

# City Council Announcements

## November 7, 2006

### A. Information Needed by Council Staff

1. The **PEHP Flex Plan (Medical and Dependent Care accounts) Open Enrollment** period will start on November 1, 2006 and end on December 15, 2006.

Each person must sign up for their own deductions so that they can use funds on a tax free basis for medical and dependent care expenses. After December 15 you will not be able to sign up or it will but the City's whole plan in jeopardy. Also, be sure to spend any amounts that have been taken out this year by December 15.

The **best** way to enroll is on line at [www.pehp.org](http://www.pehp.org)

You also may enroll by completing a Flex enrollment form available at an open enrollment meeting or with your timekeeper.

**\* On line enrollment or enrollment forms will not be accepted after December 15, 2006 \***

**If you have any questions, please call PEHP at 366-7503, 366-7563 or 366-7523**

2. **Metropolitan Water Board Vacancy** – Genevieve Atwood's second term on the Metropolitan Water Board of Trustees will expire on January 1, 2007. She is not eligible for reappointment unless the Council wishes to make an exception. Salt Lake City's other board members are:
  - Leland J. Myers, chair (District 7): Second term expires 1/4/10
  - Pat Comarell (District 6): Second term expires 1/5/09 (first term was more than half of a full term)
  - Lee Kapaloski (District 5): First term expires 1/4/10
  - David Stanley (District 5): First term expires 1/4/10

Salt Lake City board members must be residents of Salt Lake City. State law (17A-1-303) requires that a notice of a pending vacancy be posted for 30 days and advertised in a newspaper on five consecutive days outlining the procedure for applying if a person wishes to be considered. Staff has asked for recommendations from LeRoy Hooton, Leland Myers, and Mike Wilson. Please let staff know if you have suggestions of individuals who may be interested in serving on the board. **Does the Council wish for staff to proceed with the required notice of a pending vacancy? Does the Council wish to have the Council's Public Utilities Subcommittee review applications and make recommendations for a Metro Water Board appointee?**

3. Currently the Administration provides a legislative version ("strike and bold") and a clean version of each ordinance that is proposed for Council consideration. In order to reduce the potential for confusion, and to save paper, **would the Council be willing to just receive the legislative version of the ordinances?**
4. **Petition 400-01-48 – Transit Corridor TC-75 – ordinance correction to include a building step-back provision as part of the zoning regulations for the Transit Corridor TC-75 Zoning District.** Paperwork has been received from the Community Development Department to correct an error in the adopted Transit Corridor TC-75 zoning regulations. The Council's request for a building step-back provision was inadvertently omitted from the ordinance adopted by the Council in 2005. A new ordinance has been provided to rectify this error. This would be a 'housekeeping' type of

correction and would not substantially change the zoning regulations that are currently in place. **Would Council Members prefer to schedule this item for a public hearing without a briefing?**

5. Council staff has attached a memorandum by City Council Member Nancy Saxton seeking the Council's support for a **legislative action** to prepare an ordinance that would **restrict the number of businesses in Salt Lake City that provide "payday loans."**

## **B. For Your Information**

1. Attached is a grant application submitted by the City.

# Award Nomination Submission Memo

**TO:** Rocky Fluhart, Steve Fawcett, Cindy Gust-Jenson

**FROM:** Grant Acquisition Team

**DATE:** 10/27/2006

**SUBJECT:** Award Nomination for Kennedy Center IMAGINATION CELEBRATION at Salt Lake City

---

**FUNDING AGENCY:** Association of Performing Arts Presenters and MetLife Foundation

**AWARD AMOUNT:** \$10,000

**DEPARTMENT APPLYING:** Department of Public Services

**COLLABORATING AGENCIES:** None

**DATE SUBMITTED:** October 27, 2006

**SPECIFICS:**

Technical Assistance (Training)       Equipment Only

Provides \_\_\_\_\_ FTE Position(s)

Existing       New       Overtime       Requires Funding After Grant

Explanation: \_\_\_\_\_

---

Match Required    0%       In Kind     Cash

Computer Software Development     In House     Contract Services

New Program (City not performing function now)

**GRANT DETAILS:**

- The award honors an organization that demonstrates innovative strategies that increase access to the arts for people in underserved communities whether they are rural, inner-city, communities in transition or new communities.
- The City nominated YouthCity Artways for its efforts to present the Polynesian Festival as part of the annual Kennedy Center IMAGINATION CELEBRATION at Salt Lake City.
- 
- If chosen to receive the award, YouthCity Artways will use the funds to support the 2007-2008 season of the Kennedy Center IMAGINATION CELEBRATION at Salt Lake City.

## On-line Enrollment Instructions

---

On-line enrollment is easy, accurate, secure, and you will receive an enrollment confirmation letter by mail. On-line enrollment is **ONLY** available during the FLEX\$ open enrollment period. Follow the instructions below to complete your FLEX\$ enrollment. You can make changes to your FLEX\$ annual election amounts, until the Plan Year begins, by repeating the following on-line enrollment steps and entering a new annual election amount. You must re-enroll to participate in the FLEX\$ Plan each year.

### *How do I enroll on-line?*

1. **Go to [www.pehp.org](http://www.pehp.org)**
2. **Login to myPEHP**

If you have not set up your myPEHP login, you will need your Social Security Number, Date of Birth and PEHP Subscriber ID. Your PEHP subscriber ID is located on your PEHP/Medcohealth Insurance card, or you can request your PEHP subscriber ID on-line.

3. **Select FLEX\$ Enrollment** (*only available during FLEX\$ open enrollment*)

#### *Step 1- Personal Information*

Verify your mailing address. Enter a daytime phone number, this number will be used to contact you if there is a problem or question with your FLEX\$ enrollment. A FLEX\$ enrollment confirmation letter will be mailed to the address listed. **Click next.**

#### *Step 2- Salary Reduction Information*

Enter the annual election amount for the Health Care and/or Dependent Day Care. The amount entered will be divided by the number of paydays in your Plan Year. **Click next.**

#### *Step 3-Election authorization and acknowledgement*

Verify the annual election amount shown. Read the terms and conditions. Type your name as the electronic signature. **Click on confirm.**

#### *Flex Enrollment – CONFIRMATION*

Your enrollment process is not complete until you reach the Flex Enrollment – Confirmation screen. A FLEX\$ enrollment confirmation letter will be mailed to your current address. Print a copy of your enrollment for your records.

