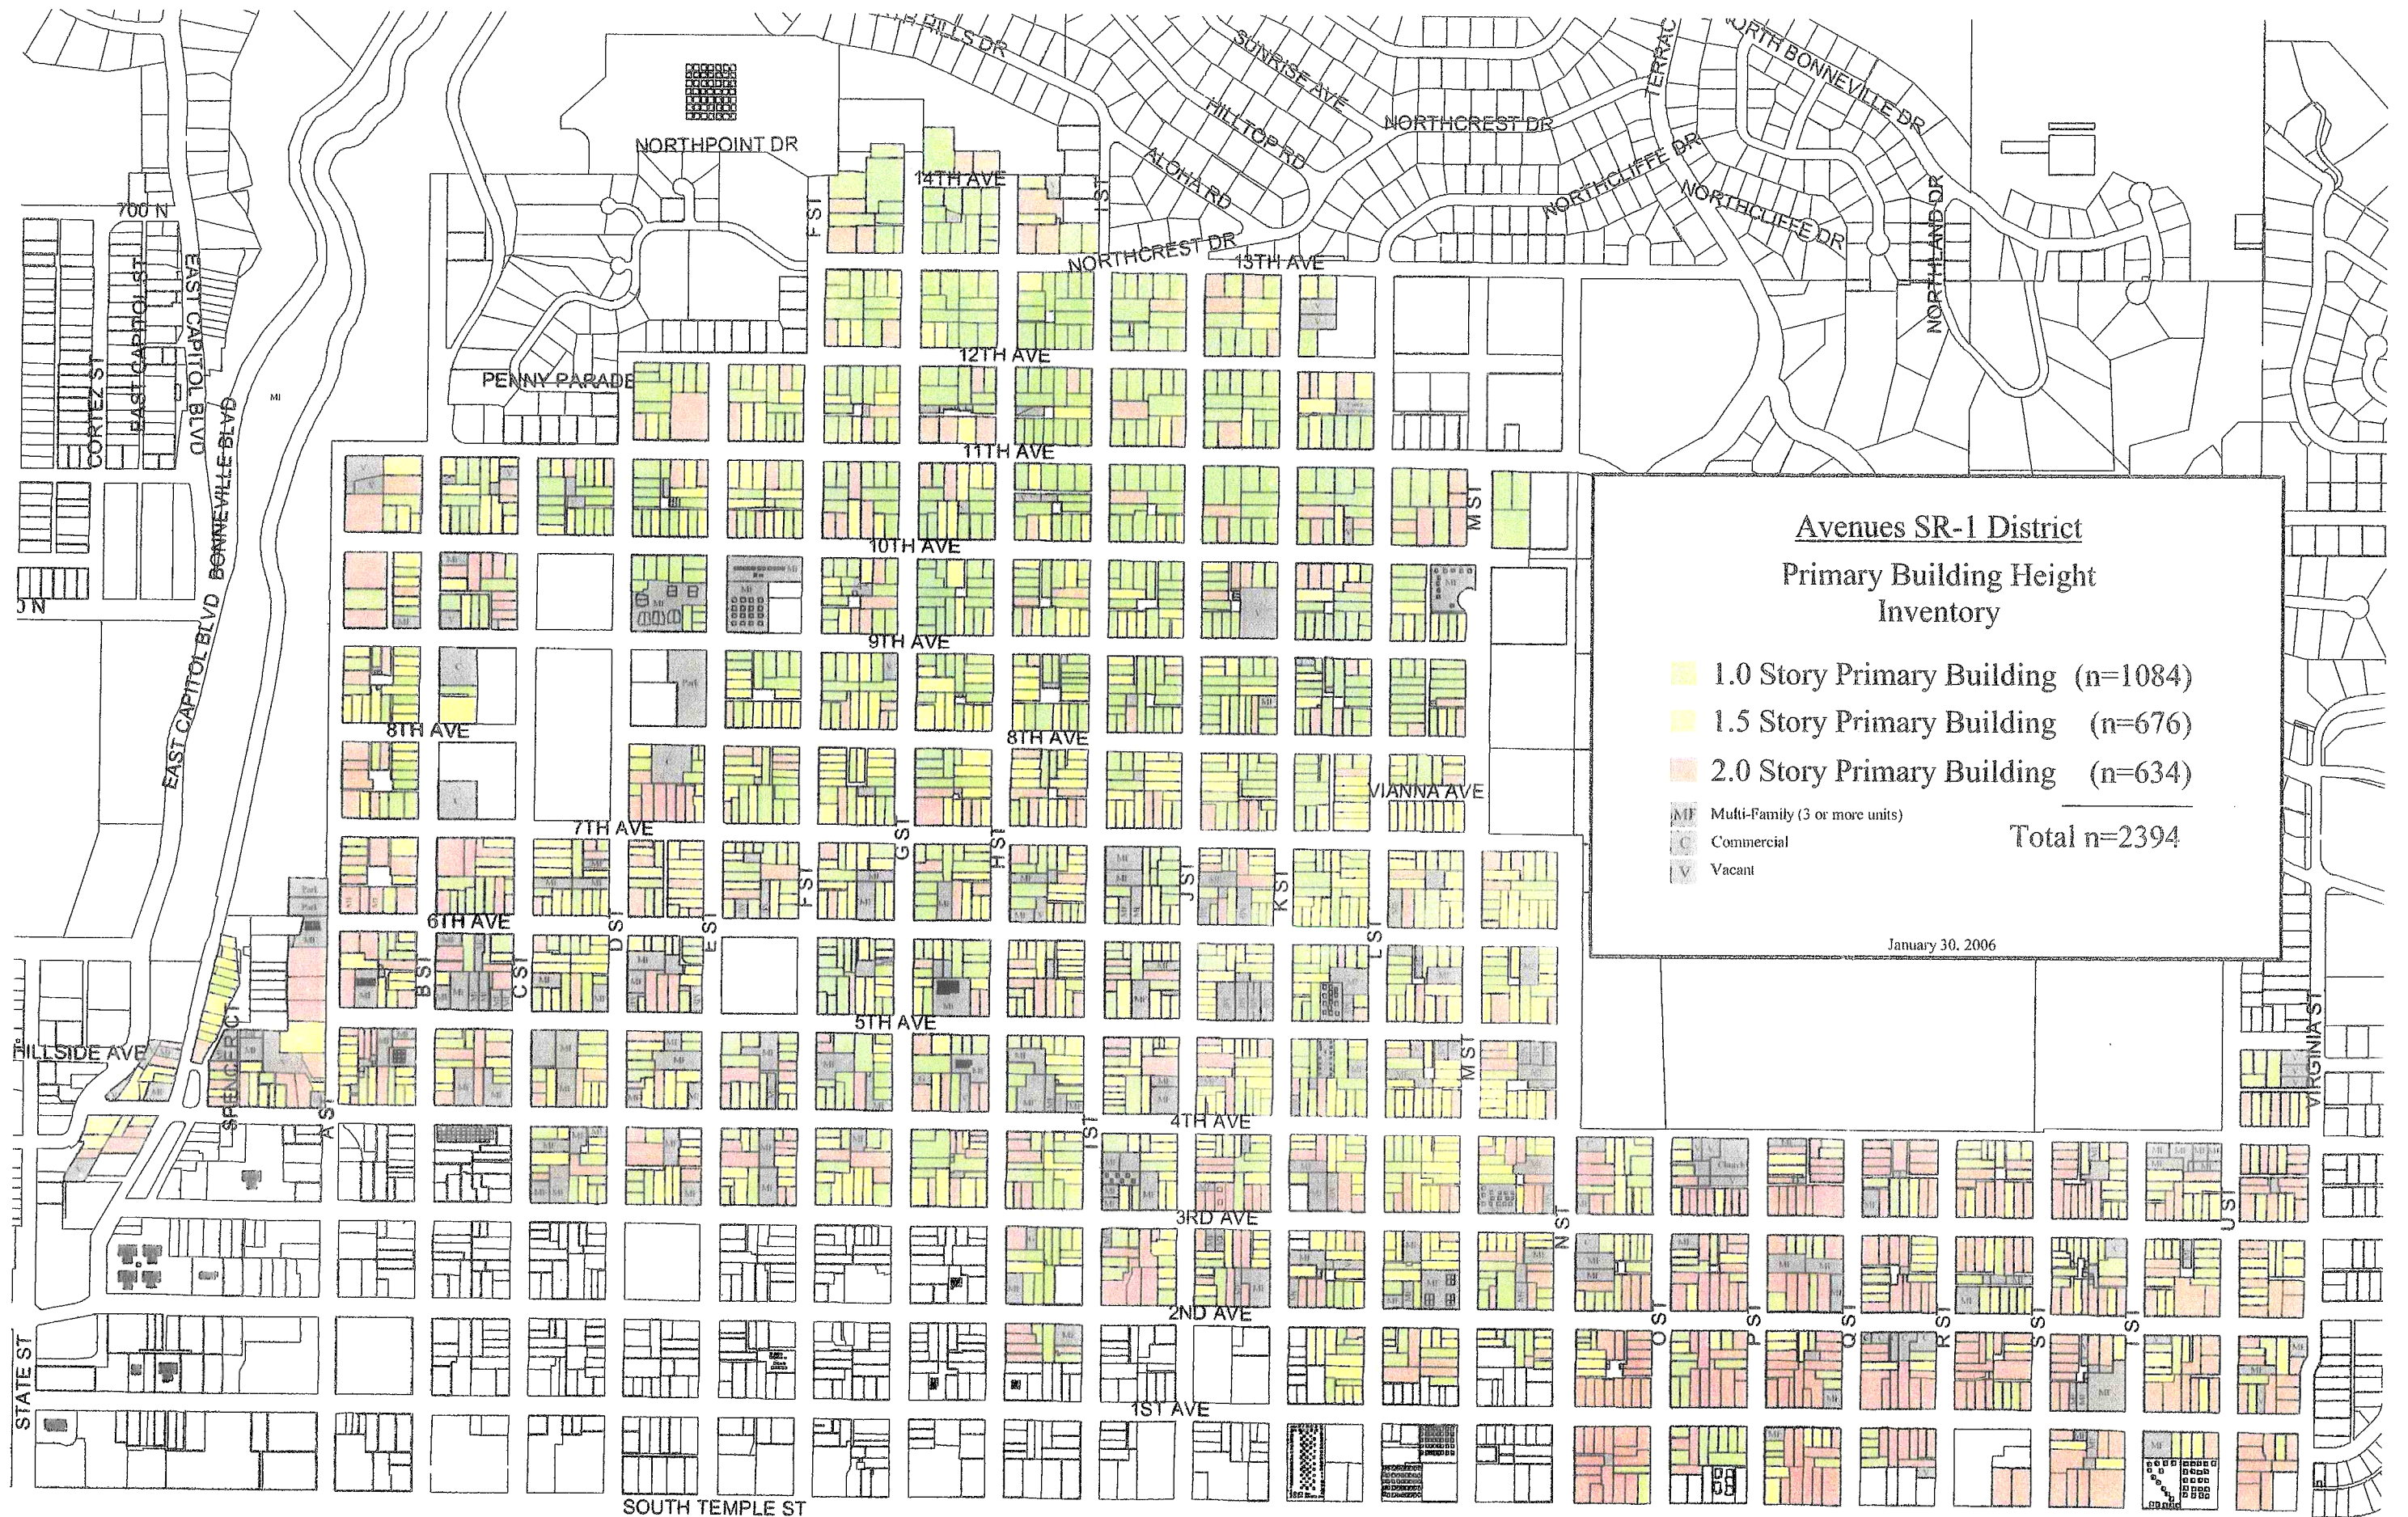

Many communities share this same sense of place.

