# SALT LAKE CITY COUNCIL STAFF REPORT

---

DATE: February 3, 2009

SUBJECT: **Approval of a Land and Water Conservation Fund Grant Application for the Jordan River Parkway Trail (Redwood Road to North City Boundary)**

AFFECTED COUNCIL DISTRICTS: District 1

STAFF REPORT BY: Lehua Weaver

ADMINISTRATIVE DEPT. Department of Community & Economic Development, Transportation Division

AND CONTACT PERSON: Tim Harpst, Dan Bergenthal

CC: David Everitt, Frank Gray, Rick Graham, Jeff Niermeyer, Tim Harpst, Dan Bergenthal, Dell Cook, Kevin Young, Brent Beck

---

During the Council's January 27<sup>th</sup> briefing, the Council requested that this item be forwarded to the formal meeting for consideration. Approval of the resolution indicates the Council's support of the Administration's application for the grant funds, and also commits to the \$322,600 in matching funds required in the event that the grant is awarded to Salt Lake City.

Option to adopt the resolution:

["I move that the Council] Approve the resolution supporting submission of application to the Land and Water Conservation Fund program.

---

## BACKGROUND INFORMATION – FROM JANUARY 27 WORK SESSION

### BRIEF OVERVIEW:

The Administration has submitted an application for Land and Water Conservation Funds (LWCF) toward the restoration and completion of the Jordan River Parkway Trail between Redwood Road (at about 1800 North) and the Salt Lake City / Davis County boundary. The application requires documentation of the governing body's support in the form of meeting minutes and an adopted resolution. This step is requesting the Council's support of submitting the application, and committing to providing the matching funds for the remainder of the project in the event that the grant funds are awarded. *The Council may wish to discuss how matching funds will be handled, given the current budget situation, in the event that this grant is awarded.*

This project is also included in Budget Amendment No. 2, currently before the Council (Item E-9), for another grant received. See below for more detail on the sources of funding for this project.

### KEY ELEMENTS:

This is the Salt Lake City portion of the same project listed as item E-9 in Budget Amendment No. 2, with each piece addressing different funding sources. The project area spans approximately one mile from Redwood Road (at about 1800 North) to the northern City boundary with Davis County. This is one of the final sections along the Jordan River Parkway within City boundaries to

be completed. The planned project would include grading, constructing a ten foot wide paved pedestrian/bicycle path with a five foot soft trail for equestrian recreation, making improvements to existing river bridges, adding new railing, and constructing an elevated trail system over wetland areas.

The total amount estimated for this project is \$1,015,200. The Administration, through the Engineering Division and Trails Coordinator position, has applied for two different grants to secure funding for the project. One grant, which is addressed in Budget Amendment No. 2, Item E-9, has been received from the State’s Department of Natural Resources, and is shared with Davis County. This present request refers to a LWCF grant application for only the Salt Lake City portion of the trail. The funding break down is as follows:

\$185,000	State Department of Natural Resources (BA No. 2)
185,000	CIP Funds – City Match to State DNR Grant Funds
322,600	Current LWCF Grant Application
322,600	Future Required City Match if LWCF Grant Funds are received
<hr/>	
\$1,015,200	Total Funds from Salt Lake City

In addition, Davis County was awarded another portion of the State’s Natural Resources Grant – as mentioned in Budget Amendment No. 2. Davis County’s total portion is \$338,547, including their portion of the grant money (\$65,000). Therefore, in total, \$1,353,747 will be applied to the construction between Redwood Road and the Legacy Highway trail in Davis County.

The Administration submitted a CIP application for the 2009-10 year for \$650,000 to complete the project. If the LWCF grant is awarded, that request could be reduced by the award amount.

The proposed resolution for the Council to consider commits that matching funds will be allocated in the event that this grant is awarded to Salt Lake City. ***Does the Council wish to clarify how the Administration will approach this project if the additional funds anticipated either from the CIP or the Grant are not available in the coming year?***

Restoration and completion of sections along the Jordan River Parkway is supported in the Salt Lake City Bicycle and Pedestrian Master Plan, Open Space Plan, and the Salt Lake County Trails Master Plan. This also supports other projects such as the Legacy Parkway Trail, the Bonneville Shoreline Trail, City Creek, and Parley’s Rails and Trails (PRATT).

