## SALT LAKE CITY COUNCIL STAFF REPORT

**DATE:** April 24, 2009

**SUBJECT:** Petition PLNPCM 2009-00074400-07-35 – The Church of Jesus

Christ of Latter-Day Saints – request to rezone property located at 1933 South 2000 East from Single-Family Residential R-1/7000 to

Institutional I

**AFFECTED COUNCIL DISTRICTS:** If the ordinance is adopted the Zoning Ordinance text amendment

would affect Council District 6

**STAFF REPORT BY:** Janice Jardine, Land Use Policy Analyst

ADMINISTRATIVE DEPT. Community Development Department, Planning Division

AND CONTACT PERSON: Kevin LoPiccolo, Planning Program Supervisor

• Please note, on May 5, 2009, the City Council will hold a public hearing to receive public comments regarding this application.

#### **ATTACHMENTS**

The following attachments are included for additional background purposes.

- A. Vicinity map
- B. Site and elevation plans
- C. Letter from the Sugar House Community Council, dated January 20, 2009, regarding the proposed development and rezoning request.
- D. Letter from the LDS Church Corporation of the Presiding Bishop, dated March 25, 2009, to the Planning Director regarding and option to address the Sugar House Community Council concerns.
- E. Table of Permitted and Conditional Uses and Table of Yard and Bulk Requirements for Special Purpose Zoning Districts.

#### **KEY ELEMENTS:**

- A. An ordinance has been prepared for Council consideration to rezone property located at 1933 South 2000 East from Single-Family Residential R-1/7000 to Institutional I. The total size of the land area dedicated to this use will remain the same. There is no proposal to expand beyond the current property boundaries. (Please see Attachment A Vicinity Map for details.) The ordinance will become effective on the date of its first publication.
- B. This action would facilitate demolition of the existing church meetinghouse and construction of a new structure that would include new church meeting facilities incorporating the existing stake center and gymnasium. (Please see Attachment B site and elevation plans for details.) The Administration's paperwork notes:
  - 1. Currently, there are two primary structures on the property, a church meetinghouse and stake center offices gymnasium.

- 2. The proposed development is necessary due to the structural condition of the existing church meetinghouse building as well as other considerations.
- 3. Additional development on the property will include reconfiguration of the parking lot, landscaping, a pavilion structure and an outside storage building on a 4.84 acre site.
- 4. The current site consists of three separate parcels. As part of the proposed redevelopment, the three properties will be consolidated into one lot of record to comply with applicable building code requirements. The resulting lot size will be approximately 4.84 acres, which is larger than the maximum lot size (10,500) allowed in the R-1-7000 zoning district.
- C. Surrounding land uses include the Dilworth Elementary school to the east and single-family residential uses to the west, north and south.
- D. Key points from the Administration's transmittal and Planning staff report include:
  - 1. In order to redevelop the site consistent with the zoning requirements, it was recommended by the Planning Division that the site be rezoned Institutional to match the current use of the property and maintain consistency with the Sugar House Master Plan.
  - 2. The Institutional zoning district regulations require larger yard area setbacks, open space and landscape buffering to mitigate potential impacts to adjoining properties and the surrounding area.
  - 3. Currently, there are street accesses from both the east and west side of the site. The east side accesses from 2100 East with a total of three drive approaches. The west side is accessed from 2000 East with a total of two drive approaches. The proposed development would eliminate vehicular access from 2000 East.
  - 4. The LDS Foothill Stake Center and Dilworth Elementary School have in place a shared parking and pedestrian access arrangement that allow reciprocal use of the existing parking lots for overflow parking and access needs. This reduces parking and traffic impacts on the surrounding residential neighborhoods. This parking and access arrangement will remain in place for future needs.
  - 5. No adverse effects to adjacent properties are likely to occur with this amendment since the property has been operating with the same use since 1947.
    - a. The red brick meetinghouse at the north side of the property was originally built in 1947.
    - b. The stake offices located on the west side of the property was constructed in 1976.
  - 6. Staff has not received any claims from area property owners that the proposed amendment will adversely affect adjacent properties.
- E. The purpose of the Single-Family Residential R-1/7,000 District is to provide for conventional single-family residential neighborhoods with lots not less than seven thousand (7,000) square feet in size.
- F. The purpose of the Institutional I District is to regulate the development of larger public and semipublic uses in a manner harmonious with surrounding uses. The uses regulated by this district are generally those having multiple buildings on a campus like site. (A copy of the Special Purpose Zoning Districts Table of Permitted and Conditional Uses and Table of Yard and Bulk Requirements is provided at the end of this staff report. See Attachment E)
- G. The Planning staff report provides the following comparison of the Institutional zoning district area regulations and the dimensions of the proposed new development.

	Institutional Zone	Proposed development
	area requirements	area dimensions
Lot Area	Places of worship require a	4.84 acres
	minimum 2 acres	
Lot Width	Minimum 100 feet of frontage	Approximately 580 feet of

		frontage
<b>Building Height</b>	Maximum 35 feet. Height may	Proposed height of the church =
	increase subject to conditional use	32 feet, not including the spire
		which does not have a height limit
		per ordinance
Yard	Front = 20 feet	Front = 70 feet along 2000 East
Requirements	Side = 20 feet	and approximately 30 feet along
		2100 East to the parking lot.
		Side yards = $50$ feet and $39$ feet.
Open Space	40% of lot area	41% of lot area
Parking	226 parking spaces	250 parking spaces

- H. The public process included a presentation to the Sugar House Community Council, a neighborhood open house sponsored by the applicant and written notification of the Planning Commission hearing to Community Council Chairs and the Planning Division electronic list serve. Notice was also posted on the City's website. The Planning staff report notes this application was reviewed by the Sugar House Community Council on January 20, 2009. Comments regarding the project ended favorable and a positive recommendation was forwarded to the Planning Commission and City Council. (Please see the Planning staff report Attachments J and K, pages 16-18, for the letter from the Sugar House Community Council and other public comments for details)
- I. The City's Fire and Public Utilities Departments and Building Services, Transportation and Engineering Divisions have reviewed the request. Any new development proposal will be required to comply with applicable City standards and demonstrate that there are adequate services to meet the needs of the project.
- J. Analysis and findings were evaluated in the Planning staff report and considered by the Planning Commission. (Discussion, analysis and findings are found on pages 4-6 of the Planning staff report.)
- K. On March 25, 2009, the Planning Commission held a public hearing and voted to forward a positive recommendation to the City Council to rezone the property as requested.

#### MATTERS AT ISSUE /POTENTIAL QUESTIONS FOR THE ADMINISTRATION:

- A. The Council may wish to discuss with the Administration issues and concerns identified by the Sugar House Community Council regarding the Institutional zoning classification as it relates to neighborhood compatibility and the types and intensity of uses allowed in that zoning district, preservation of as many of the large, mature trees on the site as possible and the large setback that will be created from 2100 East by the parking lot. (Please see the letter from the LDS Church provided at the end of this staff report for details. Attachment C)
- B. The Council may wish to discuss with the Administration the option outlined in the letter from the LDS Church to the Planning Director regarding the Sugar House Community Council concerns. The letter notes "The Corporation of the Presiding Bishop CPB is willing to agree that in the event the property is rezoned to the I (Institutional) zone district, the zone designation would automatically revert back to the R-1-7000 zone district (or the then equivalent zoning designation) in the event the property is used for a use other than a place of worship and affiliated uses". (Please see the letter from the LDS Church provided at the end of this staff report for details. Attachment D)

• It is Council staff's understanding that the City Attorney's office indicated that this option may not be legally feasible because it would require a future Council to rezone the property with a residential zoning classification.