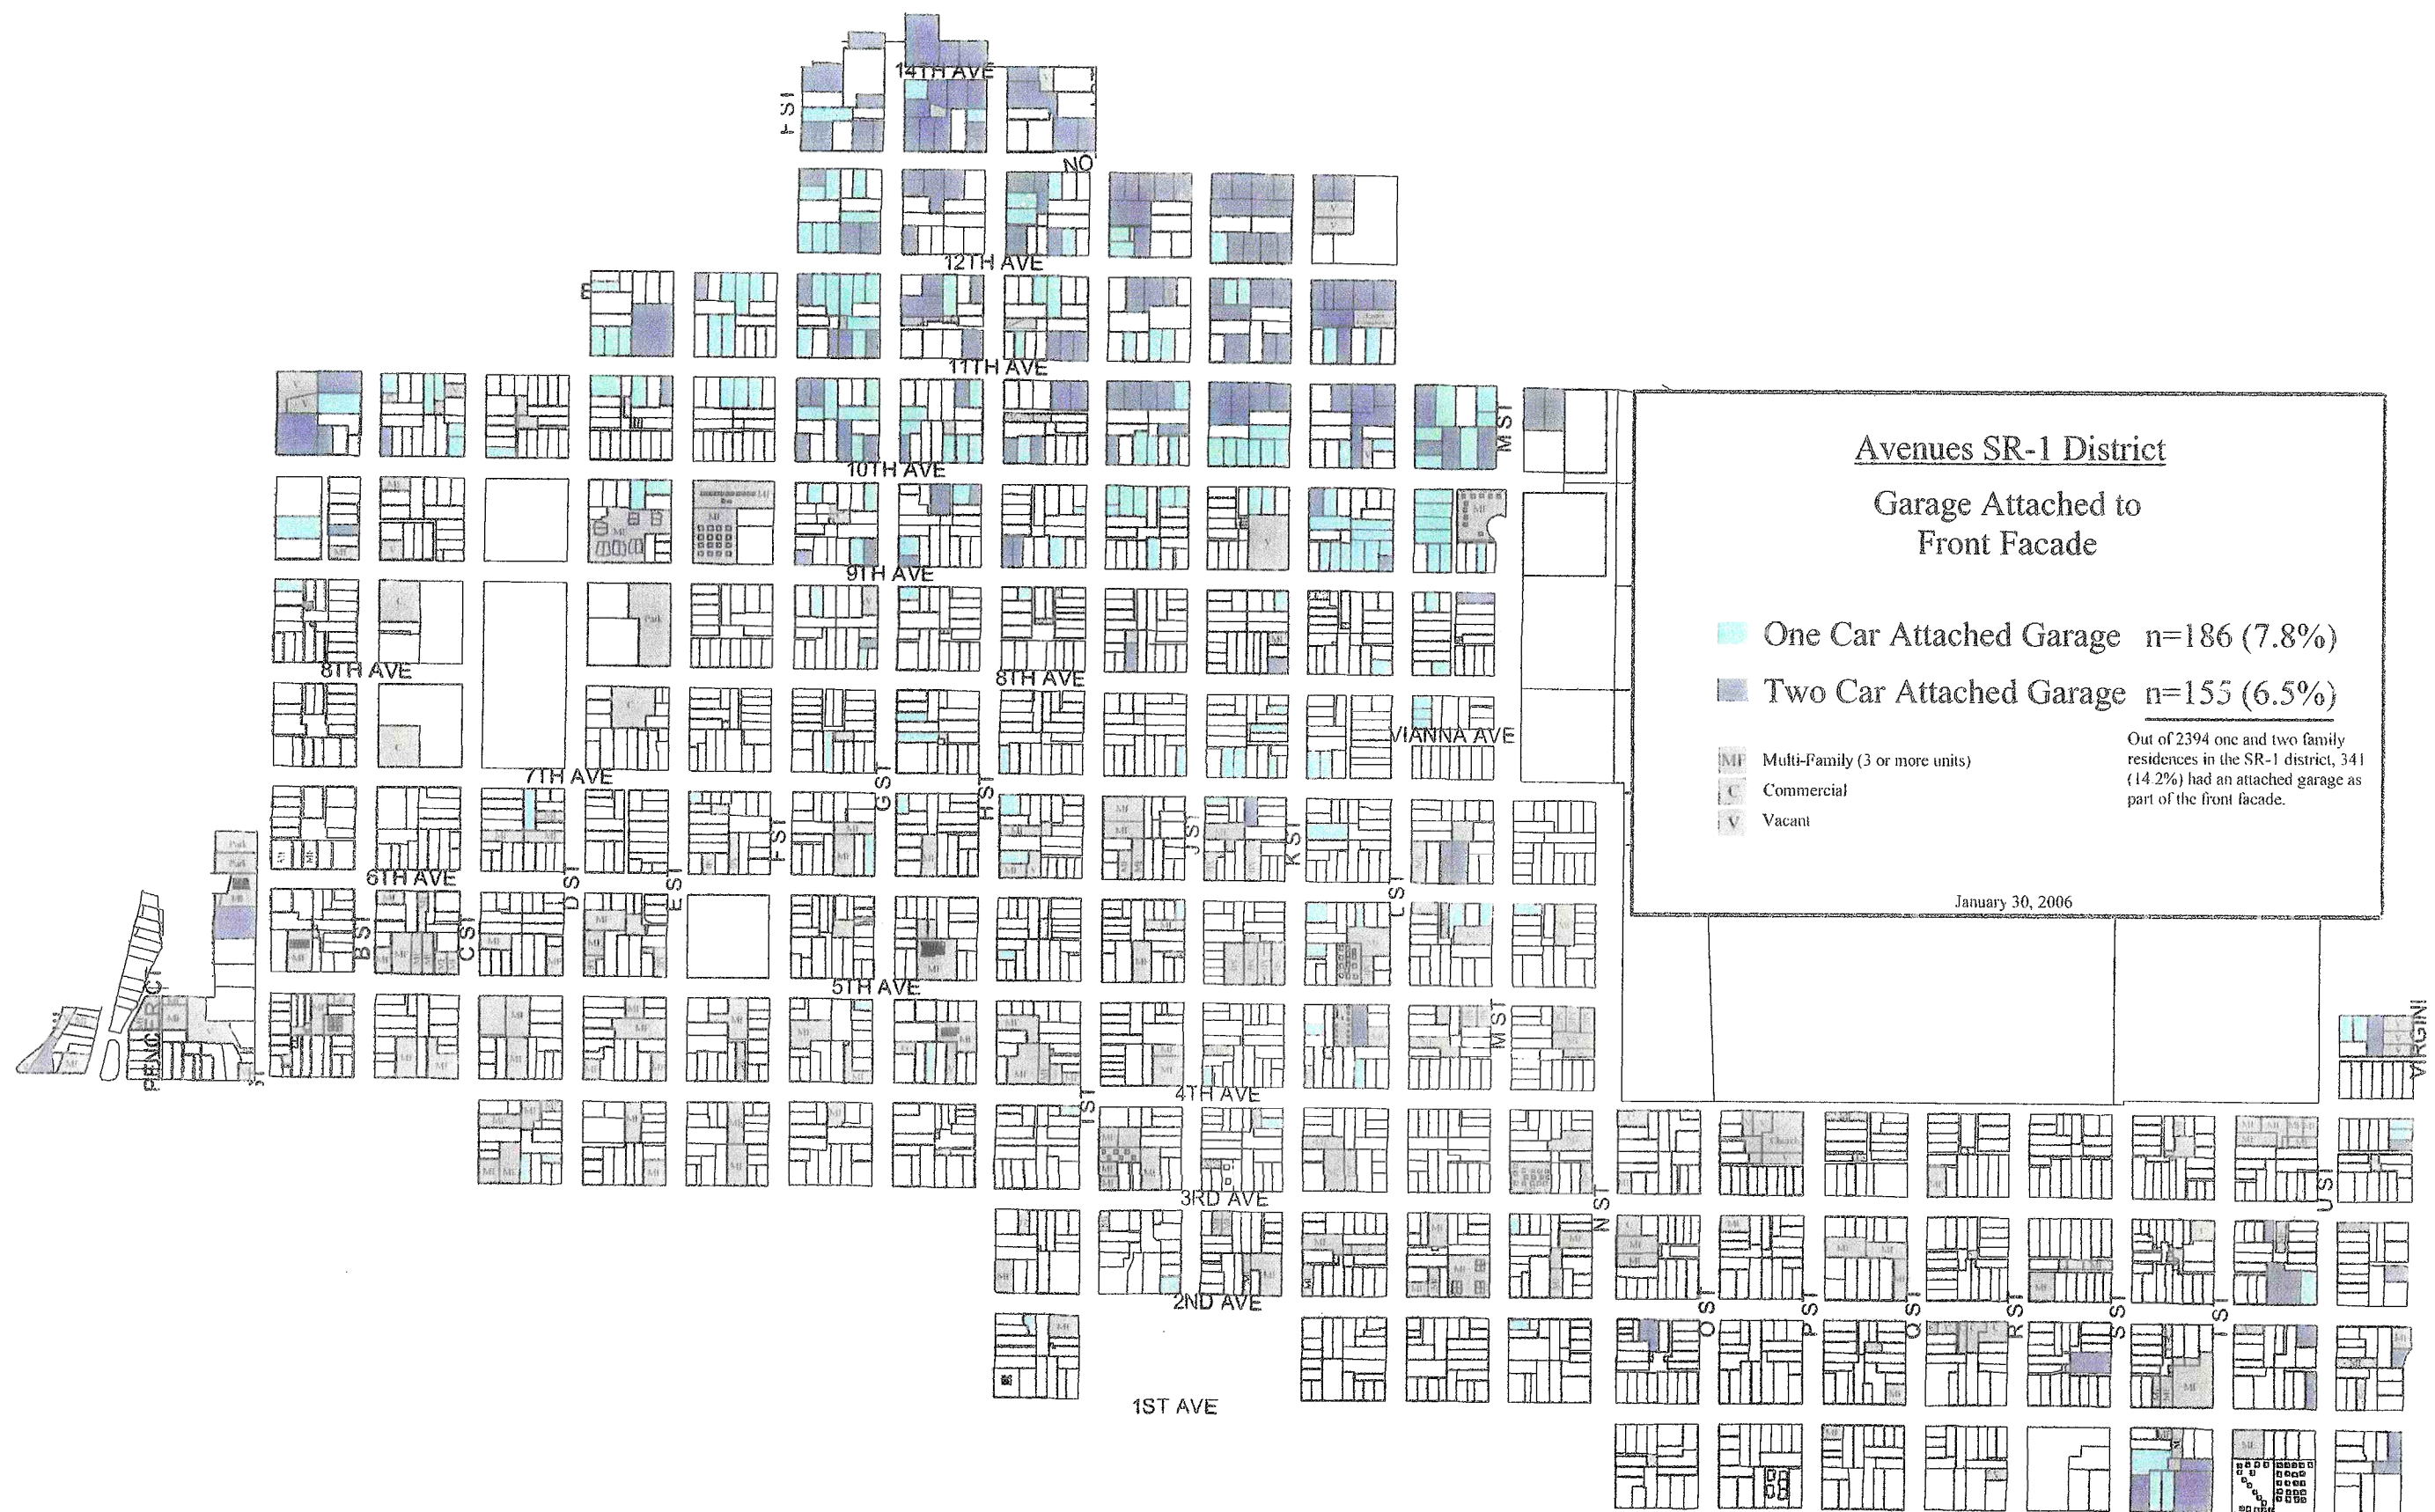

Please help us protect what we have come to value so dearly. Pass the proposed city ordinance as it is written!

Appendix:

D. Inventory Maps

- a. Primary building height (number of stories)
- b. Flat-roofed buildings
- c. Attached garages
- d. Coding sheet

Avenues Housing Inventory Codes

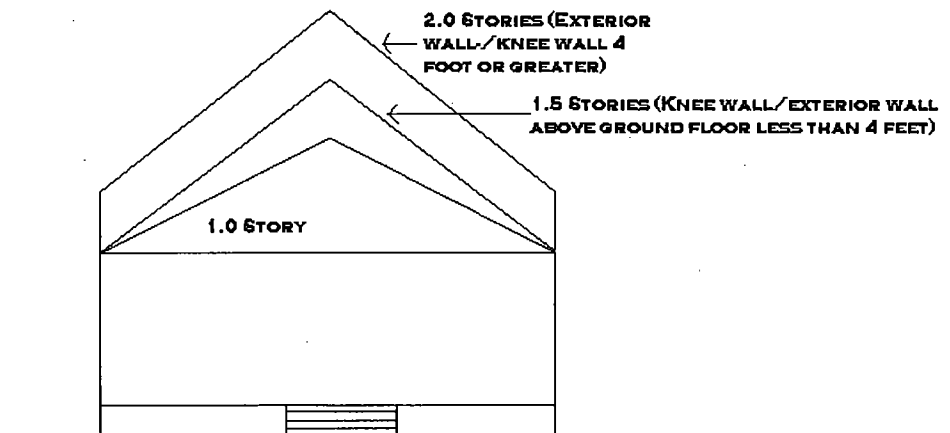

(If you have a digital camera, take it with you for those buildings you might have difficulty categorizing)

Thanks!

Building Height (diagrams to show ratios of typical knee wall to ground floor)

Primary buildings are rated as they appear from the street. For buildings on hills where the back of the building is not visible from the street append an "S" to the height code to identify the slope (e.g. "1.5-S" = 1.5 story building with possible walk out basement – these buildings are typically located on the south side of the street between 6th and 14th Avenues).

- 1.0 (Do not and could not live within the roof)
- 1.5 (Could build within roof, 2nd story knee walls less than 4 feet)
- 2.0 (Two stories or 2nd story knee walls taller than 4 feet)
- ? (Can not classify)
- S (on slope – possible walkout basement)

Front Façade Attached Garage

G = single attached

GG = double attached (one double door or two or more single doors)

Flat Roof – Less than 3/12 pitch

F = flat roofed

Non-Single Family/Duplex Codes (do not classify size, garage or roof pitch)

M = Multifamily (3 or more housekeeping units)

C = Commercial

V = Vacant

E. HCC Web-site

Avenues Housing Compatibility Committee

Introduction