According to the Administration, there are still three other sections within City boundaries that need to be completed along the trail.

1. “Redwood Road to Rose Park Golf Course. Funding has been obtained. Construction for this section has been bid and will be completed summer 2009.
2. “200 South to Alzheimer’s park (going under I-80). Funding has been obtained. This section will go out for construction bid this in early February and will be constructed this winter/spring.
3. “North Temple to 200 South. No funding has been obtained. We are in the planning stage for this section which crosses three mainline Union Pacific railroad tracks. A CIP application was submitted fall 2008 for design.”

## CITY COUNCIL TRANSMITTAL

Date Received: \_\_\_\_\_

  
\_\_\_\_\_  
David Everitt, Chief of Staff

  
Ralph Becker, Mayor

Date Sent to City Council: 1/15/2009

**TO:** Salt Lake City Council  
Carlton Christensen, Chair

**DATE:** January 14, 2009

**FROM:** Frank Gray, Community & Economic  
Development Department Director

**RE:** Jordan River Parkway Trail (Redwood Rd. to northern city boundary) Land and  
Water Conservation Fund Matching Grant (LWCF) Application

**STAFF CONTACT:** Tim Harpst, Transportation Director, at 535-6630 or  
tim.harpst@slcgov.com

Dan Bergenthal, Trails Coordinator, at 535-7106 or  
dan.bergenthal@slcgov.com

**RECOMMENDATION:** That the City Council support submittal of the LWCF application  
and acknowledge the matching grant requirement and future  
operation and maintenance responsibilities by adopting the  
resolution

**DOCUMENT TYPE:** Resolution

**BUDGET IMPACT:** \$322,600

### DISCUSSION:

**Issue Origin:** During October 2008, City Staff prepared and submitted an application for a Utah State Parks and Recreation Land and Water Conservation Fund (LWCF) Matching Grant. The LWCF program requires that program grant recipients provide a 50/50 funding match for approved projects. As part of the application, meeting minutes from a legal meeting of the applicant are required showing that the application is being submitted by official action of the governing body, that the applicant has resources to finance its share of the project cost, and that

451 SOUTH STATE STREET, ROOM 404  
P.O. BOX 145486, SALT LAKE CITY, UTAH 84114-5486  
TELEPHONE: 801-535-6230 FAX: 801-535-6005  
WWW.SLCGOV.COM/CEC

the applicant will bear the cost of operation and maintenance of the completed project. There is no cost to the City unless the grant is received; a request for matching funds would be handled through a future budget amendment or budget request. The State allowed the City to submit our application before this legal meeting was held but will not process the application until we fulfill this requirement. Likewise, the Mayor's Office will not sign the application until this last application requirement is completed. Adoption of the proposed resolution (see Attachment A) will fulfill this requirement.

**Analysis:** Salt Lake City's LWCF grant application proposes to construct a shared use trail along 5,400 lineal feet (LF) of the Jordan River between Redwood Rd (1800 North) and the Salt Lake City boundary with Davis County. The trail will consist of 4,200 LF of 10' paved trail, 1,200 LF of elevated trail constructed over existing wetlands and an adjacent 5' soft trail for equestrians. An existing river bridge will also receive upgrades including a new railing. This is a high priority project and one of the last sections of the Jordan River Parkway Trail within the city needing to be built.

The LWCF application is attached (see Attachment B). The application requests project funding for \$645,200 which, if approved, translates into a LWCF grant of \$322,600 and a required city match of \$322,600. A detailed cost estimate for the project is given in the application. In summary, the total project cost is estimated to be \$1,015,200, current approved funding is \$370,000 (½ city funds and ½ State Trails Grant) and funding still needed is \$645,200.