#### **MASTER PLAN AND POLICY CONSIDERATIONS:**

- A. The Administration's paperwork notes:
  - 1. The Sugar House Community Master Plan was adopted in December 2005, replacing the previous plan adopted in 2001.
  - 2. The plan serves as the land use policy document for the Sugar House area providing goals, policies and direction for future land use issues throughout the area.
  - 3. Rezoning the property from Single-Family R-1-7000 to Institutional would be consistent with the Sugar House Community Master Plan Future Land Use Map.
- B. The Sugar House Community Master Plan also includes policies and goals that place a high priority on concepts such as supporting development of the Sugar House Community as a sustainable, attractive, harmonious and pedestrian oriented community and strengthening existing neighborhoods with appropriate adjacent land uses and design guidelines that would preserve the character of the area. The Plan emphasizes developing a high-quality environment with well integrated land uses that encourages walking, creates and reinforces community identity, supports and promotes compatible land uses while maintaining the integrity of the Sugar House Community.
- Additional citywide Master Plan and Policy considerations are provided below:
- C. The Council's growth policy notes that growth in Salt Lake City will be deemed the most desirable if it meets the following criteria:
  - 1. Is aesthetically pleasing;
  - 2. Contributes to a livable community environment;
  - 3. Yields no negative net fiscal impact unless an overriding public purpose is served; and
  - 4. Forestalls negative impacts associated with inactivity.
- D. The City's Strategic Plan and the Futures Commission Report express concepts such as maintaining a prominent sustainable city, ensuring the City is designed to the highest aesthetic standards and is pedestrian friendly, convenient, and inviting, but not at the expense of minimizing environmental stewardship or neighborhood vitality. The Plans emphasize placing a high priority on maintaining and developing new affordable residential housing in attractive, friendly, safe environments and creating attractive conditions for business expansion including retention and attraction of large and small businesses.
- E. The City's 1990 Urban Design Element includes statements that emphasize preserving the City's image, neighborhood character and maintaining livability while being sensitive to social and economic realities. Policy concepts include:
  - 1. Allow individual districts to develop in response to their unique characteristics within the overall urban design scheme for the city.
  - 2. Ensure that land uses make a positive contribution to neighborhood improvement and stability.
  - 3. Ensure that building restoration and new construction enhance district character.
  - 4. Require private development efforts to be compatible with urban design policies of the city regardless of whether city financial assistance is provided.
  - 5. Treat building height, scale and character as significant features of a district's image.
  - 6. Ensure that features of building design such as color, detail, materials and scale are responsive to district character, neighboring buildings, and the pedestrian.

- F. The City's Comprehensive Housing Plan policy statements address a variety of housing issues including quality design, architectural designs compatible with neighborhoods, public and neighborhood participation and interaction, accommodating different types and intensities of residential developments, transit-oriented development, encouraging mixed-income and mixed-use developments, housing preservation, rehabilitation and replacement, zoning policies and programs that preserve housing opportunities as well as business opportunities.
- G. The Transportation Master Plan contains policy statements that include support of alternative forms of transportation, considering impacts on neighborhoods on at least an equal basis with impacts on transportation systems and giving all neighborhoods equal consideration in transportation decisions. The Plan recognizes the benefits of locating high density housing along major transit systems and reducing dependency on the automobile as a primary mode of transportation.

#### **CHRONOLOGY:**

The Administration's transmittal provides a chronology of events relating to the proposed rezoning. Key dates are listed below. Please refer to the Administration's chronology for details.

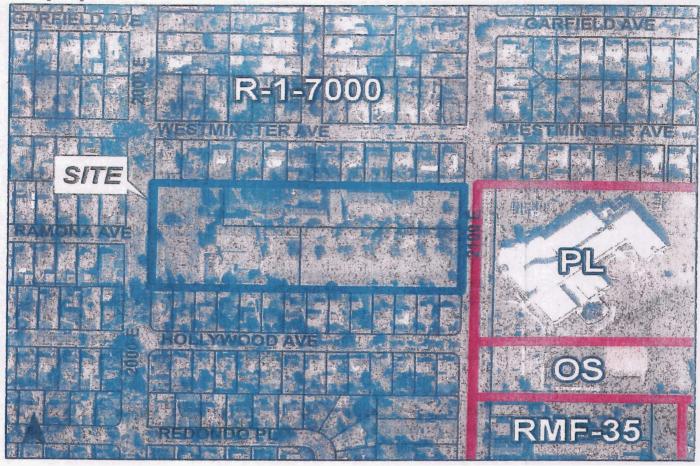

January 20, 2009 Sugar House Community Council meeting January 28, 2009 Petition submitted to Planning Division January 30, 2009 Petition assigned to planner (Kevin LoPiccolo) February 26, 2009 Neighborhood Open House March 25, 2009 Planning Commission hearing March 25, 2009 Ordinance requested from City Attorney's office Ordinance received from City Attorney's office April 8, 2009 April 15, 2009 Transmittal paperwork received in Council office

#### ATTACHMENT C

Sugar House Community Council

January 20, 2009

TO:

Salt Lake City Planning Commission

From:

Judi Short, Land Use Chair, Sugar House Community Council

RE:

Foothill Stake Center, currently Dilworth Ward

Our Land Use Subcommittee met with Brad Gygi from McNeil Group in December to review the plans to tear down a building and add on to the existing ward building to build one larger building to form the Foothill Stake Center. We were told that this required a Planned Unit Development, because the property was three separate parcels. Subsequently, Mr. Gygi and Steve Warner, Stake President, and others came to the Sugar House Community Council meeting in January. At this point, Mr. Gygi informed us that this now had to be a rezone, from residential to institutional, because the parcel was over 4 acres in size, which is the limit for places of worship in a residential zone. They also need a variance to allow parking in the front yard. Because there are two fronts on the site, it is difficult to address.

The LDS Church has demolished the building by Hillside Junior High and now are consolidating youth groups. They wish to retain the existing gym and Stake offices on the Dilworth site, and tear down the sanctuary building. To make the building work, the addition needs to be on the West side. Our community council did not like the huge setback this will create, it is a very long way from the street. We asked them to look at putting the addition on the east side, but apparently that is not to be. We were also concerned that some of the very large trees in the existing parking lot would be removed as shown in the original drawings that we reviewed.