### **Important Notes:**

The elections you make are irrevocable and can only be changed if there is a qualifying event or family status change such as, marriage, divorce, birth or adoption of a child, death of a spouse or child, dependent status change, or change of employment status for you or your spouse. Plan your election amounts carefully, by law, any amount remaining in your FLEX\$ accounts, which is not claimed during the Plan Year or the 90 day claim out period will be forfeited to your employer. Keep in mind that the services must be provided during the Plan Year, regardless of when you are billed or pay for the expense.

PEHP FLEX\$ forms and information are available at [www.pehp.org](http://www.pehp.org) or contact PEHP FLEX\$ at 801-366-7503 or 800-753-7703. Consult the FLEX\$ Handbook for detailed Flex Plan rules and information.

---

# M E M O R A N D U M

---

**DATE:** November 1, 2006  
**TO:** City Council Members  
**FROM:** City Council Member Nancy Saxton  
**RE:** Legislative Action: Restricting Payday-Loan Businesses  
**CC:** Cindy Gust-Jenson, Rocky Fluhart, Ed Rutan, Louis Zunguze, Orion Goff, Edna Drake, Gary Mumford

---

I would appreciate the Council's support for a Legislative Action to prepare an ordinance that would restrict the number of businesses in Salt Lake City that provide "payday loans."

Payday loans are short-term, high-interest, cash advances made to individuals who have a checking account and a steady source of income. When making a loan, lenders take a post-dated check for the loan amount plus interest as collateral. If a borrower does not return with a cash payment when the loan is due, the lender cashes the check.<sup>1</sup> Studies by state governments, scholars and consumer advocates generally indicate average payday loan annual percentage rates range from 364 percent to 550 percent.<sup>2</sup> It should be noted that Utah law considers payday loan businesses as legitimate, regulated enterprises.<sup>3</sup>

Salt Lake City has 24 businesses that provide payday loans to consumers.<sup>4</sup> According to the Business License Office, before the year 2004 the City received 10 applications for businesses licenses to operate payday-loan businesses. Since 2004, 14 similar firms have applied for business licenses. The increase appears to be part of a statewide trend. According to a Deseret Morning News article, the number of businesses providing payday loans in Utah has gone from 17 in 1994 to 381 in 2005.<sup>5</sup> According to the article, "Utah has more payday loan stores than 7-Elevens, McDonald's, Burger Kings and Subway stores – combined."

Some cities in Salt Lake County have noted the growth of the payday loan business and have taken steps to limit the presence of the businesses in them.

The West Valley City adopted the following definition about five years ago to regulate the number of payday loan businesses, according to Deputy City Attorney Nichole Cottle. The definition reads:

7.1.103 (30) "Check Cashing" means cashing a check for consideration or extending a Deferred Deposit Loan and shall include any other similar types of businesses licensed by the State pursuant to the Check Cashing Registration Act. No check cashing or deferred deposit loan business shall be located within 600 feet of any other check cashing business. Distance requirements defined in

this section shall be measured in a straight line, without regard to intervening structures or zoning districts, from the entry door of each business. One check cashing or deferred deposit loan business shall be allowed for every 10,000 citizens living in West Valley City. The term Check Cashing shall not include fully automated stand alone services located inside of an existing building, so long as the automated service incorporates no signage in the windows or outside of the building.

Taylorsville adopted a similar definition in 2005 and listed check cashing businesses as conditional uses zoned for community commercial and intense commercial uses.

According to the Deseret Morning News article in 2005, the average number of businesses in states that allow payday lending is one business per 10,000 residents. Utah averages 1.6 payday-lending businesses per 10,000, according to the article.

I would like the City Council's support in asking the City Attorney's Office to prepare an ordinance limiting the number of payday lending businesses in Salt Lake City. The presence of 24 businesses of that kind may mean that the number of businesses have exceeded the average of businesses like that in states that allow the practice. The 2000 Census listed Salt Lake City's population at 181,743. That number divided by 24 means there is a payday lending business for every 7,572 residents.

Before preparing the ordinance the Attorney's Office could work with the Department of Community Development to determine if there should be spacing restrictions such as those in the West Valley City and Taylorsville municipal codes or whether there should be a cap on the total number of businesses of that kind allowed in the City or both. The Attorney's Office and the Department of Community Development also could determine whether making the businesses a conditional use is warranted.

## Norfolk aims to curb number of payday lenders

May 16, 2006 - Norfolk, Virginia

Like gas stations and convenience stores, payday lenders tend to spring up wherever consumer traffic is heavy.

"We're located in malls and near big-box retailers because that's where our customers are," said Wayne "Jabbo" Covert, vice president for government affairs at Check into Cash Inc., a Cleveland, Tenn., lender with 21 stores in Hampton Roads.

The proliferation of payday lenders in Norfolk has been hard to miss. Since 2002, when Virginia opened its doors to providers of the short-term, high-interest loans, stores have opened in several of the city's shopping centers and along major corridors including Virginia Beach Boulevard, Little Creek Road and Tidewater Drive.

The city, however, is seeking to curb their growth by barring new stores from opening in large shopping centers and requiring a special exemption for lenders seeking to open stores in other commercial areas. Existing payday-lending stores would be allowed to continue doing business.

The proposed change in Norfolk's zoning ordinance also would apply to check-cashers, auto-title lenders and retailers of used merchandise. The change would exclude antique stores from the restrictions. Used-car dealers and pawnshops would not be affected.

Payday loans are short-term, high-interest cash advances made to individuals who have a checking account and a steady source of income. When making a loan, lenders take a post dated check for the loan amount plus the interest as collateral. If a borrower doesn't return with a cash payment when the loan is due, the lender cashes the check.

In Virginia, licensed lenders are allowed to make loans of \$100 to \$500 for one to four weeks. They can charge as much as \$15 for every \$100 lent, which works out to an annual percentage rate of 390 percent for the typical two-week loan.

Paul R. Riddick, a member of the City Council, expressed concern Monday about the increasing number of payday-lending stores in Norfolk and the financial harm that the loans can cause.