**Master Plan Considerations:** The Jordan River Parkway Trail is a part of state, county, and local plans to complete a network of trails throughout the region. The completion of this section will connect trails in the Salt Lake City Bicycle and Pedestrian Master Plan, the Salt Lake City Open Space Plan and the Salt Lake County Trails Master Plan to the Davis County trail system including the Legacy Parkway Trail.

**PUBLIC PROCESS:**

None

**RELEVANT ORDINANCES:**

None

Attachment A:  
Proposed Resolution

RESOLUTION NO. \_\_\_\_\_ OF 2009

**A RESOLUTION OF THE SALT LAKE CITY COUNCIL  
SUPPORTING SUBMISSION OF APPLICATION TO THE LAND AND WATER  
CONSERVATION FUND PROGRAM**

**WHEREAS**, Congress annually appropriates funding for the Land and Water Conservation Fund (LWCF) program to provide for matching grants to state and local governments for recreation planning, acquisition and development; and

**WHEREAS**, all applications are reviewed and the projects are ranked through an evaluation process that has been cooperatively developed by the Utah Division of State Parks and Recreation and the National Park Service; and

**WHEREAS**, the LWCF program requires that program grant recipients provide a 50/50 funding match for approved projects; and

**WHEREAS**, as a requirement of the LWCF application, meeting minutes from a legal meeting of the applicant must be submitted demonstrating that the application is being submitted by official action of the governing body, the applicant has resources to finance its share of the project cost, and the applicant will bear the cost of operation and maintenance of the completed project; and

**WHEREAS**, the City's Transportation Division, in October 2008, submitted an application to the LCWF program to construct a shared use trail along the Jordan River between Redwood Road (at approximately 1800 North) and the Salt Lake City boundary with Davis County; and

**WHEREAS**, the City's application requests project funding for \$645,200 which, if approved, translates into a LWCF grant of \$322,600 and a required city match of \$322,600; and

**WHEREAS**, the Utah Division of State Parks and Recreation allowed the City to submit its application without the required meeting minutes but will not process the application until this requirement is fulfilled; and

**WHEREAS**, the Salt Lake City Council supports the City's efforts to complete construction of the Jordan River Parkway Trail within Salt Lake City.

**THEREFORE, BE IT RESOLVED** by the Salt Lake City Council that the Mayor be authorized to submit an LWCF application to the Utah Division of State Parks and Recreation for the construction of a shared use trail along the Jordan River between Redwood Road (at approximately 1800 North) and the Salt Lake City boundary with Davis County, within Salt Lake City.

PASSED by the City Council of Salt Lake City, Utah, this \_\_\_\_\_ day of \_\_\_\_\_, 2009.

Briefly describe the project and proposed activities:  
**The project will complete the shared use trail of the Jordan River Parkway Trail from Redwood Road (1800 North) to the Salt lake City boundary with Davis County. The project includes: 1) grading, 2) construction of a 10 ft wide paves walking/bicycle path with a 5 ft soft trail for equestrian recreation, 3) improvements to an existing bridge including handrails, and 4) construction of an elevated trail system over the wetland area.**

Estimated starting date: 8/1/09 Estimated completion date: 11/1/10

Who owns the project site? Salt Lake City Corp. When was it acquired? \_\_\_\_\_

Number of acres to be developed or acquired by this proposal: 11,208 LF

Total number of acres currently dedicated for recreation: 11,208 LF

Is the project located in a designated flood hazard area? No

Is the project covered by flood insurance? No

Are there any hazardous wastes located on or near the project area?: No

If yes, please explain \_\_\_\_\_

What recreation programs does the applicant provide? \_\_\_\_\_

**Salt Lake City provides adult and youth recreation and sports programming**

Will any part of this project be financed through the sale of existing recreation property? No

Will this project replace any existing recreation site? No If yes, please explain: \_\_\_\_\_

\_\_\_\_\_

Estimated annual operation and maintenance costs of this project: \$6,000  
 What primary area(s) will be served by this project? Salt Lake City  
 Is this proposal covered by a local survey/needs assessment or master plan? Yes  
 If yes, please enclose a copy \_\_\_\_\_