The community council made a motion to approve the design as it stands, and the motion passed 12 in favor to 11 opposed. I believe most of those who voted against this motion did not like the idea of permanently rezoning this land from Residential R1/7000 to Institutional. The concern was that down the road, if the church stopped using the property, the institutional uses that could come in might not fit the neighborhood. However, we are aware that by changing the zoning to institutional, the neighborhood gets additional protections. The adjoining residential property owners get greater landscape buffers, and the community at large also benefits. An institutional property has a requirement for 40% open space. This will allow the property owners to save the mature trees in the middle of the site, which is something the Land Use Committee was very concerned about. This is a great benefit to the surrounding community. They have also reduced their parking from 290 stalls to 249 stalls, and added a sidewalk down the middle of the parcel from east to west. The project is designed to allow the storm water to percolate, and will accommodate a 100 year storm.

## THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

DIRECTOR FOR TEMPORAL AFFAIRS 50 E. North Temple St. Rm. 426W

Salt Lake City, Utah 84150-6912 Phone: 1-801-240-6266 March 25, 2009

Mr. Wilf Sommerkorn Planning Director Salt Lake City Corporation

RE:

**Rezoning Application** 

Corporation of the Presiding Bishop of

The Church of Jesus Christ of Latter-day Saints

1930 South 2100 East Salt Lake City, Utah

CPB Property No. 506-8374

Dear Mr. Sommerkorn:

Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-day Saints ("CPB") desires to demolish an existing church meetinghouse located at the above-referenced property and renovate an existing secondary structure into a new church meetinghouse and redesign the existing property by constructing a new parking lot and landscaped areas.

The property is located in the R-1-7000 zone district and is composed of approximately 4.8 acres of land. CPB understands that places of worship on lots greater than four acres in size are currently not permitted within the R-1-7000 zone district. As a result, CPB understands that it will be required to rezone the property to I (Institutional) zone district. CPB has submitted an application to change the zoning of the property to I (Institutional) zone district.

In its discussions with the Sugar House Community Council, some citizens expressed concern that the zone designation would survive the possible use of the property as a church and would permit another use of the property. To the extent permitted by applicable laws and ordinances, CPB is willing to agree that in the event the property is rezoned to the I (Institutional) zone district, the zone designation would automatically revert back to the R-1-7000 zone district (or the then equivalent zoning designation) in the event the property is used for a use other than a place of worship and affiliated uses. Nothing herein should be interpreted to require the property to be used for a place of worship and the property may be used for no use without any affect on the zoning designation on the property.

CPB believes that this condition will satisfactorily address the concern of the Sugar House Community Council and nearby residents.

Sincerely,

Ronald G. Humphries Utah Salt Lake Area

#### Qualifying provisions:

- 1. Subject to conformance to the provisions in subsection 21A.02.050B of this title.
- 2. When located in a building listed on the Salt Lake City Register of Cultural Resources.
- 3. When located on an arterial street.
- 4. Subject to Salt Lake Valley health department approval.
- 5. In conjunction with, and within the boundaries of, a cemetery for human remains.
- 6. Radio station equipment and antennas shall be required to go through the site plan review process to ensure that the color, design and location of all proposed equipment and antennas are screened or integrated into the architecture of the project and are compatible with surrounding uses.
- 7. When approved as part of a business park planned development pursuant to the provisions of section 21A.54.150 of this title.
- 8. Kennels, public or private, whether within penned enclosures or within enclosed buildings, shall not be permitted within 200 feet of an existing single-family dwelling on an adjacent lot.
- 9. Trails and trailheads without parking lots and directional and informational signage specific to trail usage shall be permitted.
- 10. Greater than 3 ambulances at location require a conditional use.
- 11. Building additions on lots less than 20,000 square feet for office uses may not exceed 50 percent of the building's footprint. Building additions greater than 50 percent of the building's footprint or new office building construction are subject to the conditional use process.

RE:

Petition PLNPCM2009-00074: Zoning Map Amendment by Church of Jesus

Christ of Latter-Day Saints, 1933 South 2000 East, requesting a zoning map amendment changing the existing property from R-1-7000 (Single Family

Residential) to Institutional.

STAFF CONTACTS:

Kevin LoPiccolo, Planning Program Supervisor, at 535-

6003 or kevin.lopiccolo@slcgov.com

**RECOMMENDATION:** 

That the City Council hold a briefing and schedule a Public

Hearing

DOCUMENT TYPE:

Ordinance

**BUDGET IMPACT:** 

None

#### **DISCUSSION:**

Issue Origin: The current site consists of three parcels. As part of the proposed redevelopment, the applicant has been required to combine these three parcels into one lot of record to comply with the applicable building code requirements. The resulting parcel will be approximately 4.84 acres, which is larger than allowed for the maximum lot size (10,500) in the R-1-7000 zoning district. In order to redevelop the site in accordance with the zoning ordinance, it was recommended by the Planning Division that the site be rezoned Institutional to match the appropriate use and be consistent with the Sugar House Master Plan.

451 SOUTH STATE STREET, ROOM 404
P.O. BOX 145486, SALT LAKE CITY, UTAH 84114-5486
TELEPHONE: 801-535-6230 FAX: 801-535-6005
WWW.SLCGOV.COM/CED

Analysis: The proposed project is the redevelopment of the existing site owned and occupied by the Church of Later-Day Saints. There are currently two buildings existing on the site. The red brick meetinghouse at the north side of the property was originally built in 1947. The stake offices located on the west side of the property were constructed in 1976. Due to the structural condition of the existing meetinghouse building as well as other considerations, the Church is interested in redeveloping the site by removing the existing meetinghouse and adding on to the stake offices. This will result in a single new meetinghouse building on the site. Additional work as part of the development includes reconfiguration of the parking lot, landscaping, a pavilion structure and an outside storage building on a 4.84 acre site.

The redevelopment of the site proposes to continue the same use of the site with revisions to layout only. It is not anticipated to intensify the use of this site through this project.

There is currently street access from both the east and west side of the site. The east side has access on 2100 East. The west side is accessed from 2000 East with a total of two drive approaches. The proposed development would eliminate vehicular access from 2000 East.

The proposal was reviewed by all applicable City departments and divisions. There were no issues raised by the City that would prevent the proposal from proceeding. The applicant must comply with all City requirements.

*Master Plan Considerations*: The Sugar House Master Plan was adopted in December 2005, replacing the previous plan adopted in 2001. The plan serves as the land use policy document for the Sugar House area providing goals, policies and direction for future land use issues throughout the area. The Sugar House Future Land Use Map designates the subject property as Institutional and would allow the subject property to be consistent with the Master Plan.

#### **PUBLIC PROCESS:**

The Sugar House Community Council Land Use Committee heard this request at their January 2009 meeting and made a motion to approve the design of the proposed addition to the existing stake center by a vote of 12 in favor to 11 opposed. The Planning Division Staff received numerous letters in support of the proposal. The Community Council was concerned that a rezone from residential to institutional could potentially affect the overall compatibility in the future if the church ever relocated, and were concerned that other uses that would be allowed in the institutional zoning district may distract from the overall neighborhood.

The Planning Commission held a Public Hearing on March 25, 2009. There were no new issues raised during the public hearing. The Planning Commission passed a motion to transmit a favorable recommendation to the City Council. The vote was 7 in favor; 0 opposed.