Thank you for visiting the Avenues Housing Compatibility Committee (HCC) web-page. The Salt Lake City Council recently adopted new residential zoning regulations for the entire city (400-25-05). Since it was generally accepted that the new ordinance did not adequately protect some neighborhoods, temporary measures were enacted by the City Council to provide additional protection to the SR-1 district (Single family Residential) of the Avenues and the R-1-5000 Wasatch Hollow area in Sugarhouse for a period of six months.

The City Council's expectation was that these neighborhoods would use the six month period to create an "overlay" zone to replace the temporary measures when they expire. According to 'A Collection of Terms: Commonly heard in Local Government and in Land Use Planning' provided by the Utah Local Governments Trust at their planning workshops, an overlay zone is a "set of zoning requirements that are in addition to those of the underlying district.

Developments within the overlay zone must conform to the requirements of both zones, or the more restrictive of the two. It usually is employed to deal with special physical characteristics such as flood plains, historical areas, soils, or hillsides."

Zoning overlay districts are an established and accepted method of fine-tuning zoning regulations to specific areas. Many areas of the city have zoning overlays that take precedence over the city's general regulations.

The Housing Compatibility Committee (HCC) was working on such an overlay for the SR-1 district of the Avenues when the recently adopted city-wide ordinance was proposed. The HCC overlay work was suspended in order to assess how the city ordinance would affect the Avenues.