"From my perspective, we have so many people looking for these to carry them through to the next paycheck," said Riddick, whose ward takes in the southeastern area of Norfolk. Many of the borrowers, he noted, are lower-income individuals and members of the military.

The proposal to restrict the opening of payday-lending stores, check-cashers, auto-title lenders and used-merchandise retailers was approved by the city's planning commission in March. The council has scheduled a public hearing on the measure for 7:30 p.m. May 23.

Norfolk's attempt to curb the spread of payday-lending stores has been taking shape amid similar efforts by several other cities. In October, Jacksonville, Fla., imposed several restrictions on payday lenders, including an interest-rate ceiling on their loans and a prohibition against lenders contacting the commanding officers of military borrowers who default on a loan. Jacksonville also barred lenders from opening new stores within five miles of a military installation.

This year, San Francisco imposed a moratorium on new payday-lending and check-cashing stores while the city considered ways to limit the proliferation of these businesses in particular neighborhoods. Meanwhile, Phoenix and a handful of other Arizona cities have sought to restrain the growth in payday-lending stores.

In a report released this month, Virginia's Bureau of Financial Institutions said the volume of payday lending in the state approached \$1.2 billion last year, an increase of 21 percent from 2004. The number of loans, it said, rose 16 percent to 3.37 million. Meanwhile, the number of borrowers climbed 15 percent to 445,891.

The report by Virginia's banking regulator doesn't break down the volume of lending by municipality, but it does list the store locations of licensed lenders. At year-end 2005, Norfolk had 46, an increase of three from a year earlier. Among Hampton Roads cities, Virginia Beach

had the greatest number of locations with 67.

In Norfolk, the Navy-Marine Corps Relief Society, a charitable organization, repeatedly has called attention to the difficulties that households of young enlisted personnel encounter when using payday loans. Also, consumer advocates have campaigned to eliminate the lending in Virginia, citing the rising number of borrowers who use more than a dozen of the loans a year. Because of the triple-digit interest rates, they argue, consumers who use the loans repeatedly are vulnerable to being overwhelmed by the interest costs.

However, attempts in the General Assembly to abolish payday lending in the state have stalled amid heavy lobbying by the industry and its opponents.

Covert of the Check into Cash lending chain played down the effects that high interest rates have on frequent users of payday loans. Many of Check into Cash's customers, he said, use 7 or 8 loans over a year to 18 months because of a job loss, a divorce or other problem. Once the problem is resolved, they stop using the loans, he said.

Check into Cash, he said, has adjusted to efforts by cities to limit the concentration of payday-lending stores in particular areas. However, Covert contended that municipalities should allow market forces to determine the number of stores and their locations rather than zoning laws.

"All we are doing is responding to demand," he said. "We build where the customers are."

---

financial vulnerability facing past, current, and future military personnel, and introduces the emerging debate over payday lending to military personnel. Part III and introduces leading law and geography theory and summarizes our empirical methodology. Part IV juxtaposes our empirical description of payday lender location strategies near U.S. military bases with descriptions of the payday lending legal environment in force at each location. Part V analyzes the results of this study, ultimately drawing descriptive and prescriptive conclusions for policy makers, including state and federal law makers, as well as military leaders.

## II. BACKGROUND

### *A. Payday Lending*

#### 1. What Are Payday Loans?

Payday loans are high interest rate, rapidly compounding loans meant to tide over cash-short borrowers until their next paycheck.<sup>19</sup> In a typical transaction, a customer might borrow \$200.00 by writing a check drawn on her personal checking account and made out to the lender for \$235.00.<sup>20</sup> Typically, the borrower “post-dates” the check by writing a date one or two weeks in the future.<sup>21</sup> This date is the day that the parties agree the borrower will repay the loan and interest. Before making the loan, payday lenders generally verify the debtor’s identity by asking for documents or identification such as a driver’s licence, recent pay stubs, bank statements, car

---

<sup>19</sup>Payday loans go by many other names, including deferred deposit transactions, deferred presentment check cashing, post-dated check loans, and check loans. Jean Ann Fox, *What Does It Take to Be a Loanshark in 1998? A Report on the Payday Loan Industry*, 772 PRAC. L. INST./COM. 987, 989 (1998).

<sup>20</sup>Some lenders are now replacing the use of checks with a borrower’s agreement to allow the lender to simply debit the borrower’s bank account on the due date of the loan. Michael S. Barr, *Banking the Poor*, 21 YALE J. ON REG. 121, 149 (2004).

<sup>21</sup>See Scott Andrew Schaaf, Note, *From Checks to Cash: The Regulation of the Payday Lending Industry*, N.C. BANKING INST. 339, 341-42 (2001).

---

registration, or telephone bills.<sup>22</sup> Many lenders telephone the borrower's human resource manager or boss to verify the borrower's employment.<sup>23</sup> Virtually all lenders require the names, addresses, and telephone numbers of close family and friends in the event the borrower skips town.<sup>24</sup> Payday lenders usually decide whether to issue a loan on the spot without obtaining a credit report.<sup>25</sup> Both parties are aware that the borrower's checking account does not have sufficient funds to cover the check when the check is signed.<sup>26</sup> The assumption is that the borrower will have deposited sufficient funds in her checking account to cover the check before the due date of the loan. After the paperwork is complete, the debtor walks away with \$200.00 in cash or a check drawn on the lender's account. When the two weeks are up, the debtor can redeem the check with cash or a money order, permit the check to be deposited, or attempt to renew the loan by paying another fee.<sup>27</sup> If the borrower cannot pay off the loan, the obligation continues to accrue thirty-five dollars in interest every two weeks. Although the initial thirty-five dollar fee represents only 17.5% of the loan amount, the annual percentage rate of the transaction is around 455%.