#### **RELEVANT ORDINANCES:**

Amendments to the Zoning Ordinance and Maps are authorized under Section 21A.50 of the Salt Lake City Zoning Ordinance, as detailed in Section 21A.50.050: "A decision to amend the text of this title or the zoning map by general amendment is a matter committed to the legislative discretion of the City Council and is not controlled by any one standard." It does, however, list five standards, which should be analyzed prior to rezoning property (Section 21A.50.050 A-E). The five standards are discussed in detail starting on page 6 of the Planning Commission Staff Report (Attachment 6).

#### SALT LAKE CITY ORDINANCE No. \_\_\_\_\_ of 2009

(Amending the Zoning Map Concerning Property Located at 1933 South 2000 East)

An ordinance amending the zoning map to change the zoning designation of property located at 1933 South, 2000 East from R-1/7,000 (Single-Family Residential) to I (Institutional), pursuant to Petition No. PLNPCM2009-00074.

WHEREAS, the Salt Lake City Planning Commission ("Planning Commission") held a public hearing on March 25, 2009 on an application made by the Church of Jesus Christ of Latter-Day Saints ("Applicant") to amend the Salt Lake City zoning map pertaining to property located at 1933 South, 2000 East (Sidwell Tax ID Nos. 16-15-356-013, 16-15-356-014 and 16-15-356-015) (the "Property") to change the zoning district designation of the Property from R-1/7,000 (Single Family Residential) to I (Institutional); and

WHEREAS, at its March 25, 2009 meeting, the Planning Commission voted in favor of forwarding a positive recommendation to the Salt Lake City Council ("City Council") on said application; and

WHEREAS, after a hearing before the City Council, the City Council has determined that the following ordinance is in the best interest of the City.

NOW, THEREFORE, be it ordained by the City Council of Salt Lake City, Utah:

SECTION 1. Amending the City's Zoning Map to re-zone the Property. The Salt Lake City zoning map, as adopted by the Salt Lake City Code, relating to the fixing of boundaries and zoning districts, shall be and hereby is amended to re-classify the zoning district designation of the Property located at 1933 South, 2000 East, and which is more particularly described on Exhibit "A" attached hereto, from the R-1/7,000 (Single-Family Residential) zoning district to the I (Institutional) zoning district.

SECTION 2. Effective Date. This ordinance sha	ll become effective on the date					
of its first publication.						
Passed by the City Council of Salt Lake City, Utah	, this, day of,					
2009.

# AMENDED AGENDA FOR THE SALT LAKE CITY PLANNING COMMISSION MEETING In Room 326 of the City & County Building at 451 South State Street Wednesday, March 25, 2009 at 5:45 p.m.

The field trip is scheduled to leave at 4:00 p.m. Dinner will be served to the Planning Commissioners and Staff at 5:00 p.m., in Room 126. Work Session—the Planning Commission may discuss project updates and other minor administrative matters. This portion of the meeting is open to the public for observation.

Approval of Minutes from Wednesday, March 11, 2009

Report of the Chair and Vice Chair

Report of the Director

#### **Public Hearing**

- 1. PLNPCM2008-00918; Zoning Map Amendment—a request by Paul L. Willie to amend the Zoning Map for property located at approximately 230 West North Temple from PL Public Lands to RMU Residential Mixed Use. This property is located in City Council District 3, represented by Council Member Eric Jergensen (Staff contact: Nole Walkingshaw at 801-535-7128 or nole.walkingshaw@slcgov.com).
- 2. PLNPCM2008-00917; Preliminary Minor Subdivision—a request by Paul L. Willie for property located at approximately 230 West North Temple to combine three parcels. This property is located in City Council District 3, represented by Council Member <u>Eric Jergensen</u> (Staff contact: Nole Walkingshaw at 801-535-7128 or nole.walkingshaw@slcgov.com).
- 3. PLNPCM2009-00003; Red Moose Roasting and Coffee Conditional Use—a request by Red Moose Roasting and Coffee, represented by Rob Karas and Teresa Nelson, for a drive thru window for a coffee shop located at approximately 1693 South 900 East. A coffee shop is a permitted use in the CN Neighborhood Commercial Zoning District; however, a drive thru window requires a conditional use. The property is located in City Council District 5 represented by Council Member Jill Remington-Love (Staff contact: Nick Norris at 801-535-6173 or nick.norris@slcgov.com).
- 4. PLNPCM2009-00106; Zoning Ordinance Text Amendment—a petition initiated by the Planning Commission to amend Sections 21A.10.010 and 21A.10.020, and other related Sections of the Salt Lake City Zoning Ordinance, pertaining to Public Hearing and Notice Requirements. The proposed amendments are not site specific (Staff contact: Bill Peperone at 535-7214 or bill.peperone@slcgov.com)
- 5. PLNPCM2009-00105; Zoning Ordinance Text Amendment—a petition initiated by the City Council to amend Section 21A.50.050 of the Salt Lake City Zoning Ordinance, Standards for General Amendments. The proposed amendment is not site specific (Staff contact: Bill Peperone at 801-535-7214 or bill.peperone@slcgov.com).
- 6. Foothill Stake Planned Development/Conditional Use and Zoning Map Amendment—a request by the Church of Latter Day Saints, represented by Bradley Gygi, architect, for an approval to allow for the redevelopment of the existing site by removing the existing meeting house building and constructing an addition to the existing stake office at property located at approximately 1933 South 2000 East. The property is located in City Council District Six represented by J.T. Martin (Staff contact: Kevin LoPiccolo at 535-6003 or kevin.lopiccolo@slcgov.com).
  - a. Petition PLNPCM2008-00795 Planned Development/Conditional Use—a request approval to allow the LDS Foothill Stake to replace an existing chapel with an addition to the building along 2000 East. The new chapel/stake center would be approximately 27,000 square feet. As part of the Planned Development, the applicant is requesting a reduction of required landscaping for the parking lot.
  - b. <u>Petition PLNPCM2009-00074 Zoning Map Amendment—the applicant is requesting approval to rezone the property from R-1-7000 (Single Family Residential) to Institutional.</u>

.

O BUOZ/ZA/ED EDAS TAWA BIWIS

1. Fill out registration card and indicate if you wish to speak and which agenda item you will address.

2. After the staff and petitioner presentations, hearings will be opened for public comment. Community Councils will present their comments at the beginning of the hearing

3. In order to be considerate of everyone attending the meeting, public comments are limited to two (2) minutes per person, per item. A spokesperson who has already been asked by a group to summarize their concerns will be allowed five (5) minutes to speak. Written comments are welcome and will be provided to the Planning Commission in advance of the meeting if they are submitted to the Planning Division prior to noon the day before the meeting. Written comments should be sent to:

Salt Lake City Planning Commission 451 South State Street, Room 406 Salt Lake City UT 84111

Speakers will be called by the Chair.