Now that the ordinance is complete the HCC has resumed work on an overlay for the SR-1 district of the Avenues. This webpage has been created to provide information to the community about this process, and to increase input from community members. HCC meeting schedules and contact information are provided as well as other documents and information.

For the HCC,

Shane Carlson
Jim Jenkin

F. Survey Properties

a. Map of block faces

b. Chart of addresses to be surveyed

Proposed Survey Properties Representing Vulnerable SR-1 “Block Faces”

The following fifteen properties were estimated to be the tallest buildings on sixteen blocks vulnerable to excessively tall in-fill. These “block faces” were chosen from over fifty “block faces” identified by the Housing Committee members as being vulnerable to tall in-fill. This list was selected to represent areas spread across the SR-1 district. It does not represent the 16 most vulnerable blocks.

No.	Block Face	Address
1	West side of U, between 2-3 rd Aves.	1182 2 nd Ave (corner)
2	North side of 2 nd , between R-S	1073 2 nd Ave
3	South side of 4 th , between N-O	874 4 th Ave

G. Proposed SR-1 Overlay

a. Text

b. Chart of SR-1 Zoning Regulations
over time

Proposed Greater Avenues Community Council SR-1 Overlay Counter Permit Dimensional Restrictions

1. Language to be removed from the City-wide Infill Ordinance for the SR-1 Overlay is shown as ~~striketrough~~.
2. Language to be added to the SR-1 Overlay that differs from the City-wide Infill Ordinance is shown as underlined.
3. All other language shall be carried forward to the SR-1 Overlay.

21A.24.080 SR-1 Special Development Pattern Residential District:

A. Purpose Statement: The purpose of the SR-1 special development pattern residential district is to maintain the unique character of older predominantly low density neighborhoods that display a variety of yards, lot sizes and bulk characteristics.

B. Uses: Uses in the SR-1 special development pattern residential district, as specified in section 21A.24.190, "Table Of Permitted And Conditional Uses For Residential Districts", of this chapter, are permitted subject to the general provisions set forth in section 21A.24.010 of this chapter and this section.

C. Minimum Lot Area and Lot Width: The minimum lot areas and lot widths required in this district are as follows:

Land Use		Minimum Lot Area	Minimum Lot Width
1	Single-family detached dwellings	5,000 sq. ft.	50 ft.
2	Two-family dwellings	8,000 sq. ft.	50 ft.
3	Twin home dwellings per dwelling unit	4,000 sq. ft.	25 ft.
4	Natural open space and conservation areas, minimum public and private	No minimum	No minimum
5	Public pedestrian pathways, trails and minimum greenways	No minimum	No minimum
6	Utility substations and buildings	5,000 sq. ft.	50 ft.
7	Municipal service uses, including city utility uses and police and fire stations	No minimum	No minimum
8	Places of worship less than 4 acres in size	12,000 sq. ft.	80 ft.
9	Public/private utility transmission wires, minimum lines, pipes and poles	No minimum	No minimum

Accessory Buildings in rear yard

minimum side setback	one foot min. 1 and max. 5 feet	one foot min. 1 and max. 5 feet	one foot min. 1 and max. 5 feet	one foot min. 1 and max. 5 feet
Distance from rear property line	min. 1 and max. 5 feet	min. 1 and max. 5 feet	min. 1 and max. 5 feet	min. 1 and max. 5 feet
Minimum distance from adjacent primary building	10 feet	10 feet	10 feet	10 feet
Maximum foot print	720 square feet	50% of primary building foot print, min. 480 square feet, max for single family home - 720 square feet, maximum for dual family home - 1000 square feet.	50% of primary building foot print, min. 480 square feet, max for single family home - 720 square feet, maximum for dual family home - 1000 square feet.	Maximum footprint of all accessory buildings combined not to exceed 600 square feet. No single building to exceed 480 square feet.
Accessory Building - maximum height	17 feet at roof mid-point	17 feet at roof ridge/peak	17 feet at roof ridge/peak	One accessory building with maximum of 14 feet at roof ridge/peak, all other accessory buildings not to exceed 10 feet. Smaller building(s) may be attached to larger building if peak height limits are observed.
Accessory Building - maximum wall height	determined by maximum accessory building height at mid-roof (17 feet)	none	none	9 feet
Accessory Building - maximum flat-roofed height	determined by maximum accessory building height at mid-roof (17 feet)	12 feet	12 feet	9 feet
Maximum Combined Building Coverage of Entire Lot	55%	40%	40%	40%
Maximum Lot Size		150% of minimum allowable lot	150% of minimum allowable lot	150% of minimum allowable lot
Attached garage facing the street - max. width		50% of front façade	50% of front façade	50% of front façade

Dimensions differing from 6 month temporary SR-1 zoning ordinance

Exterior Wall Exception - Dormer Walls			
Combined total width per exterior wall	none	50% of exterior wall	50% of exterior wall
Maximum width of each dormer	none	10 feet	10 feet
Minimum separation of adjacent dormers	none	18 inches	18 inches

Minimum Yard Requirements

Front Setback	20 feet	Block face average	Block face average excluding smallest and greatest setback if block face consists of three or more properties.
Corner Side Yard Setback	10 feet but no greater than established setback line	10 feet but no greater than established setback line	10 feet but no greater than established setback line

Interior Side Yard Setbacks

Twin Home Dwellings	No side setback on shared Property line - 10 feet on other side	No side setback on shared Property line - 10 feet on other side	No side setback on shared Property line - 10 feet on other side
Corner Lots	4 feet	4 feet	4 feet
Interior Lots	4 feet and 10 feet but no greater than established side setback	4 feet and 10 feet	4 feet and 10 feet. For properties narrower than 46' 8", not to exceed 30% of lot width but never less than four feet per side (lots narrower than 26' 8"). No closer than 10 feet to primary structure on adjacent lot.
Rear Yard	25% of the lot depth, but not less than 15' and need not exceed 30'	25% of the lot depth, but not less than 15' and need not exceed 30'	25% of the lot depth, but not less than 15' and need not exceed 30'

Dimensions differing from 6 month temporary SR-1 zoning ordinance

Avenues HCC Overlay Summary – Draft 2/23/06

Administrative Public Hearing Process			
BOA	After Adoption of Citywide Ordinance on 12/13/06	Temporary 6 month Ordinance in SR-1 district	Proposed SR-1 Overlay
Prior to Citywide Infill ordinance on 12/13/06			
Single-family detached dwellings	5,000 sq. ft.	5,000 sq. ft.	5,000 sq. ft.
Two-family dwellings	8,000 sq. ft.	8,000 sq. ft.	8,000 sq. ft.
Twin home dwellings per dwelling unit	4,000 sq. ft.	4,000 sq. ft.	4,000 sq. ft.
Land Use - Minimum Lot Width			
Single-family detached dwellings	50 ft.	50 ft.	50 ft.
Two-family dwellings	50 ft.	50 ft.	50 ft.
Twin home dwellings per dwelling unit	25 ft.	25 ft.	25 ft.

Primary Building

Primary Building - Maximum Height	30 feet at mid-roof	28 feet at roof ridge/peak or Average of block face	23 feet at roof ridge/peak or Average of block face	23 feet at roof ridge/peak or Average of block face
Primary Building - Flat Roofed Maximum Height	determined by maximum primary building height at mid-roof (30 feet)	20 feet - for each additional foot of side setback beyond the minimum add one foot to allowable flat-roofed height	16 feet - for each additional foot of side setback beyond the minimum add one foot to allowable flat-roofed height	16 feet - for each additional foot of side setback beyond the minimum add one foot to allowable flat-roofed height
Primary Building - Maximum Exterior Wall Height	determined by maximum primary building height at mid-roof (30 feet)	20 feet - for each additional foot of side setback beyond the minimum add one foot to allowable exterior wall height	16 feet - for each additional foot of side setback beyond the minimum add one foot to allowable exterior wall height	16 feet - for each additional foot of side setback beyond the minimum add one foot to allowable exterior wall height

Dimensions perpetuating 6 month temporary SR-1 zoning ordinance

10	Other permitted or conditional uses as listed in section 21A.24.190 of this chapter	5,000 sq. ft.	50 ft.
----	-------------------------------------------------------------------------------------	---------------	--------

D. Maximum Building Height:

1. The maximum height of buildings with pitched roofs shall be:
 - a: ~~Twenty eight feet (28') measured to the ridge of the roof, or~~
 - a: Twenty three feet (23') measured to the ridge of the roof, or
 - b: the average height of other principal buildings on the block face
- ~~2. The maximum Height of flat roofed buildings shall be twenty feet (20')~~
2. The maximum Height of flat roofed buildings shall be sixteen feet (16')
3. ~~The maximum exterior wall height adjacent to interior side yards, twenty feet (20') for exterior walls placed at the building setback established by the minimum required yard. The maximum exterior wall height adjacent to interior side yards, sixteen feet (16') for exterior walls placed at the building setback established by the minimum required yard.~~ Exterior wall height may increase one foot (1') (or fraction thereof) in height for each foot (or fraction thereof) of increased setback beyond the minimum required interior side yard. If an exterior wall is approved with a reduced setback through a special exception, variance, or other process, the maximum allowable exterior wall height decreases by one (1) foot (or fraction thereof) for each foot (or fraction thereof) that the wall is located closer to the property line than the required side yard setback.
 - a: Lots with cross slopes where the topography slopes , the downhill exterior wall height may increase by one half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and the downhill faces of the building.
 - b: Exceptions:
 - i. Gable walls: Walls at the end of a pitched roof may extend to a height necessary to support the roof structure except that the height of the top of the widest portion of the gable wall must conform to the maximum wall height limitation described in this section.
 - ii. Dormer walls. Dormer walls are exempt from the maximum exterior wall height if:
 - 1) The width of the dormer is ten feet (10') or less, and
 - 2) The total combined width of dormers is less than or equal to fifty percent (50%) of the length of the building façade facing the interior side yard, and
 - 3) Dormers are spaced at least eighteen inches (18") apart.