A 455% interest rate is by no means uncommon.<sup>28</sup> Studies by state governments, scholars,

and consumer advocates generally indicate average payday loan rates range from 364% to 550%. A consumer advocate coalition study surveying lenders in nineteen states and the District of Columbia found an average interest rate of 474%.<sup>29</sup> Other regional data tend to roughly confirm this figure. For instance, the Indiana Department of Financial Institutions survey found the average Indiana payday loan interest rate was 498.75%.<sup>30</sup> North Carolina consumers purchase about sixty-three percent of their payday loans at annual interest rates between 460.08% and 805.15%.<sup>31</sup> A recent report on Oklahoma payday lenders may suggest a slightly lower average APR of around 364.47% in that state.<sup>32</sup> A report on payday lenders in Salt Lake City showed an average rate of 528.49%.<sup>33</sup> Still, some lenders charge rates far in excess of these averages. For example, Indiana regulators found one lender offering payday loans at an interest rate of 7600%.<sup>34</sup> Moreover, these interest rates do not include common contingent charges including late fees and bounced check fees, which can cost nearly as much, or even more, interest as the loan itself.

Payday lenders argue that quoting an annual percentage rate for a two week loan is

*PREDATORY LENDING AND THE MILITARY*

---

misleading and unhelpful.<sup>35</sup> Instead, payday lenders prefer to quote loan prices as a percent of the principal borrowed.<sup>36</sup> For instance, if the consumer borrows \$300.00 for two weeks in exchange for a fee of \$52.50, lenders will often describe this as a “17.5%” loan. Lenders suggest payday loans compare favorably to bounced check fees, which average around twenty-one dollars.<sup>37</sup> Critics of payday lending retort that a bounced check fee is a one-time charge that does not continue to compound again and again.<sup>38</sup> For loans, annualized interest rates are the uniform metric which all mainstream creditors use to compare prices. Home mortgages, student loans, and automobile loans are all disclosed and regulated with an annual percentage rate terminology. Even other short-term lenders, such as credit card issuers, use annual percentage rates. Consumers wishing to compare the price of available credit options tend to be confused and surprised by different price quoting conventions for different types of credit. To those with limited financial literacy, or even to casual observers, a cash advance or purchase on a 17.5% APR credit card may be indistinguishable from a payday loan with 17.5%-of-principal fee. Most payday loan borrowers will be surprised to know the interest rate of the latter loan is about *twenty-six times more expensive* than that of the former. Not surprisingly, one industry-sponsored telephone survey found seventy-two percent of payday loan borrowers said they did not know the

---

annual percentage rate of their most recent loan.<sup>39</sup> More than half of the small minority who claimed to know their annual percentage rate incorrectly believed that their rate was far lower than it actually was.<sup>40</sup>

Annual percentage rate terminology is also appropriate for payday loans because these loans often compound for durations coming close to or exceeding a year. For any given loan, many payday loan borrowers simply lack the funds to pay on the due date and are accordingly forced to roll over the loan.<sup>41</sup> Compelling evidence suggests a substantial portion of the payday loan market is made up of extensions of previous loans, sometimes for protracted durations. North Carolina regulators found that about eighty-seven percent of borrowers would roll over any given loan at least one time with any given lender.<sup>42</sup> Not counting debtors who borrowed from multiple locations, nearly forty percent of North Carolina borrowers renewed their payday loans more than ten times.<sup>43</sup> The Indiana Department of Financial institutions study found that seventy-seven percent of all payday transactions were extensions of previous loans.<sup>44</sup> In Oklahoma, the average payday loan customer took out 4.3 payday loans during a four month period from August 2004 to November 2004—just over one per month.<sup>45</sup> Consumer advocates have found that the

---

average payday loan customer borrows 10.19 payday loans per year.<sup>46</sup> In Iowa, the Division of Banking found an average of 12.5 loans per year per customer.<sup>47</sup> An industry-sponsored study found that thirty percent of borrowers had seven or more loans in a year, and that about seventy-five percent of borrowers rolled over their loan at least one time.<sup>48</sup> Regulators in Illinois found payday loan borrowers “who were borrowing continuously for over a year on their original loan.”<sup>49</sup> An empirical study by Professor Creola Johnson found that payday lenders repeatedly roll over payday loans even in states with statutes prohibiting this practice.<sup>50</sup> Moreover, there are frequent reports of loans outstanding for one, two, or even three years.<sup>51</sup> Collectively these statistics have led consumer advocates to argue that payday loans trap borrowers into a cycle of “chain debt.”<sup>52</sup>

Payday lenders argue that the high prices and long durations of their loans are justified by the high administrative costs of doing business and by the high default rates.<sup>53</sup> Scholars have

countered that high payday loan prices actually “mutually reinforce” loan losses because the high prices induce default which in turn raises prices.<sup>54</sup> Moreover, even if payday loan loss rates justify higher pricing, the payday lending business has still proven wildly profitable. A Federal Deposit Insurance Agency official wrote that, despite credit and reputational risks, “higher pricing on payday loans promises higher revenues and wider margins for lenders.”<sup>55</sup> One economics professor has estimated that payday lending operations earn ten to twenty times higher return on equity than traditional banks.<sup>56</sup> Similarly, after the Tennessee Legislature took steps to legalize payday lending, the Tennessee Department of Financial Institutions conducted a follow-up survey finding that licensed payday lenders “earned over 30 percent returns on investment in the first nine months of legal operation.”<sup>57</sup> But perhaps most interesting is that payday lender profits come disproportionately from high-frequency borrowers. Peter Skillern’s study of the North Carolina market found that eighty-five percent of payday lender revenue in that state comes from borrowers making five or more payday loans in a year.<sup>58</sup>

Critics of the payday lenders have also complained of a culture of disregard for the rule of law in the industry. For example, in 718 payday lender inspections conducted over a three-year

period, North Carolina Banking officials found 8,911 violations of simple state consumer-protection rules.<sup>59</sup> Payday lenders in many states refuse to obtain licenses required by state law.<sup>60</sup> Over a thousand payday lenders in Texas openly ignore state interest rate limitations.<sup>61</sup> Creola Johnson's study of Ohio payday lenders found payday lenders in that state systematically refused to provide false and misleading information on loan contract terms, illegally advertise the cost of credit without using Annual Percentage Rate terminology, and allowed consumers to roll over payday loans in violation of state law.<sup>62</sup> And there are wide spread reports that many payday lenders false but intimidating threats of criminal prosecution under "bad check" laws.<sup>63</sup> Needless to say, criminal prosecution has not been a remedy available to traditional creditors since debtors prisons were outlawed after the Civil War.<sup>64</sup>

## 2. Payday Lending in History: Ancient Lineage and Recent Resurgence

Payday loans are only one recent incarnation of a consumer financial product dating back to our earliest recorded civilizations. While it is true that the use of a negotiable instrument (or an agreement to allow an electronic debit) as a form of collateral is a relatively recent innovation amongst consumer borrowers, pledging to pay one's earnings in the immediate future in

## UTAH CHECK CASHING REGISTRATION ACT

### 7-23-101. Title.

This chapter is known as the "Check Cashing Registration Act."