Schedule for land acquisition projects only:

<u>Code</u>	<u>Anticipated Acquisition Date</u>	<u>Owner's Name</u>	<u>Value of Land</u>	<u>Value of Improvements</u>	<u>Total Cost</u>

Code: \_\_\_\_\_ A. Negotiated Purchase    B. Donation    C. Condemnation

Is there an option agreement or similar agreement for purchase of the property? \_\_\_\_\_  
 If yes, please enclose a copy \_\_\_\_\_  
 Will displacement and relocation occur? \_\_\_\_\_  
 List numbers to be displaced and relocated: \_\_\_\_\_

Policies Act of 1970, (Public Law 91-646  
 What, if any, anticipated revenue will the applicant receive from the property prior to its development for recreation? (Sale of crops or improvements, rentals, leases, fees, etc.) \_\_\_\_\_  
 What will be the interim use of the property prior to development? \_\_\_\_\_  
 When will development of acquired property begin? \_\_\_\_\_

CERTIFICATION

I certify that I am authorized to sign this application; that this application is being submitted pursuant to official action of the governing body of the applicant; and that the information herein provided is, to the best of my knowledge, true and accurate. I further certify that the applicant has the necessary financial resources to fulfill all obligations relative to this project including the cost of operation and maintenance.

## **1. PROGRAM NARRATIVE AND PROJECT JUSTIFICATION STATEMENT**

*A. Objective and Need for Assistance: Describe the proposed project. Discuss the objective of the project and how it relates to local recreation issues, needs and problems. Indicate the relationship between the project and local planning and/or needs assessment.*

The project will complete one of the final sections of the Jordan River Parkway Trail within Salt Lake City and is in accordance with the Memorandum of Understanding with the State of Utah Division of Parks and Recreation, to develop a trail along the Jordan River. Salt Lake City will construct 5,400 lineal feet (LF) of shared used trail consisting of 4,200 LF of 10' paved trail, 1,200 LF of trail deck over an existing wetland area and an adjacent 5' soft trail. An existing river bridge will also receive upgrades including a new railing. The trail will be used for both recreation and commuting by pedestrians, bicyclists and equestrians.

The Jordan River Parkway Trail is a part of state, county, and local plans to complete a network of trails throughout the region. The completion of this section will connect trails in the Salt Lake City Bicycle and Pedestrian Master Plan, the Salt Lake City Open Space Plan and the Salt Lake County Trails Master Plan to the Davis County trail system. Completion of the city's portion of the parkway trail provides connections to the Legacy Parkway Trail, Great Western Trail, Bonneville Shoreline Trail, City Creek Trail, Parley's Trail (PRATT Trail), Airport Trail and Salt Lake City's extensive on-street bike lanes. Northwest Middle School and the Day Riverside Library will be connected to the larger trail system providing access to students and patrons, as well as access points for public recreational use.

*B. Recreation Participation Benefits: Discuss local recreation programs and how this project may benefit these programs. Include information on potential users, cross-section of population served, and time of year when the facilities will be used.*

The Jordan River Parkway Trail is a paved shared use facility providing opportunities for bicycling, jogging, hiking, horseback riding, fishing, in-line skating, and nature viewing. The trail follows the Jordan River for 44 miles between Utah Lake and the Great Salt Lake. The section of the trail within Salt Lake City's jurisdiction totals approximately 9 miles. Since the trail experiences little elevation change it is well suited for use by people of all ages and experience levels. The trail within Salt Lake City is plowed during the winter providing year around access for trail users.

*C. Parks and Recreation Inventory: Provide a list of parks and recreation sites within your jurisdiction. Include the name of park or facility, address or location, size, and type(s) of activities.*

See Attached.