5. Please state your name and your affiliation to the petition or whom you represent at the beginning of your comments.

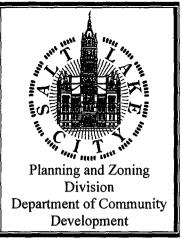

- 6. Speakers should address their comments to the Chair. Planning Commission members may have questions for the speaker. Speakers may not debate with other meeting attendees.
- 7. Speakers should focus their comments on the agenda item. Extraneous and repetitive comments should be avoided.
- 8. After those registered have spoken, the Chair will invite other comments. Prior speakers may be allowed to supplement their previous comments at this time.
- 9. After the hearing is closed, the discussion will be limited among Planning Commissioners and Staff. Under unique circumstances, the Planning Commission may choose to reopen the hearing to obtain additional information.
- 10. The Salt Lake City Corporation complies will all ADA guidelines. People with disabilities may make requests for reasonable accommodation no later than 48 hours in advance in order to attend this meeting. Accommodations may include alternate formats, interpreters, and other auxiliary aids. This is an accessible facility. For questions, requests, or additional information, please contact the Planning Office at 535-7757; TDD 535-6220.

## REQUEST

The Church of Jesus Christ of Later-Day Saints, represented by Brad Gygi is requesting the following:

1. A zoning map amendment changing the existing property from R-1-7000 to Institutional.

Petitions to amend the zoning map of the City require review by the Salt Lake City Planning Commission in a public hearing. Upon review, the Planning Commission will forward a recommendation to the Salt Lake City Council. The City Council is the final decision making authority for amendments to the Zoning Map.

#### STAFF RECOMMENDATION

Based on the findings listed in the staff report, it is the Planning staff's opinion that the proposal adequately meets the applicable standards and therefore recommends the Planning Commission transmit a positive recommendation to the City Council.

#### Vicinity Map

Sugar House Future Land Use Map: The underlying zone is currently R-1-7000. The Sugar House Master Plan has the site designated as Institutional.

#### BACKGROUND

The current site consists of three parcels. As part of the proposed redevelopment, the applicant has been required to combine these three parcels into one lot of record to comply with the applicable building code requirements. The resulting parcel will be approximately 4.84 acres, which is larger than allowed for the maximum lot size (10,500) in the R-1-7000 zoning district. In order to redevelop the site in accordance with the zoning ordinance, it was recommended by the Planning Division that the site be rezoned Institutional to match the appropriate use and be consistent with the Sugar House Master Plan.

The LDS Salt Lake Stake is proposing to build a new chapel/stake center to replace the chapel located at 1930 South 2100 East by building around the existing stake gymnasium at 1933 South 2000 East (Attachment E).

The LDS Salt Lake Stake is requesting that the Planning Commission forward a positive recommendation to the City Council on the 4.84 acre site of land that is currently zoned R-1-7000 to Institutional. This application would:

1. Rezone the property from R-1-7000 to Institutional. The Sugar House Future Land Use Map designates the subject property as Institutional and would allow the subject property to be consistent with the Master Plan.

Standard "A" of Section 21 A.50.050 of the Zoning Ordinance requires the City Council to consider whether a zoning map amendment is consistent with the purposes, goals, objectives and policies of the general plan. In this case, the proposed zone change is consistent with the master plan.

The Sugar House Master Plan was adopted in December 2005, replacing the previous plan adopted in 2001. The plan serves as the land use policy document for the Sugar House area providing goals, policies and direction for future land use issues throughout the area.

# **Proposal**

The proposed project is the redevelopment of the existing site owned and occupied by the Church of Later-Day Saints. There are currently two buildings existing on the site. The red brick meeting house at the north side of the property was originally built in 1947. The stake offices located on the west side of the property was constructed in 1976. Due to the structural condition of the existing meetinghouse building as well as other considerations, the Church has decided to redevelop the site by removing the existing meetinghouse and adding on to the stake offices. This will result in a single new meetinghouse building on the site. Additional work as part of the development includes reconfiguration of the parking lot, landscaping, a pavilion structure and an outside storage building on a 4.84 acre site.

The redevelopment of the site proposes to continue the same use of the site with revisions to layout only. It is not anticipated to intensify the use of this site through this project.

There are currently street accesses from both the east and west side of the site. The east side accesses from 2100 East with a total of three drive approaches. The west side is accessed from 2000 East with a total of two drive approaches. The proposed development would eliminate vehicular access from 2000 East.

The surrounding land uses include the following:

North	Single Family Residential
South	Single Family Residential

East	Dilworth Elementary School
West	Single Family Residential

The site will have one screened dumpster located along the north property line that fronts the storage structure.

Lighting for the parking area will be provided and will be shielded to limit the light to the parking area. Proposed lighting will meet the city ordinance and will avoid creating unnecessary light pollution.

The table below are the general zoning requirements for the Institutional zone.

	Institutional Zone	Proposed
	Requirement	•
Lot Area	Places of worship require a minimum 2 acres	4.84 acres
Lot Width	Minimum 100 feet of	Approximately 580 feet of
	frontage	frontage
Building Height	Maximum 35 feet.	Proposed height of church is
	Height may increase	32 feet. Not including the
	subject to conditional use	spire which does not have a
		height limit per ordinance
Yard Requirements	Front = 20 feet	Front = 70 feet along 2000
	Side = 20 feet	East and approximately 30
		feet along 2100 East to the
		parking lot.
		Side yards = $50$ feet and $39$
		feet.
Open Space	40% of lot area	41% of lot area
Parking	226 parking spaces	250 parking spaces

#### **Public Comments**

This application was reviewed by the Sugar House Community Council on January 20, 2009. Comments regarding the project ended favorable and a positive recommendation was forwarded to the Planning Commission and City Council (Attachment J).

Staff has received public comments from the public and has included all correspondence (Attachment K).

# **City Department Comments**

The proposal was reviewed by all applicable City departments and divisions. The review comments have been attached to this report (Attachment L). There were no issues raised by the City that would prevent the proposal from proceeding. The applicant must comply with all City requirements.

- Public Utilities: No comments.
- Engineering: Provide ADA ramp details for all new ADA ramps within public way.
- Transportation No comments
- Fire: No comments.
- Building Services No comments at the time of preparing staff report.

# Analysis and Findings

#### Standards for General Amendments: Section 21A.50.050

A decision to amend the text of this title or the zoning map by general amendment is a matter committed to the legislative discretion of the City Council and is not controlled by any one standard. However, in making its decision concerning a proposed amendment, the City Council should consider the following factors:

A. Whether the proposed amendment is consistent with the purposes, goals, objectives, and policies of the adopted general plan of Salt Lake City.

**Analysis:** The subject property is located within the Sugar House Master Plan area, and therein depicted as "Institutional" for the entire parcel. Amending the R-1-7000 property to Institution would be consistent with the Future Land Use Map for the Sugar House Master.

Finding: The proposal satisfies this standard.

B. Whether the proposed amendment is harmonious with the overall character of existing development in the immediate vicinity of the subject property.

**Analysis:** The proposed amendment will comply with the Sugar House Master Plan. The subject property is currently zone R-1-7000 and the proposed amendment would reflect an "Institutional" designation as identified within the Master Plan. The properties that are contiguous to the church are single family residential and the property to the east is the Dilworth Elementary School.

**Finding:** The proposed amendment is compatible with existing development in the immediate vicinity since a place of worship is traditionally found in a neighborhood setting.