### 7-23-102. Definitions.

As used in this chapter:

- (1) "Business of a check casher" means:
  - (a) cashing a check for consideration; or
  - (b) extending a deferred deposit loan.
- (2) "Check" is as defined in Section 70A-3-104.
- (3) "Check casher" means a person that engages in the business of a check casher.
- (4) "Deferred deposit loan" means a transaction where:
  - (a) a person:
    - (i) presents to a check casher a check written on that person's account; or
    - (ii) provides written or electronic authorization to a check casher to effect a debit from that person's account using an electronic payment; and
  - (b) the check casher:
    - (i) provides the maker an amount of money that is equal to the face value of the check or the amount of the debit less any fee or interest charged for the transaction; and
    - (ii) agrees not to cash the check or process the debit until a specific date.
- (5) (a) "Electronic payment" means any electronic method by which a check casher:
  - (i) accepts a payment from a person; or
  - (ii) makes a payment to a person.
 (b) "Electronic payment" includes a payment made through:
  - (i) an automated clearing house transaction;
  - (ii) an electronic check;
  - (iii) a stored value card; or
  - (iv) an Internet transfer.
- (6) "Rollover" means the extension or renewal of the term of a deferred deposit loan.

### 7-23-103. Registration -- Rulemaking.

- (1) (a) It is unlawful for a person to engage in the business of a check casher in Utah or with a Utah resident unless the person:
  - (i) registers with the department in accordance with this chapter; and
  - (ii) maintains a valid registration.
 (b) It is unlawful for a person to operate a mobile facility in this state to engage in the business of a check casher.
 (c) Notwithstanding Subsection (1)(a), a person that is engaged in the business of a check casher in this state on May 3, 1999, is not required to be registered under this section until July 1, 1999.
- (2) (a) A registration and a renewal of a registration expires on April 30 of each year unless on or before that date the person renews the registration.
 (b) To register under this section, a person shall:
  - (i) pay an original registration fee established under Subsection 7-1-401(8); and

- (ii) submit a registration statement containing the information described in Subsection (2)(d).
- (c) To renew a registration under this section, a person shall:
  - (i) pay the annual fee established under Subsection 7-1-401(5); and
  - (ii) submit a renewal statement containing the information described in Subsection (2)(d).
- (d) A registration or renewal statement shall state:
  - (i) the name of the person;
  - (ii) the name in which the business will be transacted if different from that required in Subsection (2)(d)(i);
  - (iii) the address of the person's principal business office, which may be outside this state;
  - (iv) the addresses of all offices in this state at which the person conducts the business of a check casher;
  - (v) if the person conducts the business of a check casher in this state but does not maintain an office in this state, a brief description of the manner in which the business is conducted;
  - (vi) the name and address in this state of a designated agent upon whom service of process may be made;
  - (vii) disclosure of any injunction, judgment, administrative order, or conviction of any crime involving moral turpitude with respect to that person or any officer, director, manager, operator, or principal of that person; and
  - (viii) any other information required by the rules of the department.
- (3) If the information in a registration or renewal statement required under Subsection (2) becomes inaccurate after filing, a person is not required to notify the department until:
  - (a) that person is required to renew the registration; or
  - (b) the department specifically requests earlier notification.
- (4) In accordance with Title 63, Chapter 46a, Utah Administrative Rulemaking Act, the department may make rules consistent with this section providing for the form, content, and filing of a registration and renewal statement.

**7-23-104. Posting of fee schedules for cashing checks.**

- (1) A check casher shall post a complete schedule of all fees for cashing a check in a conspicuous location on its premises that can be viewed by a person cashing a check.
- (2) The schedule of fees required to be posted under Subsection (1) shall state the fees using dollar amounts.

**7-23-105. Operational requirements for deferred deposit loans.**

- (1) If a check casher extends a deferred deposit loan, the check casher shall:
  - (a) post in a conspicuous location on its premises that can be viewed by a person seeking a deferred deposit loan:
    - (i) a complete schedule of any interest or fees charged for a deferred deposit loan that states the interest and fees using dollar amounts;
    - (ii) a number the person can call to make a complaint to the department regarding the deferred deposit loan; and
    - (iii) a list of states where the check casher is registered or authorized to offer deferred deposit loans through the Internet or other electronic means;
  - (b) enter into a written contract for the deferred deposit loan;
  - (c) conspicuously disclose in the written contract that, under Subsection (4)(b), the deferred deposit loan may not be rolled over beyond 12 weeks after the day on which the deferred deposit loan is executed;

(d) provide the person seeking the deferred deposit loan a copy of the deferred deposit contract;

(e) orally review with the person seeking the deferred deposit loan the terms of the deferred deposit loan including:

- (i) the amount of any interest rate or fee;
- (ii) the date on which the full amount of the deferred deposit loan is due; and
- (iii) the fact that the deferred deposit loan may not be rolled over beyond 12 weeks after the day on which the deferred deposit loan is executed; and

(f) comply with the following as in effect on the date the deferred deposit loan is extended:

- (i) Truth in Lending Act, 15 U.S.C. Sec. 1601 et seq., and its implementing federal regulations;
- (ii) Equal Credit Opportunity Act, 15 U.S.C. Sec. 1691, and its implementing federal regulations;
- (iii) Bank Secrecy Act, 12 U.S.C. Sec. 1829b, 12 U.S.C. Sec. 1951 through 1959, and 31 U.S.C. Sec. 5311 through 5332, and its implementing regulations; and
- (iv) Title 70C, Utah Consumer Credit Code.

(2) If a check casher extends a deferred deposit loan through the Internet or other electronic means, the check casher shall provide the information described in Subsection (1)(a) to the person receiving the deferred deposit loan in a conspicuous manner prior to the completion of the deferred deposit loan.