4. Building height for initial construction of a building shall be measured as the vertical distance between the top of the roof and the established grade at any given point of building coverage. Building height for any subsequent structural modification or addition to a building shall be measured from the finished grade existing at the time a building permit is requested. Building height for the SR districts is defined and illustrated in part VI, chapter 21A.62 of this Title.
5. Where buildings are stepped to accommodate the slope of terrain, each step shall have a horizontal dimension of at least twelve feet (12').
6. Additional Building height
 - a. For properties outside of the Historic Preservation Overlay District, additional building height may be granted as a special exception by an Administrative Hearing Officer subject to the special exception standards in 21A 52 and if the proposed building height is in keeping with the development pattern on the block face. The administrative hearing officer will approve, approve with conditions, deny, or refer the application to the board of adjustment to be considered as a special exception pursuant to Chapter 21A 52 of this Title. Any person adversely affected by a decision of the Administrative Hearing Officer may appeal the decision to the Board of Adjustment.
 - b. Requests for additional building height for properties located in an Historic Preservation Overlay District shall be reviewed by the Historic Landmarks Commission which may grant such requests subject to the provisions of chapter 21A 34 020.

E. Minimum Yard Requirements:

1. **Front Yard:** The minimum depth of the front yard for all principal buildings shall be equal to the average of the front yards of existing buildings within the block face. Where there are three or more SR-1 principal buildings with front yards on a block face, the average shall be calculated excluding the one property with the smallest front setback and excluding the one property with the largest front yard setbacks. Where there are no existing buildings within the block face, the minimum depth shall be twenty feet (20'). Where the minimum front yard is specified in the recorded subdivision plat, the requirement specified on the plat shall prevail. For buildings legally existing on April 12, 1995, the required front yard shall be no greater than the established setback line of the existing building.
2. **Corner Side Yard:** Ten feet (10'). ~~For buildings legally existing on April 12, 1995, the required corner side yard shall be no greater than the established setback line of the existing building.~~
3. **Interior Side Yard:**

a. **Twin Home Dwellings:** No side yard is required along one side lot line while a ten foot (10') yard is required on the other.

b. **Other Uses:**

i. **Corner Lots:** Four feet (4').

ii. **Interior Lots:** Four feet (4') on one side and ten feet (10') on the other.

a. Where the width of a lot is 46' 8" or narrower, total minimum side setbacks shall be equal to 30% of the lot width with one side being four feet (4') and the other side being 30% of the lot width minus four feet.

b. Where a lot is 26' 8" or narrower, required side setbacks shall be a minimum of four feet (4') and four feet (4').

c. In no case where required side setbacks are less than four feet (4') and ten feet (10') shall the addition, remodel or new construction be closer than ten feet (10') to a primary structure on an adjacent property.

4. **Rear Yard:** Twenty five percent (25%) of the lot depth, but not less than fifteen feet (15') and need not exceed thirty feet (30').

5. **Accessory Buildings And Structures In Yards:** Accessory buildings and structures may be located in a required yard subject to table 21A.36.020B, "Obstructions In Yards", of this Title (see below).

a. Maximum building coverage of all accessory buildings shall not exceed six hundred (600) square feet.

b. Primary Accessory Building – One Accessory building may have up to the following dimensions:

- i. A foot print of up to four hundred and eighty square feet (480')
- ii. Roof Peak/ridge Height of up to 14 feet (14') above the existing grade.
- iii. A flat roofed height limit of nine feet (9') above the existing grade.
- iv. An exterior wall height of nine feet (9') above the existing grade.
 - a. Lots with cross slopes where the topography slopes, the downhill exterior wall height may increase by one half foot (0.5') for each one foot (1') difference between the elevation of the average grades on the uphill and the downhill faces of the building.

c. Secondary Accessory Buildings – All other accessory buildings shall have the following dimensions:

- i. Roof Peak/ridge Height of up to 10 feet (10') above the existing grade.
- ii. Flat roofed height limit of eight feet (8') above the existing grade.
- iii. An exterior wall height of eight feet (8') above the existing grade.
- iv. Secondary accessory buildings may be attached to the primary accessory building so long as all buildings conform to the required wall and roof ridge height restrictions.

F. Maximum Building Coverage: The surface coverage of all principal and accessory buildings shall not exceed forty percent (40%) of the lot area. For lots with buildings legally existing on April 12, 1995, the coverage of existing buildings shall be considered legal conforming. (Ord. 88-95 § 1 (Exh. A), 1995: Ord. 26-95 § 2(12-7), 1995)

G. Maximum Lot Size: With exception of lots created by a subdivision plat, notice of minor subdivision or minor subdivision amendments recorded in the Office of the Salt Lake City Recorder, the maximum size of a new lot shall not exceed 150% of the minimum lot size allowed by the base zoning district. Lots in excess of the maximum lot size shall be created through the subdivision process subject to the following standards:

1. The size of the new lot is compatible with lots on the same block face,
2. The configuration of the lot is compatible with the other lots on the same block face, and
3. The relationship of the lot width to the lot depth is compatible with other lots on the same block face.

H. Standards for Attached Garages: Width of an attached garage. The width of an attached garage facing the street may not exceed fifty percent (50%) of the width of the front façade of the house. The width of the garage is equal to the width of the garage door, or in the case of multiple garage doors, the sum of the width of each garage door plus the width of any intervening wall elements between garage doors.

21A.36.020 Conformance with Lot And Bulk Controls:

- A. Conformance With District Requirements: No structure or lot shall be developed, used or occupied unless it meets the lot area, lot width, yards, building height, floor area ratio, and other requirements established in the applicable district regulations, except where specifically established otherwise elsewhere in this title.

In any residential district, on a lot legally established prior to April 12, 1995, a single-family dwelling may be erected regardless of the size of the lot, subject to complying with all yard area requirements of the R-1/5,000 district. Legal conforming lots in nonresidential districts shall be approved for any permitted use or conditional use allowed in the zoning district subject to complying with all yard area requirements of the district in which the lot is located.

- B. Obstructions In Required Yards: Accessory uses and structures, and projections of the principal structure, may be located in a required yard only as indicated ("X") in table 21A.36.020B of this section. No portion of an obstruction authorized in table 21A.36.020B of this section shall extend beyond the authorized projection. Dimensions shall be measured from the finished surface of the building or structure.

Table 21A.36.020B

OBSTRUCTIONS IN REQUIRED YARDS

Type Of Structure Or Use Obstruction		Front And Corner Side Yards	Side Yard	Rear Yard
	Accessory buildings subject to the provisions of chapter 21A.40 of this part, and located at least 1 foot from the side property line except for the FP and FR districts where no accessory building is permitted in any yard. Accessory buildings shall be at least 10 feet from a principal residential building on an adjacent lot.			X
1	Arbors and trellises not to exceed 12 feet in height or 120 square feet in residential districts. This requirement shall also apply to nonresidential districts unless otherwise authorized.	X	X	X
2	Architectural ornament not elsewhere regulated projecting not more than	X	X	X
3	4 inches			
4	Awnings and canopies, extending not more than 21/2 feet into front, corner side, or side yards and not more than 5 feet into rear yards allowed in residential districts only	X	X	X
5	Balconies projecting not more than 5 feet			X
6	Basketball hoop and backboard on or adjacent to permitted driveways	X	X	X
7	Bay windows which are 1-story high, not more than 10 feet long, project 2 feet or less and are located not less than 4 feet from a lot line	X	X	X
8	Below grade encroachments (see note 2 below)	X	X	X
9	Breezeways and open porches			X
	Central air conditioning systems, heating, ventilating, pool and filtering equipment, the outside elements shall be located not less than 4 feet from a lot line. Structures less than 4 feet from the property line shall be reviewed as a special exception according to the provisions of section 21A.52.030 of this title.		X	X
10	Chimneys projecting 2 feet or less into the yard must be located not less		X	X
11	than 2 feet from a lot line.			
12	Decks (open) 2 feet high or less	X	X	X
13	Eaves, not including gutters projecting 2 feet or less into the yard. 4 foot eave may project into a 20 foot yard area.	X	X	X
14	Fallout shelters (completely underground), conforming to applicable civil defense regulations and located not less than 4 feet from a lot line			X
15	Fences or walls subject to applicable height restrictions of chapter 21A.40 of this part	X	X	X
16	Fire escapes projecting 4 feet or less			X
17	Flagpoles			
	Residential districts: 1 permanent flagpole per street frontage	X	X	X
	Nonresidential districts: 3 flagpoles per street frontage	X	X	X
	Subject to provisions of table 21A.36.020C of this section			
18	Grade changes of 2 feet or less except for the FP and FR districts which shall be subject to the provisions of subsection 21A.24.0100 of this title. (All grade changes located on a property line shall be supported by a retaining wall.)	X	X	X