C. The extent to which the proposed amendment will adversely affect adjacent properties.

Analysis: No adverse effects to adjacent properties are likely to occur with this amendment since the property has been operating with the same use since 1947. Staff has not received any claims from area property owners that the proposed amendment will adversely affect adjacent properties. Staff finds that the proposed Institutional zone creates greater setbacks, additional landscape buffers and a minimum open space requirement of 40% that should help minimize potential impacts that a church use may have on abutting properties.

Finding: The proposal amendment is compliant with this standard.

D. Whether the proposed amendment is consistent with the provisions of any applicable overlay zoning districts which may impose additional standards.

Analysis: The subject property is not subject to any overlay zoning districts, and thus not contrary to any overlay district provisions.

Finding: The proposal satisfies this standard.

E. The adequacy of public facilities and services intended to serve the subject property, including but not limited to roadways, parks and recreational facilities, police and fire protection, schools, stormwater drainage systems, water supplies, and wastewater and refuse collection.

**Analysis:** The current use of the property has existed since 1947. The public facilities that serve the site are adequate as deemed by the review of various City departments who maintain those public services.

Finding: The proposal satisfies this standard.

A. Letter from Applicant

A statement of the text amendment or map amendment describing the purpose for the amendment and the exact language, boundaries and zoning district.

This application requests that the zoning district for the parcel described below (located at 1933 South 2000 East) be changed from R-1-7000 to Institutional and the zoning and master plan maps be amended accordingly.

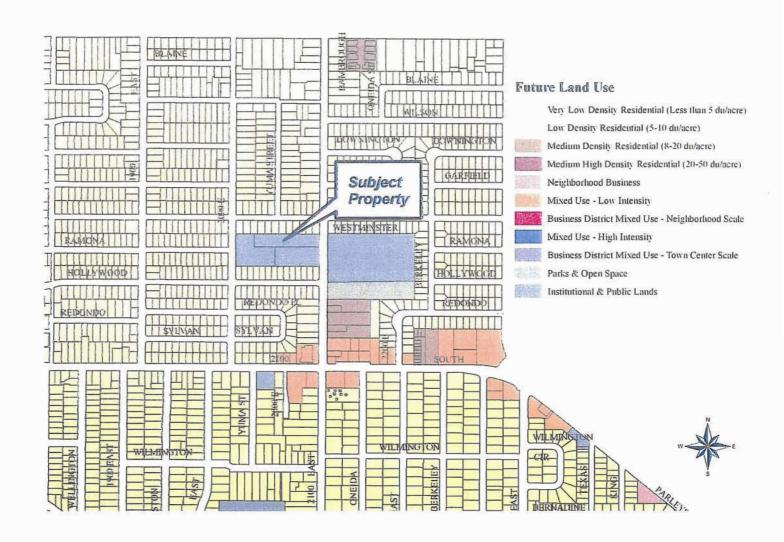

BEGINNING AT THE NORTHWEST CORNER OF LOT 18, BLOCK 7, 5 ACRE PLAT C, BIG FIELD SURVEY, AND RUNNING THENCE SOUTH 89°49'10" EAST ALONG THE NORTHERLY LINE OF SAID LOT 18, 726.58 FEET TO THE NORTHEAST CORNER OF SAID LOT 18; THENCE SOUTH 00°11'30" WEST ALONG THE EASTERLY LINE OF SAID LOT 18, 289.292 FEET TO THE SOUTHEAST CORNER OF SAID LOT 18; THENCE NORTH 89°50"26' WEST ALONG THE SOUTHERLY LINE OF SAID LOT 18, 726.57 FEET TO THE SOUTHWEST CORNER OF SAID LOT 18; THENCE NORTH 00°11'24" EAST ALONG WESTERLY LINE OF SAID LOT 18, 289.56 FEET TO THE POINT OF BEGINNING.

A complete description of the proposed use of the property where appropriate:

Currently, this site is used as a place of worship as an allowed conditional use in the residential zone. This redevelopment of the site proposes to continue the same use of the site with revisions to layout only. It is not anticipated to "intensify" the use of this site through this project. The same congregations and users currently using this site will use it at completion of this project.

Reasons why the present zoning may not be appropriate for the area:

The current site consists of three parcels. As part of the proposed redevelopment, the Owner has been required to combine these into one parcel. The resulting parcel is approximately 4.7 acres, which is larger than allowed for a place of worship as a conditional use in the current zone. In order to redevelop the site in accordance with the zoning ordinance, it has been recommended by planning staff that the Owner request that the site be rezoned institutional to match the appropriate use. Rezoning the site to institutional would allow the site to be redeveloped in a zone more appropriate to the intended use as well as more sensitive to the surrounding neighborhood. For example, changing to the Institutional zone creates increased side yard setbacks and requires landscape buffers at the north and south property lines, which are residential lots in the R-1-7000 zone. This zone also has a minimum open space requirement of 40%, where the residential zone has none. There are an elementary school and public park located directly east of this site on 2100 East.

J. Sugar House Community Council Letter

Sugar House Community Council

January 20, 2009

TO:

Salt Lake City Planning Commission

From:

Judi Short, Land Use Chair, Sugar House Community Council

RE:

Foothill Stake Center, currently Dilworth Ward

Our Land Use Subcommittee met with Brad Gygi from McNeil Group in December to review the plans to tear down a building and add on to the existing ward building to build one larger building to form the Foothill Stake Center. We were told that this required a Planned Unit Development, because the property was three separate parcels. Subsequently, Mr. Gygi and Steve Warner, Stake President, and others came to the Sugar House Community Council meeting in January. At this point, Mr. Gygi informed us that this now had to be a rezone, from residential to institutional, because the parcel was over 4 acres in size, which is the limit for places of worship in a residential zone. They also need a variance to allow parking in the front yard. Because there are two fronts on the site, it is difficult to address.

The LDS Church has demolished the building by Hillside Junior High and now are consolidating youth groups. They wish to retain the existing gym and Stake offices on the Dilworth site, and tear down the sanctuary building. To make the building work, the addition needs to be on the West side. Our community council did not like the huge setback this will create, it is a very long way from the street. We asked them to look at putting the addition on the east side, but apparently that is not to be. We were also concerned that some of the very large trees in the existing parking lot would be removed as shown in the original drawings that we reviewed.

The community council made a motion to approve the design as it stands, and the motion passed 12 in favor to 11 opposed. I believe most of those who voted against this motion did not like the idea of permanently rezoning this land from Residential R1/7000 to Institutional. The concern was that down the road, if the church stopped using the property, the institutional uses that could come in might not fit the neighborhood. However, we are aware that by changing the zoning to institutional, the neighborhood gets additional protections. The adjoining residential property owners get greater landscape buffers, and the community at large also benefits. An institutional property has a requirement for 40% open space. This will allow the property owners to save the mature trees in the middle of the site, which is something the Land Use Committee was very concerned about. This is a great benefit to the surrounding community. They have also reduced their parking from 290 stalls to 249 stalls, and added a sidewalk down the middle of the parcel from east to west. The project is designed to allow the storm water to percolate, and will accommodate a 100 year storm.