*D. Environmental Information: Describe in general terms any positive or negative environmental impacts of the proposed project. If there are negative impacts, indicate proposed mitigation measures.*

Positive outcomes from the Jordan River Parkway Trail include expanded recreational opportunities for Salt Lake City residents and tourists and the development of alternative modes of urban transportation thereby improving air quality and reducing our demand on fossil fuels. The Jordan River Parkway Trail project also involves stream bank restoration and revitalization efforts that are commensurate with the City's environmental and ecosystem conservation activities. Construction of the elevated path through the wetlands preserves and contributes to the restoration of the delicate eco-system.

**2. MAPS AND PLANS: These must be drawn to scale, preferably 8.5" x 11" or 11" x 17", but no larger than 24" x 36 "**

*A. City/County Map: This map should show the geographic location of the project and include identification of streets and access roads. Also identify any other near-by public outdoor recreation facilities.*

See attached map.

*B. Project Boundary Map: The project boundary map identifies the area which is to be permanently dedicated for public outdoor recreation under provisions of Section 6(f)(3) of the Land and Water Conservation Fund Act. At a minimum, the boundary must encompass a viable public outdoor recreation area that is capable of being self-sustaining without reliance upon adjoining areas not identified in the scope of the project. Generally this will be the park, open space, or recreation area being developed or added to. The project boundary must be clearly delineated in sufficient detail so as to be legally adequate in identifying the land(s) to be afforded Section 6(f)(3) protection. Boundary maps should show number of acres and deed references, adjoining ownerships, metes and bounds, or similar means of identification. Also include information regarding known outstanding rights, easements, deed restrictions, reversionary interests, and etc.*

See attached map.

*C. Master Plan: Master plan for proposed project site should show existing, proposed, and future outdoor recreation, indoor recreation, and non-recreation developments. It should also identify existing roads and overhead transmission lines.*

See attached map.

*D. Buildings Plans: Provide elevation and floor plans for any proposed buildings such as restrooms or picnic pavilions. All facilities must be designed to comply with the Architectural Barriers Act of 1968 (Public Law 90-480), Americans with Disabilities Act of 1990, and DOI Section 504 Regulations (43 CFR Part 17).*

### 3. DETAILED COST ESTIMATES:

Salt Lake City – Jordan River Trailway  
Redwood Road (1800 North) to Davis County

#### Design

Design Cost

Consultant	\$75,200
<i>Total</i>	<u>\$75,200</u>

#### Construction

Mobilization	\$58,000
Bonds	\$22,000
Demolition	\$5,000
Clearing & Grubbing	\$30,000
Slit Fence	\$21,000
Dust Control	\$25,000
Tree Pruning	\$5,000
Traffic Control	\$15,000
Multi-use trail	\$176,000
Modify existing bridge	\$10,000
Elevated trail over wetland	\$380,000
Seeding	\$5,000
<i>Total</i>	<u>\$752,000</u>

Contingency (15%)	\$112,800
Administration	<u>\$75,000</u>

**Project Total** **\$1,015,200**

#### Current Project Funding

State Non-Motorized Trails Grant	(\$185,000)
SLC Match to Non-Motorized Trails Grant	<u>(\$185,000)</u>

**Total Current Funding** **(\$370,000)**

#### Funding Needs

**Project Funding Needs** **\$645,200**

Federal/LWCF Request	\$322,600
Salt Lake City Match	<u>\$322,600</u>

**4. STATEMENT OF COMPLIANCE: Provide a signed Statement of Compliance with Public Law 91-646, The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.**

See Attached

**5. MINUTES OF OFFICIAL MEETING: This proposal must be approved by the applicant agency at a legal meeting and be so recorded in its minutes. Minutes should show that the application is being submitted by official action of the governing body of the applicant, that the applicant has resources to finance its share of the project cost, and that the applicant will bear the cost of operation and maintenance of the completed project.**

Salt Lake City is currently working to place this item on the Salt Lake City Council Agenda for approval prior to the grant award. The meeting minutes will be sent to Utah State Parks and Recreation as soon as possible.

**6. AGREEMENTS WITH OTHER ENTITIES: If applicable, submit agreements with any other agency, organization, or individual that may participate in this project or be involved in future operation or maintenance.**

Not applicable.