Type Of Structure Or Use Obstruction		Front And Corner Side Yards	Side Yard	Rear Yard
19	Ham radio antennas subject to provisions of subsection 21A.40.090D of this part			X
20	Landscaping, including decorative berms 4 feet or less in height with no grade change along any property line, provided that if such landscaping obstructs the visibility of an intersection the city may require its pruning or removal.	X	X	X
21	Laundry drying equipment (clothesline and poles)			X
22	Parking, carports and covered parking spaces except as otherwise expressly authorized by table 21A.44.050 of this part			X
23	Patios on grade	X	X	X
24	Patios on grade (attached, covered and unenclosed) maintaining a minimum 15 foot setback from the rear property line			X
25	Porches (attached, covered and unenclosed) projecting 5 feet or less			X
26	Recreational (playground) equipment			X
27	Refuse dumpster			X
28	Removable handicapped ramp (when approved as a special exception)	X	X	X
29	Satellite dish antennas		X	X
30	Signs, subject to the provisions of chapter 21A.46 of this part	X	X	X
31	Steps and required landings 4 feet or less above or below grade which are necessary for access to a permitted building and located not less than 4 feet from a lot line	X	X	X
32	Swimming pools (measured to the water line), tennis courts, game courts, and similar uses shall not be located less than 10 feet from a property line.		X	X
33	Window mounted refrigerated air conditioners and evaporative "swamp" coolers located at least 2 feet from the property line. Window mounted refrigerated air conditioner units and "swamp" coolers less than 2 feet from the property line shall be reviewed as a special exception according to the provisions of section 21A.52.030 of this title.	X	X	X
34	Window wells not over 6 feet in width and projecting not more than 3 feet from structure	X	X	X

Notes:

1. "X" denotes where obstructions are allowed.

2. Below grade encroachments (encroachments which are completely below grade where the surface grade remains intact and where the below grade encroachment is not visible from the surface) into required yards shall be treated as a routine and uncontested matter in accordance with the procedures set forth in chapter 21A.14 of this title.

Appendix:

H. Proposed Overlay Sketch Scenarios

a. Lot coverage and attic addition

b. Proposed interior lot side setback allowance

c. Accessory building lot coverage and height

Proposed Avenues SR-1 Interior Lot Side Setback Rules

Minimum side setback: Four feet (4') and Ten feet (10').
 For properties narrower than 46' 8", not to exceed 30% of lot width but never less than four feet per side (lots narrower than 26' 8").
 No closer than 10 feet to primary structure on adjacent lot.

Lower green line on each lot represents additional side setback under proposed side setback rule.

Minimum Side Setback for Narrow Lots

If LT 46' 8" - Side Setbacks - 4' and 30% - 4'

If LT 26' 8" - 4' and 4'

Proposed Avenues SR-1 Lot Coverage Scenario

Blue represents existing building
 Green represents counter permit limits
 Yellow represents Administrative Public Hearing process

$$165 \times 41.25 = 6805 \text{ sq. ft}$$

$$\text{Max. Lot Coverage} = 2722 \text{ sq. ft.}$$

$$2722 - 1604 =$$

1118 sq. ft additional space

Accessory Buildings
600 Square Feet Total
Primary Accessory Building - 480 Square Feet, 14 foot peak, 9 foot walls or flat roof
Secondary Accessory Building(s) - 10 foot peak, 8 foot walls

All rear yard accessory buildings
must meet rear (1' - 5') and
side (min. 1')
setback requirements

PLANNING COMMISSION

MINUTES (Draft)

Petition 400-06-08 – to develop Neighborhood based Compatible Residential Infill Zoning Standards for the Avenues and Capitol Hill Communities

**SALT LAKE CITY
PLANNING COMMISSION MEETING
In Room 326 of the City & County Building
451 South State Street, Salt Lake City, Utah
Wednesday, April 12, 2006**

Excerpt

Present for the Planning Commission were Laurie Noda (Chairperson), Tim Chambless, Babs De Lay, John Diamond, Robert Forbis Jr., Peggy McDonough (Vice Chairperson), Prescott Muir, Kathy Scott, and Jennifer Seelig. Craig Galli was excused from the meeting.

Present from the Planning Division were Alexander Ikefuna, Planning Director; Cheri Coffey, Deputy Planning Director; Doug Wheelwright, Deputy Planning Director; Joel Paterson, Planning Programs Supervisor; Kevin LoPiccolo, Zoning Administrator; Sarah Carroll, Principal Planner; Marilyn Lewis, Principal Planner; Ray McCandless, Principal Planner; and Cindy Rockwood, Planning Commission Secretary.

Petition 400-06-08 — Salt Lake City Council initiated a request to amend existing provisions of the Salt Lake City Zoning Ordinance relating to single- and two-family land uses in City Council District Three that may contribute to incompatible residential infill development within the Special Pattern Residential 1 (SR-1) Zoning District. The proposed amendments include creating a subcategory of the SR-1 Zoning District for those properties currently zoned SR-1 in City Council District Three to address general lot and bulk issues including building height, yard requirements, and accessory building standards. This petition would also amend the zoning maps to implement the above referenced amendments to the SR-1 Zoning District for all properties within the Capitol Hill and Avenues Planning Communities currently zoned SR-1. The Capitol Hill and Avenues Planning Communities are generally located between I-15 and North Campus Drive from South Temple to the north City limits.

(This item was heard at 7:31 p.m.)

Chairperson Noda recognized Joel Paterson, Planning Programs Supervisor, as Staff representative. Mr. Paterson presented a short background relating to the Compatible Infill Ordinance Standards adopted in December 2005. He noted that Ordinance 90 was permanent, while Ordinance 91 was established to temporarily allow additional time for the Wasatch Hollow Community Council area and the Greater Avenues and Capitol Hill areas to continue work developing neighborhood based zoning standards that the community councils were working on. Mr. Paterson added that Wasatch Hollow has not submitted their proposal, but is anticipated for submission in the upcoming summer months. Mr. Paterson acknowledged the submission of the Avenues and Capitol Hill's joint proposal to create new standards for the SR-1 areas. Mr. Paterson clarified that an overlay zone was not being proposed, rather a text amendment to create a subsection of the SR-1 zone (SR-1A). A zoning map amendment is also being proposed to place the SR-1A zoning classification on the areas currently zoned SR-1 in the Avenues and Capitol Hill Community Council areas. Mr. Paterson added that a text and map amendment create ease of use for the individuals involved with future development in the SR-1 zoning of the respective areas.

Mr. Paterson stated that the proposal submitted by the Capitol Hill and Avenues Community Councils suggest the following changes to the existing proposal. Mr. Paterson also presented the findings of Staff in relation to Ordinance 90. He also clarified that the requirements, if not met by the applicant, may be altered after consideration by Staff and a public hearing is held.

Topic	Citywide (Ordinance 90)	Staff Proposal	Greater Avenues Proposal* (If different than Staff)
Building Height	28'	23' or the average height of the block face.	
Flat Roof Height/Maximum Exterior Wall Height	20'	16'	
Front Yard Setback		To determine the average setback on the block face if three or more parcels are located on the block face. (The greatest and smallest setbacks may only be eliminated if more than four parcels are located on the block face.)	To determine the average setback on the block face if three or more parcels are located on the block face. (The greatest and smallest setbacks would be eliminated from the calculation.)
Corner Side Yard		10'	10' (Eliminate the language to permit over-the-counter inline additions in the side yard.)
Interior Side Yard		4' on one side and 10' on the other. *	
Accessory Structures – Footprint Size	720 square feet	To determine the size of the structure by using the standard that the accessory structure can be up to 50% of the size of the home with a maximum of 600 square feet and a minimum of 480 square feet. **	480 square feet
Accessory Structures – Maximum Building Height (grade to the ridge)	17'	15'	14'
Accessory Structures – Flat Roof Height/Maximum Exterior Wall Height	12'	10' (A provision is being considered to adjust the height requirements for sloping lots.)	9'

*Mr. Paterson stated that the determination of the interior side yard can be calculated by taking 30% of the width of the lot. He stated that, with the new ordinance, a minimum 4' setback will be required on one side, and the calculation of the other would be the 30% minus the four feet. Mr. Paterson included that because of the narrowness of the lots in the Avenues and Capitol Hill areas, there could be instances where side yards will be 4' on one side and 8' on another. He stated that although the size of the required side yard may be altered, the City will require 10' between structures in all instances.

** Mr. Paterson included that although the 600 square feet maximum could be greater than the 50% threshold, many of the homes are within the historic districts. He noted that under the current historic district standards Staff can approve administratively, 600 square foot garages.

