Salt Lake City is applying for funding from the State of Utah Office of Crime Victim Reparations. This request is for the 2009-2010 fiscal year, for the purpose of providing partial funding for the salaries of two existing victim advocates. We have received continuous funding from this grant for nearly 15 years, and it has enabled us to have a staff that can be called out (in our community) to the scene of a violent crime in which victims are in need of services. It also provides training for victim advocates and detectives. The match will be met through the salaries of existing victim services staff.