(3) A check casher that engages in a deferred deposit loan shall permit a person receiving a deferred deposit loan to:

(a) make partial payments in increments of at least \$5 on the principal owed on the deferred deposit loan at any time prior to maturity without incurring additional charges above the charges provided in the written contract; and

(b) rescind the deferred deposit loan without incurring any charges by returning the deferred deposit loan amount to the check casher on or before 5 p.m. the next business day following the loan transaction.

(4) A check casher that engages in a deferred deposit loan may not:

(a) collect additional interest on a deferred deposit loan with an outstanding principal balance 12 weeks after the day on which the deferred deposit loan is executed;

(b) rollover a deferred deposit loan if the rollover requires a person to pay the amount owed by the person under a deferred deposit loan in whole or in part more than 12 weeks from the day on which the deferred deposit loan is first executed; or

(c) threaten to use or use the criminal process in any state to collect on the deferred deposit loan.

(5) Notwithstanding Subsections (4)(a) and (4)(c), a check casher that is the holder of a check, draft, order, or other instrument that has been dishonored may use the remedies and notice procedures provided in Chapter 15, Dishonored Instruments.

#### **7-23-105.1. Electronic disbursement and collections.**

If a check casher collects payment on a deferred deposit loan through an electronic payment, the check casher shall, on the day the loan is executed:

(1) credit the amount of the deferred deposit loan through an electronic payment to the person receiving the deferred deposit loan; or

(2) make the amount of the deferred deposit loan immediately available to the person receiving the deferred deposit loan.

**7-23-106. Enforcement by department -- Rulemaking.**

Subject to the requirements of Title 63, Chapter 46b, Administrative Procedures Act, the department may:

- (1) (a) receive and act on complaints;
- (b) take action designed to obtain voluntary compliance with this chapter;
- (c) commence administrative or judicial proceedings on its own initiative to enforce compliance with this chapter; or
- (d) take action against any check casher that fails to:
  - (i) respond to the department, in writing within 30 days, to a complaint; or
  - (ii) submit information as requested by the department;
- (2) counsel persons and groups on their rights and duties under this chapter;
- (3) make rules to:
  - (a) restrict or prohibit lending or servicing practices that are misleading, unfair, or abusive;
  - (b) promote or assure fair and full disclosure of the terms and conditions of agreements and communications between check cashers and customers; or
  - (c) promote or assure uniform application of or to resolve ambiguities in applicable state or federal laws or federal regulations; and
- (4) employ hearing examiners, clerks, and other employees and agents as necessary to perform its duties under this chapter.

**7-23-107. Examination of books, accounts, and records by the department.**

- (1) At least once every calendar year the department shall, for each premise engaging in the business of a check casher:
  - (a) examine the books, accounts, and records; and
  - (b) make investigations to determine compliance with this chapter.
- (2) In accordance with Section 7-1-401, the check casher shall pay a fee for an examination conducted under Subsection (1).

**7-23-108. Penalties.**

- (1) A person who violates this chapter or who files materially false information with a registration or renewal under Section 7-23-103 is:
  - (a) guilty of a class B misdemeanor, except for a violation of:
    - (i) Subsection 7-23-105(1)(f)(i), (ii), or (iii); or
    - (ii) rules made under Subsection 7-23-106 (3); and
  - (b) subject to revocation of a person's registration under this chapter.
- (2) Subject to Title 63, Chapter 46b, Administrative Procedures Act, if the department determines that a person is engaging in the business of cashing checks in violation of this chapter, the department may:

- (a) revoke that person's registration under this chapter;
- (b) issue a cease and desist order from committing any further violations; or
- (c) prohibit the person from continuing to engage in the business of a check casher.

**7-23-109. Civil liability.**

Nothing in this chapter is intended to limit any civil liability that may exist against a check casher for:

- (1) breach of contract;
- (2) violation of federal law; or
- (3) other unlawful act.

**7-23-110. Exemptions.**

The following are not subject to the requirements of this chapter:

- (1) a depository institution;
- (2) a depository institution holding company;
- (3) an institution directly or indirectly owned or controlled by one or more:
  - (a) depository institutions; or
  - (b) depository institution holding companies; or
- (4) a person that cashes a check in a transaction:
  - (a) that is incidental to the retail sale of goods or services; and
  - (b) for consideration that does not exceed the greater of:
    - (i) 1% of the amount of the check; or
    - (ii) \$1.

## Thriving in Utah: Payday loan stores are popping up everywhere

*Payday loan stores are popping up everywhere*

**Copyright 2005 Deseret Morning News**

**By Lee Davidson**

Deseret Morning News

As Megan Pedersen of Midvale struggled with finances, she was tempted constantly by the bright yellow or green awnings of stores advertising instant payday loans. "It seemed like they were on every corner."

She finally decided to try one seven years ago to avoid asking her parents again for money. She says paying off the loan stores' 500-percent-or-so interest is hard, but she still uses them occasionally because they offer a quick, convenient way to handle emergencies.

Pedersen is not just imagining that payday lenders are rampant in Utah. Data show they are.

Industry critics say that may be because Utah's laws are especially friendly to the industry. Lenders, however, say Utah may simply have more needy people than in other states.

Regardless, the lenders' numbers are booming, and debt counselors say that problems from them are, too, especially among the poor and Hispanics. Their neighborhoods also happen to be where payday lenders are most heavily concentrated, although the industry insists it does not specifically target those groups.

The boom

Recent growth of payday lenders in Utah has been astronomical. The first store appeared in Utah in 1984. In 1994, 17 were in the Salt Lake area. Now, state-license lists show Utah has 381 payday loan stores and online lenders licensed here.

That means Utah has more payday loan stores than 7-Elevens, McDonald's, Burger Kings and Subway stores — combined.

Utah also has a far higher rate of payday lenders per resident than average. States that allow

Megan Pedersen, who says payday lenders seem to be everywhere, has used this Check City in Taylorsville.

*Jason Olson, Deseret Morning News*

payday lenders average one store per 10,000 residents. Utah averages 1.6 per 10,000 residents.