Mr. Paterson stated that Staff is recommending the modifications to the Avenues/Capitol Hill Proposal based on comments received from the Permits and Licensing Division. He stated that the input received

was that it could be difficult, with a maximum height of 9', to provide a 7' tall garage door because of the requirements for the roof structure and the hardware required for the garage door. Correspondingly, Staff recommends the one foot additional height to the Accessory Structure – Flat Roof Height/Maximum Exterior Wall Height.

Mr. Paterson stated that representatives from the Avenues/Capitol Hill Community Council will present their findings with relation to the suggested changes from Staff. He also mentioned that the findings are also available in the Staff Report. The Avenues/Capitol Hill proposal includes secondary accessory building standards for the purpose of building an additional storage shed. Mr. Paterson stated that the standards being proposed include a pitched roof height of 10' and a flat roof/external wall height of 8'. He stated that Staff concurs with the suggested standards, including that the secondary accessory structures may be attached to the primary accessory structure or be separate.

Mr. Paterson also noted that because the overall development standards relate to accessory structures in a different section of the zoning ordinance, Staff is proposing clarifications in the SR-1 section of the ordinance to include separate standards.

Staff is recommending that the Planning Commission forward a positive recommendation to the City Council with the modifications as noted by Staff.

Commissioner De Lay requested further information regarding the background of the shorter height requirement. She also requested the smallest width lot that could be built upon given the new side yard requirements.

Mr. Paterson stated that the original request was 23' when sent to the City Council, but was altered. Mr. Paterson stated that the minimum lot size would be 25' in width.

Commissioner Scott clarified that the height changes have been recommended by the Building Department.

Mr. Paterson stated that the maximum roof height for accessory structures is 17' measured to the peak according to Citywide standards. He added that the flat roof requirement for accessory structures is 12' Citywide and is also considered a standard for the maximum exterior wall height. Mr. Paterson stated that caution had been given to staff on adjusting to a height lower than 10' because it could be difficult to accommodate.

Commissioner Muir requested further information regarding the growth standards, while recognizing the desirable condition of investment in the neighborhoods. He requested further information on how the City measures for disinvestment occurrences.

Mr. Ikefuna clarified that the Division is measuring and maintaining records of the number of requests and the method of the approval. A report will be created within the next few months to illustrate the pattern that has occurred since the adoption of the ordinance. He stated that the two reasons the division is tracking the progress are: 1) to consider the amount of staff time affected; and 2) to determine the number of applications given over-the-counter permits. Mr. Ikefuna stated that on June 28, a report will be prepared and presented to the Commission on the findings of the last six months the Compatible Infill Ordinance has been in effect.

Mr. Paterson noted that in areas within the City historic districts, the Historic Landmark Commission has the ability to modify many of the compatible infill standards. By living in the Historic District, the compatible infill standards can be overridden.

Commissioner Chambless requested the definition of the standards of a variance when compared to the definition of the State Supreme Court.

Mr. Ikefuna stated that any additional standards created by the Supreme Court will not affect the City, as told by the legal representative for the City.

Mr. Paterson noted that references to Special Exception standards were removed from State Law; however, City's legal counsel has advised that the City does allow for special approvals that would encompass things like special exceptions, etc. The direction given to Staff by legal representatives was that the language and standards are defensible. Special exceptions do not require illustration of hardship although variances do.

Commissioner Diamond stated that there are existing structures that are taller than the maximum height, as they are historic buildings.

Mr. Paterson stated that in a historic district when alterations are visible, the applicant is required to go through the Historic Landmark Commission. The standards are based upon the Secretary of Interior Guidelines and can approve additional building height to match the existing height. If the applicant is not in the Historic District, they would be required to go through the Special Exception standards. The Council considered adding language to allow additions to extend to the height of the existing ridge line, but concluded not to do so.

Chairperson Noda recognized Shane Carlson and Peter Von Sivers

(Heard at 8:08 p.m.)

Mr. Carlson, Greater Avenues Community Council Chair, presented a brief background regarding the proposal created by the joint efforts of the Community Council. Mr. Carlson stated that some item will be discussed by the Capitol Hill Community Council, as it affects only their properties.

Mr. Carlson expressed appreciation for the exceptional contributions from the community. He provided a short background of the reasoning behind the research of the community council, including how the members of the community were trained to locate and determine if properties were conforming to present ordinance requirements. Mr. Carlson stated that the research produced the following findings: 45 percent of the homes in the Avenues area are single-story homes with a roof pitch of 4:12; 23 percent are one-and-one-half story homes with potential for building; the remainder was two-story homes. Mr. Carlson noted that the findings of the research provided helpful information to determine what requirements should be considered to help provide a sense of predictability for the SR-1 Zoning.

Mr. Carlson continued to discuss the proposals of the City and stated that the 23' height limit would provide a degree of predictability for homeowners that live on streets that have a varied height of homes. He noted that a priority for the accessory building requirements were that each homeowner should have the opportunity for a two-car garage.

Mr. Von Sivers was recognized by the Chair and stated that the Capitol Hill Community Council does carry concern regarding the issue of the size of the garages and the height. He noted that the one foot difference in height requirements for the accessory structures will be a great deal of difference when considering the slope of some lots. Mr. Von Sivers noted that he had discussed the 9' option with numerous contractors who stated that the 7' garage door requirement would not be a problem for construction.

Mr. Von Sivers shared concern regarding the Capitol Hill Overlay District extending from Girard to North Temple and the recent Master Plan discussion of the 35' maximum height requirement. Mr. Von Sivers read a portion of the revised Capitol Hill Master Plan as follows:

"Structures in the SR-1 and R-2 Zoning Districts that meet the compatible infill development pattern may exceed the base zoning height to the established block face building height or 35', whichever is more restrictive".

He continued to state that if the Capitol Hill Master Plan was adopted, a 35' maximum height would be imposed if reconstruction ever occurs on a property.

Ms. Coffey confirmed that it was a correct statement, and noted that this item would return to the Commission at a later date.

Chairperson Noda requested comments from the public and placed a three-minute time limit on their comments.

Margaret Miller, 653 9th Avenue, stated her desire to protect the Avenues SR-1 District from further incompatible development and was in support of the proposal as submitted.

Tyrone Medley, 553 8th Avenue, stated his opposition to some of the zoning regulations, regarding the remodel of his one and one-half story home. Considering his remodel, Mr. Medley is struggling with the height average determined by the block face requirement, when no consideration is taken by the other surrounding houses; he suggested that the height restrictions and block face requirements better accommodate the characteristics of the Avenues.

Jim Jenkin, 212 5th Avenue, complimented the City and the community working together to develop a set of parameters of the community to base standards that would constitute requirements. He stated that he could not agree with the wall height and peak height for accessory structures.

Jill Mortensen, 426 J Street, had comments read into the record. They are as follows: "I live and look at the monster house daily. It's awful. Please stop future mishaps".

Frederica Nebeker, 532 10th Avenue, stated her support for the Staff amendments, to further allow for flexibility. She stated that she has been trying to sell a home she owns in the Avenues area, but is unable to do so because of the restrictions and confusion.

Commissioner Scott requested further information regarding her opinion of the accessory building differences between Staff and Community Council suggestions.

Ms. Nebeker stated that she has some concern regarding the restrictions, but will have to conduct further research.

Minta Brandon, 113 West Clinton Avenue, stated her support in individuality and uniqueness of the Avenues area. She cited examples of homes in the area that sell quickly because of the character when larger homes do not because of their incompatibility in the area.

Kirk Huffaker, Utah Heritage Foundation, stated his support for the proposed ordinance changes. The neighborhood based standards are obvious and represent very hard work by dedicated people. He stated that the standards requested are warranted and justifiable.

Cody Kurtis, 482 9th Avenue, stated his support of the Staff recommended changes to the Avenues proposal.

Earl Miller, 653 9th Avenue, stated that he is in favor of the proposal and recognizes that flexibility does exist, given the tiered approach.

Ann Kelsey, 351 L Street, stated her favorable position regarding the proposal. By building incompatible structures, noise will increase between homes. She noted her appreciation for the hard work and the ironing out of the process required.

Ervin & Ellen Horrocks, 423 K Street, had requested their comments be read into the record. They are as follows: "We don't know how many people have said to us, 'That house next to you should never have happened' and that is what we are trying to prevent from happening in other areas. The current home

owners deserve protection. We need these new zoning laws now. We feel the three-tiered approach is the way to go. It is fair to everyone. Please help us protect our neighborhoods".

Lon Richardson, 1280 4th Avenue, had comments read into the record, "Remember the idea of all of this, is to protect what we have, yet allow growth".

James Teton, 569 9th Avenue, noted the hardship he is experiencing regarding the new ordinance has presented to the selling of his home. Given the height restriction of the 23', the home is not capable of meeting the requirements if a second story is constructed. Mr. Teton noted that with the slope, the ceiling height can vary from the front to the back and is limited because of the 23' requirement.

Lewis Downey, 634 North West Capitol, did not wish to speak. The following comments were read into the record, "I am in support of the proposed amendment to the SR-1 District building guidelines".

Nick Reese, Avenues resident, stated a favorable, but concerned position regarding the implementation of the tiered process. He stated that if the three-tiered process can function appropriately, the compatibility process can and should be considered.