K. Letters from Public

March 16, 2009,

Kevin LoPiccolo
Salt Lake City Planning Commission

Mr. LoPiccolo and Planning Commission,

I was pleased to meet with Mr. Buhler a few weeks ago about the proposed construction that is needed to the church building across the street from our school on 2100 East. He explained to me the need for the construction, as well as the possible effects it would have on our school.

I recognize that it will affect our students and their families in at least two ways for at least the duration of the construction. First, the parking lot at the church site will be unavailable. The church has been very kind to allow school patrons to park there as they visit the school to volunteer or attend performances. Second, the students who have been used to using the church lot as an access from the neighborhood to school will have to use another route, at least temporarily.

I recognize that these two inconveniences will be temporary and we will be able to adjust to them. I believe that the construction will be a benefit to the community. Keeping these two things in mind, as well as my opinion that the church leaders and members have been wonderful, cooperative neighbors to our school community, I would like to endorse the construction starting as soon as possible. The sooner the construction is started, the sooner the benefits of the construction can be enjoyed by all.

Sincerely,

Kenneth Limb Principal Dilworth Elementary Salt Lake City School District The Foothill Stake Center is a positive presence in the Dilworth Neighborhood for both LDS church members and non-members throughout the neighborhood. Certainly it meets religious, social, sports and administrative needs for its membership. However, as a non-member, I can personally vouch for the Stake Center's other contributions to the neighborhood that include:

- A reciprocal overflow parking arrangement between the Stake Center and the Dilworth Elementary School so that the school can make use of the Stake Center parking during the week, and the Stake Center, in turn, can use the Dilworth parking lot on Sundays. As a parent whose children attended Dilworth, I have taken advantage of that arrangement on numerous occasions.
- Public access between 2100 East and 2000 East to facilitate children going to and
  from school as well as others in the neighborhood who just want to take
  advantage of an opportunity for a leisurely stroll, which many neighborhood
  residents including my husband and I frequently do. This is always enjoyable
  since the Stake Center grounds are beautifully landscaped and consistently well
  maintained. The landscape aspects of the proposed planned development appear
  to be even better.

The existing chapel, slated for demolition under the planned development, is quite charming. However, like many public buildings of its era, it is neither energy efficient nor ADA compliant. Remodeling to bring it up to today's standards would be quite costly and still would not meet the current space needs of the Foothill Stake Center, which have increased due to the closing and demolition of a ward on Wilson Avenue and Texas Street (behind Hillside Junior High School) last year. The plans for the newly designed structure, which incorporate the existing gymnasium and meeting center and include a new chapel and meeting rooms, will result in an energy efficient, ADA compliant, environmentally friendly, and esthetically pleasing structure from any directional view. And, it will meet the current needs of the Foothill Stake Center.

Thank you for the opportunity to express my support for the Foothill Stake Center's petitions and requests for rezoning, and planned development including the demolition of the existing chapel at 1933 South 2100 East. I hope you will give serious consideration to their plans that will, in my opinion, be of benefit to the Dilworth Neighborhood and the greater Sugar House Community, who strongly back those plans.

Sincerely,

Elaine J. Brown

To: LoPiccolo, Kevin

Mr. Lopiccolo,

This letter is to indicate my support for the plans submitted by the Foothill Stake to demolish and rebuild the meeting house located at 1933 South 2100 East in Sugar House. I would prefer that a zone change would not be required by the city to accommodate this request for a new church building on this site. However, I believe that the plans submitted will serve the needs of the congregations that use this building and that it will not compromise the quality of living or cause a property value devaluation for the residential home owners that are in the surrounding neighborhood.

I have been a resident of this neighborhood for over 20 years. I sent all 5 of my children to Dilworth Elementary School located across the street. In the past the church has been very willing to accommodate the overflow of parking needs by Dilworth parents and visitors by letting them use the parking lot for school events. We were also able to use this site to vote in the last election. The church facilities have been good neighbors in the past and my expectation is that relationship will continue with the improvements requested for this site by Foothill Stake.

Please pass this letter on to the members of the Planning Commission.

Sincerely,

Sheila O'Driscoll

Re: Foothill Stake Center (1933 South 2100 East) petitions requesting rezoning, new construction/remodeling of existing building and demolition of an existing chapel

Dear Commission Members,

I am writing in support of the Foothill Stake Center's petitions to: 1) rezone its property from its present R1-7000 residential to institutional status and 2) redevelop the property including construction/remodeling of an existing gymnasium and stake center following the demolition of an existing chapel.

I am one of three trustees representing the Dilworth Neighborhood on the Sugar House Community Council (SHCC); the Foothill Stake Center resides within the Dilworth Neighborhood. I voted with the majority of the SHCC to support the Foothill Stake Center's rezoning and planned development requests after their representatives, including architect Brad Gygi, made a presentation at SHCC's January 4, 2009 meeting.

Although SHCC's vote took place prior to my having a chance to seek input from the Dilworth residents, I now feel quite confident that those residents share in my support of the rezoning and new construction request. In response to an email I sent Dilworth residents to notify them of the project and open house and to elicit feedback, one stated:

**Sent:** Wednesday, February 18, 2009 7:58 PM **Subject:** Re: Foothill LDS Stake Open House

Hi Elaine. Thank you for keeping us informed. As a non-LDS neighbor, I may not have otherwise known of the plans. You may remember hearing from me on earthquake readiness concerns. For these reasons alone I would fully support their plan with a new church as it's sure to be more earthquake friendly then an existing structure (based on building code and construction improvements). In the end this could be a benefit to the community. So, I hope you will share my support for these reasons. Thanks so much for all you do, Emily

At the open house sponsored by the Foothill Stake Center on February 26, 2009, I spoke with other residents who expressed equally enthusiastic support and demonstrated that support by signing the petitions for the rezoning and planned development. No resident has expressed any objection to me regarding the proposed plans.

### COMMENTS

Please respond in writing to each of the items below. Revise plans where appropriate. For follow-up process you will be responsible for insuring that all sets of plans submitted for review are maintained in complete and accurate condition. Please call me directly if you have questions or concerns.

- 1) A demolition permit is required for the one existing structure that is being removed.
- S) An impact fee worksheet shall be completed prior to permit issuance to calculate if additional impact fees are required.
- Site plan dimensions do not match the County plat map and legal description. Please clarify.
- 4) The three existing lots are required to be combined into one parcel. Please provide documentation.
- 5) Ground mounted utility boxes shall be approved as a Routine and Uncontested Matter (Special Exception) as per 21A.40.160.
- 6) Grade changes exceeding 2 feet in required setbacks shall be approved as a Routine and Unconfested Matter (Special Exception). Applications are available on-line at <a href="https://www.slcgov.com">www.slcgov.com</a> or may be picked up at this office.
- Public way improvements such as existing curb, gutter, sidewalk, and drive approaches require inspection to determine replacement requirements of defective concrete. Phone (801) 535-7995 to set up this inspection prior to permit issuance.
- 8) The landscape plan does not comply with the provisions of title 21A. in the following areas:
- 1. The landscape buffer requires a solid 6 feet high fence along the entire buffer as per 21A.48.080.D.3. Chain link with slats does not comply with the City's definition solid fencing: See "fence, opaque or solid" in chapter 21A.62.
- In addition, fences, walls and hedges extending into the front yard setbacks shall not exceed 4 feet in height, and
- b) solid fences, walls and hedges located within the 10 feet sight distance triangle adjacent to neighboring driveways shall not exceed 30 inches in height.
- Algocate to respin bound and careful for the she site distance triangles for the abutting driveways as you have done for the on-site driveways.

