

City Council Announcements

May 30, 2006

A. Information Needed by Council Staff

1. The State has communicated to the Planning Division, the desire for the City to clarify it's "Child Care Facilities" ordinance by the summer. Staff would like to know if the Council is ok with going outside of the normal process somewhat. The proposal is that we would set the date in June for a July 11 hearing, and we would have a briefing on the issue on July 6th. This would satisfy the State's desire to have the issue clarified in a timely manner, but not overburden the agendas in June, that already have budget briefings. **Staff would like to know if the Council is ok with this strategy?**