Kathryn Gardner, stated her support for the proposal. She stated that accessory building heights are not a heightened concern for her.

At 9:02 p.m., Chairperson Noda closed the Public Hearing and the Commission began the Executive Session.

Commissioner McDonough requested further clarification regarding the process and the three-tiers. She noted that the regulation of good design can be difficult to do through zoning ordinances. She stated concerns regarding the interpretation and review.

Mr. Paterson provided a review of the tiered process, by stating that if base standards are met, an over-the-counter permit is issued. Applications are available for those who are unable to obtain an over-the-counter permit. He stated that the applications are considered for Additional Building Height for a Primary Structure, Additional Building Height or Additional Footprint Size for an Accessory Structure, and Alternate Location for an Accessory Structure.

Mr. Paterson noted that only one project has been through the Administrative Hearing Process. The home met the height requirement for the front of the home, but due to the slope of the lot did not meet the requirement at the rear of the home. He stated that concern was raised by property owners near to the home, moving the authority of a decision to the Board of Adjustment. Mr. Paterson added that the process for appealing the project has no standard of criteria. He stated that the Division will be reviewing this item with the clarification noted at the beginning of the meeting.

Commissioner Muir noted concern regarding the district applicable to the Capitol Hill affected area.

Mr. Paterson stated that the proposed standards for the SR-1A being requested would encompass all of the areas in the Capitol Hill area.

Ms. Coffey stated that the neighborhood Commissioner Muir was concerned with was the Guadalupe Neighborhood, and a lot of reinvestment has been made in the neighborhood. It is also a National Historic District and appropriate to include in it the area and the surrounding Pugsley Street.

Ms. Coffey made a clarification regarding the issue Mr. Von Sivers had addressed regarding the Capitol Hill Protective Overlay Zone, was in relation to the meeting that occurred between the representatives of the Capitol Hill and Avenues area and Staff. The Planning Division is interested in implementing provisions relating to the Master Plan and the Capitol Protective Area Overlay Zone. She stated that the overlay zone was placed with the idea of protecting the views to the State Capital. Ms. Coffey clarified that the present zoning district for that area have no exceptions to height, and if the new base zoning is

only 23' then regardless of the compatibility, the height will not be changed. She stated that the proposed amendment will state that chimney or church steeples are exempt from that height, so would a building that meets the compatibility ordinance or historic guidelines; it could go higher, but no higher than 35'.

Commissioner De Lay stated that a great deal of community and Staff effort had been exerted to formulate the proposal, and mentioned that the individuals who are opposed to the proposal are generally still trying to understand the process and work out the complexities.

Commissioner Forbis requested clarification regarding the purpose of going beyond the requested accessory building standards purposed by the Community Councils.

Mr. Paterson stated that the background of the decision was based on the comments received from the City Permits and Licensing Division. Also, Mr. Paterson noted that in the change from 600 square feet to 480 square feet was the determination to keep the standards similar to the overall City standards using the 50 percent standard of the home and remain consistent with the standards for the historic district for administrative approvals.

Commissioner Scott requested further information regarding a possible request for those who would like something larger than the 480 square foot.

Mr. Paterson noted that the applicant has the opportunity to apply for a Routine and Uncontested approval for something larger.

Commissioner Scott stated concern relating to the size of the accessory structure and the height requirement of the garage, because it's an accessory building that could obstruct the view. She noted that the applicant could, if extra storage was required, apply for the additional height. Commissioner Scott stated that she would be inclined to move forward with the lower recommendations.

Commissioner Muir requested clarification regarding the side yard alterations that could occur in relation to the suggested changes. He requested further information about the most restrictive condition.

Mr. Paterson responded to the question by stating that because of the narrow lot width, one of the two side yards can be reduced. The Avenues recommendation for a 10' separation is required only on one side

Based on the analysis and findings presented in the Staff Report and the public statements, Commissioner De Lay made a motion for the Planning Commission to transmit a favorable recommendation to the City Council to approve Petition No. 400-06-08 to amend the zoning ordinance as presented and amend the zoning map by applying SR-1A designation to all areas presently zoned SR-1 within the Avenues and Capitol Hill Planning Communities. Commissioner Chambless seconded the motion. Commissioner Chambless, Commissioner De Lay, Commissioner Diamond, Commissioner McDonough, Commissioner Muir, Commissioner Seelig, and Commissioner Forbis voted "Aye". Commissioner Scott was opposed. The motion passed.

Commissioner Scott requested an amendment to the motion to adjust the maximum building coverage for accessory buildings not to exceed 480 square feet. The proposed amendment was denied.

PROCEEDINGS OF THE CITY COUNCIL OF SALT LAKE CITY, UTAH

Councilmember Love moved and Councilmember seconded to adopt Ordinance 90 of 2005 and include the following: a) a definition of development pattern as outlined by the Renovation Design Group, b) definition of block face as outlined by the Planning Division, c) Sketch Plan Review as outlined in the memo from the Renovation Design Group, d) a building height of 28 feet to the crest of the structure or 20 feet for a flat roof, and e) a wall height of 20 feet with the option to increase or decrease height as outlined in the proposed ordinance; and further move that the Council adopt Ordinance 91 of 2005 adopting temporary zoning regulations for six months that applies to the following areas: a) the area north of South Temple and east of the I-15 freeway currently zoned SR-1, and b) the area of 1300 South to 1700 South and 1300 East to 1900 East.

Councilmember Love said Salt Lake City was unique because of neighborhoods with historic homes. She said as a result of the construction boom the character, streetscapes, and charm of some neighborhoods were in jeopardy. She said over the last two years loopholes were discovered in the infill ordinance. She said standards that had once worked no longer worked. She said the result of the process would be positive and everyone would be able to build, expand and renovate. She said people who wanted to go beyond reasonable standards would have to go through a process to make sure the reconstruction was compatible.

Councilmember Love said she was confident the new ordinance would encourage families to move into the City. She said they had established reasonable boundaries to better protect the neighborhoods. She said she was sympathetic to East Central because they had unique needs. She said she was confident that in two months Wasatch Hollow and the Avenues would bring a plan to the Council that would fit their neighborhoods.

Councilmember Buhler said he supported the motion. He said they were trying to protect the rights of those wanting to expand or rebuild a home and the property rights of their neighbors. He said people wanted to invest and live in Salt Lake City. He said the proposed ordinance did a good job balancing those interests.

Councilmember Buhler said the proposed ordinance provided a baseline City-wide and corrected issues which caused problems. He said until the ordinance was passed, a person could build a 40-foot high home anywhere in the City. He said that size home did not fit very many places. He said the new ordinance took

PROCEEDINGS OF THE CITY COUNCIL OF SALT LAKE CITY, UTAH

40-feet down to 28-feet City-wide which allowed people to have second stories.

Councilmember Buhler said he felt it was appropriate to look at overlays where needed and he supported the temporary overlay. He said the overlay would give the two neighborhoods some time to come up with a plan that would work better.

Councilmember Saxton said the Douglas Neighborhood had some unique housing and heights. She said the Council took a straw poll and the vote was 2-5 against including Douglas neighborhood into the special zoning district. She said a way was needed for families to be able to stay in their homes as long as they wanted. She said expansion needed to be allowed but parameters needed to be set. She said she would vote in favor of the motion.

Councilmember Christensen said adding on to a home was economical. He said the Council could pursue a way to provide people an affordable way to expand in the Housing Policy. He said the ordinance provided reasonable expectations. He said he did not want to be too limiting and make the ordinance too complicated. He said he supported the motion. He said he wanted to review the ordinance after one year to see if it was working.

Councilmember Turner said this was a City-wide issue. He said people were investing in homes. He said a neighborhood could go 20 years with no changes. He said the proposed ordinance addressed some of those changes. He said he felt the ordinance would help Westside neighborhoods keep their charm. He said he wanted to see an investment in his area. He said he would support the motion.

Councilmember Lambert said he saw the need to protect neighborhoods but he also saw the need to renovate neighborhoods and homes. He said the City needed room for families to stay in the City and people were demanding larger homes. He said if they wanted a vital City, they had to make adjustments. He said the ordinance did accommodate expansion for large families and allowed for two car garages.

Councilmember Lambert said the real challenge was a City-wide ordinance because there were special needs in certain neighborhoods. He said for those specialized neighborhoods he encouraged them to continue to work with neighbors. He said if something more restrictive was needed then an overlay district

PROCEEDINGS OF THE CITY COUNCIL OF SALT LAKE CITY, UTAH

could be developed. He said some neighborhoods might need to be less restrictive.

Councilmember Lambert said all citizens in every City neighborhood should not have to go through a long process to build a two story home. He said he did not believe it was a City-wide restriction the Council could live with. He said it would be unfair to many people.

Councilmember Lambert said the setback requirements were currently 20-feet. He said many neighborhoods even though they could build to 20-feet have built their homes farther back. He said if someone lived in a neighborhood where most of the homes were set back 35 or 40-feet and someone built a major structure to the 20-foot line, it would hurt a neighborhood. He said he would support the motion.

Councilmember Lambert called for the question, which motion carried, all members voted aye.

Petition No. 400-06-08

By CITY COUNCIL

INITIATED APPEITION TO DEVELOP