Morning News analysis shows that 74 percent of Utahns live in a ZIP code with at least one payday lender. (ZIP codes without any payday lenders tend to be either in lightly populated rural areas or in the wealthiest of areas.) Even some unlikely tiny towns such as Midway, Salina, Hyde Park and Grantsville have payday lenders.

The first payday loan store appeared in Utah in 1984. In 1994, 17 were in the Salt Lake area. Now, Utah has 381 payday loan stores and online lenders licensed in the state.

*Tom Smart, Deseret Morning News*

Such stores in Utah are scattered among poor, middle-income and high-income areas. That may be unusual. News reports in other states repeatedly say stores there are heavily concentrated in poor areas and virtually nonexistent in rich places. While poorer Utah areas have higher than average numbers of payday lenders, stores here are still found in communities of about every economic ilk.

"Their business is built on being convenient and fast," said Frank Pignanelli, attorney, lobbyist for the industry's Utah Consumer Lending Association and a Morning News political columnist, giving one reason why payday lenders have become the 7-Elevens of the financial world and have located seemingly

everywhere to offer quick service — at a higher price. Not surprisingly, many are open late, even until midnight. A few are now open 24 hours a day, seven days a week.

The payday loan industry's Consumer Credit Research Foundation says surveys show 5 percent of Americans have had a payday loan and 10 percent say they are somewhat or very likely to obtain one in the future.

Why so many?

Industry critics say one reason so many payday lenders may locate here is that few states have friendlier laws for the industry than Utah.

It is among 39 states that explicitly allow such loans. It is among 10 with no cap on interest rates or fees. It is among two with no maximum amounts for such loans. Utah has among the longest limits for "rolling over" or extending loans at high interest: 12 weeks. Most states ban rollovers.

"They obviously like doing business here with those kind of laws," said Linda Hilton, coordinator of the Coalition of Religious Communities, an advocacy group for the poor.

The Morning News also found that some online lenders offering payday loans nationwide via the Internet are located in Utah, apparently to take advantage of its friendly laws.

For example, Instant Cash Flow ([cashthis.net](http://cashthis.net)) says as part of its online application form, "Our loans are governed by Utah law. Utah law governing payday loans may differ from the laws of the state where you reside. If you do not want to enter into a loan agreement subject to Utah

law, you should apply for this loan at a lender located in the state where you live."

Utah-based online lenders can charge higher rates than would be allowed in most states. For example, Global Pay Day ([Cashnet500.com](http://Cashnet500.com)) of Murray charges \$30 for a two-week, \$100 loan. The annual percentage rate is 782 percent. That is higher than maximum rates allowed by at least 23 of 39 states that explicitly allow payday loans, not to mention the 11 states that have not legalized them but likely do not try to stop such Internet transactions.

Quik Payday, based in Logan, was issued a cease-and-desist advisory a few years ago by Colorado's consumer credit regulator for offering Internet loans at rates higher than Colorado allows. Quik Payday charged \$20 per \$100 for loans up to \$500. Colorado caps rates at 20 percent for two weeks on the first \$300, and 7.5 percent for loans from \$300 to \$500.

Pignanelli says the large numbers of payday lenders attracted to Utah come not so much for its laws but because of large numbers of people who need their services.

"Our low wages (Utah is near the bottom of per capita income nationally) contribute to financial problems here. That is reflected by the growth in payday lenders," he said.

Hilton agrees on that one point. "Our wages in Utah are very low. We have larger families. And we also have older (college) students with families that a lot of other areas in the country do not. So, families here tend to have higher financial burdens."

Poor targets?

The Morning News used computer analysis to see where growth is occurring and where stores are concentrated.

It found that, generally, the poorer the residents are in a specific ZIP code or city, the more payday loan stores they tend to have. Also generally, the more Hispanics in a ZIP code or city, the more payday lenders they have.

Three key exceptions appear, however.

First, areas containing regional shopping malls or big commercialized highway strips (such as

## Targeting the poor and Hispanics?

Salt Lake County's State Street or Redwood Road) have more payday lenders than expected from demographic data. Areas near Hill Air Force Base also have far more than would be expected. And some cities that legally restrict the numbers of stores have fewer than expected.

Accordingly, areas that are relatively low-income, have large Hispanic populations and have regional shopping areas have the most payday lenders.

For example, among the 62 Utah cities and communities that have at least one payday lender, Midvale has the most per resident: 6.63 per 10,000 residents. South Salt Lake is second with a rate of 6.35 per 10,000 residents. Both rates are four times higher than the state average.

Midvale and South Salt Lake also happen to be near the top of Utah cities with the highest poverty rates and lowest per-person income. They rank No. 2 and 3 among all Utah cities for percentage of Hispanics. And both Midvale and South Salt Lake have heavily commercialized State Street running through them, lined with strip malls and discount stores.

Of course, Midvale is close to Fashion Place Mall, just over the border in Murray. As an example of how large shopping centers seem to attract payday lenders, 18 payday loan shops are on State Street in Murray and Midvale within a mile of Fashion Place. That makes it convenient for borrowers to spend money from their convenient loans.

Do payday lenders specifically target the poor and Hispanics?

"No," Pignanelli said, referring to the 10 chains belonging to the Utah Consumer Lending Association he represents. "But there are some bad apples (elsewhere) in the industry."

He adds that sometimes lenders may locate in areas where populations are poorer or more Hispanic "because it is easier to get a lease there, say along State Street, for example."

He says it would not make sense for the industry to target the poor. "We don't prey on the poor and the homeless, because the poor and homeless don't pay back loans."

But Patty Bailey, who filed bankruptcy after problems with payday loans, is not so sure. In the years she took out such loans, "I saw a lot of people who looked like they had little education. I saw a lot of students. I saw a lot that did not speak English well, not just Hispanics but others. I wonder if they understood what they read."

Almost all the 67 payday loan stores visited by the Morning News had signs advertising that employees spoke Spanish. Some even offered candy from Mexico for Hispanic customers. Some advertised only in Spanish, with no English on their signs.

### Military attack

The Morning News found an unusually large number of payday lenders near Hill Air Force Base. It identified 28 within short distances in Layton and Clearfield.

That means one of every 14 payday lenders in Utah is near Hill Air Force Base.