- 2. As per section 21A.48.080.3.b, shrub masses are required to be alternately spaced at least two rows deep along the entire length of landscape buffer.
  - a) Also, please comply with the front yard 4 feet maximum hedge height and line of site requirements as stated above in items 1.a and 1.b.
  - b) Landscape buffers extending into the front yard setbacks may be landscaped as required for front yard landscapes under section 21A.48.090.
- 3. Page SD1 indicates 40 interior parking lot trees are required with 30 trees provided—14 existing and 16 new. Your plans show 35 trees which we could credit towards interior parking lot landscaping. 5 additional interior parking lot trees are required.
- 4. The landscape plan requires additional landscape summary data in the following classifications:
  - a) Total area of parking lot.
  - b) Interior parking lot landscaping required/provided based on 5% of the parking lot.
  - c) The number of interior parking lot trees required/provided based on one tree per 120 sq. ft.
  - d) Dimension of buffer and the number of landscape buffer trees (required and provided) based on 1 tree for every 25 feet of yard length as per 21A.48.080.D.3 along the entire length of the landscape buffer as per 21A.48.080.D.3.
  - e) Dimension of street frontage and the number of parkway trees required/provided based on one tree per 30 ft. of lot width.
  - f) Total percentage of drought-tolerant trees and shrubs (80% minimum required).
  - g) Please include a note on the plans that: Tree removal or tree planting in the public way requires approval from Bill Rutherford, SLC Urban Forestry (972-7818) or submit plans containing an Urban Forester approval signature.
- 9) Public Utilities <u>approval</u> of the site drainage and water/sewer connection plans to be submitted to <u>this office</u> for permit issuance. For information on obtaining this approval, submit two sets of plans to Peggy Garcia at 1530 South West Temple or phone (801) 483-6727.

NOTE: After the building permit is issued, a public way permit will be required from the Engineering Department prior to commencing any work in the public way.

7. Planning Commission Minutes from March 25, 2009

He stated that this simply would make it easier for the City Council and Planning Commission to use when evaluating a text amendment versus a map amendment.

### 7:08:39 PM Public Hearing:

Chair Woodhead open the public hearing portion of this petition, there were no members of the public present to speak to the petition. Chair Woodhead closed the public hearing.

### 7:09:04 PM **Motion:**

Commissioner De Lay made a motion regarding Petition PLNPCM2009-00105, based on the staff report, that the Planning Commission forwards a positive recommendation to the City Council, to adopt the proposed text amendments for Standards for General Amendments.

Commissioner Dean seconded the motion.

Commissioners De Lay, Dean, Fife, Chambless, Muir, and McHugh voted, "Aye". The motion passed unanimously.

Chair Woodhead announced a break at 7:09 p.m.

Chair Woodhead reconvened the meeting 7:18 p.m.

7:22:10 PM Foothill Stake Planned Development/Conditional Use and Zoning Map Amendment—a request by the Church of Latter Day Saints, represented by Bradley Gygi, architect, for an approval to allow for the redevelopment of the existing site by removing the existing meeting house building and constructing an addition to the existing stake office at property located at approximately 1933 South 2000 East. The property is located in City Council District Six represented by J.T. Martin. View: Staff Report View: Public Comments

- a. Petition PLNPCM2008-00795 Planned Development/Conditional Use—a request approval to allow the LDS Foothill Stake to replace an existing chapel with an addition to the building along 2000 East. The new chapel/stake center would be approximately 27,000 square feet. As part of the Planned Development, the applicant is requesting a reduction of required landscaping for the parking lot.
- b. Petition PLNPCM2009-00074 Zoning Map Amendment—the applicant is requesting approval to rezone the property from R-1-7000 (Single Family Residential) to Institutional.

Chair Woodhead recognized Kevin LoPiccolo as staff representative.

Mr. LoPiccolo stated that the Commission was scheduled to review a planned development and a zone change regarding this petition; however, the applicant was able to comply with all of the zoning standards and therefore had withdrawn the request for a planned development and was now only requesting a zone change.

Mr. LoPiccolo stated that there were two existing buildings that sat on the property, the building to the north would be demolished to build around the existing stake center, and the new church would be approximately

21,000 square feet. He stated that the underlying zone was R-1/7,000 Single Family Residential, and when the city adopted this infill ordinance several years ago they capped properties maximum lot sizes at 10,500 square feet in this particular zoning district, although it does not apply to Institutional uses, which is what the applicant is requesting, and then forwarded to the City Council to comply with the Sugar House Master Plan.

He stated that some of the benefits of going from the Single-Family zoning to an Institutional Zone would be increased landscaping, and forty (40) percent open space.

7:25:48 PM Applicant Presentation

### 7:55:51 PM Public Hearing

Chair Woodhead opened up the public hearing portion of the petition.

The following people spoke or submitted a hearing card in *support* of the proposed petition: **Judy Short** (Sugar House Community Council) stated that this was an example where the petitioner had worked very closely with the community council as the project had progressed and changed. She stated that the community council did not want to see the big trees on the property taken out, so they were glad that the applicant had asked for an Institutional zone, which had a higher landscaping requirement; however; a few years from now this property could change into an Institutional use that would not be as compatible with the neighborhood. **Steve Warner** (2017 East Browning Avenue) Stake President stated that they were looking to consolidate the wards in the area, and the building would allow larger wards and would also aid the aging community in helping them to get around the building easier. **Dave Buhler** (1436 South Yuma Street) stated that this was a win/win project for the community and there would be over seventy (70) new trees planted in the area. **Elaine Brown** (1781 Blaine Avenue) stated she was supportive of this project, it was a positive presence in the neighborhood and the informal parking arrangement between the church and the Dilworth School was a great asset. She stated that this project was also aesthetically pleasing, energy efficient, and ADA compliant which were all plusses for the neighborhood. **Lance Olson** (1986 Hollywood Avenue) stated he liked the new plan because it would eliminate the old parking lot in the back.

Chair Woodhead closed the public hearing.

### 8:07:04 PM **Motion:**

Commissioner De Lay made a motion regarding Petition PLNPCM2009-00074, Zoning Map amendment, based on the findings in the staff report and testimony heard, the Planning Commission forwards a positive recommendation to the City Council.

Commissioner Chambless seconded the motion.

Commissioners De Lay, Dean, Fife, Chambless, Muir, and McHugh voted, "Aye". The motion passed unanimously.

Commissioner De Lay suggested that the applicant try to make the shingles of the roof light colored, the use of native trees, xeriscaping, and low water grasses.

Commissioner Fife stated that the applicant had done a great job working with the community and should be looked to as an example.
