---

A federal highway grant in the amount of \$3,380,000 has been approved for the reconstruction of 1300 East Street from South Temple to 500 South with construction funding available in 2010. The reconstruction will include removal and replacement of deteriorated street pavement, curb, gutter and sidewalks, and upgrades to storm drainage, street lighting, traffic signals, and on-street parking. The Engineering Division is recommending that the City Council adopt a resolution authorizing the Mayor to sign the interlocal agreement with the Utah Department of Transportation for the design of the project. In the future, the Council will be asked to consider an additional interlocal agreement relating to the actual construction. This portion of 1300 East Street is a local city street. The state portion of 1300 East Street runs south beginning at 500 South.

The City Council appropriated Class C Road funds for the local match of the design of this project during the 2006-07 CIP budget. The Utah Department of Transportation will provide a project manager for the project and select a consultant design engineer. Total design costs are estimated to be \$580,000. A local match of \$39,266 (6.77%) is required. The public comment period to receive concerns and comments from affected businesses and property owners will be carried out as part of the project environmental documentation process. Measures will be taken during construction to minimize disruptions.

Note: City Council action is required for the following types of interlocal agreements:

1. Acquires or transfers real property
2. Construction of a facility or improvements to real property
3. Bonding
4. Sharing taxes or other revenue
5. Agreements that includes an out-of-state public agency
6. Agreements that require budget adjustments to the City's current or future budgets
7. Creation of an interlocal agency

Council action is required for this interlocal agreement because it involves improvements to real property (item 2).