Actually, that is not surprising. The Pentagon has long expressed concern about payday and other high-interest lenders that flock around bases nationally.

A recent study of 15,000 payday loan stores in 20 states with 109 military bases concluded, "There is irrefutable evidence demonstrating payday lenders are actively and aggressively targeting U.S. military personnel." It was written by Steven Graves of California State University-Northridge and Christopher Peterson of the University of Florida.

Peterson is a Utah native who once worked as a collector for a payday lender here. He said members of the military are a perfect target for payday lenders. "Today's junior military personnel are typically cash-strapped and often find themselves waiting eagerly for the next paycheck," he wrote in a book about high-interest lenders.

The U.S. Government Accountability Office, a research arm of Congress, complained in April that the military is not doing enough to protect employees from payday lenders. In response, the Pentagon launched a program in June to educate military members about their potential dangers. Hill Air Force Base has joined in that effort.

Hill's installation commander, Col. Sharon K.G. Dunbar, said, "We owe it to our airmen to educate them on the best avenues of becoming financially responsible and secure. I would hope that payday lenders would feel the same sense of obligation, particularly given the sacrifices military members make on their behalf every day."

Pignanelli says the industry does not specifically target the military. He said it also goes to extra lengths to help any military members who have problems with loans. "For example, one of the chains here forgave loans, principal and interest, to anyone who was sent to Iraq," he said.

### Border effect

Morning News analysis found that some cities do not have as many payday lenders as would be expected from their poverty and Hispanic levels because they have legally restricted the numbers of payday lenders they allow. But enterprising lenders tend to set up shop just across the border.

"We call it the border effect," Hilton said.

West Valley City was apparently the first to adopt an ordinance locally. Its version allows only one payday lender for every 10,000 residents. It already had far more than that number but allowed existing stores to continue. But the ordinance prevents construction of more, or replacement of any that close.

"They were just popping up everywhere," said City Council member Margaret Peterson, mother of law professor Peterson.

Margaret Peterson says she pushed an ordinance to restrict numbers in part because "of the victimization of people seen by my son. . . . I also have a friend and a co-worker who were also caught up in it."

Also, she says West Valley merchants requested help saying the heavy influx of such stores gave some areas a run-down feeling that they worried chased away desirable business.

When West Valley City adopted its ordinance, Hilton says new lenders started popping up just over the border in Taylorsville, often literally across the street from West Valley City.

Taylorsville Mayor Janice Auger says its business owners soon noticed a big influx and called city officials because they were worried, too.

As Hilton said about worries expressed in many cities, "Whenever you get payday lenders, they tend to attract pawnshops, dollar shops, thrift stores and lingerie stores. Once you have them in a certain area, it's hard to get a bookstore, a pet store or a Chinese restaurant."

Auger says her city also found payday lenders attracted a high number of police calls, costing the city extra money. She says many were in response to calls about passing bad checks, and some were for drug deals made by borrowers who had just obtained loans.

Also, she said, "Taking off my mayor's hat, I was a public accountant for 35 years. I am very offended by their tactics and what it costs people."

Taylorsville adopted an ordinance similar to West Valley City. Since then, some new payday loan stores have popped up literally across the street from both cities in the neighboring unincorporated community of Kearns.

Hilton says her advocacy group has been attempting to persuade the county and cities with large numbers of payday lenders to similarly restrict the number of stores, and to do so in a way that would not merely chase them from just over one border to another.

Trouble booming?

As the number of payday lenders has grown, credit counselors and others say problems caused by them have increased, too.

Don Hester, co-owner of the Debt Free Consumer counseling service in Provo, says that when he tabulated data about his clients, he found: "The percentage of people trapped by payday loans increases about 400 percent per year."

Different credit counselors report different levels of problems with payday lenders, but all say it tends to be serious.

Preston Cochrane, executive director of AAA Fair Credit Foundation, says the percentage of people his agency helps who have payday loan problems "is high. It used to be more medium. . . . We have seen it increase, definitely, over the last two years. It's a reflection of how many new offices are opening up. . . . If they have one payday loan, they tend to have three to five."

Hester says at Debt Free Consumer, "Approximately 15 percent of people who seek counseling have one or more payday loans. Few people will have one payday loan. Generally, they will

have anywhere from five to 20 loans, all from different payday companies."

Mike Peterson, vice president of the American Credit Foundation, says only about 5 percent of the people counseled by his foundation have payday loan problems, but the problems that are found are usually serious.

"They end up in a vicious cycle. They figure they will go in one time to fix a little emergency, and end up going back month after month," he said.

Michele Morin, a consumer protection lawyer who works with debt counseling, says among people she has helped with bankruptcy, "almost all of them had trouble with payday loans," and also reports seeing increased percentage of people with such problems.

Pignanelli says, however, that 20 years ago — before payday lenders appeared in the state — "Utah had the highest rate of bankruptcies in the nation. It still has the highest rate of bankruptcies in the nation. So I don't think you can blame people's financial problems here on the (payday loan) industry."

#### Profit boom

Pignanelli says the booming payday loan industry is making a lot of money. But no one knows exactly how much it is making in Utah. The state does not require lenders to report such things as how many loans they make, how many they must write off or how much profit they make.

Pignanelli says his industry association in Utah also does not compile such information.

But nationally, the industry's Consumer Credit Foundation said 22,000 payday loan stores nationally in 2002 made an estimated 180 million payday loans valued at \$45 billion.

That means, on average, each store made 8,182 loans valued at \$204,545.

If the 381 payday loan stores in Utah followed that national average, the Utah industry would have had a total of 3.1 million loans valued at \$77.9 million.

The Center for Responsible Lending, a group opposing the payday loan industry, estimates the average profit rate per dollar on a payday loan is 34 percent. If that is correct, Utah's 381 payday loan stores would have made a profit in 2002 of \$26.5 million.

Cash America, national chain of pawn stores and payday lenders, is publicly traded, so its profits are known and may be an example of what other companies make.

It reported that its revenue increased from \$350.5 million in 2002 to \$469.5 million in 2004 — up 34 percent in two years.

Earnings per share for stockholders jumped from 48 cents a share in 2002 to \$1.18 a share in 2004 — up 145 percent in two years.
